Reagan plan to cut tension

EUROPE CELEBRATES PEACE

Royal family at Abbey service

EUROPE celebrated 40 years of peace yesterday with services and ceremonies to mark the 40th anniversary of V E-Day. The Queen led Britain's remembrance, attending a service at Westminster Abbey, and, in Strasbourg, President Reagan spoke of the "daunting task" of making sure peace endures.

In a speech to the European Parliament, during which 32 British Labour members took part in a walk-out, the President put forward four proposals for reducing East-West tensions.

He proposed the exchange of American and Soviet observers at military exercises, high-level contacts between military leaders, a permanent military-to-military hot line between Washington and Moscow, and prompt action by the conference on disarmament in Europe on confidence-building measures.

In Moscow there was loud and long applause when Mr Gorbachev made a single reference to Stalin's wartime role during a speech in the Kremlin.

VE day reports — Pages 6 and 7; Editorial Comment — P 18

Memories and hopes

By GUY RAIS

THE QUEEN and other members of the Royal Family, political leaders, diplomats from 85 countries, and some of the men and women who took part in campaigns which raged across Europe and outside it were united in the memories and hopes of 40 years ago at the V E-Day commemoration service at Westminster Abbey yesterday.

The service included elements of thanksgiving, penitence, reconciliation and hope for the future.

And the 2,200-strong congregation heard the Archbishop of Canterbury, Dr Runcie, declare that "no other method than war" could have brought down the Nazi regime.

In the Abbey were 17 holders of the Victoria Cross or the George Cross. The Prime Minister took her seat along with other members of the Government and leaders of Opposition parties.

Below her sat her husband, in morning suit, together with two members of the Churchill family Mr Winston Churchill, M P for Stetchford, and Lady Soames, Sir Winston Churchill's younger daughter, who was with her husband, Lord Soames.

Fanfare heralds the Queen

The first member of the Royal Family to arrive was Princess Alexandra, who was accompanied by her husband Mr Angus Ogilvie.

They were followed by Prince Michael of Kent and Princess Michael. The Duke of Kent, in major-general's uniform, was without the Duchess, who is leading commemoration in the Channel Islands.

Princess Margaret and Queen Elizabeth the Queen Mother arrived almost simultaneously, a few minutes ahead of the Queen and Prince Philip.

A fanfare of trumpets heralded the arrival of the Queen in a scarlet wool coat and matching hat together with Prince Philip in the uniform of Senior Admiral of the Fleet, and their youngest son, Prince Edward in Royal Marines uniform.

As the sound of the great organ filled the 900-year-old Abbey, the Royal party passed reminders of Britain's wartime days. They were the memorial to Sir Winston Churchill, decorated with a single posy of forget-me-nots, the memorial to the Queen's uncle, Earl Mountbatten of Burma, and the Commandos Roll of Honour.

The royal party skirted the Tomb of the Unknown Warrior, surrounded this day by dozens of Flanders poppies, and with unbleached funeral candles at each corner.

As the congregation joined in the singing of the thanksgiving hymn "Praise my soul the King of heaven" the standards of Ex-Service associations were borne to the sacrarium.

The prayers of thanksgiving, recited by the Moderator of the Church of Scotland, the Rt Rev. John Paterson, gave thanks "for the courage of those who still bear the scars of war" and the "heroism and courage" of those who defended Britain. There were thanks too "for the sober satisfaction, when hostilities ceased, of duty done, a tyranny overthrown, and captives liberated."

Facing the Royal Family were a group of 50 people chosen as a cross-section of the whole congregation.

They included a lance cor-

Applause for Stalin

By NIGEL WADE in Moscow

A SINGLE reference to Stalin by Mr Gorbachev, Communist party leader, brought loud and long applause from the audience at a V E-Day rally in the Kremlin yesterday.

A stirring and jingling of wartime medals spread throughout the Palace of Congresses and became a wave of clapping as Mr Gorbachev mentioned the former dictator's name.

Stalin remains largely in disgrace, for his sweeping purges, but has been increasingly recognised for his wartime leadership, in connection with the 40th anniversary of the end of the 1939-45 war.

The applause lasted 20 seconds, not as long as the several minutes' adulation the dictator himself used to require but a significant step in the gradual process of his partial rehabilitation.

The applause ended only when Mr Gorbachev calmly resumed reading his speech.

Mr Gorbachev, 54, the Communist party's youngest leader since Stalin, who died in 1953, mentioned the former dictator in one sentece, capping other 40th anniversary references in specially produced books, films and articles.

Mr Gorbachev said, "The gigantic work at the front and in the rear was guided by the party, its central committee, and the State Defence Committee headed by the general-secretary of the central committee of the All-union Communist party (Bolshevik), Joseph Vissarionovich Stalin".

Sir Iain Sutherland the British Ambassador laid a wreath at the tomb of Russia's unknown soldier yesterday. The biggest military parade in Moscow for many years will take place today in Red Square.

VE Night rebuke for the Queen

THE Queen described yesterday how a Guards officer said she was improperly dressed after she pulled her A T S uniform cap over her eyes to disguise herself in the crowds outside Buckingham Palace on VE Night.

"So I had to put my Cap on normally," she said.

Talking to Godfrey Talbot in a B B C radio interview, the Queen said:

"I remember the thrill and relief after the previous day's waiting for the Prime Minister's announcement of the end of the War in Europe.

"My parents went out on the balcony in response to the huge crowds outside. I think we went on the balcony nearly every hour, six times, and then when the excitement of the floodlights being switched on got through to us, my sister and I realised we couldn't see what the crowds were enjoying.

"My mother had put her tiara on for the occasion, so we asked my parents if we could go out and see for ourselves. I remember we were terrified of being recognised, so I pulled my uniform cap well down over my eyes.

"A Grenadier officer amongst our party of about 16 people said he refused to be seen in the company of another officer improperly dressed, so I had to put my cap on normally.

'Tide of happiness'

"We cheered the King and Queen on the balcony and then walked miles through the streets. I remember lines of unknown people linking arms and walking down Whitehall, all of us just swept along on a tide of happiness and relief.

"I remember the amazement of my cousin, just back from four and a half years in a prisoner of war camp, walking freely with his family in the friendly throng.

And I also remember when someone exchanged hats with a Dutch sailor, the poor man coming along with us in order to get his cap back.

"After crosing Green Park we stood outside and shouted 'We want the King', and we were succesful in seeing my parents on the balcony, having cheated slightly because we sent a message into the house to say we were waiting outside. I think it was one of the most memorable nights of my life."

Hostage PoW

A Buckingham Palace spokesman said last night the name of the officer who told the Queen she was improperly dressed was not known "after so long a time."

The cousin the Queen referred to is understood to be the late Lord Elphinstone, who died in 1975 aged 61.

Lord Elphinstone, whose mother Lady Mary Bowes Lyon was a sister of the Queen Mother, was an officer in the Black Watch.

Captured at Dunkirk, he was treated by the Germans as a special prisoner. Towards the end of the war he was moved, on Hitler's orders and with other prominently connected prisoners, for use as possible hostages.

CABINET ROW OVER PENSIONS RESOLVED

By Our Political Correspondent

Differences over the future of the State Earnings-Related Pension Scheme (Serps) have been resolved by Mr Fowler, Health and Social Services Secretary, and Mr Lawson, Chancellor of the Exchequer.

Proposals for changing the scheme will be put to the Cabinet at its weekly meeting this morning and Mrs Thatcher hopes that the Cabinet will be able to complete today, in its second discussion, work on Mr Fowlers review of the welfare state.

A Green Paper, a discussion document, could be published before the end of the month.

DENNIS AT 70

Dennis Thatcher is 70 tomorrow. On the Woman's Page (Page 17) he talks about his unique public life as husband of this country's first woman Prime Minster.

A moving moment for the Queen yesterday as she led the nation's homage at a special V E Day service in Westminster Abbey where Queen Elizabeth the Queen Mother, Prince Edward, in the uniform of the Royal Marines, and Princess Alice, Duchess of Gloucester, were among a congregation of more than 2,000 people.

Labour MPs lead Euro walk-out

By RICHARD BEESTON in Strasbourg

LEFT-WING members of the European Parliament, led by British Labour M Ps, yesterday heckled and jeered President Reagan as he delivered the major political speech of his European tour, and more than 30 walked out, headed by Mrs Barbara Castle, the former Labour Minister.

The President was greeted in sullen silence by about a third of the chamber when he arrived, and badly fumbled his opening remarks when the electric motor of of his teleprompter broke down and he had to read from cue cards.

Mr Reagan was given a standing ovation by Conservative members, but Leftists frequently interrupted him with shouts of "No star wars" and held up "Hands off Nicaragua" and "Nuclear freeze now" posters.

Normally a consummate performer, Mr Reagan's speech never seemed to take off, and the occasion compared poorly with his address to the British Parliament in 1982.

As members of the Parliament began to leave the chamber, Mr Reagan cracked: "You know I have learned something useful: may be if I talk long enough to my own Congressmen some of those will walk out."

But the occasion was not what the White House had hoped it would be, a rousing call for European and Western unity on the occasion of the 40th anniversary of the end of the war in Europe.

CASTLE VIEW

'It was spontaneous'

Mrs Castle said later that her departure was spontaneous and provoked by President Reagan's failure to adopt a conciliatory line towards the Soviet Union in his 35-minute address.

"It was scandalous that on VE Day he did not even have the generosity to acknowledge the massive contribution the Soviet Union made to the Allied victory over Nazism."

Mrs Castle was followed from the chamber by all but four of the 32 British Labour members and several continental Socialist and Communist Euro-MPs.

About a dozen British Labour members wore T-shirts emblazoned with the CND symbol and the words: "Give peace a chance."

Reagan Speech—P7

SPACE SUCCESS

By Our Staff Correspondent in Paris

Ariane, the European rocket yesterday successfully launched trial communication satellites in its eighth consecutive take-off from the French space sation at Kouron in French Guyana.

PRINCE FOUND DEAD

By Our Staff Correspondent in Paris

Prince Savajirao Pratapsincha Geekwar of Baroda, 40, youngest son of the last ruling maharaja, was found yesterday with his throat cut after apparently committing suicide at his villa at Cagnes-sur-Mer, near Nice.

BABIES IMPROVE

The Underhill sextuplets, four boys and two girls, have pulled through a crucial period in their struggle to survive, a spokesman for Rosie Maternity Hospital, Cambridge, said yesterday. They were "still poorly" but their condition was stable.

PRINCESS IN ULSTER WALKABOUT

By COLIN BRADY

DURING what officials called Ulster's "most open royal visit for years," Princess Anne chatted happily with members of a welcoming crowd in an impromptu walkabout in the fishing village of Portavogie, Co Down, yesterday.

The Princess, making her third next to Northern Ireland, opened a £5,500,000 harbour complex and boarded a trawler to talk to the crew.

When she saw the hundreds of local people cheering and waving flags she stopped to talk to dozens of them and was given armfuls of flowers.

Behind the relaxed atmosphere was a large security operation. S A S men waited out of sight and uniformed police and Special Branch men were on guard. A navy patrol vessel watched the entrance to the harbour.

BRITISH AIRWAYS RECORD SURPLUS

By Our Air Correspondent

Lord King, British Airways chairman, announced a record operating surplus for 1984-85 of £515 million yesterday, but said the airline had reached the limit of what could be done until after privatisation.

Meanwhile, privately-owned Dan-Air's turnover rose by 24 per cent, to £242 million last year, even though intensive competition put profit margins under pressure and brought a drop in group profits.

PIT STRIKE OVER NEW RECRUITS

By JAMES O'BRIEN

MINERS at Ireland Colliery, near Chesterfield, Derbyshire, walked out yesterday when five coal face workers from Yorkshire reported for duty.

The National Coal Board gave the men jobs at Ireland after they asked to be moved from pits in Yorkshire where they had been intimidated for returning to work before the end of the pit strike.

They were shown round Ireland colliery by the management several days ago and went underground to look at the coal faces on which they were due to start work.

Half the 650 miners at Ireland had returned to work before the national strike had ended.

Mr Herbert Smith, National Union of Mineworkers' branch secretary at the pit, said the jobs should have gone to local men, many of whom had sons who were unemployed.

Miners on strike at South Kirkby Colliery, near Barnsley, South Yorkshire, voted to return to work last night after a stoppage over the dismissal of four miners who had intimidated colleagues who resumed work before the end of the pit strike.

LEADERS CONDEMNED

Ballot denial crucial

OUR INDUSTRIAL CORRESPONDENT writes: Mr Arthur Scargill and the leadership of the miners' union are condemned for their handling of the 12-month strike against pit closures in a confidential report by Mr Peter Carter, industrial organiser of the Communist party.

The 40-page report concludes that the failure of the miners' union to hold a national ballot damaged the union and weakened support from other workers. The refusal of the leaders to condemn attacks on police and men who worked helped isolate the striking miners.

WIFE MURDER CHARGE

Wilfred Bull, 50, an antique dealer, Highfields Farm, Coggeshall, Essex, was remanded in custody until Tuesday at Chelmsford yesterday, accused of murdering his wife, Patricia, 49, in the workshop of his warehouse in the village on Monday night.

Bull, wearing a suit, said nothing during the 35-minute hearing. Reporting restrictions were not lifted.

Today's Weather

GENERAL SITUATION: Presure low over N. Germany. All areas lie in N. to N.E. airstream.

LONDON, S.E. ENGLAND, E. ANGLIA: Rain in places. Wind N., light to moderate. Max. 55F (13C).

MIDLANDS, CEN. S., S.W., N.W. ENGLAND, CHANNEL IS., WALES, N. IRELAND: Showers, becoming brighter. Wind N.W., fresh to strong. 57F (14C).

E., N.E. ENGLAND, S.E. SCOTLAND: Rain in places, becoming drier, coastal fog. Wind N., moderate. 55F (13C).

S. NORTH SEA, STRAIT OF DOVER: Wind N.E., force 5 to 6-7 becoming 4. Sea moderate becoming slight.

ENG. CH. (E.): N.W., 5 to 6-7. Rough.

Legion deaths at 3 hospitals

By DAVID FLETCHER Health Services Correspondent

THREE more patients have died from Legionnaires disease in three separate hospitals, it was disclosed yesterday.

One of the deaths was at Stafford District General, taking the toll there to 31 and making it the worst single outbreak in history.

The two other deaths reported yesterday were at St Mary's in Portsmouth and at Chesterfield Hospital, Bristol.

Major investigations have been started at both hospitals in addition to the inquiry underway at Stafford to trace the source of the infection.

Seven wards and three operating theatres at the Portsmouth hospital were closed yesterday to enable decontamination procedures to be carried out.

Operations cancelled

This followed the discovery that two women patients, one who died and one who recovered, were both suffering from Legionnaire's disease while being treated in the same part of the hospital.

A spokesman said: "We have received sufficient information to cause us in the interests of prudence to carry out a full-scale disinfection of certain areas."

About 120 patients are being moved to other beds in the hospital to enable the cleaning to take place; operations are being cancelled until next Tuesday and only emergencies will be treated.

Meanwhile health experts are carrying out tests on water supplies at the private 44-bed Chesterfield Hospital in Bristol and other patients are being examined for tell-tale signs following the death of a nurse who contracted Legionnaire's disease.

The dead nurse, Mrs Anna Chidgey, 64, from Kingsdown, Bristol, was working at the hospital until last month when she was admitted to the city's Royal Infirmary suffering from acute pneumonia.

'Not contagious'

She died last Thursday from kidney failure and Legionnaire's disease.

Mr James Estall, secretary of the Chesterfield Hospital's parent group, Nuffield Hospitals said that tests were being carried out at the hospital at the group's request.

"These are precautionary tests being carried out in conjunction with the Public Health Laboratory to satisfy ourselves there is no problem at the hospital.

"There is no reason for us to suspect that it is the hospital at all, absolutely none. But, prudently, we are checking it out."

Cooling towers link—P19

Multiple sclerosis is a disease without mercy. Often tearing apart the lives of people who were living them to the full.

Whilst a few show no outward sign of handicap, the less fortunate may suffer all the misery of impaired vision, incontinence, paralysis.

And as there are no mental effects, its sufferers are fully aware of their condition. And its impact on their families.

As yet, no one knows why multiple sclerosis attacks the central nervous system.

Until the cause is identified, a cure remains out of reach.

However, research funded by The Multiple Sclerosis Society is fast bringing that day closer.

We also need funds to help care for many of the 50,000 already afflicted.

Please give as much as you can.

£2,000m BILL TO MODERNISE BA's FLEET

By Air Cdre G. S. COOPER Air Correspondent

BRITISH AIRWAYS needs to spend more than £2,000 million modernising its long-haul aircraft, but is facing a Treasury ban on re-equipment plans until after privatisation.

Declaring a record operating surplus for 1984-85 of £315 million, Lord King, B A's chairman, said the airline had nearly reached the limit of what could be done with the existing fleet.

Capital spending on equipment fell last year from £250 million to £103 million as the airline came to the end of its Boeing 757 re-equipment programme.

At least £250 million a year between now and 1992 will need to be spent to replace old long-haul aircraft and add more capacity to accommodate growth in passenger and cargo demand.

A new Boeing 747 costs about £100 million. British Airways has 28 747s, of which 16 are due for renewal, and 17 ageing TriStars. New types under consideration are Boeing 747-300s, Airbus A310s and Boeing 767s.

"Some of our 747s are nearly 15 years old and we must soon consider plans for their replacement," said Lord King. "Fitting the latest Rolls-Royce engines will be one of the options open to us.

Credit rating

"The airline's record over the last three years demonstrates we can generate enough earnings to service a properly capitalised balance sheet, which must commend a credit rating sufficient to enable us to finance, through the banking system, the new equipment we will inevitably need."

Lord King said British Airways had eliminated its state of bankruptcy evident in 1982 when debts exceeded £1,000 million. A surplus on capital account had been re-established and the debt had been cut to £647 million.

The key to the airline's change of fortune was the removal of overmanning. Staff cuts begun in 1979 had reduced numbers from 59,000 to 37,000.

With an increase in traffic of just over 12 per cent, the airline's turnover rose from £2,514 million to £2,929 million. Profit before interest and taxation was £315 million, compared to £204 million in 1982-83 and £294 million in 1983-84.

'BUY-OFF OFFER' TO LAKER

By DAVID SHEARS in Washington

LAWYERS representing a dozen British and other airlines attended a private hearing before an American judge in Washington yesterday on an out-of-court settlement arising from the collapse of Laker Airways in 1982.

Neither court officials nor the lawyers concerned in the hearing before Judge Harold Greene of the District of Columbia would disclose the substance.

But Mr Leonard Bebchick, representing British Caledonian, said: "The parties are pursuing discussions and will go back to the court in due course."

British Airways is believed to have made a formal offer of about $65 million (£53 million) as a package deal on behalf of all the defendants.

'$8 million apiece'

Sir Freddie Laker and his American lawyer, Mr Robert Beckman, are reported to have been offered about $8 million (about £6,500,000) each in a "buy-off" inducement to ensure that Sir Freddie drops any future claim.

A transcript of the hearing is due to be opened for public inspection by the end of the week.

British Airways, British Caledonian and other leading world airlines are defendants in a civil anti-trust suit, in which the liquidator of Sir Freddie's now-defunct airline is suing its former competitors for a billion dollars (about £820 million), claiming they conspired to force it out of business.

An amused glance for his young pupils from their headmaster, Mr William Sillery, as they made the most of Princess Anne's visit to Belfast Royal Academy yesterday.

'DALEK' ROW HITS VAUXHALL

PRODUCTION of Astra cars was halted at Vauxhall's Ellesmere Port plant in Cheshire yesterday in a dispute over automated trollies nicknamed Daleks.

Electricians at the company's Luton and Dunstable plants are to hold a ballot in which they are expected to support the dispute.

One hundred and sixty Ellesmere Port electricians walked out a week ago over which group should operate computers which control the "Daleks."

More than 2,000 workers were laid off without pay yesterday. The remaining shopfloor workers are producing components and sub-assemblies to be stockpiled, but the company says that if the strike goes on, more of the remaining 2,700 hourly-paid workers could be laid off.

A spokesman for the electricians union said: "The work concerned in the dispute has always been done by our members.

"Vauxhall has introduced a system which would mean our members would be answerable to semi-skilled staff instead of having control."

Telecom price policy urged for British Gas

By OUR BUSINESS CORRESPONDENT

THE Government will be urged to arm the planned new regulatory body set up to supervise a denationalised British Gas with powers to veto "unjustified" tariff rises.

Close public scrutiny of price rises will be pressed by the National Gas Consumers' Council, the corporation's current watchdog body.

The council is expected to consider asking Mr Walker, Energy Secretary, to examine the scope for introducing a price restraint policy along the lines of the formula imposed on British Telecom before privatisation.

Think carefully

The Government has told B T to limit increases on a wide range of its domestic services to three per cent below the rate of inflation for five years.

Mr John Hosker, the council's director, said yesterday: "Something along these lines might be possible but we would have to think carefully about how it would operate.

"Clearly the increasing cost of gas will have to be taken into account but we would want to see a proper public scrutiny to assess the justification for tariff changes."

He added that in the early stages "it would be desirable" if the new body was given powers of veto and scope to range more widely in examining wider management and energy issues.

Mr Walker, Energy Secretary, is considering the set-up and remit for the new body after sifting through reports prepared by officials who examined the regulatory position in America and other countries.

Tariffs are at present fixed in discussions between the Energy Department, Treasury and British Gas during the annual battles over financing limits.

DRIVER 'OVERRAN SIGNAL'

THE driver of a train which crashed killing three people told a passenger and police immediately after the incident, "It was all my fault" a inquest at Brent Town Hall was told yesterday.

The guard, Mr Leo Joseph, of Washbrook Close, Billing Northants, told the hearing that the train had ben doing 40 to 60 mph in a 20 mph speed limit.

The driver, Mr Ronald Armstrong, of Golden Riddy, Lindslade, Leighton Buzzard, allegedly told police after the collision with a freight train near Wembley Central last October: "I was working on the slow lane on a yellow signal.

"I mistook the signal for the fast lane, and passed the signal at danger, and collided with the other train.

"As I approached it was on amber. I looked ahead, then I realised I had passed the light on red. I just wasn't quick enough."

The hearing was adjourned until today.

Unions urge NUT to join Joseph's informal pay talks

By SARAH THOMPSON Education Staff

THE National Union of Teachers will come under strong pressure from other unions today to join informal pay talks with Sir Keith Joseph and local authorities representatives.

The NUT has said that it will have no part in talks with the Education Secretary until after a "successful" meeting of the Burnham Committee on teachers' pay.

The meeting is scheduled for next Wednesday.

But the second largest union, the National Association of Schoolmasters / Union of Women Teachers, said yesterday that it would seriously consider taking up Sir Keith's offer if the smaller unions were also willing.

The NAS / UWT, the Assistant Masters and Mistresses Association and the National Association of Head Teachers are to meet before the informal get-together with Sir Keith.

They will urge the NUT to change its mind.

"We hope that the teachers' panel (of the Burnham Committee) will see this as a significant opportunity to go with the employers to the Government and ask for more money," said Mr Nigel de Gruchy, deputy general secretary of the NAS/UWT.

"Teachers should think twice before turning such an opportunity down."

Yet the first the NAS/UWT had officially heard of the proposed joint meeting with Sir Keith, he said, was after Mr Fred Jarvis, the NUT's general secretary, had turned it down

Savage attack

Mr Jarvis savagely attacked the NAS/UWT leaders and Mr David Hart, general secretary of the National Association of Head Teachers, yesterday for criticising the NUT stance.

The NAS/UWT has announced another eight local education authorities for selective strike action from May 13. They are:

Berkshire, Dudley, Gateshead, Newcastle upon Tyne, Rochdale, Stockport, Walsall, and Wirral.

Selective strikes continue in: Barnet, Bexley, Bromley, Cornwall, Enfield, Gwynedd, Harrow, the Inner London Education Authority, Leeds, Redbridge, Solihull, Waltham Forest, Warwickshire.

GIRL TELLS OF STRIKERS' FRIGHT

By COLIN RANDALL

THE girlfriend of a miner told a jury yesterday that he and two other men arrived at her home in Tredegar looking freightened, wet and muddy on the morning on which a taxi-driver was killed while taking a working miner to a South Wales pit during the coal strike.

Miss CAROL HOPKINS, 18, said the three men tapped her window to wake her at about 6 a.m.

Her boyfriend Dean Hancock — who is accused of murdering the driver, David Wilkie — wept in the dock at Cardiff Crown Court as she said he said they thought someone had been killed because they heard a car swerve.

The prosecution has alleged that Mr Wilkie was killed when a 46lb slab of concrete was hurled from a bridge near Rhymney, mid-Glamorgan, on November 30.

Radio report

HANCOCK, 21, of Rhymney Bridge, ANTHONY WILLIAMS of Ty Coch and RUSSELL SHANKLAND, 21, of Manest Street, all in Rhymney, deny murdering Mr Wilkie, a 35-year-old father-of-four.

Hancock's plea of guilty to manslaughter has not been accepted by the prosecution.

Miss Hopkins said she heard Williams say twice that he had told them not to do it.

Miss Hopkins said: "They were listening to the wireless and it came on about the man who had died. I don't think they believed what had happened."

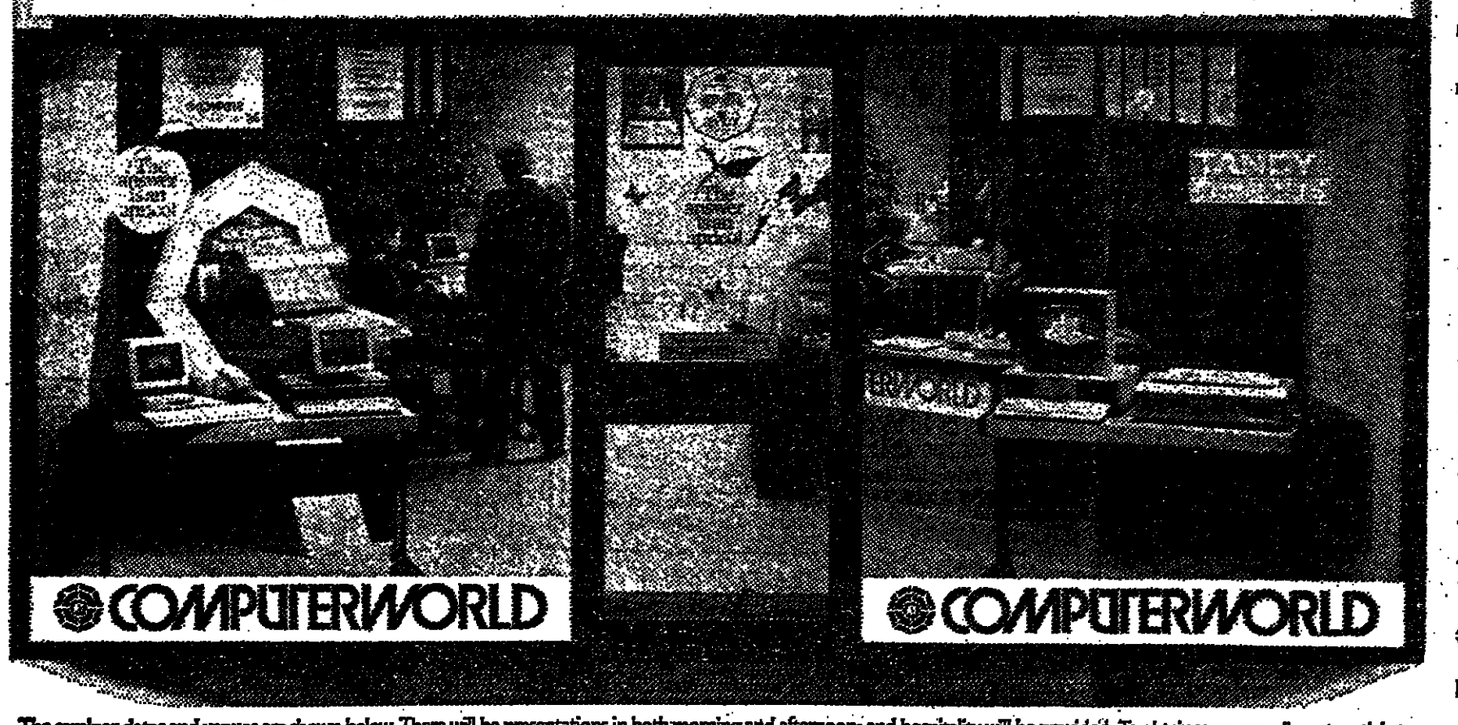
She added: "Dean said they had thrown a concrete block into the middle of the road. He was not sure it had hit the car but then they had heard a car swerving."

She said Hancock then told her to say he had stayed at her house the night before.

The trial was adjourned until today.

Find out what's new in business computing at 35 stores nationwide

COMPUTERWORLD



AT ComputerWorld is the new chain of business computer centres with 35 stores across the country to meet your microcomputing needs.

We're easily the largest in the UK, providing more resources, more experience and more specialist skills to provide your business with complete, fully supported microcomputer systems.

And unique among computer retailers we are owned by two of the World's major microcomputer manufacturers ACT and Tandy.

To demonstrate the unrivalled ability of AT ComputerWorld to specify, install and support microcomputer installations nationwide we are holding a series of business seminars throughout the UK.

These seminars will focus on two significant product developments of major interest to prospective microcomputer buyers:

The launch of the Tandy 1000 and Apricot Xi20—two exciting new microcomputers which represent a breakthrough in both performance and value for money.

The programme of ComputerWorld business seminars is shown below. Take advantage of this opportunity to see the impressive Tandy 1000 and Apricot Xi20 and learn more about AT ComputerWorld's new professional approach to microcomputing.

COMPUTERWORLD

There's more in store.

COMPLIMENTARY SEMINAR TICKETS

The seminar dates and venues are shown below. There will be presentations in both morning and afternoon; and hospitality will be provided. To obtain your complimentary tickets please complete the coupon, clearly indicating the venue of your choice and return it to: AT ComputerWorld Ltd., FREEPOST, Birmingham B15 1BR.

NO NEGLIGENCE, LAND'S END HEAD INSISTS

By DAVID GRAVES

MR ALEC ASKEW, headmaster of the four boys drowned in the Land's End tragedy, yesterday described as "nonsense" claims of negligence made by the parents of one of the victims in a doorstep confrontation when he called on them.

"But it is understandable because of their grief. It is unfortunate that they have said this, but I fully understand their feelings. I was not grossly negligent at all, and have told the full truth as far as I know it.

"In their heart of hearts, they know I was not negligent. My grief is as great as theirs. In fact, four times as as great. I lost four," he said.

When Mr Askew arrived back at Stoke Poges County Middle School, Bucks, on Tuesday night with 46 other children, he complained that no one had warned him of the dangers at Land's End, and that on barriers or warning signs had been put up.

But yesterday when he went to the home of one of the victims, 11-year-old Ricci Lamden, the boy's mother refused to let him in.

Mrs Rita Lamden, 36, was in tears after the 20-minute meeting on her doorstep in Stoke Court Drive.

"He was wrong and he has got to live with it. I did not let him in. Our conversation was quite heavy.

"When all is said and done, he did not act wisely. If I was looking after somebody's children, I would do a better job than he did," she said.

"He had the care of my child and he did not look after him. It was negligence.

"Those boys were left to their own devices. There is no way that anybody should have taken them down there.

"He says nobody told him that it was dangerous. But is was his job as head to have asked."

The five adults accompanying the children on the outing, including Mr Askew, were "half-way up the cliff when my son was in the water," she claimed.

I take responsibility

Mr Askew insisted: "As headmaster I accept full responsibility for what has happened, but the facts to support me will come out at the inquest.

"To my mind, if four boys lost their lives, then certainly there was a mistake somewhere. But I would never admit that the boys were not supervised — they were."

Mrs Lamden and her husband Robert, 42, went to Land's End immediately they were told Ricci was missing.

"I was horrified when I saw what a treacherous and deadly stretch of coast the children had been playing on," she said yesterday.

"The headmaster said there were no signs saying it was dangerous, but it was commonsense. He, of all people, should know that."

Coastguards and police had told her that it was 20 minutes before teachers had established that four boys were missing, and then they did not know exactly who.

She said that her son had recently passed a life-saving test in which he had to stay afloat for 20 minutes.

Her husband said: "These were only young children, not even teenagers, and to allow them their unchecked freedom on these cliffs amounts to gross negligence."

"My son's life was wasted unnecessarily. Anybody with one eye would be able to see that the cliff was dangerous."

His son and the three other missing boys—Nicholas Hurst, 10, of Freeman's Close; James Holloway, 11, of Elizabeth Way; and Robert Ankers, 12, of Eldersfield Road, all Stoke Poges—were among 51 children from the school on a week-long adventure holiday at Duporth holiday village, near St Austell.

Information pack

Last night Falmouth coastguards said none of the bodies had been found, despite a search by shore patrols.

Mr Cairns Boston, manager of the Land's End tourist centre, insisted that the beauty spot's safety precautions were "completely adequate" and an information kiosk was available to warn visitors of potential dangers.

The Stoke Poges group did not ask for a special teachers' information pack which was available.

He said it would be impractical to fence and signpost the whole area. "There are a million visitors here every year and they know the dangers of 300ft cliffs and high seas. It is a matter of common sense," he said.

Mr Alec Askew, headmaster of Stoke Poges County Middle School, Bucks, at his desk yesterday. PICTURE: THE STANDARD

Jasmine's mother hid beatings from family

By LIN JENKINS

THE mother of JASMINE BECKFORD deliberately concealed from her own family and social workers the fact that her children were being beaten, the independent inquiry into Jasmine's death was told yesterday.

BEVERLY LORRINGTON employed a stream of excuses to explain the children's absence from her home during the last months of Jasmine's life before she died last July after being tortured and battered by her stepfather.

Miss CAROL LORRINGTON, Beverley's step-sister, told the inquiry that she had been fooled into believing the children were staying with their godparents when she visited the house over the last seven months before Jasmine's death.

"I visited just after Christmas and Beverly said the children were with their godparents. I visited about three times after that and did not see the children.

"Maurice either said Beverly was out with the children or visiting a friend. And on one occasion Beverly said they were in bed."

During this time Jasmine's parents regularly told social workers that the children were not at home but staying with Carol and her mother.

Asked if the parents could have "fobbed off" social workers, Miss Lorrington replied: "If Beverly and Maurice could get away with telling the social workers that the kids were staying with us, and no one phoned up to check, then I think it would have been quite easy."

Rough treatment

Miss Lorrington told the inquiry at Brent Town Hall, Wembley, that there were occasions when she was concerned about Beckford's rough treatment of the children and challenged him about his behaviour on at least two occasions.

"Maurice was very heavy-handed. There was one time when Jasmine was sitting right in front of the TV. Bev told her to move and Maurice went up to her and dragged her away. I told him not to treat her so roughly."

During another incident she saw a bruise on Jasmine's head where Beckford had hit her and another time he was "shovelling food in her mouth and I told him not to be so rough but to try and be gentle."

Jasmine was 4½ years old when she died on July 5 last year. She had 20 broken bones and 20 other bone injuries, weighed 25 pounds and was described by a pathologist as looking like a "Belsen victim."

Her stepfather MAURICE BECKFORD was jailed for 10 years at the Old Bailey in March for her manslaughter and his common-law wife Beverly Lorrington received 18 months for wilful neglect and cruelty.

The inquiry was adjourned until today.

MUMMIFIED BODY FOUND IN SHIP

The bizarre death of a stowaway on the Greek-owned cargo ship Eptmelia, 15,000 tons, was being investigated by Southend police yesterday. The crew were painting the ship when they found the mummified body of a coloured youth inside the funnel.

He is believed to have stowed away at an African port up to a year ago and hidden on a ledge inside the funnel, where he was overcome by fumes and his body mummified by the heat.

New riot laws urged to curb soccer hooliganism

By TERENCE SHAW Legal Correspondent

TWO new offences, to enable courts to deal more effectively with those who disrupt sporting events or provoke trouble at lawful demonstrations, were urged yesterday by Mr David Jones, president of the Justices Clerks' Society.

They would be "criminal trespass," with a fine of up to £400, and "summary riot," for which a jail sentence would be usual.

Mr Jones, clerk to the Cambridge justices, said in his presidential address at the opening o fthe Society's annual conference in Brighton that society had to "nip in the bud" the problem of youngsters getting carried away by being part of a mob.

An offence of criminal trespass would deal with football hooligans and others who disrupted sporting events by invading the playing area, he said. It should carry the power of arrest without warrant.

It could also be used to deal with those who wanted to use the publicity attached to major sporting events.

Order to disperse

Simply being on pitches, tracks, courts or similar places during an event without authority or reasonable excuse would be an arrestable offence.

An offence of "summary riot" would strengthen the law in dealing with those who provoke incidents at lawful demonstrations which then threaten violence to persons or property, said Mr Jones.

Where police had reasonable grounds to anticipate that a serious disorder was about to take place, they could order people to disperse, and failure to do so would be an arrestable offence, triable only before a magistrates' court.

'HOOLIVAN' SNAPS UP THUGS

By JOHN WEEKS, Crime Staff

THE "HOOLIVAN," designed to detect trouble-makers in football crowds, was unveiled at the Chelsea-Luton match at Stamford Bridge last night.

Video and photographic equipment, mounted on the roof of a Transit van, can be directed from inside the vehicle to any part of the ground.

Zoom lenses can scan the crowds, looking for disturbances, and then take close-ups of trouble-makers up to 150 yards away.

The photographs can later be used as court exhibits if any arrests are made.

The "hoolivan" has already been tested at six games, four in London and one each in Manchester and Huddersfield.

Mr Brittan, Home Secretary, and Mrs Thatcher have followed closely the experiment's progress and have given full backing.

Mr Andrew Ford, the Home Office scientist in charge of the experiment, said yesterday: "Police forces who have already seen the vehicle are enthusiastic about the idea.

"In the matches we have taken it to, the reaction has been good from the crowds as well, and in some cases, it has acted as a deterrent."

Sighting of Rare Cheetah Angers Wildlife Supporters

(Illustration: Cheetah through telescopic sights).

The sight of a cheetah in the wild is one to stir the blood. Unhappily, it's a sight that is fast becoming rare. The main reason why the cheetah, the elephant and the gorilla are now threatened species is because they are too often in the sights of those who profit from their death: rare cheetahs are being slaughtered for their skins.

The World Wildlife Fund desperately needs your support in its efforts to prevent trade in endangered species. Trade in skins, ivory, even live animals, has

brought many species to the verge of extinction. It's not just the cheetah —over 1,000 different kinds of animals are under threat right now. Among them are the elephant, the rhino and the polar bear.

Please help us to save the cheetah and other threatened species.

One of the most important ways of supporting our work is to remember the World Wildlife Fund-UK in your will—or send a gift of money. Better still — do both.

Consult your solicitor or write for details to:

World Wildlife Fund-UK, Dept. DT35, 11-13 Ockford Road, Godalming, Surrey GU7 1QU.

If you tell us you've mentioned the World Wildlife Fund-UK in your will we'll see that your generosity is suitably acknowledged, and we keep you informed about the progress of our life-saving work.

Killer-wife shares husband's £415,000

A 63-YEAR-OLD battered wife who killed her husband after years of violence is entitled to a life interest in his £415,000 estate, three judges ruled yesterday in the Court of Appeal.

They dismissed an appeal by a nephew of the dead man, a 71-year-old former naval commander, against the historic ruling made in the High Court last October under the recently introduced 1982 Forfeiture Act.

As a result, the nephew and other members of the commander's family will not benefit from his estatte under his will until after the widow's death.

Lord Justice ACKNER sitting with Lord Justice GRIFFITHS and Lord Justice BROWNE-WILKINSON, said the widow, from East Sussex, must not be identified to save her from further distress.

She shot her husband in September 1982 and got two years' probation at Lewes Crown Court after admitting manslaughter.

Lord Justice Ackner said the new Act gave the courts jurisdiction to modify the effect of the well-established rule which prevented anyone guilty of killing from benefiting from the death in any way.

It was argued in the appeal that the High Court judge, Mr Justice VINELOTT, exercised his discretion wrong in law. But Lord Justice Ackner disagreed with this.

Nor was there justification, either under the Act's terms or on the basis of sound sense, for the argument that the widow's entitlement should have been restricted to what she would have received from a divorce.

"There must be many cases, and this may well be one of them, where it is a great tribute to the wife to continue to live with a husband who behaves in such an intolerable way," said the judge.

BURGLAR'S TARGET WAS POLICE CHIEF

By JOHN WILLIAMS

A PROFESSIONAL burglar, picked on the wrong house when he thought he had found an ideal target, Mr TREVOR BARBER, prosecuting, said at Sheffield Crown Court yesterday.

The back door of the house in Dore Road, Sheffield, was unlocked and Lightbody could see two people inside watching television.

But the couple were the Chief Constable of South Yorkshire, Mr. Peter Wright and his wife. THOMAS LIGHTBODY, 50, who was said to have spent so many years in prison that he had no family or friends, was jailed for two years after pleading guilty to entering the house and stealing a wallet and driving licence.

Hours of darkness

He denied a second charge of assaulting Mr Wright with intent to resist apprehension and Judge JOHN HENRIAM ordered the case to remain on the file.

Imposing the sentence, he told Lightbody: "You went into the premises in the hours of darkness knowing the occupants were present. The fact it was the Chief Constable neither makes it more or less serious."

Lightbody managed to escape but detectives traced him to a probation hostel in Sheffield. He asked for 145 offences to be considered.

SAND DEATH BOY IGNORED WARNINGS

Fraser Henman, nine, became the victim of every child's "almost irresistible" attraction for playing in sand, Mr Nicholas Gardiner, the Oxford coroner, said yesterday, recording an accidental death verdict.

Despite warnings from his father, Fraser died from suffocation when a 3ft high pile of sand he was tunnelling in in his garden at Noke, Oxfordshire, collapsed on him.

PORN SENTENCE ON BRITON

By Our Geneva Correspondent

A British citizen identified only as "Douglas W." had been sentenced to two months jail and a 5,000-franc (£1,540) fine for distributing pornography, officials said in Lausanne yesterday.

The British citizen, said to be a director of the Geneva branch of a Swiss firm, is expected to appeal against the sentence. Swiss authorities decline to identify those accused in cases deemed minor offences.

LUXURY CAR BISECTED TO BEAT DUTY

Two Norwegians cut their brand new BMW in half to avoid customs duty by importing the luxury car as junk, according to a Swedish petrol station attendant, Arne Johansson.

Mr Johansson said yesterday that the Norwegians, in their mid-20s, pulled up at his petrol station in northern Sweden in a new BMW 728 saloon bought in West Germany last week. They stripped the doors and seats, before cutting the car in half.

The owners expected to save 60,000 kronor (£6,500) in customs duty by transporting it over the border as junk under Norwegian law and welding the two halves in Norway.—UPI.

ATTACK BY DONKEY

A boy, aged nine, was attacked and mauled by a donkey yesterday at Wollaton Park, Nottingham. Daniel Edwards, of Bramble Drive, Carlton, Nottingham, was treated in hospital for cuts and bruises.

MOLESWORTH DEMO

Peace campaigners broke into the Molesworth cruise missile base yesterday and occupied two perimeter fence watch-towers

THE ULTIMATE HIGHER INTEREST ACCOUNT...

...from the Yorkshire Building Society.

Platinum, the ultimate precious metal has inspired the ultimate higher interest account — Platinum Key.

Platinum Key offers you an opportunity to earn a high rate of interest without committing yourself to a long term investment. Platinum Key will always give you a much higher return than the prevailing building society Paid-up Share rate.

Right now Platinum Key is paying 2.5% extra†. That adds up to a remarkable 10.75% NET = 15.36% GROSS*.

10.75% NET EQUALS 15.36% GROSS

Like Platinum itself this new account is versatile, giving you a choice of withdrawal terms including instant access. You can have instant access to your money, forgoing only 60 days' interest on the amount withdrawn or give just 60 days' written notice and interest is paid in full.

You can open a Platinum Key account with any amount from £500 to £100,000.

Simply call in at any of our 700 branches and agencies or fill in the coupon and return it to the FREEPOST address shown.

Platinum Key — a whole new dimension for investors.

†All interest rates are variable, as is the differential.
*For basic rate tax payers.
Platinum Key interest is paid annually on 31st March.

TEBBIT PLEDGES FREE-TRADE SUPPORT TO U.S.

By ALAN OSBORN in Washington

THE Reagan Government was yesterday assured of Britan's support for its efforts to liberalise world trade but at the same time warned that its own budget deficit was a major cause of economic instability and protectionism.

Mr Tebbit, Trade and Industry Secretary, told senior Administration officials and Congressional leaders that Britain sought a firm date for a new round of multilateral trade negotiations in early 1986, and wanted the agenda as comprehensive as possible.

This cmmitment is highly welcome to the Americans whose desire to set a date for the trade round was thwarted by France at the Bonn economi csummit last week.

In articular the United States will be loking to Britain to help ensure that agriculture is included in the negotiations

The American Government and Congress are highly critical of the Common Market's agricultural policies which they claim lead to unfair subsidies and high world food prices

There is real concern that unless the new trade round, which could take three years or longer to negotiate, covers agriculture protectionist legislation later this year.

However, Britain is obliged to adhere to the Common Market negotiating position in trade negotiations and there is little doubt that France and other members will fight tenaciously to keep agriculture out.

Mr Tebbit yesterday met the key Reagan Government officials concerned in trade policy: Deputy Treasury Secretary Richard Barman, acting trade representative Michael Smithand, and Commerce Secretary Malcolm Baldrige.

In the Congress he met Mr Sam Gibbons, chairman of the House International Trade subcommittee, and Senator John Danforth, the influential chairman of the Senate International trade sub-committee.

The broad theme of Mr Tebbits presentation was that the single greatest contribution the Americans could make to freer world trade was to implement budget policies aimed at bringing the dollar down to a realistic and stable level.

This is scarcely an unfamiliar prescription but, coming from America's potentially most valuable ally in seeking trade liberalisation, it could have some value in the Senate's present consideration of the 1986 budget.

On more specific issues, Mr Tebbit yesterday expressed Britain's continued opposition to American attempts to control exports by other countries based on American technology.

Britain would enforce controls that were necessary for security reasons, he said, but for the United States to claim additional jurisdiction "is unnecessary and only serves to create bad feeling between friends and allies."

It was also expected that Mr Tebbit would discuss frictions between the United States and the Common Market over steel. There are signs in Washington that the Regan Government is seeking to broaden the range of restricted steel imports from the Community to include the so-called "consultation products."

Gen. Jaruzelski, the Polish leader, and President Jablonski (left) accompanying President Ortega of Nicaragua from the airport after his arrival in Warsaw yesterday.

DOLLAR DEFICIT WIDENS

By DAVID SHEARS in Washington

AMERICA'S foreign trade deficit rose further in the first three months of this year as imports soared and exports dwindled, the Government reported yesterday.

This latest confirmation of the impact of the high-flying dollar on the world economy came as Congress continued to wrestle with another troubling deficit, the gaping shortfall in America's federal budget.

The Commerce Department announcement gave the January-March trade deficit as $28·3 billion (£23·5 billion), 16 per cent. above the figure for the previous quarter.

Imports had risen 5 per cent. while exports had declined one per cent. compared with the October-December period.

Mr Malcolm Baldrige, Commerce Secretary, predicted that the trade balance would sink further into the red.

Nearing showdown

"Rates of economic growth here and abroad and the high value of the dollar suggest the trade deficit is likely to continue to worsen," he said.

The foreign trade deficit is widely blamed for the current slowdown in American economic growth. It is estimated to have cost the nation up to three million jobs in businesses competing with cheap imports or losing markets abroad, because of the dollar's strength.

In Congress, Senate wrangling over President Reagan's $52 billion (£43 billion) package of budget cuts designed to narrow the deficit continued with little sign of progress.

Alternatives proposed by the Democrat opposition mostly involve higher taxation, which is anathema to Mr Reagan and his White House "supply-siders" who believe this would only undercut what remains of the nation's business expansion.

After three weeks of inconclusive debate, the Senate is believed to be nearing a showdown.

Congress looking for rebel aid compromise

By FRANK TAYLOR in Washington

DEMOCRATS in the United States Congress are seeking a permanent ban on military assistance for Nicaraguan rebels, although they concede that some form of humanitarian aid is likely to be approved within a few weeks.

Mr Lee Hamilton, head of the House of Representatives intelligence committee, said yesterday: "My priority goal is to prohibit military assistance."

He said his committee would probably approve a total ban on military aid as part of the Intelligence Authorisation Bill.

Other Democrats agreed with Mr Hamilton's goal, but added that such a move would be complementary to new efforts aimed at getting congressional approval of a humanitarian aid package for the rebels, who are fighting to overthrow the Marxist-led Sandinista government in Nicaragua.

Direct rebuff

President Reagan dropped his request for $14 million (£11·7 million) in new military assistance after it became clear opposition in Congress was too strong for him to overcome. He then accepted the humanitarian aid idea, but that too was defeated.

Since that vote, however, many members of Congress have had a change of heart, partly because of the visit to Moscow by Senor Ortega, Nicaraguan President. His trip was seen by many as a direct rebuff of Congress's attempts to reach an accord between Washington and Managua, without resort to rebel aid.

The White House can be expected to put up a fierce fight against Democratic attempts to engineer a permanent ban on military assistance for the rebels.

Such a measure would in effect continue the temporary ban imposed by Congress through an amendment drawn up by Mr Edward Boland, a Massachusetts Democrat. This prohibition expires on September 30, the end of the present fiscal year.

President Reagan's trade embargo against Nicaragua, designed to bring more pressure on the Sandinista regime, has meanwhile found little support among Washington's allies.

One on list

All the principal Western allies have said they will not join in the action, while the major Latin American nations have condemned it.

Mr Langhorne Motley, Assistant Secretary of State for Inter-American affairs, told a congressional committee that El Salvador was the only country he could immediately list as supporting the embargo.

But, he added testily, the United States did not run its foreign policy on the basis of a popularity poll.

Italy is the latest among the major powers to oppose the move. Signor Craxi, Italian Prime Minister, said on Tuesday that his government would "keep its commitment," to provide $25 million (£20·8 million) to help build a power plant in Nicaragua. He added that Italy would not join the trade embargo.

ISRAEL ROW OVER 'LEAK'

By R. BARRY O'BRIEN in Jerusalem

ISRAELI divisions on Middle East peace issues erupted in attacks in the Knesset yesterday on Mr Ezer Weizman, Minister without portfolio.

The former Defence Minister supports Egypt's call for United States-sponsored talks between Israel and a Jordanian-Palestinian delegation.

Mr Weizman, 60, an RAF pilot in North Africa in the 1939-45 War, was accused yesterday by the Right-wing Tehiya party, not a coalition partner, of leaking Israeli Cabinet secrets to the United States when a Minister in Mr Begin's Government during the Camp David peace negotiations between Egypt and Israel in 1979.

The charge is based on claims by a New York lawyer, Mr Leon Charney, in his book "Special Counsel."

The vote defeating the no-confidence motion failed to hide the tensions in the coalition befoe Mr Shultz, United States Secretary of State, arives tomorrow.

While the Labour party's Right wing Likud partner in the coalition opposed the motion, the Likud section led by Mr Shamir, Deputy Prime Minister and Foreign Minister, has not supopted Pime Minister Peres in his defence of Mr Weizmann.

The Likud's opposition to Labour's willingness to give up 70 per cent. of the West Bank and Gaza territory appears to leave Mr Shultz with little hope of re-starting the Middle East peace process.

Bitburg amends

Israeli officials yesterday played down the peace diplomacy aspect of Mr Shultz's visit.

They stressed the main reason for his trip was to join Israeli's President Herzog and Government in a ceremony tomorrow at Yad Vashem, the memorial in Jerusalem to the six million Jewish victims of the Nazi holocaust.

The ceremony is to commemorate the 40th anniversary of the defeat of Germany, and Mr Shultz's presence is being seen by the Israeli public as a gesture to make amends for President Reagan's controversial wreath at the Bitburg military cemetery where SS men are buried.

Israeli official sources made light of reports from Washington yesterday that the United States had helped progress towards Middle East peace talks by accepting a Jordanian proposal to include members of the Palestinian National Council in a Jordanian delegation.

An Israel official said: "The PNC and the PLO are identical. Anybody associated with the PLO does not have the aim of peace and is not an acceptable negotiating partner."

Guns used as riots break out again in New Caledonia

By MICHAEL FIELD in Paris

A MELANESIAN youth was shot dead and about 100 people were wounded in a new outburst of communal violence yesterday in New Caledonia, the French Pacific island.

The outburst introduced gunfire to Noumea, the capital, and the wounded included four policemen.

They were shot while trying to protect some Kanaks, indigenous Melanesians.

A "sitdown" by some 200 Kanak separatists in the centre of Noumea was attacked by French and other opponents of the French Government's plans for New Caledonian independence.

Those in the sit-down belonged to Palika, the extremist wing of the Kanak Socialist National Liberation Front.

Ambulances stoned

A crowd, mostly European, headed by members of the local Gaullist party, chased the Kanaks back to their part of the town. There were pitched battls in which stones and iron bars were the chief weapons.

The police were soon swamped. Ambulances were stoned, and their occupants wounded.

It was apparently at this moment that guns were produced and the youth was shot. Another Kanak was run down by a car and severely injured. The French community in New Caledonia is known to have many sporting rifles, more than one per family.

M. Edgar Pisani, the Government delegate, reimposed until further notice a dusk-to-dawn curfew lifted only last Friday.

He blamed anti-independence elements for the trouble and appealed to all inhabitants not to follow "men and groups spreading lies and hate." He was referring chiefly to French Opposition leaders in New Caledonia strongly opposed to the plans for the island.

In a radio interview he said he considered the demonstrations were really aimed at the plan to divide New Caledonia into four regions with elected assemblies before broaching the question of independence in association with France.

Visit by Minister

In Paris an official spokesman said that M. Charles Hernu, Defence Minister, was leaving for Noumea last night to review plans for reinforcing France's military presence in the region.

Anti-independence elements accuse President Mitterrand of adopting a "racist" solution ensuring that the Melanesians, an overall minority, ultimately impose independence on an unwilling majority which includes people of other Pacific islands and even some Vietnamese.

In riots last January houses in Noumea were set on fire by opponents of the independence plans.

Apartheid target of Los Angeles sanctions

By IAN BRODIE in Los Angeles

SWEEPING economic sanctions against South Africa were announced yesterday by Mr Tom Bradley, Mayor of Los Angeles, putting America's second-largest growing nationwide city in the forefront of the growing nationwide divestment movement.

Mr Bradley, who is black, said his proposals were the correct response to "the most vicious and morally reprehensible form of institutional racism."

If approved by the city council, as expected, the plan will have the effect of removing as much as £830 million in assets from banks and corporations having ties with South Africa.

Only New York has a greater sum to withdraw among the 10 States and major cities that have passed divestment laws of varying severity.

Marcos links Opposition leaders to guerrillas

By IAN WARD in Manila

PRESIDENT MARCOS of the Philippines yesterday claimed that Opposition leaders had established "arrangements" with the country's communist guerrilla hierarchy to co-ordinate anti-governmentt tactics for next year's nationwide local elections.

The 67-year-old Philippine head of State said that if such co-ordinated efforts led to violence "We will use the legitimate force of the Government. This means you have to be on the alert."

President Marcos's warning, issued via a signed statement from the Presidential Palace, coincided with public confirmation from Mr Juan Ponce Enrile, his Defence Minister, that a sizeable body of dissatisfied junior officers in the Philippine military establishment had formed a movement for reform.

Serious rifts

Western diplomatic observers said last night that the latest presidential and ministerial remarks were further evidence of the deepening political crisis in the Philippines as Communist New People Army guerrillas step up pressure against government troops, particularly in southern regions of the Archipelago.

Serious rifts have formed in the Philippine armed forces since 1972 when the President imposed martial law throughout the islands and ruled under it for the next nine years, creating a privileged coterie of senior officers as he did so.

Stories of military corruption have become legendary and the assassination of Marcos's arch political rival, former Senator Benigno Aquino, in 1983, only intensified the intra-military antagonisms.

That the armed forces chief of staff, General Fabian Ver, and 24 other military personnel are now on various charges linked to the assassination plot is seen as a constant drain on morale through all ranks of the armed services.

Reports of a "reform group," within the military and an, "army within the Army" have been surfacing from time to time for several months. Yesterday's remarks by Mr Enrile, However, amounted to the first official acknowledgement of the fact.

Although admitting that the reform movement had begun last year and already involved 20 per cent of the officers' corps, including some colonels, Mr Enrile insisted it posed no danger to the government.

Members, he said, supported the President and "do not challenge the channel of command."

The movement had no permanent hierarchy and each month appointed a "temporary chairman." Its monthly meetings were funded by a "passing round of the hat."

SHELLS KILL 37

Beirut bombardment

CON COUGHLIN reports from Beirut: At least 37 people were killed in the worst Beirut shelling in more than a year, when 2,500 shells fell on Christian areas on Monday night compared with 500 in Moslem West Beirut.

The fate of Lebanon still rests firmly in the hands of the beleaguered Christian community, with the Christian Lebanese Forces Militia, led by the Right-wing extremist Dr Samir Geagea, being blamed for the latest outbreak of fighting.

The Militia shelled Moslem settlements after the Israeli withdrawal from the Sidon area, provoking the devastating response by Druze and Shi'ite Moslem militias on Christian villages.

HUNDREDS HELD IN U.S. RALLIES

By TONY ALLEN-MILLS in New York

More than 900 people have been arrested in demonstrations in America protesting at President Reagan's trade embargo against Nicaragua.

The biggest demonstration was in Boston, where 1,000 protestors gathered in the city centre to chant: "Sanctions for South Africa, not Nicaragua." At least 400 people here arrested when the crowd failed to disperse.

NEW REUTER CHAIRMAN

By Our Business Correspondent

Sir Christopher Hogg, 48, chairman of Courtaulds, is to take over as chairman of Reuters Holdings, the international business information and news agency group, for a two-year term on July 1, it was announced yesterday. He succeeds Sir Denis Hamilton, 66, a board member since 1967 and chairman for six years.

Soviet bloc bars study of its record on rights

By ERIC DOWD in Toronto

SOVIET-BLOC countries to have barred Press and public from an international conference on human rights in Toronto and to be raising procedural objections, hoping to prevent any real examination of their own rights record.

The Conference on Security and Co-operation in Europe, which formally began on Tuesday, is supposed to examine the rights of minority groups in 35 member countries 10 years after they signed the Helsinki Accord promising to protect minorities.

Plight of Jews

The Soviet Union, its East European satellites, and the United States are among the signatories and participants; and Western countries want to discuss the plight of Jews in the Soviet Union and suspension of civil rights in Poland.

The West has been pressing for the public and Press to be admitted, the Soviet bloc opposing this, and the dispute had not been resolved when the conference began.

As a result the Press were admitted only to an opening speech by Mr Joe Clark, Canadian External Affairs Minister, then barred. America and other Western countries are still pressing for the sessions to be open.

Despite months of preparatory talks, including two full weeks work in Ottawa, the participants still had not been able yesterday to work out an agenda of what issues would be discussed, and when.

One handicap is that under conference rules decisions must be unanimous.

Some Western representatives are saying privately that the Soviet bloc wants to tie up the conference on procedural points to avoid its human rights record being examined.

ISRAELIS REOPEN 'PRO-PLO' CAMPUS

By Our Jerusalem Correspondent

The Arab Birzeit University on the West Bank, closed by the Israeli authorities two months ago because of its students' alleged pro-Palestinian activity, was reopened yesterday.

Meanwhile, unrest on the West Bank continued. A bomb made from two Russian hand-grenades was discovered near the town of Kalkilya.

FIRST CHINESE VISIT

Zhao Zlyang, the Chinese premier, is to visit the Netherlands from June 16 to 19, the Dutch government announced yesterday. The visit will be the first by communist Chinese leader.—Reuter.

THAIS ACCUSED BY CAMBODIA

By Our Bangkok Correspondent

Cambodia accused Thailand yesterday of bombing and invading its territory.

A spokesman for Thailand's National Security Council said: "Well, usually the Heng Samrin Khmers accuse us of doing this and that. It is rather a normal practice." Thailand has accused Vietnam, which supports the Heng Samrin regime with occupying forces, of invading and holding on to a mountainous region.

SYRIANS GIVEN SAM-5 CONTROL

The Soviet Union has handed over control of Sam-5 anti-aircraft missile batteries in Syria to the Syrian armed forces, the JERUSALEM POST reported yesterday.

The report quoted Western intelligence sources as saying the handover began in December and that until then Syrian soldiers had been barred from Sam-5 installations. Fired from Syria, Sam-5 can hit targets over northern and central Israel. —Reuter.

Scottish Conservative Conference

DIFFICULT DAYS, BUT KEEP COOL SAYS YOUNGER

By VALERIE ELLIOTT Political Staff

MR YOUNGER, Scottish Secretary, yesterday led the concerted campaign by Ministers this week to bolster confidence in the Government's policies.

He urged the party faithful meeting in Perth "to keep cool heads," and appealed to them directly not to sway towards the SDP-Liberal Alliance to find any answers to the country's problems.

He admitted that the Government was going through a difficult time, but insisted that their course was the right one.

In his address Mr Younger dodged the issue of the rates which has threatened a serious rebellion among party supporters north of the border.

He will put forward the Government's intentions on how to tackle the reform of local government finance in the crucial debate on the issue today.

No more funds

Although he was hoping to receive an 11th-hour cash fillip from the Treasury to offset some of the effects of the rate revaluation which has affected Scottish ratepayers, it appears that he may have lost that issue.

For he gave no hint of optimism for today's debate and repeatedly emphasised that there were no more funds to come to Scotland.

On the Government's performance he said: "We meet this year in difficult times for our Government and our party. Difficult, not because our strategy has gone wrong, or that we are in any doubt about our aims, but because we have reached the critical point in the carrying out of our task.

"It is easy to see our course ahead after a great election victory, and easy too to close ranks just before the test of another general election, but it is not nearly so easy to keep our momentum going in between when there is no immediate danger and when the critics can attack from all sides without having to show any responsibility of cohesion in what they say."

He added: "We are at that point now — nearing the halfway point in our present term of office — where it is above all important that we should keep cool heads, answer our critics patiently with sound and reasoned argument.

ATTACK ON LABOUR NHS 'MYTH'

By WILLIAM WEEKES

THE myth that only Labour cared about the National Health Service had to be laid to rest before the next general election, Mr John Mackay, Under Secretary for Scotland, told the conference.

Mr Mackay reiterated the Government's commitment to the NHS and dismissed Labour claims that the Conservatives wanted to dismantle the service.

He said the Opposition delighted in painting a picture of decline in the NHS and predicting imminent collapse. The reality was a programme of improvement and development since the Government took office in 1979.

"We have to do something to counter propaganda and bring home to the people of Scotland that the NHS is, in the words of the Prime Minister, safe in our hands."

Spending on the NHS in Scotland had risen from £1,861 million last year to £1,959 million this year.

Prudent cuts

The conference endorsed the motion, reaffirming support for the NHS. But the motion also said that the advancement of private medicine should not be at the expense of the NHS and that the service should be further improved by continuing the policy of prudent cuts in unnecessarily high staffing levels.

Mr W. P. Rodgers (Maryhill) put in a plea on behalf of the nurses whom, he said, deserved more than admiration.

"We must recognise the nurses' devotion to duty in a positive fashion in financial terms," he said.

Mr Gary Waller.

'Scruffy' MP shown door

AN MP looked so scruffy that a doorman refused him entry to a heavy rock disco being held at his own Conservative headquarters.

The "bouncer," Mr Tony Hill, failed to recognize Mr Gary Waller, MP for Keighley, West Yorks, because he was dressed so shabbily, and insisted he was a gatecrasher because he did not have a £1·50 admission ticket.

But yesterday Mr Waller denied he needed lessons in sartorical elegance from constituents who have complained about his attire.

Wurzel Gummidge

"I am not a Wurzel Gummidge. I was the only one in a suit that night at the disco," he said.

"It was an amusing incident which was all settled quickly afterwards. The doorman did not recognise me, and I did not say I was an MP. I told him to have a word with my agent."

THATCHER 'LOSING TOUCH'

By Our Political Staff

MR DAVID HOWELL, the former Cabinet Minister sacked two years ago by Mrs Thatcher, said yesterday that the Government was in danger of losing touch with the public mood and lacking initiative.

He told the Oxford University Conservative Association that there was a clear danger of the party losing direction as it did in the last year of the Macmillian administration following the Profumo affair.

He said: "Entirely new sets of concerns have come over the horizon since the late seventies, and the Conservatives simply cannot ignore them and go on playing the old cassette with the volume turned up."

New policies

Mr Howell, a former Energy and Transport Secretary, called for the party to develop clear new policies to deal with unemployment, the changing needs of industry and the electronics information revolution.

He said: "Are we just answering worries with stagnant slogans, arriving at new policy positions without proper debate, slapping down queries with "pat rehetoric and strident simplicities which may look good for a moment but leave the thinking person uneasy and wondering?"

But he stopped well short of criticising the Government's overall policy direction, saying that the disappointment was that more had not been done.

Jenkin undeterred by GLC Bill defeats in Lords

By NICHOLAS COMFORT Political Staff

MINISTERS are refusing to be panicked by the two defeats the Government suffered in the Lords on Tuesday night over its Bill to abolish the GLC and the six metropolitan counties.

However, opponents of abolition see the prospect of peers inflicting further reverses on the Government during the Committee Stage of the Bill, to the point where concessions have to be made.

They argue that if there are many more amendments passed which undermine the purpose of the measure Ministers may have trouble gaining a Commons majority to reverse them.

It is stressed on the Government's behalf, however, that with the Lords having accepted the principle of abolition and rejected "successor" authorities, if only by four votes, the amount of damage that can be done to the Bill is limited.

Mr Jenkin, Environment Secretary, shows no signs of departing from his forecast made after last week's close vote that the abolition of the councils was on schedule for next April.

The Government's first defeat came on an amendment tabled by Social Democrats and Tory rebels to require Mr Jenkin to produce before abolition a document on how the boroughs would protect the countryside and the Green Belt.

This swas carred by 152 votes to 135, a majority against the Government of 17.

Later on Tuesday came the more serious of the two setbacks, on a Labour motion to set up a London-wide highways authority once the GLC was abolished. This was approved by 117 votes to 103, a majority against the Government of 14.

A further amendment to do the same for the metropolitan counties was then carried without a division.

Peers were noting yesterday that the Government had got into difficulties at the point where the Lords had moved on from partism political issues to technical matters in which the 200 crossbench peers came more into play.

Some were suggesting that the vote to set up a highways authority could be followed by others covering planning, waste disposal and other matters, with scope for their amalgamation to form a "second GLC" despite last week's rejection of the idea.

It is equally acknowledged that the Government will have to suffer several more defeats from this evening, when the Committee Stage of the Bill resumes, before Ministers will start thinking seriously of compromise.

'Sun' is censured for kidnap plot report

THE Press Council yesterday criticised the SUN newspaper for publishing an unsubstantiated front-page lead story alleging an IRA plot to kidnap Royal children.

The Press Council condemned the failure of the editor, Mr Kelvin MacKenzie, to co-operate with the police promptly, and censured the paper for another front page lead story that Viscount Althorp, brother of the Princess of Wales, was selling his home because the police had warned him that he could be a terrorist target.

No such warning had been given. The story was unsubstantiated and inaccurate, the Press Council said.

The Metropolitan Police had complained that the SUN had published an unsubstantiated story about a IRA plot to kidnap Royal babies and irresponsibly failed to seek corroboration for this; the editor had failed to give prompt co-operation to police seeking to investigate the alleged plot; and the paper had published unsubstantiated and inaccurate accounts about Viscount Althorpe's moving home because of IRA threats and an alleged diversion of the Queen's plane because of a bomb.

'Slips' admitted

The first report by George Hollingbery and Harry Arnold, said an IRA terrorist had been caught with plans to kidnap a Royal child. The top targets were said to be Prince William and Prince Harry, and the victim's life to be ransomed for the release of jailed IRA terrorists.

The SUN said armed guards for the Royal children were trebled after news of the plan was flashed to Scotland Yard. The paper said the plot was discovered after the arrest in Ulster two weeks before of a top-ranking IRA Provo carrying vital "war" documents.

Two days later a front page story by Stuart Higgins said Viscount Althrop, 20, had been driven out of his £310,000 Notting Hill Gate home by the IRA. Police chiefs had warned him that he could be a terrorist target and that this town house was vulnerable to attack.

Mr MacKenzie claimed that apart from one slip, which it regretted, the SUN stood behind its kidnap plot report. The error was in referring to the arrest of an IRA Provo. The report should have referred instead to a list of Royal Kidnap victims' having been drawn up by an IRA cell.

Viscount Althorp told the Press Council's oral inquiry that no police officer had ever suggested his former house was vulnerabel to attack.

In its adjudication the Press Council stated: "The allegation of an IRA plot to kidnap Royal children was a sensitive and, if true, important story which demanded careful and responsible handling. Its publication obviously involved the danger of provoking such a plot if one did not already exist.

"The allegation has not been substantiated, and the Press Council is satisfied that insufficient corroboration of it was obtained by the SUN to justify its publication."

RACE PROTEST AGAINST PAPER IS REJECTED

The Press Council has rejected a complaint that the STREATHAM, CLAPHAM AND DULWICH GUARDIAN improperly identified the colour of black people suspected of crimes, thus encouraging racial prejudice. The complaint was made jointly by two Streatham readers, Mr J. W. Greer, of Mount Ephraim Road, and Mr T. Wright, of Killesier Avenue.

Mr Greer complained last year that hardly a week went by without some reference to black muggers and black youths. He suggested that the adjective "black" added nothing constructive to the description of the person conerned, and was the same as saying "a group of Roman Catholics" or "a gang of blood group. O youths"

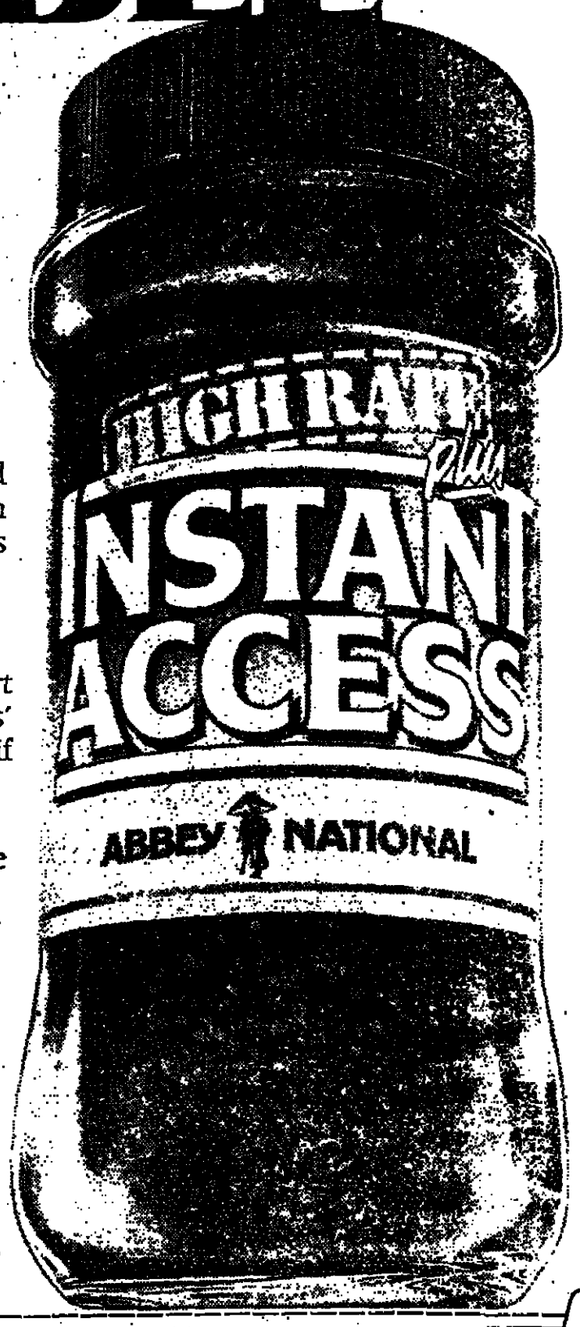
The editor-in-chief of the South London Guardian Group, Mr Mark Haysom, told the Press Council the newspaper included description of colour, whether black or white, in stories where it was relevant. This was only where police were looking for suspects and appealing for witnesses and where colour obviously formed a pertinent part of a person's description.

On Tuesday, the Press Council upheld a complaint against four papers for mentioning that a 17-year-old murderer was black.

LOAN RATE PEGGED

Barclays, Midland and Lloyds Banks kept their mortgage rates unchanged yesterday, despite National Westminster's decision to raise its rate by five-eighths per cent. to 13½ per cent. from June 1. NatWest's move makes it up to ¼ per cent. more expensive than the other banks.

£500 GETS YOU A REALLY ENJOYABLE BLEND.



Opening up an Abbey National Seven Day Account can have a very stimulating effect on your savings.

Because you'll immediately start earning 9.52% net. And you'll have instant access, providing you leave over £500 after taking out some of your money.

INTEREST TWICE A YEAR EARNS YOU 9.75%.

Another clever thing with this account is that your interest is added twice a year. So over a whole year your money builds up to earn you an extremely healthy 9.75% net. It's equivalent to 13.93% gross for basic rate taxpayers.

Of course, rates may vary from time to time.

WHEN YOUR BALANCE DROPS, THE RATE DOESN'T.

If you're not especially interested in instant access, you can start a Seven Day Account with as little as £100. And unlike some societies' accounts, you'll always earn the high rate current at the time. Even if your balance drops to as little as £1.

IT'S NO SEVEN DAY WONDER.

You can add to your account as and when you please up to the joint account limit of £500,000.

Small wonder over 1.5 million investors have chosen Seven Day as a safe home for their hard-earned money.

To join them, pick up a pen, fill out the coupon and post it to us. Or call in to your nearest Abbey National branch.

They'll happily spill the beans.

Are you as happy with your building society?

Victory which closed Belsen and Auschwitz 'sufficient cause for thanksgiving'

NOTHING BUT WAR COULD HAVE BEATEN THE NAZIS, SAYS RUNCIE

THE Archbishop of Canterbury, preaching at yesterday's VE-Day 40th anniversary service in Westminster Abbey, declared that "no other method than war" could have brought down the Nazi régime.

Dr Robert Runcie, himself the holder of a wartime Military Cross, said he "profoundly disagreed" with those who questioned whether the war had been necessary or had achieved anything.

"The victory which closed down Belsen, Buchenwald and Auschwitz is in itself sufficient cause for thanksgiving," he told the huge congregation which included the Queen, the Prime Minister, representatives of wartime allies and other nations and people from many walks of life.

It had also given a 40-year breathing space in Europe, which had not been wasted. There had been genuine reconciliation. Old enemies had become friends in active reconciliation.

"May our celebration of this achievement provide the energy needed to work for the greater world-wide reconciliation on which lasting peace depend," he said.

In his sermon, Dr Runcie said:

"Most of us over 60 can remember where we were, that late summer Sunday in 1939, when we heard that the United Kingdom was at war with Germany.

If we search our memories a little further we can remember something else: the mood of the time. There was a certain relief that the period of waiting was over. But there was very little jubilation.

We already knew too much about war for that. Memories of the previous war were too fresh.

After the Somme and Passchendaele we were not victims of any great illusion. We knew that war was ugly, but it was the lesser of two evils.

One of the great nations of Europe was in the grip of a régime that set at nothing the liberty, the dignity, the life of all those who stood in the way of its notions of racial superiority and the expansion of its territory.

Diplomacy had failed. By the summer of 1939 the choice was clear. Germany's European neighbours either had to submit to Nazism or resist it by force.

Heavy cost

Today we thank God that with the help of our allies that resistance culminated in a victory in which the Nazi régime perished.

No historical inquiry has suggested that Nazism was less wicked than we thought it in 1939, or that any other method than war could have brought it down.

The cost was heavy in a war which engulfed Europe, and extended far beyond it.

Many of us will have personal memories of friends and relatives who died or who were maimed. The outstanding courage of those who were disabled is a constant reminder of the cost of our victory.

It was a war which claimed victims among combatants and civilians alike — the very old and the very young.

"It is right that we should remember the pity of war. Today, in this place, it is fitting that we should remember the sorrows of the United Kingdom in particular — the lives lost or laid waste, the treasures obliterated.

Proper pride

"But it is also right to remember the good that can be set against the grief, part of the Christian answer to the eternal riddle of evil is that great afflictions call forth great virtues, public and private.

"Today we remember those virtues gratefully and humbly before God. We remember the steadfastness and unity of the nations that came together in the allied cause. So many of them we rejoice to see represented here today.

"We remember the qualities of our own sailors and soldiers and airmen: the loyalty they showed to their units and to their friends; their endurance of hardship and danger.

There is a proper pride which says: "Those people belong to us, and we to them, and we are glad of it, because they show what humanity can achieve."

Sacrifices there were on our home front, and we also remember the spirit that pervaded that. It was a sense of common cause transcending differences of status or interest.

We recognise how precious our freedoms were and learned how much they cost. It was a summons to everyone to put a brave face on private pain, so that the face of others should not be clouded.

Some people question now whether the war was really necessary, and whether anything was achieved by the victory. I respect their freedom to make such a judgment, but I profoundly disagree with them.

It was not a panacea for every ill. But the victory which closed down Belsen, Buchenwald and Auschwitz is in itself sufficient cause for thanksgiving.

But the war has also given us a 40-year breathing space in Europe, and the time has not been wasted.

The peace settlement after World War I nourished deep resentments and a desire for revenge. We can all rejoice at the contrast which is provided by evidence of genuine reconciliation after World War II. Old enemies have become friends in active co-operation.

The city of Coventry is a place where the reality of this reconciliation can be powerfully experienced. The charred ruins of the old Cathedral, destroyed by bombing in 1940, stand side by side with the new Cathedral.

Shared emotion

What often moves visitors most is the cross in the ruins, and the simple words: "Father forgive." It is a message which frequently brings British and German ex-servicemen together in shared emotion.

Such experiences can dent the lazy cynicism about human beings and the capacities of the human spirit, which undermines our work for a wider peace.

Of course, the victory of 40 years ago did not destroy all the world's evils. Every generation has its own problems to solve, and fresh forms of evil to resist.

There is no retirement from the service of God, or from the struggle to establish His reign of love and justice upon earth.

The organised life of groups and nations continues to be a struggle to dominate or to avoid domination. The dangers of this, at a time when our capacity for destruction is so immeasurably greater than it was in the Second World War, are obvious.

Much has already been achieved in the reconciliation of ancient enemies. May our celebration of this achievement provide the energy needed to work for the greater world-wide reconciliation on which lasting peace depends.

This service is a gift of thanksgiving offered to God, and we offer it in the Spirit of Jesus Christ who said: "First be reconciled to your brother, and then come and offer your gift."

Editorial Comment—P18

The Queen and Prince Philip leaving Westminster Abbey yesterday followed by the Queen Mother and Prince Edward; Princess Margaret and Princess Alice, Duchess of Gloucester; the Duke and Duchess of Gloucester; the Duke of Kent; Prince and Princess Michael of Kent; Princess Alexandra and Mr Angus Ogilvy.

War widow groups in pensions row keep their distance

By GUY RAIS

TWO groups of war widows, divided by a pensions row, laid wreaths and flowers in separate ceremonies in Whitehall yesterday.

Neither acknowledged the other.

One group, the British War Widows and Associates, said it was angry that its pleas for an increased pension semed to have been ignored by the Government.

The other, the War Widows Association, with a much wider membership, expressed annoyance that the breakaway group had acted with "so little dignity."

The smaller group of war widows placed single red roses at the base of the Cenotaph together with a cross of red roses.

'Men betrayed'

"Our men have been betrayed," said Mrs Iris Strange B W W A president.

Mrs Strange recently wrote to Mrs Thatcher asking the Government to grant widows of 1939-45 War a second pension, at present paid only to widows of servicemen killed after March 31, 1973.

The Conservatives, she said, had broken their promise to do do so in their 1974 manifesto: "But Mrs Thatcher's reply completely ignored my request."

Mrs Strange, a former Secretary of the Association, said that while Opposition leader, Mrs Thatcher had promised to remove distinction when she came to office. "We have waited a long time for that promise to be kept, a time during which thousands more war widows have died in despair and poverty."

In her letter to Mrs Thatcher, she wrote: "There are now so pitifully few of us left that it would cost a very modest sum if the Government granted all the concessions . . . I ask you once again to honour your promise."

Many of Mrs Strange's supporters, widows of former ex-servicemen, were bitter. "I don't feel the country was worth fighting for," said Mrs Winifred Walker, whose husband a chief petty officer died when his ship was torpedoed off Ireland.

But widows in the opposite association, which has between 3,000 to 4,000 members, said they were "very sad at the way they have been behaving."

Mrs Kay Todd, chairman, said that Mrs Strange and other "militant" widows, had broken away from the Association to form the new group four years ago.

"What they don't realise is that all widows get the same pension. But since 1973 widows have had the benefit of the Armed Forces Pension Scheme which their husbands paid into."

"We could all do with a bit more, but we don't like the way they are going about it."

Mrs Joan Cave, former chairman, added: "We don't think it dignified for women of our age to act in such a manner".

Mrs Thatcher, through Government sources, said that the Tory manifesto commitment to keep pensions ahead of prices had been honoured.

The widows had been told that over the years war pensions had more than kept pace with the increased cost of living, having doubled in value since 1945.

Mrs Thatcher pointed out that most war widows now received a pension of between £50 and £60 a week, and regarded the Government's record on war widows' pensions as "honourable."

Bishop recalls 'heroism' of German victims

By CHARLES HENN

GERMANS who died in Hitler's concentration camps, "showing a heroism that many of us would find hard to emulate," must not be forgotten in commemorating those who died in the war, the Bishop of Manchester, the Rt. Rev. Stanley Booth-Clibborn, said at a special VE-Day service yesterday.

He reminded the congregation of about 350 at Manchester Cathedral that British people had not been faced with living in such a totalitarian State as Nazi Germany.

The Bishop recalled the massive losses suffered, particularly by the Russians and the Jews, "and those Germans, along with the men and women of many nations, who suffered in the war against Hitler."

He went on: "We remember with thankfulness all those who died in the furtherance of peace."

The evils committed during the war had not been restricted to one side. The policy of concentrated bombing of German cities had resulted in the deaths of 135,000 people at Dresden, an operation now considered by many to have been unnecessary.

"No peoples are without stains on their history," he said. "Along with our German brothers and sisters today we ask for forgiveness.

"Forty years after the war we are far from a situation of true peace in our land, or in Europe as a whole."

The service was boycotted by Manchester and District Liaison of Ex-Servicemen's associations because representatives from Manchester's "Friendship link" of Karl-Marx-Stadt, in East Germany, and the CND had been invited.

Further offence was caused when invitations sent out by the Left-wing city council to attend the "peace service" requested that military uniforms should not be worn.

Manchester and District Liaison, which has nearly 100,000 members, is to hold its own commemoration service on Sunday.

Jews pay tribute to victims of holocaust

JEWISH survivors of the holocaust, which claimed six million of their people, gathered in Hyde Park to pay a VE-Day tribute to the victims of Nazi atrocity.

The Chief Rabbi, Sir Immanuel Jakobovits, a refugee from Germany who fled to Britain in 1936, said before the ceremony: "I lost any number of aunts and cousins who perished and could not live to celebrate with us."

Turning to the crowd of several hundred, including many schoolchildren, gathered round the Holocaust Memorial in the park, he added: "There isn't a single Jew here who has not got next-of-kin who died in the camps."

'Joyful salute'

The Jews were celebrating the 40th anniversary of the victory over Nazism and the liberation of the concentration camps.

Mr Greville Janner, Labour MP for Leicester West and president of the Board of Deputies of British Jews addressed the gathering.

"We weep for our comrades killed in battle and in blitz — we mourn the millions of every faith, and of every nationality, the millions who died by Nazi hand," he said.

"But we laugh through our tears in joyful salute to the 40th anniversary of the death of Hitlerian Nazism, of Victory in Europe — of liberation for the sufferers."

The Chief Rabbi said later at a service at Hendon Synagogue: "Let the message ring out loud and clear from this service and from every other commemoration of the era which finally ended drowned in blood and tears 40 years ago: any infringement of human rights, any incitement of racial hatred, any arousal of anti-semitism, if condoned in silence and allowed to go unchecked, and wreak vengeance on the whole of humanity and exact a frightful price from us all — victim, perpetrator and onlooked alike.

"If Jews, or any other minorities are not safe, no one is safe. Statesmen and peoples the world over had better realise this and wipe out the scourge of prejudice before it wipes us out in a global nemesis."

BEQUESTS IN MEMORY OF DUNKIRK

Bequests to Services benevolent trusts were made by Mr Brian Guiness, a wartime officer with the Royal Army Service Corps, in his will published yesterday.

Mr Guiness, of Barford Corner, Churt, Surrey, died in February, leaving estate valued at £352,042 net (£353,628 gross), of which he left £100 to the Royal Naval Benevolent Trust "in memory of the ship's company of HMS Codrington, the destroyer that carried me off the beach of La Panne to Dover.

He also left £100 to the Royal Army Service Corps Benevolent Fund "in recognition of the leadership shown by Corporal (later Sergeant) B. L. Stanley, of Mabledon Avenue, Ashford, Kent, on the occasion of the evacuation at Dunkirk of "D" section 1st Corps, Troops Ammunition Co, in May, 1940."

Latest Wills—P16.

DEATHS, IN MEMORIAM

Continued from Back Page

TAYLOR. — On Saturday, May 4, 1985, peacefully, in Dulwich Hospital, London, GEORGINA SUTHERLAND, formerly of Nest House, Longhope, aged 86; beloved aunt of Ann Segden. Sadly missed. Cremation at Beckenham, 3.40 p.m., May 13.

THOMSON.—On May 4, suddenly, in Sheffield, ROBERT (Bob), aged 46 years, darling husband of Pam, dearest loving dad of Fiona and Heather, and much loved only son of Margaret and the late R. H. S. Thomson. Senior Master in charge of Birkdale Junior School. Thanksgiving funeral service at Totwood Parish Church, Sheffield, on Friday, May 10, at 11.30 a.m. Donations in lieu of flowers for Crusaders (Union of Bible Classes) may be sent to John Heath & Son, F.D., 14, Eastbourn street, Sheffield.

THOROGOOD.—On May 5, 1985, as the result of a road accident while on holiday with her nephew and niece at Limbertost Farm, Crookham, Newbury, Berks., aged 57 years, of Kent. Cremation has taken place. Memorial service at her local United Reformed Church to be arranged at a later date.

VEALE.—On May 3, SYDNEY, who spent many years in aviation. Sadly missed.

VILE. — On May 7, peacefully in York, ERNEST LIONEL, aged 85 years, very dear husband of Katie and loved father of Peter and Elizabeth.

VON DER HEYDE. — On may 7, tragically, THOMAS H.S., aged 15 months, much loved son of Paul and Thea, twin brother of Sophie. Funeral on May 14, at 11.15 a.m., at Putney Vale Cemetery, Kingston Road, S.W.15. Family flowers only. Donations to Prof. Lloyd, Paediatric Unit, St George's Hospital, Tooting, London, S.W.17.

WALKER. — On May 7, 1985, peacefully, in hospital, PHYLLIS, aged 84 years, beloved wife of Geoffrey and mother of Sue. Funeral service in the Church of St John the Evangelist, Toft, Knutsford, on Monday, May 13, at 11 a.m., followed by private cremation. Family flowers only.

WALKER-BRASH. — On May 5, [illegible]. The arrangements for the funeral of JACQUELINE WALKER-BRASH have been postponed and will be announced later. (Amended notice.)

WALLEY.—On May 7, 1985, peacefully at home in his 85rd year, ALFRED, beloved husband of Pam and much loved father and grandfather who will be greatly missed. Service and cremation at Ashfield Crematorium, Liverpool, today (Thursday), at 11.30 a.m. Family flowers only, please.

WARD.—On May 7, 1985, peacefully, at Frimley Park Hospital, ANTHONY WARD, B.Sc., M.R.C.V.S. Funeral private. Service of thanksgiving will be held at the Parish Church, Waltham St Lawrence, Reading, Berks, on Tuesday, May 28, at 3 p.m.

WATSON.—On May 7, 1985, peacefully at her home after a very short illness, SUSAN (nee Campbell), formerly of Carnbustang, Glasgow, widow of the late HARRY WATSON, dearly loved mother of Jean and Roy who died in 1940, mother-in-law of June and Michael, loving grand-mother of Ray, Vivien and John, great-grandmother of Alice, Jenny, [illegible]. The funeral service will take place at St John's Chapel, Oxford Crematorium on Friday, May 10, at 11.30 a.m. Flowers or donations if desired to Cancer Research, c/o Reeves & Pain, 288, Abbingdon Road, Oxford.

WHITE.—On April 4, 1985, in Victoria, B.C., after a painful illness bravely borne, DENIS WHITE, aged 80, born in London, England, of 402-1440 Pearl Street, Victoria, B.C., V8V 3Z8. [illegible] Michael, and his wife, Shan, of Toronto, [illegible] brother David of Victoria, nieces and nephews. He was Past President of the Victoria Rotary Club, a member of Uplands Golf Club and the Tyrian Club of Victoria. He served with the R.A.F. during the Second World War. A memorial service was held in McCall Bros. Floral Chapel, Victoria, B.C., on April 10, 1985, with Mr Ron Danks officiating. [illegible] followed. Flowers graciously declined. Donations may be made to the [illegible], Victoria, B.C., Canada V8R 4S9, or to the charity of one's choice.)

WHITLOCK. — On May 5, CHRISTOPHER, devoted husband of Vera and father of Gavin and Alison. Funeral service at 1 p.m. on Monday, May 13, at St Johns Church, Rowland's Castle. No flowers. Donations to Sue Ryder Home, Petersfield, Hampshire.

WILLIAMS.—On May 6, peacefully at Chesterton Hospital, Cambridge, JOHN CLIFFORD WILLIAMS, B.Sc. (Econ), A.C.I.S., F.I.Mgt., aged 83, late of Beckenham and Woodbridge, Suffolk, beloved husband of Freda, much loved by his son John and daughters Margaret and Joyce and his six grandchildren. Inquiries to A. F. Townsend, Funeral Directors, tel. Cambridge 845182.

WOHL.—On May 7, ALICE WOHL, at the age of 94. Service at St Ethelbert, R.C. Church, Stoneh, on Tuesday, May 14, at 9.45 a.m., followed by private cremation.

WOODS BROWN.—On May 7, JOAN MARGARET, aged 70 years, wife of the late Dr G. C. Woods Brown and sister of Edith Johnson M.B.E. Family cremation service. Memorial service, 2 p.m. Wednesday, May 22, at Hazlemere Parish Church, near High Wycombe.

WOODTHORPE.—On May 4, suddenly at home, 6, Broad Hill Close, Broad Oak, LOUIS JOHN, aged 74 years, beloved husband of Nicie, much-loved father and grandfather. Service to take place at Tunbridge Wells Crematorium, at 3.50 p.m. on Monday, May 13. All inquiries to D. F. Bysouth, Hailsham Road, Heathfield, East Sussex, tel. Heathfield 2648.

ACKNOWLEDGMENTS

FOX.—JOAN, ROBIN and ROSEMARY would like to thank all relatives, friends and former colleagues for the kind expressions of sympathy, floral tributes, donations and support at the funeral service and in many other ways during their very sad loss.

MEMORIAL SERVICES

HUBBARD.—A Service in Memory of THOMAS HUBBARD will be held at St Peters, Flinter Road, Fulham, SW6, on Friday, May 17, at 12 noon.

ROBINS.—There is to be a Memorial Service for DENISE ROBINS at St Bride's Church, Fleet Street, on Thursday, May 30, at 11 a.m.

THE GRENADIER GUARDS.—The GRENADIER GUARDS will hold its Annual Regimental Remembrance Day Service in the Guards Chapel, Wellington Barracks, London, at 5 p.m. on Sunday, May 12, 1985, to remember all Grenadiers who have died for their Country. Admission by ticket only.

THANKSGIVING SERVICE

ROSS.—A Service of Thanksgiving for the life of ALAN ALISTAIR (Angus) ROSS, O.B.E., will be held at the Church of St Sepulchre without Newgate, Holborn Viaduct, on Wednesday, May 15, at 12 noon.

IN MEMORIAM

EXETER, KENNETH JOHN.—May 9, 1974, aged 60 years. Dearly loved and sadly missed. — Your sorrowful wife, Margo.

EXETER, KENNETH JOHN, died May 9, 1974, aged 68.—Dad, I miss you more than words can say. Memories close survive day by day. Why did you have to go? That I will never know. Always, blackbird.—Jacqueline.

GARDNER, HARRY.—Loving remembrance of my dear Harry on his Birthday.—Edie and the family.

GORDON. — In loving memory of JEAN, widow of Major DOUGLAS GORDON, Gordon Highlanders, on the 40th anniversary of her death, May 9, 1945.

HAWKINS, MARTIN PATRICK.—May 9, 1976. Remembered always.

SAUNDERS. — [illegible] — Loving remembrance, especially today, her Birthday.—Pat and family.

TURGET, [illegible].—Most lovingly remembered today and always.—Sal.

VERNEY, T. DENIS.—Ever lovingly remembered and missed by Elsie and family.

LIVERPOOL'S FINEST BUILDING IN DANGER

Liverpool's St George's Hall, one of the finest neo-Classical buildings in the world, is endangered by political wrangling. In a colour article, Clive Aslet suggests ways of securing its future. Also in colour, Richard Haslam discusses the unique 18th-century landscape of Hawkstone Park in Shropshire.

Frances Perry assesses the work of E.A. Bowles, welfare worker and plantsman; Edward McParland describes the Royal Hospital at Kilmainham, Co. Dublin; John Lawton Roberts writes about the glossy ibis; and Christopher Neve reviews the Edward Lear exhibition at the Royal Academy.

Spirit that won victory in 1945 will not go away, president reminds Euro-Parliament

REAGAN LINKS PEP TALK WITH PEACE POLICY

By RICHARD BEESTON in Strasbourg

PRESIDENT REAGAN yesterday delivered a pep talk to Europe and an offer of a new framework for relations with the Soviet Union, in an address to the European Parliament commemorating the 40th anniversary of VE-Day.

"I hear words like Europessimism," Mr Reagan told a special session of the Parliament at Strasbourg. But he went on: "Europe, you are greater than you know."

Forty years ago, said Mr Reagan, the challenge was to rebuild a democratic Europe under the shadow of Soviet power.

"Our task, in some ways more daunting, is to keep the peace with an ever-more-powerful Soviet Union, to introduce greater stability in our relationship with it, and to live together in a world in which our values can prosper," he declared.

"We mark the anniversary of the liberation of Europe from tyrants who had seized this continent and plunged it into a terrible war. Forty years ago today, the guns were stilled and peace began—a peace that has become the longest of this century."

Recalling VE-Day, Mr Reagan said that while Winston Churchill walked on to a balcony in Whitehall to declare "This is your victory" and crowds in Paris sang the Marseillaise, "I was at my post at an Army Air Corps installation in Culver City, California."

Mr Reagan, who made morale-boosting and military training films in Hollywood during the war, said he heard of the end of hostilities in Europe and "I felt a chill as if a gust of cold wind had just swept past."

'Nothing to gain through force'

The lesson to be learned from the 1939-45 war, said Mr Reagan, is that "early attempts to placate the totalitarians did not save us from war. In fact they guaranteed it."

After the war, he said, there was a sense of joy and purpose when "together we created the North Atlantic Treaty Organisation, a partnership aimed at seeing that the kind of tyrants who had tormented Europe would never torment her again."

He told the Parliamentarians: "Your nations did not become the breeding ground for new extremist philosophies. You rejected totalitarianism, you rejected the lure of the new Communist man."

Turning to the Soviet Union, Mr Reagan said he hoped the new leadership would come to understand "they have nothing to gain from attempts to achieve military superiority or spread their dominance by force, but have much to gain from joining the West in mutual arms reduction and expanding co-operation."

But although the speech was billed by the White House as "committed to peace and the resolution of problems," Mr Reagan had some tough things to say about the Russians and made no reference to the Soviet Union in his VE-Day commemoration remarks.

A United Stses official said later that "no significance" should be made of the fact that the President did not mention the war-time contribution of the Soviet Union.

He said Mr Reagan had sent a message to the Soviet Union referring to the Soveit sacrifices made during the 1939-45 war. "We have not received a response and we are not expecting one," the official said.

'No alternative but to compete'

After the West lost its nuclear superiority in the 1970s, Soviet conduct changed dangerously with adventures in Angola, Yemen, Ethiopia, Cambodia, direct military action in Afghanistan and attempts to profit from conflicts in Central America.

"One might draw the conclusion from these events that the West should reassert that nuclear superiority," said Mr Reagan. "That is not my view. We cannot and should not seek to build our peace and freedom perpetually upon the basis of expanding nuclear arsenals.

"We do not aspire to impose our system on anyone, nor do we have pat answers for all the world's ills. But our ideas of freedom and democracy and our economic systems have proven their ability. Our adversaries can offer their people only economic stagnation and the corrupt hand of a State and party bureaucracy which ultimately satisfy neither material nor spiritual needs."

In the short term, said Mr Reagan, the United States had no alternative but to compete with the Soviet Union in maintaining a nuclear balance. "It is similarly important that France and Britain maintain and modernise their independent strategic capabilities."

Mr Reagan then claimed that Moscow did not share this view of what constituted a stable military balance and said that the Soviet Union had chosen to build a nuclear force "designed to strike first and thus disarm their adversary."

"The Soviet Union is now moving towards deployment of new mobile missiles which have these capabilities, plus the potential to avoid detection, monitoring or arms-control verification. In doing this the Soviet Union is undermining stability and the basis for mutual deterrence."

Mr Robert McFarlane, Mr Reagan's National Security Adviser, said the missile was the multi-warhead SS x24, a mobile intercontinental ballistic missile close to deployment.

He said its deployment would confront Mr Reagan with "an intolerable condition," presenting the Soviet Union with an apparent first-strike capability which could make the United States vulnerable to coercion and nuclear blackmail.

In his speech Mr Reagan raised the possibility of countering such threats with his "Space Wars" Strategic Defence Initiative project which might, for the first time, make it possible for non-nuclear systems to defeat nuclear missiles.

America's six points for peace

Mr Reagan declared that fruitful co-operation with the Soviet Union must be accompanied by successful competition in areas, particularly in the Third World, where "the Soviets are not yet prepared to act with restraint."

He then outlined six elements of American policy towards the Soviet Union, "based on a search for genuine peace."

These were:

1—While maintaining deterrence to preserve the peace, the United States would make a steady effort to reduce tensions and solve problems with the Soviet Union.

2—The United States was prepared to conclude fair, equitable, verifiable agreements for arms reduction, especially offensive nuclear weapons.

3—The United States insisted upon compliance with past agreements, both for their own sake and to strengthen confidence in possible future accords.

4—The United States sought no unilateral advantages and could accept none on the Soviet side.

5—The United States would proceed in full consultation with its allies, recognising that their fates are intertwined.

6—The United States did not seek to undermine the Soviet system. At the same time, it would resist attempts by the Soviet Union to impose its system on others by force.

Mr Reagan's four proposals reducing East-West tensions were:

1—Exchange of American and Soviet observers at military exercises.

2—The institution of high-level contacts between American and Soviet military leaders to develop better understanding and prevent tragedies from occurring.

3—Prompt action by the Conference on Disarmament in Europe on confidence-building measures proposed by Nato. In this respect America was prepared to discuss the Soviet proposal on non-use of force in the context of Soviet agreement to confidence-building measures.

4—The establishment of a permanent military-to-military hotline between Washington and Moscow.

Goose-stepping Russian soldiers carrying wreaths to lay at a Soviet memorial in East Berlin near the Brandenburg Gate yesterday. The tank took part in the final attack on the former Nazi capital.

Germans reminded of countless Russian war dead

By ROBERT TILLEY in Munich

MARKING the 40th anniversary of Germany's liberation from the Nazis, President Richard von Weizsäcker of West Germany said that May 8 was primarily a day of remembrance of what people suffered.

He referred to the "countless number of Russians and Poles" who died, which commentators considered an unusual reference.

He also referred specifically to the gipsies, homosexuals, and mentally ill people who were victims of the Nazis, and "especially the six million Jews murdered in German concentration camps."

The Nazi genocide of the Jews was "without parallel in history". A few Germans carried it out, but many Germans were aware of the sufferings of their fellow citizens.

Eyes and ears

"Whoever opened his eyes and ears, who wanted to find out what was going on, could not but see the trains full of deportees," said Herr Weizsacher, 65, who fought for Germany in the war.

"In reality, not only the perpetrators but all of us — even my generation, which was too young to be involved in the planning and execution of this crime — tried not to recognise what was happening."

The President also recalled those Germans, including Communists, who resisted Hitler, and he said that the present division of Germany should be blamed on Hitler, not on the victorious Allies.

Some blame for the war could be attributed to the Stalin-Hitler pact of August, 1939, for it was clear to all thinking people at that time that the German-Soviet pact meant Hitler would invade Poland.

But this did not detract from the German responsibility for starting the war. Although the Soviet Union had hoped to enrich itself by the war, the initiative for starting it came from Hitler.

Herr Weizsäcker said the end of the war was not the cause of Germans being expelled from Eastern Europe and of what he called serfdom (an apparent reference to East Germany). The origins lay in the beginnings of the Nazi regime.

"We cannot separate May 8, 1945, from Jan. 30, 1933" (the date Hitler came to power) the President went on.

"The division of Europe was confirmed by post-war developments... It would not have happened but for the war that Hitler began."

In the war most Germans believed they were fighting and suffering for the good of their country, said Herr Weizsäcker, whose speech to a joint assembly of the two houses of the West German Parliament, the Bundestag and the Bundesrat, was televised.

Then it was to be established not only that the struggle had been "meaningless and in vain" but that it had "served a criminal leadership." Exhaustion, perplexity, and new worries characterised the feelings of most Germans.

And yet, day by day, the significance of May 8 had become clearer for the German people. It was a day of liberation. It "freed us all from the cynical system of the National Socialist tyranny".

The President rejected the concept of a common German guilt for what had happened. "There is no such thing as the guilt or innocence of an entire people," he said.

"Guilt, like innocence, is not collective but personal." Everyone who had lived through that time had now to account for his own involvement, said Herr Weizsäcker.

Forty years after the Nazi capitulation Germans still formed one nation and one people although they now lived in two States.

"We are confident that May 8, 1945, will not be the last day in our history that had a common meaning for all Germans," the President said.

GIFT FOR CHURCH

The parish church at Chelmondiston, Suffolk, has been given £400 by a congregation in Dortmund, Germany, as a gesture of thanksgiving for 40 years of peace in Europe. The money will go towards the upkeep of the church, which was built on the ruins of a church destroyed by a German flying bomb.

Moscow envoy lays Legion wreath

By NIGEL WADE in Moscow

BRITAIN'S Ambassador in Moscow laid a wreath of British Legion red poppies at the Tomb of Russia's Unknown Soldier yesterday during the Kremlin's VE-Day rally.

Sir Iain Sutherland was accompanied by Mr Denis Healey, representing the Labour Party.

The American and West German Ambassadors also laid wreaths in steady rain, but will not join Sir Iain and other foreign representatives at today's military parade.

The parade, the biggest in Moscow for many years, will take place in Red Square, where Stalin watched victorious troops throw down Nazi banners in 1945.

Western military attaches expect some of the latest Soviet weaponry to be on display.

Representatives of the British Embassy laid wreaths in Murmansk, the Arctic convoy port, yesterday.

Sir Iain's wreath was on behalf of the British Government which did not send a delegation from London. It was about the size of a straw boater, much smaller than the elaborate tributes from other dignitaries.

With the Ambassador were Mr Robert Scaife, national vice-chairman of the Royal British Legion, and Major Robert Tomlins, the Legion's general secretary.

Mr Healey, who also attended a wreath-laying with Socialist delegations invited by the Kremlin Central Committee, wore his own war medals. Russian soldiers goose-stepped around the Eternal Flame as piano music by Rachmaninov was played over loudspeakers.

Mr Gorbachev, in a one-hour speech paid only brief tribute to the wartime achievements of the Western allies, in almost the same breath as tributes to partisans and underground fighters in occupied countries.

He said: "The outcome of the war was decided on the Soviet-German front" where, he said, "the enemy sustained 70 per cent. of their losses." Russia was grateful for Western aid," although it was not as great as some people have said."

'Reviving extremism'

Both world wars were "impudent imperialist adventures," he added, and American "imperialism" remained the main threat to world peace. America was becoming more and more bellicose, conducting a policy of State terrorism against Nicaragua and waging undeclared war in Afghanistan.

In an obvious reference to resident Reagan's recen Bitburg war cemetery visit, Mr Gorbachev said: "Some politicians are ready to forget and even to justify the SS cut-throats and, more than that, even to pay honour to them."

America was actively involved in reanimating right-wing extremism in West Germany," he said.

Russia wanted success in the Geneva arms talks and a return to detente. It sought "a world without armaments" and recognised that the conflict between two different political systems could not be solved militarily.

Mr Gorbachev's wife and family were in the audience, as is now becoming standard practice of major occasions.

The Soviet leader was unequivocal in claiming the victory over Nazism as the vindication of Soviet Communism. "The source of the victory lay in the nature of Socialism and in the Soviet way of life," he said.

He called it "a victory of our ideology and morality" and said "the test of war has proved our Socialist system is invincible."

The Kremlin audience stood in silence for the 20 million Russians who died in the war. Victory banners of the Soviet armed services were paraded into the hall.

Holiday as French mark Armistice

By MICHAEL FIELD in Paris

FRANCE celebrated VE-Day yesterday with the customary national holiday and a military parade in the Champs d'Elysees.

The 40th anniversary of the Armistice was the occasion for a long television broadcast over one of the State channels that gave full coverage to President Reagan's speech to the European Parliament in Strasbourg.

President Mitterrand, escorted from the Elysees Palace by the Republican Guard and accompanied by M Fabius, Prime Minister, M Hernu, Defence Minister, and the Chiefs of Staff, laid a wreath on the Unknown Soldier's grave at the Arc de Triomphe.

In the adjacent Place Charles de Gaulle, a detachment of veterans carried the insignia of regiments which took part in the liberation of France. The President decorated a number of the participants.

Last night there was a further military display with a band concert and the day's celebrations wound up with a historical spectacle, also in the Champs d'Elysees, against a background of Tricolour lights.

At Reims on Tuesday M. Fabius presided over ceremonies marking the 40th anniversary of the German capitulation there. Security was so tight that M. Faiala, the Mayor of Reims and a Gaullist deputy, complained to the Premier that veterans and the public had not been closely enough associated with the ceremonies.

NatWest Mortgage Rate

With effect from 1st June, 1985 for new and existing borrowers, the NatWest Mortgage Rate payable under current Mortgage Deeds and Conditions of Offer will be increased from 12.875% p.a. to 13.50% p.a.

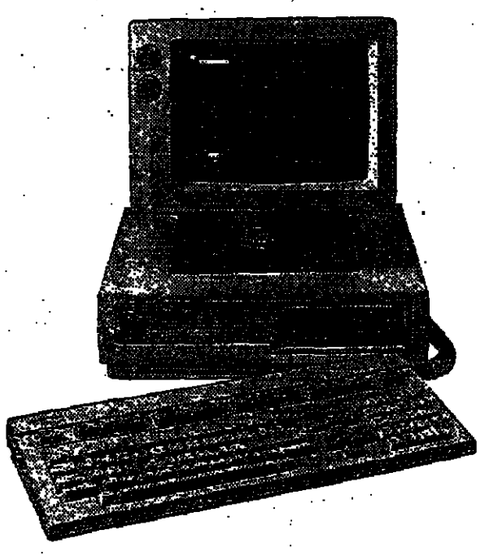
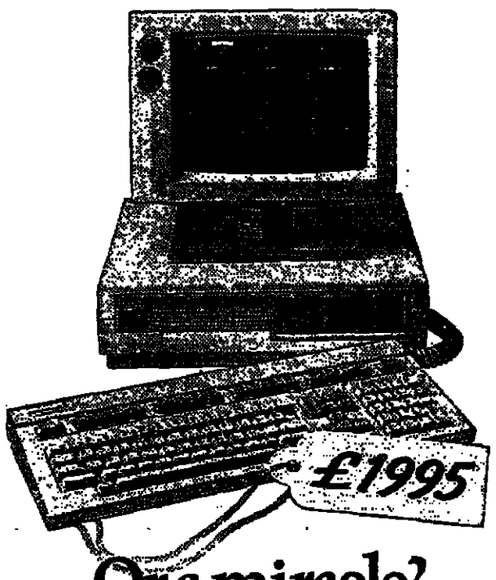
A word processor?

A typewriter?



A computer?



Or a miracle?

The Wang Office Assistant is the answer to every secretary's prayers.

Yet at £1,995,* it should also come as quite a relief to bosses.

For that you'll get a word processor that doubles as a typewriter (ask your secretary how useful that is for doing forms and envelopes as well as lengthy documents).

You'll also get a computer. Marvellous for sales forecasts, stock inventory, profit projection and helping your secretary do your expenses.

And you'll get a machine that can be operated by anyone who can type.

Who said the age of miracles was past!

JENKIN PUTS RATES REFORM BEFORE REVALUATION

By PETER PRYKE, Parliamentary Staff

MR JENKIN, Environment Secretary, sought to reassure anxious Conservative M Ps in the Commons yesterday by indicating that there would be no rating revaluation in England and Wales before the Government had completed its promised reform of the rating system.

Revaluation in Scotland has led to escalating rates and strong criticism of the Government. In England and Wales there has been no revaluation, once carried through every four years, since 1973.

Mr Jenkin told MPs yesterday: "The view is now taken in Government that we cannot have a revaluation for England and Wales without reform of the system."

Under questioning, he indicated the Government's preference for reform by some means of poll tax, aimed at widening the range of those who contributed to local services.

This proved less popular with some Conservatives. Mr DAVID HEATHCOTE-AMORY (C. Wells), urged the Minister not to raise public expectations about a poll tax, which was "less atractive" the closer it was studied.

'Fundamental change'

Dr JOHN CUNNINGHAM, Shadow Environment Secretary, said: "Are we now to expect that this Government, having taxed water, energy and health, is about to tax votes as well?"

He asked if the Government really intended to subject local government finance to yet another fundamental change, decided in secret without proper public evidence and debate.

Mr JENKIN replied that there was widespread recognition of the need for a reform of local government finance. The studies that would lead to it were now "well under way."

Replying to criticism of a poll tax, he said the present system was unsatisfactory because in many parts of the country so few people paid towards the cost of local services, while many were able to enjoy the services.

"It is that imbalance which seems to us to be wrong and which any reform must put right."

Asked by Mr TONY BANKS (Lab. Newham N W) if registration for a poll tax would be compulsory, Mr JENKIN replied: "If there is going to be a form of taxation, there have to be laws so that those liable to pay it, pay it."

Mr Jenkin refused to be drawn on the timing of reform. Asked by Mr SIMON HUGHES (Lib. Southwark and Bermondsey) if it would be before the next General Election, or be included in the Conservatives' election manifesto, the ENVIRONMENT SECRETARY said both options were being kept open.

Dr CUNNINGHAM told him that a Labour government would repeal any tax on "people's registration to vote."

Mr JENKIN said it was typical of Labour to promise to abolish something before they knew what it was.

Mr RICHARD TRACEY (C., Surbiton) urged the Minister to give proper weight to the views of business and industry, who paid so much of the burden of rates, in favour of a poll tax.

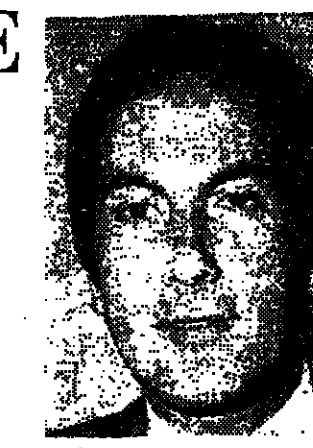
'Need for wider base'

Mr JENKIN said that nationally 60 per cent. of the revenue raised locally came from non-domestic ratepayers, and in some areas it was a higher figure. This led to a weakening in the accountability of local authosities to their ratepayers, and was one of the points the Government was looking at.

What was wrong was that a tax which was propertybased was having to finance so much expenditure not related to property.

"There needs to be a wider tax base if local authorities are to be accountable to ratepayers."

Dismissing a suggestion that the cost of teachers' salaries should be switched to central government, he said it was no answer simply to centralise more spending on the Exchequer.



DR CUNNINGHAM: Labour would repeal tax on registration to vote.

Mr JOHN EVANS (Lab. St People would decimate any political party which sought to impose a tax on the right to vote.

'Fairer' system

Mr JOHN CARTWRIGHT (Soc. Dem., Woolwich) said the injustice of the rating system was made worse in England and Wales because the valuation was 12 years out of dte.

He suggested that in view of the Government's unhappy experiences in Scotland it should look for a much fairer system like local income tax.

Mr ROLAND BOYES (Lab., Houghton and Washington) said a poll tax was undemocratic, being at a flat rate level which the poor and unemployed could not pay. They would not bother to register to vote,

COUNCIL RATE REBELS ARE OUTVOTED

By Our Local Government Correspondent

The fight against the Governments rate-capping proposals is now limited to half-a-dozen London Labour councils followingth e decision of Sheffield City Council to set a rate.

Labour moderates at Sheffield, helped by Opposition councillors, outvoted Left-wing rebels late on Tuesday after a five-hour debate.

The other councils affected will meet before the end of the month—the deadline given by the High Court for Hackney to set a legal rate. Liverpool City Council, which is not rate-capped, has also failed to set a rate.

Editorial Comment—P18

The Alliance 'bought by BSM' claim

By Our Parliamentary Staff

IN return for a £188,000 contribution from the British School of Motoring, Liberal M Ps had sought to obstruct a Bill affecting the driving school's activities, a Labour M P claimed in the Commons yesterday.

Mr DALE CAMPBELL-SAVOURS (Lab. Workington) said that in addition, in the Lords, Lord Tordoff, the Liberal Chief Whip, had moved an amendment seeking to give "financial benefit" to the British School of Motoring.

He quoted Mr Jacobs, the chairman of B S M, as having denied that the £188,000 donation, the largest known to have been paid by a business to a political party, was an attempt to influence the Liberal party.

Amid Labour and Conservative cheers, Mr Campbell-Savours declared: "Mr Jacobs has effectively bought the Alliance."

Procedures 'abused'

Mr ALAN BEITH, Liberal Chief Whip in the Commons, accused Mr Campbell-Savours of having abused the procedures by making an attack on the personal integrity of M Ps under the guise of a point of order.

The SPEAKER, Mr Weatherill, ruled that it was not a matter for him, as declarations of pecuniary interest in the M Ps Register of Interests were confined to individuals and not political parties.

Mr CAMPBELL-SAVOURS said on three occasions Liberal MPs had blocked the progress of a Private Member's Bill, The Road Traffic (Driving Instruction) Bill, passed last year.

They had done this by shouting the word "object", a Commons' procedure for holding up, or in some cases killing, non-Government Bills.

Lords' amendment

The Bill had been about raising standards of driving instruction. It had got through the Commons when Alliance MPs had arrived too late to object.

In the Lords, Lord Tordoff had moved an amendment dealing with the need for instruction for trainee instructors.

Lord Tordoff had said that there was a problem widely felt among driving schools, particularly the larger ones, and had referred to the British School of Motoring.

"They would have been financial beneficiaries if the amendment had been accepted," Mr Campbell-Savours said.

It was clear that a successful attempt had been made to extract a concession from the Government and protect the position of B S M, Mr Campbell-Savours said.

He complained that while he, as an M P sponsored by a trade union, had to declare that interest though not benefiting directly from it, the same requirement did not apply to the Liberals in this case.

MR BEITH: Attack under the guise of a point of order.

"When Liberal M Ps receive, on behalf of their party, £188,000 from B S M, and in return obstruct a Parliamentary Bill and try to get amendments to it in the Lords, not one of them has the decency to declare it to the House."

Mr BEITH said that a curious omission from Mr Campbell-Savours' account was that the amendment in the Lords had received the most fulsome support from the Labour party, and had been designed to make the Bill more effective.

The SPEAKER said that if Mr Campbell-Savours wished to pursue the matter he should approach the Select Committee on M Ps interests.

'NONSENSE' RETORT

'Entitled to give views'

OUR POLITICAL STAFF write: Mr David tSeel last night dismissed as "nonsense" claims that Mr Anthony Jacobs, the B S M chairman, had "bought the Alliance" through B S M's £188,000 donation to the Liberals.

The Liberal leader conceded that rM Jacobs had had talks with Liberal spokesmen about Mrs Elizabeth Peacock's Bill to regulate driving schcools, but said that as party treasurer he was fully entitled to express such views.

Mr Steel said HANSARD showed that the Liberals had not voted against the measure,

PIT 'MURDER' CLAIM

A move by Mr John Ryman (Lab., Blyth Valley) to secure an emergency debate on plans to close Bates colliery, Blyth, Northumberland, failed in the Commons yesterday. He said the closure was "the cold-blooded murder" of Blyth, whose economy depended entirely on the pit.

Today in Parliament

HOUSE OF LORDS

2.30: Local Government Bill, cttee (5th day); Hospital Complaints Procedure Bill, cttee.

HOUSE OF COMMONS

2.30: Debate on the multi-fibre arrangement.

MP SEEKS FLEXIBLE PUB HOURS

A BILL to permit longer and more flexible public house opening hours in England and Wales was given an unopposed first reading in the Commons yesterday, but stands little chance of becoming law, because of shortage of time.

Mr ROGER GALE (C. Thanet N), introducing his Licensing Acts (Amendment) Bill, said licensees would be allowed to open with the consent of the justices for any 12 of the 14 hours between 10 a.m. and midnight.

Condemning the present laws as "antiquated war-time measures" he denied that longer opening hours would lead to more alcoholism.

He was convinced that the problem of alcoholism and problem drinking would not be solved by enforcing quaint licensing regulations, which were inconsistent and abused, but from education.

Insufficient trade

He recalled that on the formal announcement of the end of the War 40 years ago a man moved to celebrate in the afternoon would have been told: "I'm sorry we are closed."

Today, the situation was very much the same, he said. The fundamental difference was that he could now buy a can of beer at an off-licence and drink it outside the pub.

His Bill would allow licensees to close for the hours and days when they felt there was insufficient trade to justify opening.

It would help "out out the welcome mat" in time for the summer tourist season

TORY M Ps TO ADVISE INQUIRY ON TOURISM

By Our Political Staff

An eight-strong committee of Conservative MPs has been set up at the suggestion of Lord Young, Minister without Portfolio, to make recommendations to the inquiry he is heading on the removal of obstacles to the expansion of tourism and leisure industries.

The committee, which is to report within a fortnight, is chaired by Sir Peter Blaker (Blackpool N.), a former Defence and Foreign Office Minister.

Its other members are Mr John Butterfill (Bournemouth W.), secretary; Mr Robert Adley (Christchurch); Mr Robert Banks (Harrogate); Mr Roger Gale (Thanet N.); Mr David Gilroy Bevan (Birmingham Yardley); Mr Conal Gregory (York); and Mr Albert McQuarrie (Banff and Buchan).

'No hope of fair deal' for personal injury victims

By OUR PARLIAMENTARY STAFF

THERE was no hope of new legislation to improve the laws of liability to give a fairer deal for victims of personal injury, Lord HAILSHAM, Lord Chancellor, said in the Lords yesterday.

He was responding to a call by Lord DENNING, former Master of the Rolls, who said present legislation was "riddled with inconsistencies and injustices."

Lord HAILSHAM said he had "given up al hope of removing inconsistencies."

We had to live both with the tort system and the system of setting compensation, and mobility and disability allowances for a very long time, in what was a complex and agonising subject.

But over the last six years there had been improvements in monetary compensation.

"There is a very real advance, amounting to not less than £150 million in the annual expenditure on monetary compensation.

'Living death'

"We have not abolished the inconsistencies and we have never had a coherent policy," he said.

Lord DENNING had urged the Law Commission to draft a Bill updating the law and puting into effect the Pearson Royal Commission's main 1978 recommendations for improvements.

He complained that judges were often faced with an impossibue task in trying to assess damages in road accident cases. They could not forecast how long a person now suffering a "living death" was going to live.

Calling for a "no-fault" liability in accident cases, Lord Denning said damages could easily be paid for by a penny on a gallon of petrol.

Lords supported the idea of "strict liability" in tort against government or local authorities for severe damage suffered by an adult or child as a result of vaccine administered in the interests of the community.

Thalidomide case

He also complained that no action had been taken over the committee's call for an end to duplication of compensation and the offsetting of social security payments against tort awards.

Lord ALLEN of ABBEYDALE (Ind.), a member of the Pearson Commission, opened the debate. He said the plight of the Thalidomide children, more than 20 years ago, had highlighted the need to do much more to make the lives of injured people more tolerable.

But despite the report of the Pearson Commission, which had taken five years to complete, the Government had failed to implement its recommendations.

He spoke of the concern these issues raised for those who were distressed, inarticulate and unorganised members of our society.

Complaining of inconsistencies and anomolies in the social security system he urged that boundary lines should be moved a bit more and questioned whether the doctrines of "strict liability" should be extended to include "innocent damage" where it was hard to establish neglignce.

Lord Allen voiced concern that the former Health Under-Secretary last year said the Government was satisfied that the Act operated fairly and had no plan to extend it, while conceding that the equivalent to the £10,000 compensation limit set in 1979 had even then reached £16,000.

Public sympathy

Yet the same Government justified increased payments for criminal injuries compensation as an expression of public sympathy to the victims of violent crime.

Increases were justified too for vaccine damage.

He urged the Government to introduce promised reform of the industrial injuries scheme.

LORD WINSTANLEY (Lib) said compensation was inadequate for children damaged grievously by vaccine.

He argued that it would be a step forward to ask the Law Commission to draft a Bill to update the law in line with the main Pearson recommendations.

M Ps' CASH PLEA

By Our Political Staff

Forty-two MPs from all parties have signed a Commons motion calling for their secretarial and research assistant allowances to be increased. M Ps currently receive £12,437 a year for secretarial and research help.

AGENCY OPPORTUNITY

We need a person who is energetic, mobile, ambitious and tenacious, preferably aged 22-30 with either extensive direct sales, or employment agency experience.

The job involves travelling the UK with our new "branch opening" team, generation business in new branches and solving problems in existing ones.

SOS Bureau (a subsidiary of Hestair) is a well-established national company of 20 years' standing and is now in the process of rapid expansion into new areas and markets.

In return for your skills, we will offer you an exciting lifestyle, high basic salary, excellent bonus, all hotel and travelling expenses, early prospects of management and the option to eventually settle in the area of your choice.

Please telephone or write to Mrs G. L. Greenwood for an application form at Hestair Management Services Ltd., 1st Floor, 60, Charles Street, LEICESTER LE1 1FB. Tel.: Leicester (0533) 23881.

AN EFFECTIVE C.V. for that competitive edge £30 incl. (0454) 613217.

BUYER/Stock Controller required with experience of sourcing, pricing and chasing suppliers for medium level electrical product manufacturers. Must be used to working under pressure. Please reply to: Mr Leon, Vitavox Works, Westmoreland Road, Kingsbury, London, NW9 9RL.

BUYER

Salisbury

Pains Wessex are leading manufacturers of pyrotechnic products for commercial, marine and military markets worldwide. Product applications include illumination, signalling, decoy, screening, search and rescue.

We are seeking a Buyer to join our small but effective Purchasing Function. Ideally, candidates must have previous experience of buying production piece parts to critical monthly manufacturing programmes.

Applicants must be self starters with strong negotiating skills and a flair for sourcing suppliers.

Applicants should be purchasing professionals but an innovative mind, energetic and determined approach to problem solving are equally important.

An excellent benefits package is offered, including 4½ day week, 25 days annual holiday and assistance with relocation where appropriate.

Please telephone our Personnel Department for an application form on: Salisbury (0722) 20211. Pains Wessex Ltd., High Post, Salisbury, Wiltshire SP4 6AS.

CITY WINE BAR / restaurant, req cap'd mngr. 5 day wk, some evns. C.V. to D. Cutcliffe, 13a Eccleston St. London, S.W.1.

CITY

A vacancy has arisen for a trainee broker. The successful applicant will be aged 23+ and of a smart appearance. No previous experience necessary as full training will be given. For a confidential interview, tel. John Boyle on 01-283 6851.

PRINTING DEPARTMENT MANAGER
REIGATE
SALARY £9,759-£10,389 p.a.

The RNIB, a national charity, exists to serve the blind. One important service is the provision of embossed, printed material.

Due to retirement, a vacancy now arises for an experienced manager for our Moon printing works at Reigate, Surrey. The job calls for several years managerial experience, preferably in a busy printing environment. The successful applicant m/f, will be required to plan and organise all aspects of work from hot metal type production to bookbinding and despatch. The responsibilities also include the management of the 21 staff together with report writing and committee work. The ideal candidate will demonstrate an interest in and flair for the application of computers and new technology to printing. He or she will also have an appreciation of commercial reality and awareness of marketing techniques.

Moon printing is produced to suit the needs of mainly elderly blind people. A sympathetic approach to their needs is essential; some experience of providing a service to the handicapped would be a recommendation.

The package includes subsidised luncheon facilities, NJC terms and conditions of service and an excellent pension scheme.

Suitably qualified candidates, of either sex, should send a detailed CV in the first instance to:

Personnel Officer, ROYAL INSTITUTE FOR THE BLIND, 224 Great Portland Street, London W1N 6AA.

RESERVATIONS CLERK trainee required for Long Distance Tour Operator based in Dorking. Commencing salary £4,500. Aged 19-23 years. Apply stating age, education and experience to Box KC 0134, Daily Telegraph, E.C.4.

RECRUITMENT CONSULTANT

TELECOMS INSTRUCTORS
• £17,600 p.a. tax free Saudi Arabia

Cable and Wireless, the worldwide telecommunications Group, has established a nationwide telecommunications network for the Saudi Arabian National Guard. Training is an integral part of the project and the company operates a training school in Riyadh, where theoretical and practical telecommunications skills are taught.

We now have vacancies for instructors who should be qualified between C & G Full Tech and degree level and have at least three years experience in a technical studies environment as a technician or equipment instructor. An HM Forces, technical college or a manufacturing background is required. We are looking for instructors able to teach in the following areas:

• BROADBAND • HF RADIO • TELECOMS PRINCIPLES

Instructors of equipment must be familiar with "state of the art" in their respective disciplines.

We are offering renewable fixed term 12 month contracts and the salaries quoted are paid partly in sterling, partly in local currency and are based on the current rate of exchange. In addition there is free board and lodging, and frequent leave breaks with all air fares provided.

All applicants must possess a valid UK passport and a current British driving licence.

Please either send full details, quoting ref 776 and your day time telephone number, to: Recruitment Manager, Cable and Wireless plc, Mercury House, Theobalds Road, London WC1X 8RX, or telephone for an application form on 01-405 4980 (24 hours).

TRAINEE TEA TASTER

YOUR DISCERNING PALATE CAN BRING A CAREER TO YOUR TASTE

There's a good deal more to tea tasting than tasting tea. It's a fascinating, progressive career that brings you into contact with all kinds of people at home and abroad.

As Trainee Tea Taster with Lyons Tetley, one of Britain's leading grocery manufacturers, you will learn the ropes at our Greenford head office, with regular trips to the City to attend the London Tea Auctions.

You will be trained in tasting and having skills and will be responsible for maintaining relevant buying records and updating world tea statistics. There is also involvement in the type of teas for blending up to 600 varieties, and overseas visits which entail reviewing the tasting standards of our agents and visiting plantations.

As well as that cultured palate, you'll need personal qualities fundamental to the job-articulacy, personable appearance and discretion. And in terms of formal qualifications, we're looking for at least two GCE 'A' levels. Your 'O' levels must include English, and because numeracy is essential Mathematics.

Starting salary will be £5,915 per annum, with attractive company benefits.

Ambitious, self-motivated young people in the age range 18-25 should apply to:— Mrs T. Bailey, Recruitment Officer, Lyons Tetley Ltd., 325/347 Oldfield Lane North, Greenford, Middx., UB6 0AY. Tel: 01-578 2345 ext. 302.

ACCOUNTANT
MILTON KEYNES
£10,000

Our client, which has been established for 20 years, is the UK subsidiary of one of the biggest manufacturers of plastics injection moulding machinery in Italy. It now needs a practical, computer familiar accountant who will report to the Managing Director and will assist in the financial and administrative functions.

The successful candidate will be aged late 20's upwards and will be commercially experienced. The appointee will handle every financial and administrative task, from writing up the books to assisting in the preparation of management and financial accounts, and preparing all shipping (mainly import) documentation with the aid of existing computerised systems.

For the persuasive, self-motivated individual we seek, there will be every opportunity to grow with and within the company.

Letters of application, together with CV, salary progression and any other relevant data should be sent without delay to Mr C. A. Cotton, Executive Recruitment Division, Stoy Hayward Associates, 3rd Floor, Waterloo House, 20, Waterloo Street, Birmingham B2 5TF, quoting ref: M703.

CAPITALIST CO-OPERATIVE

This is a career redirection with a difference. You will earn while you learn the requisite skills required to succeed in the interesting and challenging world of security. We are not a franchise, and our requirement is planned and limited. The opportunity to develop your own business without the usual financial risk is a genuine statement. You must have impeccable references, a positive career profile. Involvement can be part- or full-time. We are a national British company with high standards of selection. Man-management skills linked with a pleasant personality are essential. Write with full personal details to the Regional Development Co-ordinator, Department CPA3, The Saysafe Organisation, Wardle House, Rise St, Nantwich, Cheshire, or tel. 0565 53578 to request appointment information and meeting details.

AREA OFFICE Manager required by subsidiary of major finance group, preferably aged between 25-40 years with credit sales finance and underwriting experience. The ability to supervise staff is essential, along with skills in telephone communications. Experience in using a VDU would be an advantage. Telephone for application form to: Mrs P. Brooks, R.I.G.P. Finance Ltd, tel. 01-309 0215.

CHIEF ENGINEER
SOUTH EAST
c. £15,000 PLUS CAR

This successful medium sized company, manufacturing and marketing a range of products for food/grocery retail outlets, has a solid financial base and exciting plans for the future. The Engineering function, with a direct reporting relationship to the M.D., is seen as the focal point for future development which will centre upon new plant and equipment, the upgrading of maintenance facilities and control of site services. Ideal candidates will be Graduate or equivalent, 30 or more, and will demonstrate both considerable experience in running a maintenance department for an F.M.C.G. company and the ability to handle people at all levels from shop floor to senior management.

Pease send full career details to Robin Davies, quoting ref. LMS/5021

LINK MANAGEMENT SELECTION,
13/14 Hanover St., London W1R 9HG. Tel: 01-493 5788.

EXECUTIVE SALES
c. £15,000 + car

A major international company marketing micro-imagery products seeks a sales oriented graduate. If you are 25-35, with a successful commission sales record, capable of negotiating contracts over £50K in a service industry moving beyond conventional microfilm systems, then you will find this an excellent career point of entry. Based near Oxford, your task will be to sell a concept, and a continuing service of a customised non standard product to Government, office equipment companies and data banks. Please write detailing age and qualifications under ref. 416/DT.

PETER KENDELL
MANPOWER CONSULTANTS
500, CHESHAM HOUSE
150 REGENT STREET
LONDON W1R 5FA

EXPORT MARKET DEVELOPMENT MANAGER
c. £14,000 + Car

A leading Midlands based company, a brand leader in consumer durables, has created an exciting new position for an Export Market Development Manager.

The ideal candidate aged between 28-38 must have a marketing background as well as export sales experience particularly in North America. A second European language is highly desirable. The ability to formulate and implement market plans is essential.

The Company is totally committed to an expansion of its already substantial Export business and can offer outstanding career progression.

On offer is a basic negotiable salary together with an excellent benefits package which includes bonus, company car and BUPA.

Interested? Then please telephone or write for an application form quoting ref: 3624 to A. R. Bailey, Director, Alba Selection Limited, Tricorn House, 51-53 Hagley Road, Edgbaston, Birmingham B16 8TG. Tel: 021-454 3869.

GENERAL SALES MANAGER

Being a highly successful company with a multi million pound turnover providing windscreen replacement services throughout the country we are now seeking a person of high calibre to control the sales function of our operation and ensure continued growth.

The successful candidate must be able to demonstrate a progressive career to date, be highly motivated regarding their future and have the ability to lead a team of fleet sales executives and franchise service specialists.

A sound knowledge of small business development is important and an understanding of business surname franchising would be a distinct advantage. The position will involve travel throughout the U.K. but residence near to our Coventry Headquarters is desirable. Salary is negotiable around £12,000 p.a.

Write in the first instance, giving career to date and present salary.

All applications in strictest confidence to: The Managing Director, Silver Shield Screens Ltd., 38-42, Holbrook Lane, Coventry, CV6 4AB.

FINANCIAL MANAGEMENT CONSULTANT

You have no doubt seen vacancies for financial management consultants and have perhaps wondered what exactly they entail.

It is a mix of areas in management selling, Life Assurance, Pensions and Investment Planning. However, at Allied Hambro Financial Management it means a lot more.

As one of the country's largest financial institutions we are in a unique position to offer our clients a complete integrated range of financial services, including Portfolio Management and Banking Services. Consequently, we require people of integrity to train for a career in this wider sphere of financial management consultancy.

As we spend over £2 million p.a. on our training programmes we are not so much concerned with your background as with a successful track record and above-average ability to communicate, and a determination to succeed.

We consider well-trained, totally professional people crucial to the future of our business. If you live in London, Home Counties, East Anglia or the Midlands, DIAL 100 today and ask for "FREEPHONE ACHIEVEMENT," and speak personally to one of our Branch Management team.

FRUSTRATED ENTREPRENEURS wanted, to run their own businesses within famous financial services group, full training given. CV to F.E.16256, Daily Telegraph, E.C.4.

HAVE YOU 'ENTREPRENEURIAL FLAIR' CAN YOU RUN A TEAM? AGED 35-48?

If you have the ability to succeed in a sales environment there are some genuine opportunities open to you with a successful, Central London based organisation.

We are seeking to recruit and develop, six high calibre personnel into managerial roles, marketing a proven product.

Why not find out more and telephone: 01-831 8853 between 10 a.m. and 6 p.m. for further details.

INDUSTRIAL CHEMICAL SALES

Areas include London, Surrey, Kent, Dorset, Berks, Hants. Do you want a secure and rewarding future with a professional chemical company. A new division of our manufacturing company has just been formed and we require sales managers and sales people with a proven record in chemical sales.

Salary negotiable, commission, company car, pension scheme, expenses.

If you fit the bill telephone or write to John Maye, 1, Ennerdale Close, Horndean, Hants (0705) 598088 after 6 p.m.

JERSEY, C.I. Finance Director Designate, main Ford dealer, circa £25,000 plus executive car. The successful applicant will have substantial data processing and treasury function experience and the technical skills necessary to lead an established accounting department and will be required to make a significant contribution at board level where management information systems are of importance. A pension scheme is available. Applications with full c.v. to: The Chairman, La Motte Garages Ltd., P.O. Box 374, Jersey, C.I.

LONDON SEALES MANAGER

We require an energetic, go ahead Sales Engineer to service existing accounts and expand our business in Greater London and the Home Counties. The successful applicant would be required to establish a satisfactory relationship across the board with sheetmetal workers, contractors, architects and consultants.

This is a key appointment and offers an excellent basic + commission remuneration package with company car. If you are hardworking, self-motivated and have a background in the air conditioning industry, the earnings potential is considerable. Please write with full CV or telephone:

In support and in conjunction with our retailers we have developed a shop in shop operation and to ensure its continued success we are seeking a Manager, ideally located in Central or South London. This is a senior appointment requiring a good educational background and a proven record of success in retail management, preferably including area responsibilities for a large group or multiple. Salary will reflect the importance of the position and benefits include company car, BUPA and pension scheme.
Write giving full career details, quoting reference E1, to Ann Dickenson, Personnel Manager, Blue Bell Apparel Ltd., Park Road East, Calverton, Nottingham NG14 6GD.

Wrangler

Engineering Design
Negotiable salaries Berkshire

Radyne Limited, a world leader in the design, manufacture and marketing of induction and dielectric heating equipment, from a few kilowatts to several megawatts, are now looking for the following experienced people.

Senior Power Electronics Engineer

To join our team working on the latest techniques in high power inverters. You will concentrate on the design and development of high frequency inverters utilising power bi-polar transistors and/or power FET's, and will enjoy project involvement from conception to completion. Aged 24-38, you should have a degree in electronics with at least two years' experience in the design of bi-polar or FET switching circuits and ideally experience of the design of switchmode power supplies, UPS systems or choppers.

Mechanical Design Engineer

Joining our Heat Treatment Division, you will be involved in the design of mechanical handling machines and carry responsibility for the mechanical aspects of OEM projects from proposal through to commissioning. Specification of ancillary services, cooling water systems, hydraulics etc., together with cost estimation are also important. Ideally aged 28-45 and qualified to HNC or equivalent in mechanical engineering, you should have at least five years' experience in the design and manufacture of special purpose machines.

Remuneration packages for both posts are negotiable.
Please apply with full cv to: Mr D J Fry, Personnel Manager, Radyne Ltd., Molly Millars Lane, Wokingham, Berkshire RG11 2PX.

Field Sales Manager
Commercial Vehicles
Attractive salary + car

Trico has the enviable position of being a market leader in the manufacture and supply of windscreen wiper and associated equipment. But we're not content to rest on our laurels. We're going out to win new orders. As part of this drive we are seeking a Field Sales Manager to take over the responsibilities of developing selected areas of the heavy goods and commercial vehicle side of the company's business. Applicants must be self-motivated, have negotiation skills, be able to obtain results, and ideally have a technical/engineering background. The successful applicant can look forward to a demanding, yet interesting career with a progressive company enjoying excellent employment conditions including a pension scheme, life assurance and 25 days' annual holiday.
Please write, enclosing a full cv to: Personnel Executive, Trico Folberth Ltd, Great West Road, Brentford, Middlesex TW8 9HP. Tel: (01) 560 2111 Ext 234.

TRICO

General Manager
c£15,000 + generous bonus + car NE Hants

This privately owned company has a reputation for the quality of its industrial furniture and equipment that is unsurpassed. Being small and closely knit and effective in its sphere of operations there are significant opportunities for expansion into new markets. You will be expected to prove your ability to lead the company forward with confidence, and will therefore probably be qualified with a degree in engineering, marketing or economics. Your main experience will probably be in sales and marketing, but must include knowledge of finance and the preparation of budgets and targets, together with overall management of a professional and customised service. An attractive salary in the region of £15,000 pa plus company car is coupled with the addition of a generous bonus which is paid on results.
Contact Steve Cope, PER, 62/64 High Street, Southampton SO9 2EG. (0703) 38211.

Sales Development Executive
Packaging
c£12,000 significant bonus + car S Wales

Our client, a major supplier of raw material to the packaging industry (home and export) has initiated an aggressive programme to strengthen its business position by exploiting the known advantages of its product compared with other raw materials for packaging. Following early promotion an opportunity has arisen in the sales development team for a packaging specialist. Reporting to the Manager Market Development the successful candidate will be required to sell the company's products by direct contact with packaging buyers and specifiers involving development of personal relationships and liaising on a regular basis. The work involves the development of promotional strategies, devising and designing market studies and executing programmes. Candidates, ideally early 30's, educated to degree level, must have experience of related work in a competitive commercial environment and a knowledge of the packaging industry and packaging design. Personal qualities should emphasise persuasive ability. Fluency in a European language is desirable. Benefits include car, company performance bonus, good pension scheme and 23 days' annual holiday.
Send full cv to Margaret Gripton, PER, Third Floor, Grove House, Grove Place, Swansea SA1 5DH.

Maintenance Supervisor
Competitive salary Hyde, Cheshire

Manufacturing high quality fresh meat products, the Wall's Meat Company need an experienced engineer with genuine managerial ability to control a small team providing a full breakdown maintenance and installation service on a two-shift system. Aged 25 plus and preferably with HNC level in electrical or mechanical engineering, you must have relevant experience in a fast-moving production environment-ideally involving sophisticated manufacturing and packaging equipment. This is an excellent opportunity for a talented and ambitious engineer to develop a management career with a major company operating in a rapidly changing and very challenging environment. The competitive salary will be supplemented by attractive shift allowances and benefits and there are excellent future prospects with this successful company which is part of the Unilever Group.
Send full cv to Neil Ewart, PER, Lowry House, Marble Street, Manchester M2 3AW.

Walls

Personnel and Training Officer
c£9,000 South Warwickshire

Required by an international leader in the manufacture of pneumatic control equipment to be responsible for all aspects of recruitment and training. Aged 25-40, preferably with a professional qualification in personnel & training, previous experience within an engineering environment plus a knowledge of the EITB requirements on the training of apprentices. Benefits include relocation assistance.
Send full cv to Martin Woodall, Personnel Department, IMI Norgren Enots Ltd, Campden Rd, Shipston on Stour, Warwickshire CV36 4PX

Application Engineer
Defence Systems

Our client is a world leader in the manufacture of diesel engines, with a large production plant in the North of England. The position is established to provide technical advice, direction and assistance concerning the installation of diesel engines and land and marine-based defence equipment. The successful candidate should be a time-served mechanical engineer, educated to degree or equivalent level, or hold an HND in mechanical engineering and have substantial work experience in the tactical defence equipment field. It is therefore anticipated that applicants will have a thorough knowledge of diesel engines, their application and support systems, their development and field testing. Other aspects include clear reporting and presentations at all levels for both management and customer. This is a permanent position under strict security conditions, with an attractive salary and benefits befitting a major international company.
Please write, quoting ref 4878 and stating the names of any companies you do not wish your application forwarded, to: Gillian Kinnear, Riley/MCS Recruitment (East) Limited, 17 Portland Terrace, Jesmond, Newcastle-upon-Tyne NE2 1QQ.

Sales Engineer
£12,500 - £15,000 50 mile radius London

To sell our range of copper-clad laminates for the PCB industry. Preference will be given to candidates already in this field but we will consider applicants with a proven record of technical sales.
Please send full cv including present earnings to: Mrs E M McClure, Personnel Manager, AEG-TELEFUNKEN (UK) Ltd, 217 Bath Road, Slough, Berks SL1 4AW. Tel: Slough (0753) 872350.

AEG-TELEFUNKEN

Engineer
Manufacturing Methods/Management
Five figure salary + car Sittingbourne

Few British engineering companies have achieved such dramatic growth. My client was established in 1972 and remains production orientated with a dynamic approach to marketing and selling. They are exporting to well over 30 countries and in 1979 received the Queens Award for Exports and in 1980 received the Export Award for Smaller Manufacturers. Recently they have invested over £½ million in computerised numerically controlled equipment to complement the existing more traditional plant and machinery. The company is well known internationally for its full range of industrial and commercial door products. The company are seeking a talented production engineering manager, who will be responsible for the improvement and development of product design and manufacturing methods, as well as exploring new product ideas. Expertise will be required in establishing accurate cost information for the predominantly special made project work. Applicants must be qualified engineers (probably chartered) with experience in all aspects of modern sheet metal working and fabrication methods, including CAD/CAM and CNC/NC, coated and stainless steels, welding and adhesives. It is essential that candidates are experienced in staff management at a senior level.
Send full cv to Barbara Hunter, PER, 5 London Road, Maidstone, Kent ME16 8HR.

Area Sales Manager
Salary + comm + 1600GL car S Coast

This long established company specialises in the distribution of top level quality precision machine tools. An Area Sales Manager is required for the South Coast. Reporting to the Sales and Marketing Director you will be responsible for identifying new sales opportunities; establishing contacts; maintaining and building existing customer relationships. Extensive travel throughout the area is involved. Aged 30-45 you need knowledge of the area, practical mechanical/production engineering background and a successful track record in selling similar products. Your reward is a salary of £8,000 + with realistic earnings potential of £13,000-£17,000 plus contributory pension.
Send full cv to Nadine Wiltshire, PER, 5 London Road, Maidstone, Kent ME16 8HR.

Area Sales Manager
Yorkshire/North East

An opportunity has arisen for an ambitious self-motivated sales professional to join one of the UK's largest self-assembly kitchen and bedroom furniture manufacturers. The job is to consolidate and increase distribution of the company's product ranges through builders merchants, kitchen retailers, DIY centres etc, in Yorkshire & North East - North Yorkshire, Humberside, Teesside and Tyne & Wear. The successful candidate will be rewarded with a good basic salary, along with a generous incentive package. A company car will be provided as will all out-of-pocket expenses. Whilst experience in this industry is desirable, your sales ability and total commitment to the company's success are most important. Interested?

Sales Executive - O E
Automotive
South East

An internationally operating company, manufacturing and marketing a high quality range of vehicle components, seeks an experienced Sales Manager to head a sales division selling to the European original equipment market. The company's products are recognised as brand leaders and are well established with vehicle manufacturers world-wide. The selected person must have existing contacts with European vehicle manufacturers, with specific reference to the OE side. He/she must be capable of planning, motivating and generally leading a small but successful team of OE Accounts Sales Managers and should have sufficient technical aptitude/knowledge to liaise with the engineering division. As an executive of the company, with direct responsibility to the Board, the selected person must be able to make a general management contribution towards achieving the company's objectives. The Executive will administer the entirety of the OE sales department's activities and will initiate his/her own foreign travel, with the probability of minimum, monthly frequency. An attractive employment package will be offered and will include a realistic salary, company car, contributory pension and free life assurance, removal expenses and general benefits appropriate to the status of the post.
Please apply, in writing, giving all relevant details, including salary requirements, to: Riley Confidential, Old Court House, Old Court Place, Kensington, London W8 4PD. Please quote Ref D/L/851.

Maintenance Engineer
c£12,000 Enfield, Middlesex

Part of an international group, this company is a leading pharmaceutical chemical manufacturer and major supplier to the National Health Service. An Engineer is required to manage the maintenance operation in this batch chemical plant. Operating in a unionised environment, the Engineer is responsible for motivating a team of supervisors, fitters, electricians and instrument craftsmen in the task of both planned and breakdown maintenance work which takes place on a 24 hour seven day basis. Additionally there will be involvement in new installation and project work of a widely varied nature. Candidates, preferably aged 30-45 years should be degree qualified mechanical or chemical engineers with relevant experience in planned maintenance procedures and budgetary control. The company offer an attractive starting salary, private health insurance and other benefits consistent with being a major company.
Send full cv to Tony Culpin, PER, London North, 4th Floor, Rex House, 4-12 Regent Street, London SW1Y 4PP.

Managing Director
Packaging
Negotiable salary + car Scotland

This is a challenging appointment with a small, well established company in the flexible packaging industry, for a person who can demonstrate drive, determination and ambition. The company, which is a member of an international group, prints and coats packaging films. This is an exciting opportunity for the right person to take over the running of this company, with plenty of responsibility and commensurate rewards. The international group practices decentralisation to the local management level in most matters. The successful candidate will be personally responsible for the day-to-day running of the business in all its disciplines through a small team of Directors and Managers. The successful applicant will have had extensive experience at senior management/executive level within the converting industry, or an allied field, and is likely to be educated to degree level. The conditions of employment are extremely attractive, including generous relocation expenses, BUPA and full use of company car.
Send full cv to Pam James, PER, Victoria House, Ormskirk Road, Preston PR1 2DX. Tel: (0772) 59743.

UNITED KINGDOM ATOMIC ENERGY AUTHORITY

Scientists & Engineers for Energy Efficiency Innovation

to £13,000

Harwell's Energy Technology Support Unit (ETSU) acts for the Department of Energy in formulating and managing programmes of research, development and demonstration to improve the efficient use of energy and to explore renewable energy sources. The Unit is seeking additional staff to work on energy efficiency, particularly in industry and commerce. The work is sponsored by the Department's Energy Efficiency Office, which has set challenging energy saving targets projected into the 1990's. It involves the critical technical and commercial assessment of new ideas, the joint development with industry of proposals for government assistance, and the management of approved projects, followed by marketing and promotion to encourage replication investment in successfully demonstrated technology.

Applications are invited from professional scientists and engineers who wish to join the multi-disciplinary team carrying out this exciting and demanding task.

Applicants will:
- preferably be in their mid to late 20's;
- possess a good honours degree or higher qualification, preferably followed by some technical or marketing experience in industry or commerce;
- need to show that they have the potential to lead discussions at senior level with industrialists and government officials about technological development, marketing, capital investment and related policy issues.

Harwell is the largest research establishment of the United Kingdom Atomic Energy Authority, set in the Oxfordshire Downs midway between Oxford and Newbury.

In addition to competitive starting salaries, which for these posts are in the range of £8,000 to £13,000 pa depending on age and experience, the Authority offers good career development prospects, generous leave arrangements and contributory pension scheme. Relocation expenses may be available.

For further information and an application form write to: Jenny Mason, Recruitment and Manpower Branch, Harwell, Oxon OX11 0RA or telephone Abingdon (0235) 24141 ext. 2614 (24 hour answering machine).

Please quote reference D/1767.

HARWELL

Ambitious Young Professionals

Fast Lane to Commercial Management

Our client has a track record of technological excellence combined with commercial success. It is a combination that offers men and women in the commercial field the opportunity for fast career progression.

These new appointments involve contract negotiation with prestige clients, notably the MOD, civil authorities and overseas customers.

Working in a small team of professionals you will steer the contractual aspects of a tender and ensure subsequent compliance, including changes and modifications. The 'bespoke' nature of these complex projects demands continual interface with our engineers and the customers. The visibility of the role quickly exposes management potential.

As a graduate in Business Studies, Law or Economics, this is what you, at under 30, need to build on your 3--4 years' commercial experience and fuel your drive for business and personal success.

Highly negotiable starting salaries, provisionally to £14k but more for exceptional candidates, will be enhanced with various benefits, including assistance with relocation to the south-east.

Please send your cv to Confidential Reply Service, ref ACA 9215, Austin Knight Advertising Limited, London W1A 1DS.

Applications are forwarded to the client concerned, therefore companies in which you are not interested should be listed in a covering letter.

INTERNATIONAL TELEPHONE SALES

Circa £15-35,000 London/New York

International publishing company requires experienced telephone personnel (with year book advertising or financial/insurance sales). To ensure our continued growth in a highly lucrative overseas market. Contact Mr Howard for an immediate appointment 629-1703.

ENGINEERS

When we say "major expansion of business" we mean it!

COSTAIN PETROCARBON LIMITED is a leading British Company specialising in the Engineering, Project Management and Construction of a range of Chemical and Nuclear Process Plants on an international basis.

The recent award of several major contracts which, in some cases, continue into the next decade has created vacancies for high calibre engineers in the following disciplines:

Process
Instrument
Electrical
Mechanical (including remote handling)
Heating and Ventilation

Qualified to degree or equivalent level, or with membership of a senior professional institution, applicants should have around five years' design experience in their disciplines. Knowledge of the Nuclear industry will be an advantage for the current vacancies.

Appointment level will be dependent on qualifications and experience and commensurate salaries will be offered. The remuneration package will include a comprehensive range of benefits appropriate to the subsidiary of a large British plc. Relocation expenses will be offered if applicable.

These opportunities offer a stimulating and challenging career development with us helping to spearhead our expansion into the 1990's.

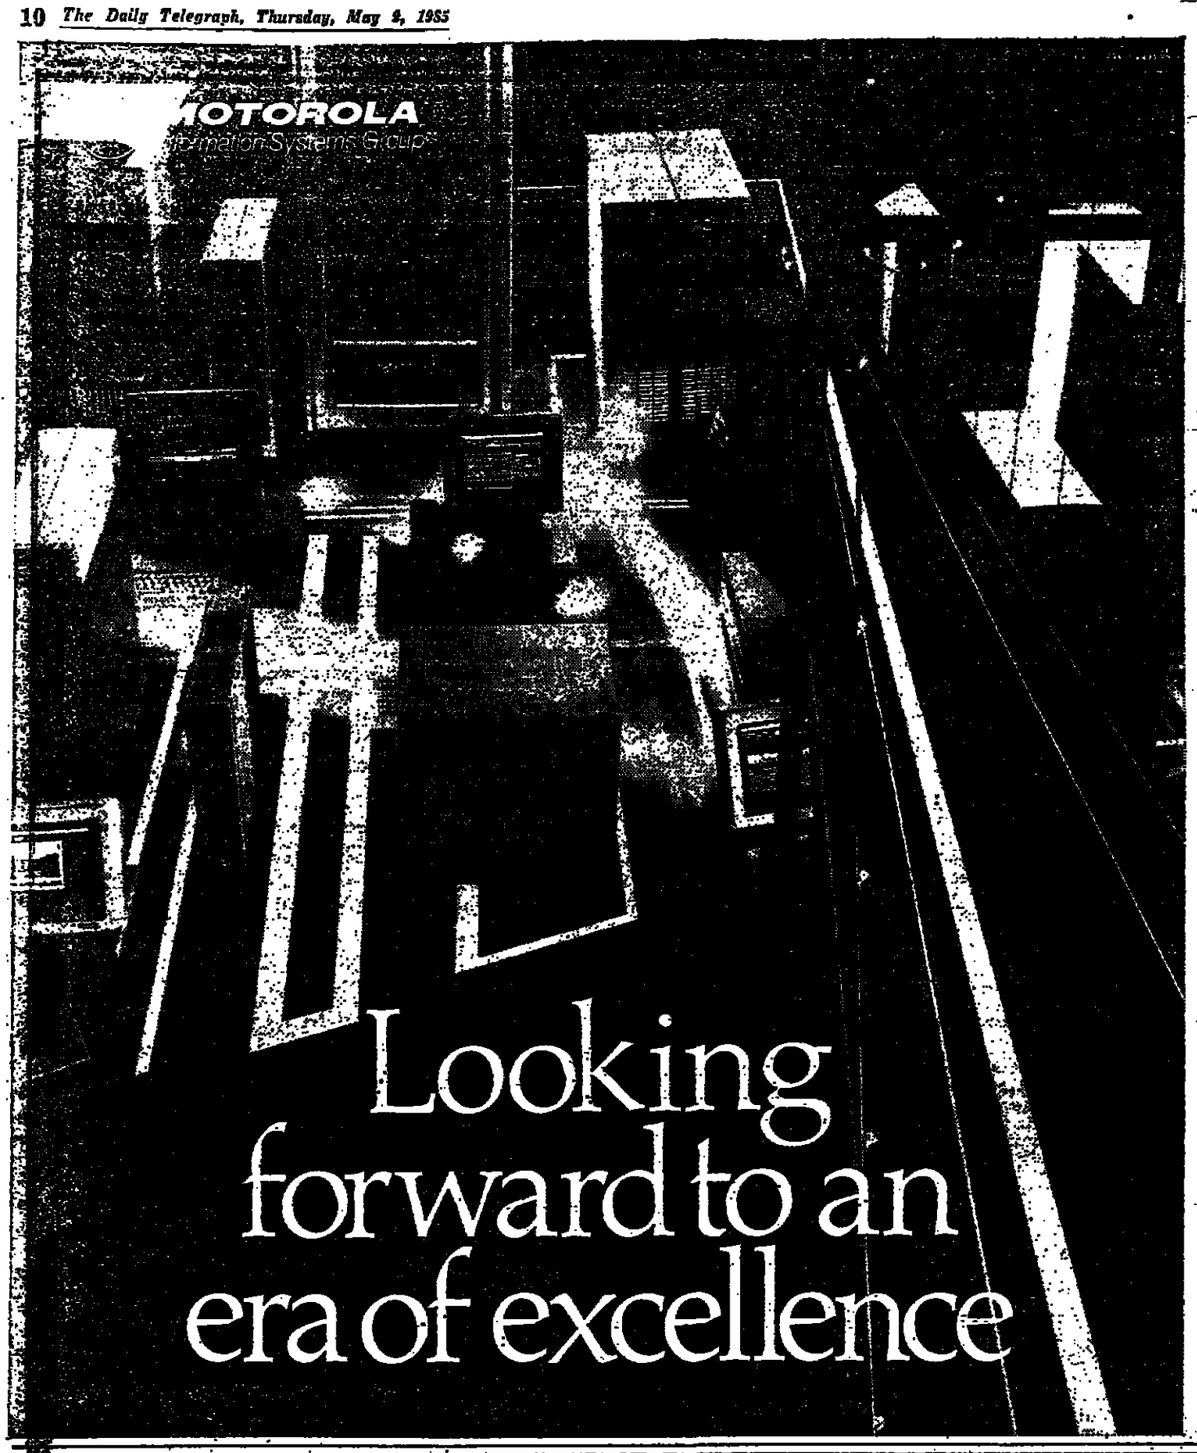
The positions will be based in our offices in Woking which has excellent road and rail links.

Male or female applicants please write enclosing a detailed CV to: Personnel Department, Costain Process Limited, Costain House, West Street, Woking. Tel: 04862 27911.

Costain is an equal opportunity employer.

COSTAIN PROCESS

COSTAIN PETROCARBON LIMITED



Distributed dataprocessing, automated office equipment, datacommunications networks. Premier high technology products that transcend the needs of today to pre-empt the demands of tomorrow.

Commitment to growth; the will to succeed.

Enlightened, participative management style.

People who are both resourceful and aggressively committed to making outstanding ambitions a reality.

These are just some of the reasons why Motorola in Europe – a quality company and a leader in information processing and systems communications – is looking forward to an era of excellence.

Can you say the same about your career?

Sales Executives

Datacommunications

The quality of our products must be reflected in the sheer professionalism of our sales personnel.

That's why you must be a winner.

A highly determined individual with a blue-chip background and the proven sales ability to enhance existing accounts and develop new business.

Experience in datacommunications or related fields such as telecommunications is preferred.

Applications Engineers

Sales Support

Technically adept, socially skilled, willing to accept any challenge.

That's the kind of style demanded of our Applications Engineers – men/women with proven experience in one or more of the following: Communication network design • Multiplexing techniques • Protocols including X25 • IBM SNA • Local area networks • Network management •

From the profiles above, you can see that we're looking for *only the best.*

If you're one of them, you can be assured of rewards to match your considerable talents.

An excellent compensation package – and career prospects that are genuinely second to none.

Opportunities exist in the UK in Berkshire, the Midlands, North and Scotland. So if you recognise yourself as one of the pacesetters of the industry, let's talk.

Call our UK headquarters on 01-669 4343, ext. 250. Or send your c.v. in confidence to: Mrs. G. Sparks, Personnel Department, Motorola Information Systems Limited, Chervil House, 28 Stafford Road, Wallington, Surrey SM6 9AL.

MOTOROLA
The Information Community Architect

– REAL TIME? . . . THEN DON'T MARK TIME

You will know that Real Time Programming is the ultimate in software art. But you should also know that the best way to build on your experience is to join this world-renowned company as famous for its data handling systems as for its emphasis on individual career development into the élite of advanced electronic systems. As a

SENIOR ANALYST PROGRAMMER

you will be prepared to lead a team or manage the whole software content of an individual project. Ideally, your experience will include CORAL, Assembler, ADA, PASCAL or MMI and you will expect to make vital advances in:

- **System Design**
- **Feasibility Studies**
- **System Configurations and Resource Requirements**
- **Standards and Codes of Practice**
- **Organisation of Systems Test**

These career advancement posts are all based in the South East and relocation allowances are generous. Opportunities to travel overseas occur frequently. **Junior Programmers,** too, are required as well as those capable of carrying responsibility at **Consultant** level with salaries up to

£19,000 p.a.

and a substantial benefits package.

Don't mark time, instead make the time to ring Eric Kirk **NOW** for an informal discussion on **01-439 9241** or write to him in the strictest confidence enclosing your detailed c.v. at

Classicae Management, Liberty House, 222 Regent Street, LONDON W1R 5DE.

Engineers

For Speciality Chemicals Production

Bristol and London

I.S.C. Chemicals, which is part of the R.T.Z. Chemicals Group, at Avonmouth, Bristol, has built an international reputation for innovative process development in speciality fluorine chemistry.

The Company is expanding its production of high purity speciality chemicals which are used in a wide variety of electrical, electronic and pharmaceutical applications, the majority in export markets.

Positions are available in Bristol for:-

Mechanical Engineers

To supervise and develop the maintenance of continuously operating manufacturing plants with particularly demanding materials technology requirements.

Instrument Computer Engineer

To implement the latest techniques in process instrumentation and computer control of both continuous and batch manufacturing processes and to develop and supervise appropriate maintenance procedures.

A position is also available at our associated company, Berk Spencer Acids, Stratford, London for:-

Mechanical Engineer

To be responsible for maintenance and capital expenditure programmes in continuously operating plants manufacturing very high purity acids and inorganic chemicals.

Applicants should preferably be graduate or chartered engineers with a minimum of three years industrial experience in the chemical or similar industry. They should have an aptitude for man-management and enjoy the challenge and responsibility of working in a small company environment.

I.S.C. Chemicals, employs about 500 people at its Avonmouth site and 200 at Stratford, London.

A competitive salary will be offered, depending on experience, together with a high quality pension scheme, life insurance, profit sharing and 24 days annual leave. Assistance will be given towards the cost of relocation.

ISC CHEMICALS a member of the RTZ Group

For further information, please write to: Mr. K. Drabble, The Personnel Manager, I.S.C. Chemicals Limited, St. Andrew's Road, Avonmouth, Bristol BS11 9HP.

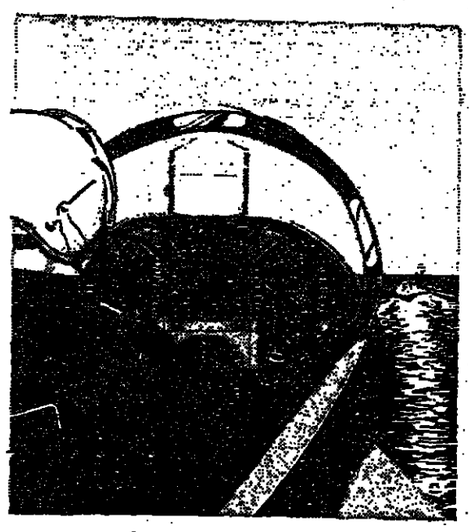
هكذا من الاصل

ENGINEERS to $55,000

Create the aircraft cockpit of the 21st Century in...



...California USA

Our client is one of the world leaders in presenting real-time information to pilots making critical flight decisions. They are dedicated to producing advanced CRT display systems and as part of their current expansion programme, exciting openings now exist in the following areas: holography, optics, raster graphics, image and signal processing, real-time software and algorithm development. You will have the advantage of working in one of the most prestigious electronics locations in the USA – Silicon Valley – with a benefits package that is outstanding.

Mechanical Engineering Manager

Manage a staff of 5-7 Mechanical Engineers and Designers performing conceptual and detailed design/analysis of complex State-of-the-Art airborne electronics CRT displays for multi-project avionics. 8 years' recent applicable design experience in electronic military equipment with BSME or equivalent required; CAD/CAM experience desirable.

Mechanical Design Engineers

Challenging openings exist in the mechanical design of military airborne displays electronics; you will solve problems that arise in installation, packaging performance and analysis. Some CAD/CAM knowledge would be an advantage.

Digital Design Manager

Key management opportunity to assume responsibility for all design and development of digital processing equipment utilized in military avionic cathode ray tube (CRT) displays. Minimum 10 years' digital design experience using State-of-the-Art microprocessor technology (68000, Z8000, 8086 or the Z900 microprocessors) plus at least 2 years' management level experience with a BSEE or equivalent. To direct a staff of 20 Engineers and Technicians.

Digital Design Engineers – Raster Graphics

Definition and development of a digital hardware design for image processing display system. Requires 5 years' experience in digital design of graphic display hardware. Project lead exposure helpful.

Avionics Systems Specialists

As a high level Technical Director on airborne CRT display projects, you will utilize your experience to direct the application of holographics, digital signal processing, sensor capabilities colour and other State-of-the-Art design techniques for sophisticated electronic equipment. Minimum 10 years' recent applicable experience with BSEE or equivalent required.

Display Design Engineers

You will be involved in Analogue and Digital circuit design and analysis as well as specification of CRTs and HVPS and video processing. Also required is knowledge of electronics optics correction, deflection and dynamic focus amps.

Analog Circuit Design Engineers

Design multicolour CRT displays using shadow mask, beam penetration, beam index techniques plus holographic head-up displays for the future. 8-10 years' design experience in applicable technology plus BSEE or equivalent required.

Each of the above requires a degree level qualification in a relevant discipline together with a minimum of 3 years' experience. These positions carry outstanding negotiable salaries of up to $55,000.

Our client offers 29 days' paid holiday per annum, a profit sharing scheme and a Stamford University in-house advanced degree programme.

In addition, you can expect relocation expenses, medical, dental, life assurance, pension plan and assistance with further education. All the necessary visa and travel arrangements will be made for you and your family.

Please send your CV urgently or ring for an application form: S. Ludlow, Moxon Dolphin & Kerby Limited, 178-202 Great Portland Street, London W1N 5TB. Tel: 01-631 4411 and quote reference DT/3199.

INTERNATIONAL SEARCH AND SELECTION

OPPORTUNITIES IN MANUFACTURING

Imagination and achievement in Automation technology has been the key to our new electronics Manufacturing facility; incorporating state-of-the-art on-section techniques, robotic assembly and ATE, this advanced factory will be "up and running" by the end of this year. With the wider applications of fully computerised materials handling, MRP and automatic guided vehicles (to name but three areas) to follow over the next two years. We're taking efficient automation as a total concept to the furthest reaches.

As for the following opportunities it's unlikely that you'll see anything comparable in terms of challenge and career potential.

Opportunities exist in the following areas:

Manufacturing Operations Management

You know high volume, high integrity PCB manufacture inside out. Hands-on experience – meaning your ability to keep a sophisticated manufacturing operation running smoothly and profitably – forms the backbone of your career. Your expertise is such that you'll be able to provide technical leadership by example. In addition, the business acumen you have developed means that you will be the lynch pin in the planning and execution of the subsequent phases of development.

Most probably in your 30's, youre ready to take Senior Management responsibility for an expanding team in a rapid change environment. The drive to efficiency over the initial period will stretch the knowledge and ability of the most accomplished professional, dictating that youre an effective problem solver with an impeccable high tech manufacturing pedigree.

Industrial Engineer

Not a traditional Production Engineer by background, you might well have started your career in Design or Development. You'll certainly be familiar with Robotics/Automation Technology, be it process planning, programming or maintenance, together with applications experience that falls within high volume manufacture.

The role we can offer you is also a little different, due to the sophistication of the equipment to be used. You'll be assuming ownership of projects from initial identification right through to manufacturing and beyond, meaning that your role will evolve with the plant, into manufacturing. Naturally the degree of specialisation you'll develop makes this an outstanding career prospect.

Probably in your late 20's you'll have a degree or HNC backed by solid relevant experience, with the drive and commitment to make the most of a rare career challenge.

Quality Assurance Management

With new products and new manufacturing techniques, Quality has a most vital role to play in the coming years. By the very nature of the industry your products have to conform to the tightest specification – a specification which we believe in surpassing.

You'll be concentrating on Assurance more than Control, particularly during the development phases, although the ability to take a broad management perspective is also a fundamental asset. As for background, youre probably in Q.A. and definitely in a high volume electronics environment. We can offer you great career potential, in one of Europes most fascinating manufacturing facilities.

The importance of these key roles is paramount to our investment programme and is therefore reflected by the remuneration packages on offer. So if you believe youre up to it, you owe it to yourself to call.

Ian Crane, our Personnel Manager, will be here to talk it through with you between 4pm and 9pm today, Thursday, or during business hours weekdays on 0394 275842.

Alternatively, send your career details in confidence, to Peter Greenfield at Macmillan Davies, The Old Vaults, Parliament Square, Hertford, Herts. SG14 1PU.

Forging Ahead Where Others Must Follow...

Sangamo metering

A Schlumberger Company

Graham Barwell, Personnel Officer - Staff, J C Bamford Excavators Limited, Rocester, Uttoxeter, Staffs. ST14 5JP. Tel: Rocester (0889) 590312.

TECHNICAL REPRESENTATIVE/TRAINER

JAGUAR CARS - SOUTH OF FRANCE

The Jaguar Legend is a Legend built on engineering excellence. Originality that first found expression in the SS100 soon earned us race-track glory with the 'C' and 'D' types.

Today that winning tradition is once again driving us to the Victor's rostrum...

Last year saw the fabulously fast XJS win the European Touring Car Drivers Championship and the sleek XJR 5 challenge the honours at Le Mans. On the road, too, Jaguar's superb range of luxury performance cars are winning new customers.

The unprecedented demand for our products is reflected by the Company's return to private ownership and by our sales figures which in overseas markets alone were up 17 per cent in 1984 — setting a new export record.

Jaguar Cars is, therefore, re-establishing its presence and its Distributor in France and wishes to appoint a top calibre Technical Representative and Trainer to be based in Marseille and provide a key support service to our distributor network covering the South of France.

A comprehensive knowledge of Jaguar's product range is, therefore, essential and this should ideally have been gained within the service operation of a major distributor or dealer.

To permit a ready exchange of information between personnel at all levels — both in France and the UK — you must be fluent writing and speaking both French and English.

Salary is C. 150,000 Francs per annum.

If you think your standards of excellence can match ours please write in confidence with full career and personal details to:-

Jaguar France S.A., BP 47,
92302 Levallois-Perret Cedex, France.

JAGUAR

MARINE SEISMIC PERSONNEL

GECO (UK) LIMITED are currently expanding their UK operation and require both experienced and trainee personnel for the following positions.

TECHNICIAN/OBSERVERS. — Minimum qualifications: HNC. BSC preferred, in Electronics / Computer Engineering or relevant experience.

NAVIGATORS. — Minimum qualifications: HNC, BSC preferred, in Electronics/Computer/Surveying.

—Competitive salary commensurate with qualifications and experience starting at £16,800 for Observer/Navigator level.

—A leave system of 4 weeks on/4 weeks off is generally operated for vessels working in northern European waters. 6 weeks on/6 weeks off for vessels working outside these waters.

—Travel expenses are paid to and from the vessels.

—BUPA health insurance.

—Non-contributory pension scheme.

The successful applicants would be required to operate and maintain state of the art equipment onboard our fleet of seismic vessels worldwide.

Please send cirriculum vitae to:

GECO UK LIMITED,
MARINE DIVISION,
THE GECO CENTRE,
KNOLL RISE,
ORPINGTON,
KENT,
BR6 0XG.

GECO

Senior Engineers

CALTEX

Overseas Oil Refineries

The Caltex Group of Companies conducts widespread oil refining and marketing operations in the Middle East, East and South Africa, Asia and Australasia and is seeking well experienced qualified personnel with proven potential for advancement within the Group.

Candidates probably aged between 35 and 45 years should possess a University degree preferably in Chemical or Mechanical Engineering with at least 12 years practical, technical and administrative experience in an Oil Refinery, of which 5 years would have been at senior level.

Senior Engineer – Refinery Operations

Embraces responsibility for on-going refinery operations including Processing, Power Generation, Utilities, Operations Planning, Tank Farm, Wharf Terminals. The Refineries concerned are rated up to 250,000 bpcd capacity and most have comprehensive downstream processing including Catalytic Cracking, Hydrocracking/Desulphurisation, Naphtha Catalytic Reforming, Asphalt manufacture etc.

Senior Engineer – Maintenance

Responsible for management of maintenance work in a large refinery with associated utilities plant, shipping facilities etc embracing plant maintenance, shutdowns and workshops.

The above positions command excellent salaries and comprehensive benefits including free housing and education assistance. All overseas assignments are on a family basis.

Please write giving full personal details and career history to:-

Personnel Relations Department,
Caltex (UK) Limited,
Griffin House,
161 Hammersmith Road,
London W6 8BS

or telephone Mrs S. Harris on 01-748 6565 for an application form.

MAJOR ACCOUNT MANAGERS

FOOD SERVICES — c £16,500

Based: A: Manchester/West Riding B: S.E. England C: Scotland

Our Client is the U.K. subsidiary of an international food group whose innovative and creative reputation in the catering food service industry, is reflected in substantial turnover and market leadership.

As part of a major development programme they seek to appoint three additional Major Account Managers who will be responsible for not only the trading performance of a number of wholesale distributors, but negotiating regularly with Senior Field Executives of major catering and food service operators, the introduction of new products and promotions. From these activities the Major Account Managers will plan, organise and evaluate the performance of a small team of sales development personnel covering the larger catering installations.

The successful candidates aged around 30, will be either Major Account Managers with previous man management experience or Area Sales Managers with experience of account negotiations.

A history of achievement within a blue chip training orientated FMCG company, implementing strict sales force and financial controls will be mandatory. Experience of the catering industry, although desirable, is not as important as a record of achievement in developing business negotiations at a senior level. Self discipline and the ability to work on your own initiative together with the commercial acumen to contribute to the overall development of the business are the personal qualities our Client is looking for.

The basic salary is around £16,000 per annum with a performance related bonus, prestigious car together with the usual fringe benefits associated with an international group.

If you think you can fulfil this role and possess the necessary qualification and experience, please send a C.V. without delay, quoting Ref No: KJ/2004 to:
Michael Maule or John Griffin, Illingworth & Associates,
Executive Selection Consultants, 2, Church Street, Burnham, Bucks. SL1 7HZ.

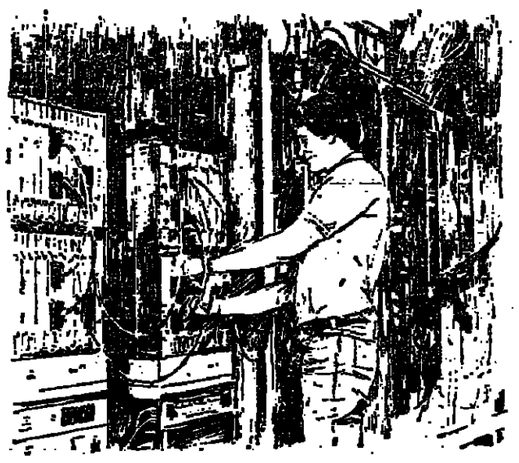
We are also specialists in "Outplacement" for organisations, through our Group Company Lander Corporate Services Ltd.

PABX ENGINEERS



European support for the World's top digital seller

Maidenhead base

Northern Telecom Limited is a leader in telecommunications technology and the world's largest supplier of fully digital telecommunications systems.
4.6 million lines in service or on order across some 60 countries have given the SL-1 fully digital PBX the world lead in the highly competitive voice and data communications market.
This expansion is creating career opportunities for additional Customer Support Engineers to work from Maidenhead and supply post-sales engineering support across our European customer base. Regular travel can therefore be anticipated.

European travel

A proven telecoms engineer with relevant Degree/HND/HNC/TEC qualifications, you should preferably have an SPC PABX support background supported by fluent communications skills, and the ability to grasp new technologies quickly and thoroughly. Full product training will be provided.
Northern Telecom operates a comprehensive salary plan which rewards and recognises an individual contribution to the company, plus an extensive benefits package including relocation assistance where necessary.
For further information please write to or telephone

Colin Luker, Recruitment Manager, Northern Telecom plc, Langton House, Market Street, Maidenhead, Berkshire SL6 8BE. Telephone Maidenhead (0628) 35031.

Northern Telecom is an equal opportunities employer

Field Sales Engineers

Improve your track record in the Industrial Controls market with one of the most progressive companies in the field.

In response to an increasing demand for their industrial control products, Texas Instruments are looking for additional Field Sales Engineers to promote their range of programmable systems, for machine control, process control and energy management, to customers in the South of England.

You will, therefore, be expected to make a positive contribution towards new business growth, while maintaining a high level of sales to existing OEM accounts. In a very competitive market, success will be an accurate reflection of your efforts and achievements and consistent results will be well rewarded.

An Electrical Engineer, qualified to at least ONC or 'A' level standard, you will have several years' sales and applications experience gained with a large industrial controls manufacturer. And, although full product training will be given, you should already have acquired a good understanding of programmable controllers and computer-based systems. An energetic, astute, and commercially aware person, you should be fairly well practised in negotiation.

A competitive salary, negotiable according to your experience and qualifications, will be supported by an excellent incentive plan, quality car and the usual large company benefits.

Please telephone or write for an application form, or send your full c.v. to: Caroline James, Texas Instruments Ltd, Manton Lane, Bedford, MK41 7PA. Tel: 0234 223936.

TEXAS INSTRUMENTS
... where people and technology meet

HAWKER SIDDELEY
Crompton Parkinson MANUFACTURING LIMITED

Sales Professionals ...grow with us

Already leaders in the manufacture and supply of commercial, industrial, amenity and emergency lighting as well as cable, fusegear and batteries, our success has brought business growth. We now need to recruit Product and Technical Sales professionals throughout the UK.

Lighting Sales Specialists

To develop new business and maintain the current customer base you'll be advising architects, consultants, electrical contractors and public Authorities on all aspects of lighting systems and equipment. Ideally with electrical qualifications and specialised knowledge of lighting, we would also like to hear from applicants with in-depth experience of selling in an engineering/electrical environment.

Sales Representatives

To sell our range of industrial and commercial luminaires, lamps and cable, electrical protection equipment and dry batteries, to the electrical wholesale, contracting and industrial markets. You'll have a successful track record selling similar products or be looking to break into this area from an electrical contracting or manufacturing background.

In both instances we seek men and women with strong communicative skills. Self-starters with the ability and determination to follow our progressive career path.

A good basic salary is enhanced by a car ownership scheme and other excellent large company benefits.

Interested? Then please write with full career details to A. Robertson, Personnel Officer, Crompton Parkinson Ltd., Woodlands House, The Avenue, Cliftonville, Northampton NN1 5BS.

Remember our reputation...

... for total turnkey capability as Engineers and Constructors in a diversity of sectors in the Process Industry, and remember we enjoy the support of the Wimpey Group - one of the World's largest engineering and construction organisations, which is here to stay.

Gauge our success...

... In restructuring to provide the resources, technical expertise and engineering talent to meet the complex challenges of today's and tomorrow's Process Industry.

Consider the future...

... of a name that's being associated with winning an increasingly wide range of prestigious projects in the UK and Worldwide - with the name that therefore has some of the finest opportunities in the Industry.

Project Management

Project Managers
With a proven record of managing every phase of major Engineering, Procurement and Construction projects. Experience of Fine Chemicals, Pharmaceuticals, Food Processing, or Smelter projects is of particular interest, as well as Oil and Gas related projects.

Project Services Manager
Fully experienced in all facets of project control procedures, particularly Cost Engineers and Planning and Scheduling.

Construction Management
We have an immediate need for Construction Managers both for our London Office construction support activities, and for site appointments within the UK and overseas. Experience of all aspects of site management and control procedures is expected.

Commercial Management
We require a Chartered Engineer or equivalent with at least 10 years' post qualification experience in contract and sub-contract formulation, negotiation and administration, including claims, on a variety of EPC projects.

Senior Proposal Engineer
To ensure a properly co-ordinated approach to all aspects of proposals/tenders and the qualification for EPC projects. Previous experience in a similar role is essential, together with an engineering qualification and some site experience.

Process Engineering
Process Engineers and Senior Process Engineers with recent design experience on Pharmaceuticals, Fine Chemicals, Food and Beverages, or Oil and Gas projects.

We are interested only in top calibre candidates hence salaries, benefits and conditions compete with the best. Career potential is exceptional. Write with full details to Steve Hancock, Personnel Department, Wimpey Engineering Ltd., Flyover House, Great West Road, Brentford, Middlesex TW8 9AR.

Consider your future with WIMPEY ENGINEERING

INSTALMENT CREDIT

Manufacturers Hanover Finance is a subsidiary of one of the world's leading financial institutions. We provide financial services to the motor and light industrial markets.

REWARDS: Salary is for discussion and will be equivalent to c £30,000. Excellent expatriate benefits are available.

Applicants please write or telephone in confidence. Ref: 993

Hales & Hindmarsh Associates Ltd., Century House, Jewry Street, Winchester, Hampshire. ☎ (0962) 62253
Search and Selection

Young Purchasing Professionals

A career move with outstanding prospects in management both within and beyond purchasing

Black and Decker are undisputed market leaders with an impressive record of achievement in consumer durable markets. Major additions to an already formidable product range are to be augmented by rapid expansion into small domestic appliance products, via both acquisition and in house development.

This growth programme has created outstanding career openings in purchasing at the company's UK design and manufacturing centre in North East England. This plant is internationally recognised as a showcase of high technology, a centre of manufacturing excellence incorporating the most advanced manufacturing systems and assembly techniques currently available. Purchasing is a vital and expanding function – a highly professional computer based operation where sourcing is worldwide and the annual spend of £60 million is significantly increasing as the business base substantially develops.

Against this high tempo background, young, well qualified purchasing executives will immediately take control of key spend areas, controlling costs, developing sourcing strategies, systems and vendors – the latter with particular emphasis on quality and supply integrity. Career development will be performance orientated but clearly available to high achievers. If you are looking to earn a top salary, have a purchasing background in high volume flowline manufacturing and can demonstrate senior management potential, then act now.

Immediately forward your cv to Andrew MacIlwaine, Black and Decker, Green Lane, Spennymoor, Co. Durham. Tel. 0388 815815.

BLACK & DECKER

Senior Contracts Manager

for major control and instrumentation manufacturer – Surrey

In the competitive world of international industrial control and instrumentation, our client consistently wins large-scale contracts and has an established reputation as a major supplier to the power, water and process industries.

Joining a new management team driving the company's operations – multiplying sales, extending applications, developing new systems – this senior appointment will make a major contribution to the company's future growth.

Controlling a professional team of senior contracts engineers and liaising at high level with other departments, the Contracts Manager will ensure the successful completion of specified customer orders in line with contractual obligations. Progress and performance monitoring and contract negotiation will also be within the remit.

The salary offered will precisely match the professional stature of the individual appointed and a generous benefits package, including relocation assistance where necessary. The company is progressive and expanding internationally, which creates exciting prospects for further career progress.

To express your interest, please telephone or send full career details in strictest confidence quoting reference BW501-DT to:
Bretts Executive Limited, 96 South End, Croydon CR9 3SD. Telephone: 01-681 7218.

Wanted: an industrial engineer who won't rest on our laurels

24-28 **from £22,000 + benefits**

Here at Pedigree Petfoods, we've already attained the highest standards of manufacturing performance in our industry, achieved on Europe's most advanced canning lines. But being the best in the business simply isn't good enough for us. As ever, we look to radical new ways of enhancing our operation and achieving even greater efficiencies. And to help us in this, we seek an ambitious industrial engineer with uncommon drive and motivation, already operating at a senior level.

Your record to date will clearly demonstrate your ability to • identify major opportunities for improvement • devise creative alternatives to existing strategies and methods • influence others to effect change • recognise the contribution of manufacturing to business success.

You'll identify, evaluate and promote ways of improving present and future resource utilisation within our main, £300m+ manufacturing plant. We'll expect you to interpret your brief in the broadest possible sense, which will give you scope for significant personal achievement. You'll thus be able to create a strong platform for advancement... and be capable of crossing functional, company and even national boundaries within the Mars Group.

The substantial starting salary will be backed by generous non-contributory benefits including, if appropriate, assistance with relocation to the attractive rural East Midlands.

For more information and an application form, please telephone Maureen Lohan on 0664 84171, ext 3034. Do not send a cv at this stage.

Pedigree Petfoods, National Office, Waltham-on-the-Wolds, Melton Mowbray, Leicestershire LE14 4RS.

We are an equal-opportunity employer.

Quest for the elusive system solution

Some of the finest minds in state-of-the-art technology are applied to promoting innovative answers to almost any research, development and design question.

In a nutshell, we believe that the bounds of imagination are the only limits to achievement for the creative, lateral-thinking professional. With the rest of the Western world's technology at our fingertips, we consistently break new ground in information technology, avionics, communications, machinery control, weapon systems, tactical systems and underwater technology.

We offer the opportunity to specialise in a given discipline while broadening your applications knowledge across the full spectrum of our short to medium term projects. Specifically we offer hands-on experience in the following areas:

COMMUNICATIONS

Design and development of large scale military communications and C3I systems demands in-depth knowledge of real time communications system design embracing: network architecture; packet systems; switching systems; encryption techniques; EW; ISO 7 Layer model; protocols 1563B and X25. Work also involves local and wide area networks and network management systems.

SYSTEMS DESIGN

Activities encompass Requirements Analysis and Systems Specification using formalised techniques: design of on line/real time systems for information and control applications using automated design tools; project control and design documentation using integrated project support environments; systems design modelling for performance assessment and configuration checking.

SOFTWARE DEVELOPMENT

Advanced software engineering techniques are used for producing software within turnkey system development. Structured program design and development techniques using automated tools such as MASCOT, JSD, YOURDON, CONTEXT are employed. High level languages include: ADA; PASCAL; CORAL; FORTRAN. Integrated project support environments are used for build state and documentation control.

PROJECT MANAGEMENT

Project Management support is provided to all the foregoing areas and on specific assignments to MoD system development projects. Computer based tools support client program information and scheduling and mathematical models support their assessment activities.

At our locations in Dorchester, New Malden and Holborn, we offer a quite exceptional working environment in which there is a constant and simultaneous interchange of ideas. Your work will be quantifiable, your contribution noticed and rewarded well.

TRINIDAD MATCH FACTORY LIMITED

FACTORY ENGINEER

Attractive salary + car

Trinidad Match Factory is the principal supplier to the Trinidad match market and also exports products to other Caribbean islands. The Factory, which is equipped with the most up-to-date match making machinery, is located in Port of Spain, Trinidad.

This is a key appointment involving responsibility for all machinery maintenance work within the Factory's production and packaging areas, as well as the control and administration of the existing factory engineering team.

You should be aged 35–45, qualified to HNC or equivalent level in mechanical engineering and have at least five years' experience of factory maintenance engineering in a manufacturing environment utilising high speed production machinery.

A working knowledge of pneumatics and control systems would be an advantage as would some training experience. Particularly important are well developed supervisory and motivation skills.

An attractive salary will be offered in line with qualifications and experience and fringe benefits including company car, medical health scheme, pension plan, Group life assurance and assisted passages to Trinidad.

Please write with full personal and career details to: Mrs. Maureen Ashcroft, Wilkinson Sword Group Limited, Langley Hall, Station Road, Langley, Slough, Berks SL3 8BZ.

Interviews will be held shortly in England.

British Rail Engineering, one of Europe's largest Engineering organisations, is involved in the design, development, manufacture and maintenance of railway rolling stock and equipment. With a turnover exceeding £400 million and over 25,000 employees we operate competitively in world markets, exporting to over 30 countries.

Electrical Engineers

We are currently setting up a new team for the design of traction and rolling stock. Applications are invited for positions of Head (and Assistant) of the Electrical Apparatus and Performance group in the Electrical Equipment Section at the Company's headquarters in Derby. This group is concerned with all aspects of design, application and maintenance of electrical apparatus (Traction motors, Transformers, Switchgear etc) fitted to new and existing vehicles for UK and overseas markets. The work of the group also includes Train Timing and MTBF calculations and a knowledge of mathematical analysis and computing techniques would be an advantage. Some fieldwork (including overseas) will be involved.

Candidates for this post should hold a degree or equivalent qualification in electrical/electronic engineering with at least 2 years experience in an appropriate engineering environment.

Company benefits include free and reduced rate travel facilities and contributory pension scheme with opportunity in certain cases to transfer existing pension rights. Salary will reflect ability and experience.

Applications with full details of experience, qualifications and present salary should be submitted within 14 days quoting reference DM/2/DT to: HQ Personnel Manager, British Rail Engineering Limited, St. Peter's House, Gower Street, Derby DE1 1AH.

BRITISH RAIL ENGINEERING LIMITED

Trainmakers to the world

Dorman Smith Fuses Limited
CONTROL ENGINEER

BICC Dorman Smith are part of the rapidly expanding BICC Technologies Group and our offices and factory are at Workington on the Cumbrian Coast, on the edge of the English Lake District.

We are at present requiring a Control Engineer who will be responsible for:

- The successful operation of an advanced robotic production system controlled by programmable controllers integrated with software driven control systems.
- The development of a maintenance programme for all electrical, electronic and software maintenance for automatic machines.
- The development of interfaces with a business computer system to enable a system of automatic scheduling and data collection for automatic machines to be established.

Candidates should have a minimum of three years experience in similar work, including fault diagnosis of systems incorporating programmable logic controllers and mini computers and should have a knowledge of detailed software specifications as applied to robotic systems. Candidates should be capable of programming in at least one high level computer language.

Preference will be given to candidates aged 25 to 35 with a degree or equivalent in an engineering discipline and with specialist knowledge in control engineering techniques.

Interested persons should apply in the first instance for an Application Form to Mrs Margaret Stainson.

Dorman Smith ELECTRICAL

Dorman Smith Fuses Ltd., Blackpool Road, Preston, Lancs., PR2 2DO. Tel: Preston (0772) 728271 Ext. 278.

Technical Development
with a direct route to the Board

c.£17,000+car **Herts.**

The plan is this. You will join this well established and profitable, medium technology engineering company which operates in a significant and diverse market place with products which enjoy high consumer awareness.

You will report directly to the M.D. and take full responsibility for all technical aspects, including Design, Development, Quality and relations with industry standards authorities, but with a high emphasis on new product development.

You will prove within twelve months that you justify your seat on the Board by your success, your flair, your initiative and your ability to work effectively as a member of a professional team, committed to the future of this privately owned £6 million turnover company.

You should be aged around 35 /40, hold an engineering qualification and have a first class track record of motivating people and driving projects from concept to manufacture in a light/medium engineering company. You will have a good knowledge of design and production engineering and an understanding of the principles of heat transfer and related controls.

Write enclosing a brief CV to Neil Macmillan, Macmillan Davies, The Old Vaults, Parliament Square, Hertford SG14 1PU. Tel: (0992) 552552.

Macmillan Davies Personnel Consultants

PRODUCTION MANAGER

Expanding London Engineering Company with growing export markets seeks a qualified Engineer to manage four manufacturing departments.

The successful candidate is likely to be aged between 30 and 40 years, with considerable initiative, qualified to HNC Standard, with supervisory experience and used to manufacturing disciplines such as Production Planning, Shop Loading and Measurement of Departmental Performance.

Salary negotiable (five figures) and usual benefits.

Please reply in writing with full C.V. to: Mr G. B. Gardner, Vickerys Limited, 53 Norman Road, Greenwich, London, SE10 9QJ.

TYPEWRITER SYSTEMS TRADE SALES REPRESENTATIVE

c £15,000

Sharp Electronics (UK) Limited is expanding its sales representation and wishes to appoint a representative to cover the South/South West.

The Company have an outstanding reputation for a wide range of high quality products in both business equipment and the home entertainment fields.

The successful applicant will be responsible for all sales through a network of existing trade distributors and the development of additional trade outlets.

Experience of electronic typewriters, word processing and possibly datacomms is essential. Some experience of sales training would be an added advantage.

Earnings in the region of the above are expected. Other benefits include free life assurance and staff purchase discount facilities.

Interviews will be held locally, but in the first instance please write with full career details to: Mr. H.N.M. Paxton, General Manager – Personnel, Sharp Electronics (UK) Limited, Sharp House, Thorp Road, Manchester M10 9BE.

The world of SHARP where great ideas come to life.

It takes a good field service background to know what makes a winning product

DEC PARK-READING

As one of the largest and most popular computer manufacturers in the world, Digital are concerned to produce products that are the best in every way. One important aspect of this is reliability, another is easy maintenance. Without these two qualities even the most brilliant product can fail in the marketplace. To ensure this does not happen to Digital, we're strengthening our Engineering Support Team with people who have the practical experience to advise in these areas at the planning stage.

Essentially, we're looking for Support Category Engineers with lots of practical experience. You'll probably be in your early 30s with the confidence to make a substantial contribution to projects relating to the maintenance of Digital products. You'll be able to evaluate design in these terms and to comment on reliability and have the presence and authority to make your views felt. You'll know the kind of technical problems that worry Field Service Engineers and can make them and customers turn against a product. You'll be able to advise on planning of spares levels, documentation and manuals. You'll be prepared to take your arguments to any level.

For a highly experienced professional, this is an unusual opportunity to broaden out your career and get involved in wider issues, interfacing with engineers and designers. You will have a high visibility within the company with excellent career possibilities.

You can expect a very competitive salary plus car and a range of big company benefits that include relocation expenses, where applicable.

Please apply in writing, enclosing your current c.v. to Ken Parker, Digital Equipment Co. Limited, PO Box 134, Reading, Berks RG2 0TN. Tel: Reading (0734) 868711. Ref: TFU/DT.

Engineering Managers

PRODUCT AND MANUFACTURING

Amsterdam — Circa £18,000 + Overseas Premium + Car

These two career opportunities arise through internal promotion and form part of the European Divisional H.Q. team based in Amsterdam. Success will lead to senior line management appointments in 2 to 3 years within a European manufacturing location.

Our client is a major American Corporation with diverse international interests, these positions being in the Automotive Division which is a market leader world-wide. The successful applicants will each have specific responsibility for optimising the efficiency of operating practices and procedures, in manufacturing and in product. In each case we require candidates of the highest ability aged 28-35 and of engineering graduate calibre. Experience of modern engineering, manufacturing and business techniques must be supported by a successful background in a manufacturing company. The ability to analyse problems coupled with a practical and self-motivated attitude are also essential requirements. A second European language is highly desirable together with the personality to work effectively in a multi-cultural environment.

The base U.K. salary quoted is supplemented by an attractive overseas package including relocation assistance.

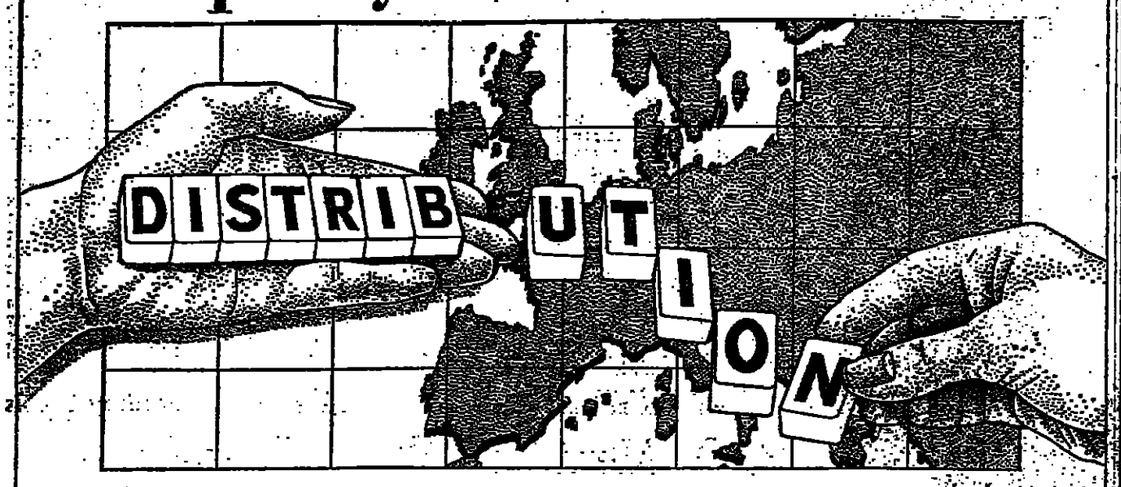
Map out your future with IBM



Major consignments of IBM products find their way onto the world's markets every day.

But they don't simply "find" their way.

They arrive on schedule, properly documented, thanks to the concerted efforts of our employees who contribute their special skills to our UK distribution operations.

At the heart of all this, equipped with the very latest facilities, is our modern Greenford location. It's from here that the efficient distribution function co-ordinates the many complex activities and procedures – including warehousing, transport and inventory control – that ensure our products reach both domestic and international markets.

Outstanding opportunities for professional development within Distribution currently exist for the following people:

Financial Analysts

A partly or fully qualified accountant with relevant experience, you'll be engaged in some of our wide range of financial and control activities.

Technical Engineers

With several years' relevant experience, you'll plan cost effective materials handling and storage methods.

Systems Analyst/Programmers

Ideally with experience in IMS and PL1 or IBM PC Basic.

For men and women qualified to 'A' level and beyond, perhaps with further achievements in Business Management or Export and a minimum of 2 years' experience in distribution, administration, finance or a related environment, additional opportunities exist in:

● Customs Liaison ● Procurement ● Import/Export Administration ● Project Management

Familiarity with international trade protocol; knowledge of customs and excise procedures; proficiency in the use and implementation of computerised systems – a combination of these will stand all candidates in good stead for a career with IBM.

IBM offers salaries that compare favourably with the best the industry offers together with a wide range of benefits including free life assurance, contributory pension scheme and BUPA membership.

If you're looking for a challenging position which will enable you to advance your career, please write for an application form to:

Sue French in the Personnel Department at IBM United Kingdom Limited, PO Box 41, North Harbour, Portsmouth, Hants. PO6 3AU.

● 17,000 jobs in over 40 UK locations
● Two manufacturing plants
● Development laboratory near Winchester
● An equal opportunity employer
● £1,175 million exports in 1984
● £149 million invested in UK in 1984

IBM

Ambitious Engineers

Invest your experience with us today and we'll reward you with a senior role tomorrow

Our order books are full and the prospects bright for young engineers joining us now. Because exposure to a variety of engineering projects which would be hard to equal elsewhere will soon equip you for a more senior role.

We're part of a successful £200m group manufacturing biscuit-making, baking and printing machinery for world markets. Our investment in the latest technology over the years has earned us a reputation for technical excellence as well as market leadership. Our investment in talented people has earned us a reputation as a good training ground. And right now, we are seeking young engineers, either mechanical or electrical/electronic, who will join the teams helping us to maintain our No 1 position.

After an initial familiarisation period, you'll be given some particularly interesting projects which will call for involvement at every level from planning right through to completion. Not only will the work be challenging, but you'll also have the latest CAD/CAM technology at your disposal.

You'll need to be qualified to degree/HND level with at least 4 years solid experience gained in a manufacturing or assembly environment, and be aged 25-30. It's unlikely that applicants younger than this will possess the maturity to cope with the early responsibility.

Ambitious engineers will realise that the experience they'll gain with us will be hard to beat. Combine that with the excellent prospects, a highly attractive salary together with relocation expenses and the chance for you and your family to visit the area - it's probably one of the best engineering opportunities around!

For our company brochure and details of the excellent career opportunities, either telephone for an application form or send a detailed C.V. to

Angus Burn, Personnel Manager, Baker Perkins Limited, Bedewell Works, Hebburn, Tyne & Wear, NE31 2XQ. Tel: Tyneside (091) 489 8171.

Either way, it could be the best move you'll ever make.

OPPORTUNITIES IN FINANCIAL SERVICES

Prospects £20,000 +

Following completion of the first phase of their expansion plans, Schroders are now seeking to expand the teams of financial consultants based in their regional centres.

Successful applicants will be required to advise potential new clients, both private and corporate on all aspects of personal financial planning. Corporate marketing of the Company's services, together with fully supportive technical advice and administration, will enable consultants to offer a professional service. This exciting career opportunity will include a period of in-depth training. Within two years, remuneration should exceed £20,000 per annum.

Ideally candidates will be aged between 25 and 50 with evidence of previous success but, not necessarily, in the financial services field.

If you would like to be considered for a position with Schroders either write to Peter Stoner at Regal House, 14 James Street, London WC2E 8BT or telephone one of the branch offices below.

MANUFACTURING MANAGEMENT

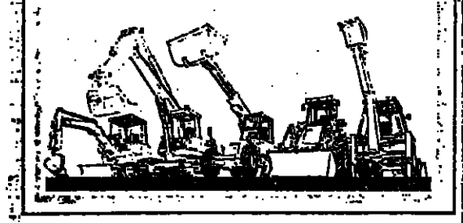
Are you seeking change?

Engineering excellence and manufacturing efficiency. Two attributes that have established JCB as a leader in its field. Unprecedented demand for our products is enabling us to invest in the latest facilities and systems which will turn our manufacturing operation into a model of efficiency and flexibility. We now seek a professional with the technical and managerial expertise to optimise machine and manpower utilisation in a rapidly changing batch production environment.

HNC/Degree level educated, you will be familiar with the latest machine shop technology, gained in either a production management or production engineering capacity. You will be stimulated by the challenge of achieving daily production targets, whilst planning and implementing an ambitious capital investment programme, in a department that covers a wide range of machining operations, utilising FMS and CNC equipment.

We can demonstrate that success in this results-orientated environment will undoubtedly lead to highly promising career prospects.

If this is the type of change that you are seeking, contact Graham Barwell on Rocester (0889) 590312, or send a brief C.V. to him at J C Bamford Excavators Limited, Rocester, Staffordshire, ST14 5JP.



Quality Manager – Health Care

S. Ireland **c.IR£30,000**

Our client is a substantial and expanding subsidiary of a leading US health care corporation. The company, in S. Ireland for several years manufactures disposable medical devices for world markets, using ultra-modern plastic injection molding technology and utilising radiation sterilisation. The company is pleasantly located in a coastal area.

The Quality Manager, who reports directly to the corporate Director of Quality in the US, will be responsible for managing all aspects of quality within the company. This will include total control of product quality from raw material through the manufacturing and sterilisation process and into the market, as well as quality engineering and regulatory affairs. Candidates should have a relevant science degree and require to have 5-10 years quality management experience in a relevant health care environment using plastic/engineering technology.

Salary is likely to be c.IR£30,000 with a company car. The company also operates excellent relocation, pension and medical schemes.

Candidates should reply in confidence to Mr. Michael Lenahan giving details of their experience and quoting reference DT/G28.

P-E Consulting Group, Appointments Division, Foxglove House, 166 Piccadilly, London W1V 9DE.

PE The P-E Consulting Group

Immediate requirements for the following posts:

- General Managers and Factory and Agricultural Managers
- Factory Engineers and Process Technologists
- Agriculturalists and Agricultural Engineers
- Civil and Irrigation Engineers
- Training Specialists
- Accountancy and Business Managers
- Economists and Financial Analysts

Overseas experience essential and previous involvement in agroindustries preferred.

Full curriculum vitae with indication of availability should be sent to:

Mr.S.J.F. Winn,
Tate & Lyle Technical Services,
Enterprise House,
45 Homesdale Road,
Bromley, Kent BR2 9TE.

Sales Engineer (Distillation Plant)

Sulzer, the high technology engineering company have a vacancy for an Engineer to represent Specialist Distillation Plant.

- ★ At least three years experience as Process Engineer with proven record in distillation/absorption/refinery applications.
- ★ Degree/qualifications leading to M.I.Chem.E.
- ★ To be self motivated in seeking out relevant projects – to calculate and prepare tenders – to negotiate and handle contracts with clients.
- ★ Based in Farnborough, Hants but with travel in U.K. and occasionally Europe.
- ★ Assistance given with relocation where appropriate.
- ★ Benefits include Company car and immediate entry to pension scheme and life assurance cover.

Write or telephone for application form to: Personnel Manager, Sulzer Bros. (U.K.) Ltd., Farnborough, Hants. Tel: Farnborough (0252) 544311.

SULZER

Marine Geophysical Surveys

Aquatronics is a specialist independent British survey company associated with seismic survey of the North Sea and worldwide since 1972.

HYDROGRAPHIC SURVEYORS

We are recruiting suitably qualified and experienced hydrographic survey personnel. Applicants should have a minimum of three years offshore experience operating a variety of radio and acoustic navigation systems. Knowledge of navigation software would be an advantage.

TELEMETRY ENGINEERS

We have vacancies for qualified radio technicians and engineers to operate and maintain our VHF seismic radio telemetry equipment. Applicants should be resourceful and willing to travel to survey areas world-wide.

For more information and an application form please write enclosing a full c.v. to:—

Ms. Mel Ng
Aquatronics Limited
111 Windmill Road
Sunbury-on-Thames
Middlesex TW16 7EF

AQUATRONICS

MANUFACTURING DIRECTOR (DESIGNATE)

Quality Engineering
£20,000 upwards + benefits

WE are a successful and well established Group of Companies currently undertaking a major restructuring to meet new opportunities in technically aware markets. This appointment is located in a pleasant part of Kent and involves 270 employees producing a turnover of £8 million p.a. YOU will be aged 35-49 with a nengineering qualification to Degree standard and it will be an advantage if you have had formal management training or worked in an organisation with high management standards. It is expected that you can demonstrate achievement in manufacturing in the jobbing engineering or plastics fields to a high quality standard. To be successful, innovative skills in production techniques and value engineering will be needed.

Please apply in confidence to:

The Personnel Director,
E.P.S. GROUP LIMITED,
Bell House, Bell Road,
Sittingbourne,
Kent. ME10 4DH

Outstanding retail career opportunities

Another chance to join the most important new retail initiative of the decade.

Toys 'R' Us is a $2 billion public company operating 200 superstores in the USA.

This year we are opening our first UK superstores heralding a major expansion programme planned for the rest of the decade. Our 45,000 sq.ft. units specialise year round in products for children of all ages - some 18,000 product lines including toys, computers and clothing.

We are highly selective in our recruitment. Last January we recruited 14 ambitious young retailers from over 1,000 applicants. As our first Store Management Team Members they are about to depart for 3 months' training in Canada and the USA. On their return they will meet the second intake of young, bright, mobile and flexible retail talent who will together comprise our Management nucleus this Autumn. For the seriously committed it could be a very 'fast track' indeed. If you are 21 +, have achieved higher educational qualifications, and yearn to be with us at the beginning of our retailing revolution, we want to hear from you.

Please write with a full c.v. (including current salary) and a covering letter of sufficient detail to make an application form unnecessary to: Roger B. Phillips, Personnel Director, Toys 'R' Us Ltd., Wolsey House, Wolsey Road, Hemel Hempstead, Herts HP2 4SS.

GEOFFREY TOYS "R" US

CARLESS SOLVENTS

REFINERY INSTRUMENT AND ELECTRICAL ENGINEER

Carless Solvents Limited, a wholly owned subsidiary of the Carless Capel and Leonard Group, require a qualified instrument and electrical engineer to head a small team of technicians at their Harwich refinery in Essex.

The successful candidate will probably be 25-40 years old with experience in various types of process control especially electronic and computer controlled systems.

Knowledge of electrical power systems, flameproof and intrinsic safety standards would be an advantage.

Carless are prepared to offer a competitive salary and a company car. Assistance with re-location will be provided.

Apply in writing to:
Refinery Manager,
Carless Solvents Ltd.,
Harwich Refinery,
Refinery Road,
Parkeston,
Harwich,
Essex CO12 4SS.

MAERSK OLIE OG GAS A/S

Maersk Olie og Gas A/S is part of the A. P. Moller Group. We are the appraisal and production operator of the Danish Underground Consortium in the Danish sector of the North Sea.

GEOPHYSICIST

Copenhagen

Maersk Olie og Gas A/S requires a Geophysicist to work in the petroleum engineering section in the company's headquarters in Copenhagen.

The position requires a high level of interpretation skill in evaluating geophysical data for use in field development and appraisal plans.

Knowledge of seismic data processing and acquisition would be an advantage.

Applicants should be graduates in Earth Sciences and have a minimum of 5 years' experience as a geophysicist within the oil industry.

Please send a full C.V. to:

Mr P. Staehr
The Maersk Company Limited
Black Swan House
Kennet Wharf Lane
Upper Thames Street
LONDON EC4V 3ET

SALES EXECUTIVE

The success of our Daylighter range of daylight operation graphic camera/platemakers coupled with the continuing sales of our Phototypesetters and Positive Cameras means we now need two further SALES EXECUTIVES under 30 years of age in the North West and North East of England to extend our sales coverage of these established products — and also to introduce two new product ranges.

Experience in printing or graphic arts Capital Equipment Sales would be an advantage but most important we are looking for conscientious, hard working, committed people, who intend to succeed and earn a realistic annual income.

If you are prepared to work hard and received the rewards for your success, and would like to earn an on quota salary with commission in excess of £20,000 per annum. Local interviews will be arranged.

Write in the first instance enclosing your full CV to:

Colin Pearce, National Sales Manager,
VISUAL GRAPHICS CO (UK) LTD,
8/10 Paul Street, London EC2A 4JH.

HIGH CALIBRE SALES PROFESSIONALS

Hunting

ON TARGET EARNINGS C. £12,000+ PLUS COMPANY CAR

Hunting Lubricants, a division of a multi-million pound public group, require high calibre sales professionals for a variety of sales areas. The successful applicant will need to have the necessary energy to develop the business in terms of both existing and new accounts.

Previous oil industry experience is not essential, we are looking more for a proven record in selling. Applicants should apply in writing to:

Ian Currie,
Sales Manager,
Hunting Lubricants Ltd.,
P.O. Box 67,
Cross Green Ind. Est.,
LEEDS LS1 1LS.

MARKETING DIRECTOR

A new appointment with one of the technical leaders in the Reinforced Plastics industry, based in East Anglia. Responsible to the controlling Directors for all strategic planning and control of Sales functions.

The Company's activities include component supply to major international companies in U.K. and Europe, export of plant and technology and we will shortly be moving into proprietary products for the first time.

The right person is at present a Marketing/Sales Manager with a strong technical background and a salary of around £14,000, seeking more responsibility and a wider challenge.

Write, with full C.V., to: M.D.18944, Daily Telegraph, E.C.4.

FURTHER ANNOUNCEMENTS APPEAR TODAY ON PAGES 26, 27, 28, 29 & 30.

THEATRE / Medea

After the Golden Fleece

ISLINGTON'S admirable Almeida Theatre is currently giving London the chance to see Leicester's Haymarket Studio Company, first in a classic Greek play and later in dramas by Georg Büchner, Eugene Ionesco and Sean O'Casey. If London has any sense, the Almeida should not have an empty seat.

I say this having seen their production of the "Medea" of Euripides, in a version adapted from the well-known translation by Rex Warner. I feared the worst, admittedly, when it opened with a scene-setting prologue illustrated with arty mimed posturing by actors whose quaint Anglo-Saxon attitudes were intended to represent Jason, and the Argo, and the nasty snake guarding the Golden Fleece.

After that Nancy Meckler's plain modern dress production, given without interval, swept superbly through a tragedy typically Euripidean in its sympathy with the lot of women: their shrinking from spinsterhood, their helplessness when a husband proves unkind, and the ordeals of childbearing—far worse, declares the heroine, than fighting three battles.

Brought to Corinth from some outer foreign darkness, the barbarian princess and sorceress turns in fury on her husband, Jason, when he ignores their marriage vows and plans to wed the king's daughter. He says it is in order to protect Medea and their two children, an idea which made the audience laugh. Medea does not laugh. She will revenge herself by killing Jason's bride and both her children.

Apart from the king, who bounced on in vest and braces to threaten Medea with two chairs, the story is well told, with impressively eerie interludes invoking the gods, and only one variation from the text, a wonderful mimed scene for Jason's bride Creusa as she receives a magic gift sent her by Medea, the poisonous robe which will consume her in flames.

As the wronged woman, Linda Bassett has the advantage of a deep, cultured voice and the chilly beauty of the Peplos Kore in the Acropolis Museum. The actress is at her most expressive when indicating her aristocratic disdain of the deeds she has to do, and when attempting to hide from Jason her foreknowledge that their children will not live. Her unexpected, whispered response to the news of Creusa's death—"I am lost, I am lost, I am lost"—lays an icy hand on her heart.

Frank Baker's eloquent Jason does not rise to his great final speech, but the tactfully managed chorus (two of Medea's friends) reinforces the power of what must be the first feminist play in all literature.

John Barber

Linda Bassett in the Leicester Haymarket Studio Company's production of "Medea" at the Almeida Theatre, North London.

DANCE / La Bouche

VOCAL as much as visual, the programme given by La Bouche at The Place on Tuesday evening is a synthesis of amplified sound and song, dance and lighting with an immediate appeal for the contemporary public. Individually the elements are not particularly novel but, as brought together they make a slickly produced and undemanding entertainment of the type familiar to Top of the Pops viewers.

The song and dance items are for the most part very much alike — strong, loud and energetic, hypnotic rather than thought-stimulating. Emotion remains on a superficial level and the dancing is largely repetitive and routine.

There are a couple of exceptions to this however. "The Winter," danced by Fiona Cullen, is much the most choreographically sophisticated, using a wider vocabulary of sets and a subtler and more expressive range of feeling.

Choreography of the pieces is not individually attributed, but the principal credit names Australian Graeme Watson, with Lloyd Newson as a possible alternative.

The best comedy work is "Um!," a clever duet in which a speaker indulges in a continuous chatting-up session and a dancer responds by a fast non-stop solo.

The speaker is Nigel, the evening's guest artist, a disarming performer with a racy patter technique and a totally relaxed audience relationship.

In direct line from the traditional music-hall comics but entirely up to date, he has worked out some excellent material, and purveys it with a deftly professional touch.

K. Sorley Walker

TELEVISION / Goodbye, Dolly

IN THE END Micky bumped off Shirley, Harry bumped off Micky, Dolly bumped off Harry, and the judge gave Dolly five years for manslaughter. That is five years in prison, not five years free board and lodging at a luxury hotel. The female drama does not yet preach that manslaughter is positively to be encouraged; however good it was to see the heroine's husband dead at last.

On the contrary, the final episode of Lynda la Plante's Widows (ITV) last night concluded like the first series on a plangent note of loss. The note being sounded by the soon-to-be-lost Kathleen Ferrier in her famous recording of "What is Life?" from Gluck's "Orpheus and Eurydice."

Orpheus was a man who made the fatal mistake of looking back to his departed beloved. After another six episodes Dolly reckoned that her inability to walk away from Harry was motivated by hate rather than desire. The loss of daughter figure Shirley, if not the latest exile to Rio of colleague Bella, may be hurt as much.

It will be remembered that this pioneering formula from Thames and Euston Films announced itself two years ago with a bang. The sequence in which Harry's villainous gang was wiped out in a Blackwall Tunnel explosion caused by accidental collision was memorably graphic. Though the widows then inherited the criminal plans of their late husbands nothing was quite so loud again.

Tension was maintained as Dolly and Harry (later found to have escaped *after* the explosion) stalked each other, with the police lumbering some way behind. But the big bang signified a typical ending of a male crime series and heralded the start of something different, at least in the more giving and complicated relationships between the four female principals. It became impossible that they should not, to some extent, get away with their robbery.

The plotting of the second series has rather backed the instinct of the writer that her story had already been told. In essence the first story was repeated and the excitement was inevitably reduced. The characterisation is another matter. There was more to say about the women and their responses and it was this, after all, which made the idea so fresh.

In places last night I wished writer and director (Paul Annett) had had more time for thought and execution. Dolly's habit of firing a staccato line of dialogue and then driving off in a crescendo of screaming tyres would only have worked in a comic parody. Other details, like her response to Shirley's death, were similarly perfunctory.

In the main the quality, specially of Ann Mitchell's determined Dolly, was nevertheless maintained. The absence of heavy leadership, the way Bella naturally took over in moments of action while Dolly kept her cool (and the loot of the final jewel raid), were conveyed with superior style and truth.

Few television viewers do not now know that yesterday was taken as the 40th anniversary of VE Day. Peter Manimura's The Battle for Berlin (BBC-2), a meticulous "Timewatch" compilation explaining the final savage exchanges between the forces of Hitler and Stalin, and the three months exclusion from the German capital of the Western allies, shows just why the 1985 celebrations contain so many mixed feelings.

Sean Day-Lewis

MUSIC / A bitter commentary

"WITHOUT YOU, we people could not live." Thus the eponymous hero — if that is quite the right noun — enigmatically, but significantly and disturbingly addresses the figure of Death in Viktor Ullmann's opera "The Emperor of Atlantis," which was staged at the Imperial War Museum on Tuesday night and which is being repeated tonight as part of the museum's VE commemorations.

The implications of the "Emperor's" (or, by analogy, Hitler's) statement become clearer when some of the background to this poignant epigrammatic piece is sketched in.

Ullmann was born in Prague in 1898, an Austro-Hungarian composer who studied with Schoenberg and helped to foster musical life in Bohemia. He was arrested by the Nazis in 1942, and spent perhaps two years in the concentration camp at Theresienstadt, where inmates were encouraged to make a pretence of leading normal lives and pursue cultural activities. Together with the librettist Peter Kien he wrote his one-act commentary on his experiences of life in the Third Reich, "Der Kaiser von Atlantis, oder Die Tod-Verweigerung," in 1943; in October 1944 he was sent to Auschwitz. He was never heard of again.

Not only was the opera a commentary on the Third Reich; it was also a bitter and realistic one, stated in terms of subtle allegory but none the less direct enough to have the piece banned from performance. Conceived for the performers he had available at Theresienstadt — a singer for the Emperor himself, and others for Death, Pierrot, the Drummer, A Soldier, A Girl, and a spoken voice over the loudspeaker, plus a small orchestra — the piece combines in its musical idiom the cutting satire of Weill with the lyricism and sumptuous harmony redolent of Zemlinsky or early Schoenberg.

Its four short tableaux—set here in Annie Smart's stark prison-hut design — re-live in anguished, acerbic, yet guarded terms the depths of inhumanity and corruption into which mankind can degenerate, aspects of the work which were strikingly and pointedly underlined by this performance conducted by Michael Graubert.

Geoffrey Norris

RPO, Menuhin, Wang Xiao-dong

THE YOUNG Chinese violinist Wang Xiao-dong, still in his mid-teens and senior first-prize winner in this year's Orion Insurance Yehudi Menuhin International Violin Competition, acquitted himself splendidly in Prokofiev's Second Violin Concerto at the Festival Hall on Tuesday night.

Supported by the Royal Philharmonic Orchestra under the direction of Sir Yehudi himself, he projected the work's many broadly singing melodies with confidence and tonal richness, responding boldly also to bravura material; in fact, he needed only perhaps the extra weight that will come with the years to make this a fully mature interpretation.

The remainder of the concert was devoted to a performance of Beethoven's Ninth Symphony in which the orchestra, with wind quadrupled, was joined by the Brighton Festival Chorus and soloists Sheila Armstrong, Diana Montague, Robin Leggate and Henry Herford.

Sir Yehudi unfolded the cosmic vision of the first movement with a rugged power that made no attempt to smooth the rough edges of Beethoven's mighty textures; meteors flamed and the earth's foundations shook in a way that no warmly rounded performance can achieve, and the orchestra backed him willingly.

After a briskly driven scherzo in which the elements leapt and trampled, the adagio's divine hymn, at last, and with perfect timing, drew playing of sustained warmth, and then there was a marvellously joyous rendering of the finale, Sir Yehudi daringly launching and sustaining the cumulative structure, the choir's shouts of triumph thrilling the listener.

Anthony Payne

ROCK / The Pointer Sisters

WITH the pressure on black female singers to behave like sex-crazed feral women—Tina Turner, Chaka Khan — it is surprising to find that there is room left for old-fashioned girls like the Pointer Sisters. Yet, as sister Ruth explains, the past couple of years have been the best-ever for the Pointers, with the huge hit "Automatic" leading to many things. One would not have to think very hard to find the old show-business rules of a name, face and a song—and perhaps a dance-routine — in action again.

Old-fashioned is, of course, a relative term. At the Hammersmith Odeon, the Pointers throbbed in frothy ostrich feather capes which came off as they sang about being "About to lose control." In skimpy individual saloon-girl costumes, they flashed through a highly-polished dance routine to "Automatic."

The Pointers show the adaptability of talent—the kind of thing Cliff Richard was always showing — with an imaginative choice of songs. They do, to be fair, have a little more soul. One of their finest styles is country, and "Slow Hand," the nice girl's plea for tenderness from her man, could be their anthem.

Their future seems to be in dance music however, and a song from a forthcoming LP "Contact" called "Dare Me", seemed to have most of the makings of another "Automatic."

The Pointers allowed themselves individual interludes—Ruth sang gospel, Anita country, baby sister June, rock and roll. Ever crisp, fresh and primly wise-cracking, it took a while for the Pointers to move much beyond warm on the temperature scales. This happened at last with the flimsy "Neutron Dance" and then "Jump for your Love" a mainstream dance tune, played however, with immense style by their band led by Jo Mountford.

MANAGEMENT & EXECUTIVE

MANAGEMENT CONSULTANTS
SALARY £12,400 TO £27,000+
Our client is a major International Management Consultancy whose expanding operations throughout Europe have led to the creation of a number of vacancies for suitably experienced persons.
Current openings are for experienced Project Managers, Business Consultants, Manufacturing Managers, Systems Engineers, Accountants & DP Professionals who wish to develop a broader range of skills.
All posts will involve working under pressure at Executive level, with the challenge of presenting solutions to Senior Managements and the salaries paid will reflect this.
We would expect successful candidates to be between 28-40, be fluent in English and one other language, and possess a degree or equivalent professional qualification.
Please write enclosing c.v. and a recent snapshot to M.C. 6114, Daily Telegraph, London, E.C.4.

MANUFACTURING MANAGEMENT OPPORTUNITY
HERTFORDSHIRE
£15,000 + CAR + BONUS
An engineer with clearly defined leadership skills is required to take responsibility for all manufacturing operations in an established business which has excellent opportunities for expansion. The candidate should have press-shop, heat treatment and some cold forming experience, as well as experience of volume assembly. Responsibility will be for the completion of production programmes within time, cost and quality parameters and for the improvement in productivity by new manufacturing methods and the motivation of a unionised production force. An understanding of costing and computer production control will be necessary. This is an excellent opportunity for an engineer who can demonstrate a determined hands-on approach.
Please reply in strictest confidence, giving brief details of career to date, to Mr Roger Guy, Eyre & Company, Steelhouse Fountain Court, 24 Steelhouse Lane, Birmingham B4 6BB. Telephone 021 236 3002.

NORTH WILTS RIDGEWAY BUILDING SOCIETY
(Assets £35 Million)
MORTGAGE MANAGER
The successful applicant will be responsible for both the advances and administration of the Society's Mortgage Department. Candidates are likely to be in the age range 25-35 and ideally should be professionally qualified C.B.S.I. or similar qualifications, with a sound knowledge of Building Society law and practice.
The position offers an attractive salary and benefits, including contributory pension scheme, B.U.P.A., Permanent Health Insurance and concessionary mortgage terms.
If you feel you have the necessary qualities and attributes and wish to join a strong and expanding local society situated in one of the fastest growing environments in the country, please write enclosing full C.V. together with an indication of the salary required to Neil Pearce, 18-19 Commercial Road, Swindon, SN1 5NP.

PRODUCTION MANAGER
c. £15,000 East Berkshire
Reporting to the MD of a leading and expanding manufacturer of plastic products, the appointee as a member of the management team, will be responsible for all production and engineering, planning and control activities. 35-45, qualified to Graduate or HNC level or equivalent, with proven production management experience, preferably in the polythene or related industry. Leadership, enthusiasm and communication skills are essential qualities for this potential which could lead to a board appointment.
Please write quoting Ref. R435 to John Whitmore, Barent Consulting Group Limited, Prospect House, River Street, Windsor, Berkshire, SL4 1QT. Windsor 58860.

REGIONAL MANAGERS. Area Managers and Sales Consultants required. All promotion is from within and is rapid for achievers. We have a unique new product unrelated to the existing home improvement market. High direct and O/R commission. Telephone 01-725 2580 now.

RECRUITMENT CONSULTANT
Classicae Management has established an enviable reputation since its formation 10 years ago; we specialise in the computer, telecommunications and associated high technology industries where we offer a complete recruitment service.
We are looking for an additional Consultant who will be a very effective communicator demonstrating a strong presence and a high measure of articulation.
The appointment offers the ultimate in challenge and variety — we have to be able to relate to people and their circumstances at all times to some that will mean frustration, but to the candidate we are looking for it will represent a unique challenge and an unusual stimulating opportunity to achieve both in terms of personal development and high financial rewards.
For an informal discussion call John Lowe direct on 01-489 9241. Classicae Management, Liberty House, 222 Regent Street, London W1.

REGISTRAR
(Chief Executive)
Salary neg £17,000-£19,000 pa
The position of Registrar of the General Optical Council will become vacant later this year when Mr J. D. Devlin, O.B.E., retires. The Council is responsible for the registration of opticians and bodies corporate under the Opticians Act 1958. It has the general function of promoting high standards of professional education and professional conduct among registered opticians. The principal duty of the Registrar is to assist the Council in the execution of its statutory responsibilities.
Applications are invited from men and women in their 40's or early 50's, with appropriate academic and/or professional qualifications. Relevant management experience is essential; a law related background, some experience in legal procedures and a knowledge of central and local Government structure, organisation and practice would be advantageous.
Applications, with detailed curriculum vitae, should be sent to Mr H. G. Ellis, Massey's Executive Selection, 100 Baker Street, London W1M 2BA. (Tel: 01-935 6581) from whom full particulars of the post are available.

DONCASTER HEALTH AUTHORITY
is fully committed to introducing the recommendations of the Government Inquiry into NHS Management and is seeking applications from managers with exceptional leadership qualities and who can demonstrate a proven record of successful management within a large organisation to undertake the challenging opportunities offered in the following appointment as

UNIT GENERAL MANAGER
to one of the following units of management:—
(a) Doncaster Royal Infirmary circa £20,000 (Budget £20m. Total staff 2,070).
(b) Montagu Hospital, Mexborough — circa £14,500 (Budget £3m. Total staff 545).
(c) Services for the Elderly and the Mentally Ill — circa £18,500 (Budget £6m. Total staff 840).
(d) Services for the Mentally Handicapped—circa £15,500 (Budget £5m. Total staff 387).
(e) Community Health Services and Health Promotion — circa £17,000 (Budget £4m. Total staff 583).
Unit General Managers will be accountable to the District General Manager for the allocation of resources in the most effective way and will be members of the Senior Management Team.
Initially the appointment will be for fixed periods of between three to five years and may be extended by mutual agreement.
Remuneration will be negotiable.
Application forms and further information is available from the District Personnel Officer, York House, Cleveland Street, Doncaster DN1 3ER, telephone Doncaster (0302) 67051, to whom completed forms marked "In Confidence" should be returned by 31st May, 1985.

REGIONAL SALES MANAGER
£10,000 p.a. + car + bonus
Our client is engaged in a unique service advertising medium. As first in the market place and well established market leader, already with a nationally known name and product the client is poised for the second stage of development.
As a result of strong UK growth and inroads into overseas markets, the company seeks a young, vibrant sales and marketing orientated Manager who could ultimately assume responsibility for UK sales.
Based in Hertford and reporting directly to the Managing Director, you should be aged 25-30, with a background of successful sales achievement to commence with experience of managing and motivating staff. Demonstrative telephone sales success would be an advantage. You should be energetic, enthusiastic and a good communicator with a keen interest to ultimate career since this initial appointment is the first in the company's restructuring for growth and could lead to a Directorship for the right person.
Tell us how you feel you match up to this challenge and send your CV to Colin Rees, Quest Consultants Ltd, The Elizabethan House, Hertford, Herts, SG14 1EQ.

SALES MANAGER
NARROW FABRICS
We are seeking an experienced, energetic salesperson of total integrity, who will enjoy a responsible position in a small go-ahead company.
Albert Green Ltd., is an old-established narrow fabrics manufacturer, producing a wide range of woven tapes, webbings and braided cords in two factories in Derbyshire.
Ideally, candidates will have experience of this specialised branch of the textile industry. Salary and conditions will reflect the importance of this key post.
Please apply in writing, giving full details of career to date to: W. N. Green, Albert Green Ltd., Agard Street, DERBY DE1 1DZ.

SHIFT DISTRIBUTION MANAGER
Manor Bakeries Limited is part of the successful Ranks Hovis McDougall Group. Improvements to our rotating 7 days a week shift system have resulted in the need to recruit an additional Shift Distribution Manager.
Based at our factory in Eastleigh, you will be responsible for the organisation and control of warehouse, garage and transport activities including procedures relating to vehicle maintenance and routeing schedule.
You should have sound experience in a similar environment encompassing the legal requirements relating to the utilisation of vehicles, drivers and warehouse procedures. You should also be well versed in manpower deployment and industrial relations and have a knowledge of computer applications.
The remuneration package (including shift allowance) is highly competitive and will be supported by a first-class range of benefits as normally associated with a major organisation. Applications with full cv should be sent to The Personnel Manager, Manor Bakeries, Mr Kipling Bakery, Leigh Road, Eastleigh, Hants SO5 4YY. This position is open to both male and female applicants.

WORK STUDY / O & M / business Analyst required. 02403 3885.

COURT AND SOCIAL

Court Circular

BUCKINGHAM PALACE,
May 8.

The Queen and The Duke of Edinburgh, accompanied by The Prince Edward, this morning attended a Service in Westminster Abbey to commemorate the 40th Anniversary of the end of the Second World War.

Her Majesty and Their Royal Highnesses were received by the Dean of Westminster (the Very Rev. Edward Carpenter).

The Archbishop of Canterbury preached the Sermon.

The Countess of Airlie, the Right Hon. Sir Philip Moore, Air Vice-Marshal Richard Peirse and Major Hugh Lindsay were in attendance.

The Right Hon. Margaret Thatcher, M P (Prime Minister and First Lord of the Treasury), had an audience of The Queen this evening.

The Duke of Edinburgh, Patron of the Outward Bound Trust, attended a luncheon organised by the Variety Club of Great Britain in aid of the Trust, at the Café Royal, Regent Street, W.1.

Mr Brian McGrath was in attendance.

His Royal Highness, President of the City and Guilds of London Institute, this afternoon at Buckingham Palace presented the 1985 Prince Philip Medal to Mr Bryan Down.

The Duke of Edinburgh this evening attended a Golden Jubilee Reception given by the Geographical Magazine at the Travellers' Club, Pall Mall, S.W.1.

Sqdn Leader Timothy Finneron was in attendance.

His Royal Highness later attended an Army Benevolent Fund Dinner at the Royal Hospital, Chelsea, S.W.3.

Brig. Clive Robertson was in attendance.

The Princess Anne, Mrs Mark Phillips, visited Northern Ireland today.

Her Royal Highness travelled in an aircraft of The Queen's Flight and was received at Aldergrove Airport by the General Officer Commanding Northern Ireland (Lieutenant-General Sir Robert Richardson) and the Chief Constable, Royal Ulster Constabulary (Sir John Hermon).

The Princess Anne, Mrs. Mark Phillips, this morning visited Ben Madigan Preparatory Department of Belfast Royal Academy and was received by Her Majesty's Lord-Lieutenant for the County Borough of Belfast (the Lord Glentoran) and the Headmaster of the Academy (Mr W. M. Sillery).

Her Royal Highness was later entertained at luncheon at Hillsborough Castle and was received by Her Majesty's Lord-Lieutenant for County Down (Col. William Brann).

In the afternoon, The Princess Anne, Mrs Mark Phillips, President of the Save the Children Fund, toured the Fund's Farm at Minnowburn, escorted by the President, Save the Children Fund, Northern Ireland (the Hon. Mrs King).

A VE Day commemorative ladies' night dinner was held last night by the Royal Naval Reserve Officers' (London) Club at the Naval Club. Rear-Adml R. G. Heaslip, Flag Officer Submarines, and Mrs Heaslip were the principal guests. Capt. F. Ashe Lincoln, Q.C., RNVR, presided.

THE HALL SCHOOL, HAMPSTEAD

The Hall School celebrates its centenary in 1989. It is planned to publish a history of the school, to include personal reminiscences. Would Old Boys, former staff or Governors willing to contribute please write to Mr F. J. Earle, c/o The Hall, 23, Crossfield Road, London, NW3 4NU.

SEVENOAKS SCHOOL

Open Day at Sevenoaks School is on Saturday, July 6. There will be an Old Sennockian lunch and those wishing to attend should write to the O.S. Secretary at the School. O.S. who have not received the annual news letter should also contact the Secretary.

WAY OF THE WORLD

What the Papers Say

IN a thoughtful leader the FEUDAL TIMES AND REACTIONARY HERALD discusses an interview given on the wireless by Mrs Thatcher on her return from Bonn, in which she spoke of her "dream for Britain."

"The Prime Minister is reported to have said: 'I want people to have the right to property, occupational pensions, the right to share, to be the same as everyone else . . . I do not care what people's background is, where they come from, I want them to have the same opportunities . . . in other words, I want to get totally rid of class distinctions'.

"If the Prime Minister was correctly reported — and the repetition of her main assertion seems to hold out little or no hope to the contrary—then we must confess to feelings of sorrow and dismay, nay, of positive outrage.

"With occupational pensions, whatever they be, and with the right to share, whatever that may be, we are not concerned. But this stated aim of getting rid of class distinction, this astounding claim not to care about people's background, this wish that 'everyone should be the same as everyone else': these assertions must have sent a shudder of horror not merely through the nobility and gentry but through every person of decent feeling down to the humblest artisan.

"Nor can we treat this dream or vision of Mrs Thatcher's as a temporary aberration, to be pardoned and overlooked in a member of the weaker and more suggestible sex. We have noted before this—and as our readers will be aware—commented adversely on the Prime Minister's apparent leaning towards projectors and other such persons of no recognisable class or background, and her encouragement not merely of honest tradesmen but of those who, however rich they may be, can only be described as hucksters and bagmen.

"It was not for this, we fancy, that the electors returned a Conservative administration two years ago. Most of those who voted in the Conservative interest then must have hoped and expected that it would, above all, uphold and inculcate those distinctions of class which are the safeguard and surety of all that is best in our society.

"Even now we must hope that we are passing through an

evil dream from which we shall in due course awake to find the proper order of things securely re-established and the essential habits of deference restored. But we greatly fear . . .

At Marxmount

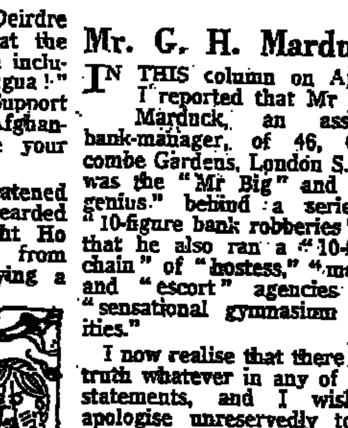
MARXMOUNT, Mrs Dutt-Pauker's fine white mansion on Hampstead Hill, was the scene of unusual gaiety yesterday as the eminent Hampstead thinker gave a garden party to celebrate the fortieth anniversary of victory in Europe.

A large Soviet flag flew from the main flagstaff. The cedared lawns were gay with the flags of the People's Democracies. A small Union Jack and a small French tricolour could also be seen draped over some redcurrant bushes in the kitchen garden.

Mrs Dutt-Pauker had spent some time considering whether these capitalist flags should be allowed among he decorations. She eventually decided that since the British and French peoples had also given some help in the defeat of Hitler, in spite of persistent sabotage by their ruling classes, their flags had earned a place, however small.

Her daughter Deirdre hesitantly suggested that the American flag should be included. "Vietnam! Nicaragua!" snapped her mother. "Support for bandit elements in Afghanistan! Do try to use your intelligence, Deirdre."

More trouble threatened when Deirdre's little bearded activist son, Bert Brecht Ho Che Banana, appeared from the nursery wing carrying a



Chinese Communist flag, followed by Gjoq, the Albanian au pair girl, proudly carrying the flag of Communist Albania, with the double-headed eagle of Skanderbeg enclosed in a yellow star on a red ground. But the two immediately began quarreling, with an exchange of insults: "Revisionist dwarf!" "Two-headed Bonapartist!" "Goulash adventurist!" "Hot water melon-eating bicycling ghost!"

In the struggle which followed both their flags were torn up and set on fire. Apologising to her guests, the Hampstead thinker shooed them back to the nursery wing, still thumping each other with their flagpoles.

What crowds of guests paced among the flowery parterres—"extreme Left-wing" Labour politicians (and even one or two Conservatives), so-called "fellow-travellers," some of the more socially acceptable trade union leaders, writers, actors—even that wide Marxist demesne was hardly large enough to hold this enlightened throng, each one of them dedicated to the people's struggle for world peace and the consolidation and extension of the European order of today which the liberating Red Army had alone made possible.

For a few moments Mrs Dutt-Pauker slipped away from her guests to her capacious study with the big signed photograph of Stalin on the wall. Herself surprised by the tears which ran dialectically down her withered Marxist cheeks, she whispered: "Thank you, Uncle Joe."

Mr. G. H. Marduck

IN THIS column on April 7 I reported that Mr G. H. Marduck, an assistant bank-manager, of 46, Clothcombe Gardens, London S.W.40, was the "Mr Big" and "evil genius" behind a series of "10-figure bank robberies" and that he also ran a "10-figure chain" of "hostess," "model" and "escort" agencies with "sensational gymnasium facilities."

I now realise that there is no truth whatever in any of these statements, and I wish to apologise unreservedly to Mr Marduck, his family and his professional associates for any grief, trouble and embarrassment I may have caused.

Contributories: On the same day and at the same place at 11.30 o'clock.—J. L. P. POPE, Official Receiver and Provisional Liquidator.

PUBLIC NOTICES

LONDON ABERDEEN & NORTHERN MUTUAL ASSNRANCE SOCIETY LIMITED

NOTICE OF MEETING

NOTICE IS HEREBY GIVEN that the Annual General Meeting of the Company will be held at the Prince William Suite, Royal National Hotel, Bedford Way, London, WC1H 0DG, on Thursday, 6th June, 1985, at 12 noon.

Ordinary Business
1. To confirm the Minutes of the Annual General Meeting of 7th June, 1984.
2. To receive and adopt the Report of the Directors and the Accounts of the Company for the year ended 31st December, 1984.
3. To elect Directors.
4. To appoint Auditors.
5. To authorise the Directors to fix the remuneration of the Auditors.

Special Business
To consider and if thought fit to pass the following Special Resolution:
6. That the existing Articles of Association of the Company be replaced by new Articles of Association as set out in the print available on application.

By Order of the Board,
S. T. PARDOE, Secretary.
14th March, 1985.

Copies of the Report and Accounts together with proxy forms and copies of the proposed Articles of Association may be obtained on application to the Secretary of the Company at 129 Kingsway, London, WC2B 6NF. A member entitled to attend and vote at the meeting may appoint a proxy to attend and on a poll to vote in his stead. The proxy must be a member of the Company.

THE SHY MAN WHOSE JOB IS TO KEEP CHATTING . . .

CAROL THATCHER, ON THE ESCORT AT THE PRIME MINISTER'S SIDE

DENIS THATCHER will spend his seventieth birthday tomorrow morning doing what he does daily: answering the pile of letters most of which begin: "Dear Mr Thatcher, If I write to the Prime Minister she'll never get it because of the secretaries and civil servants, so I'm writing to you."

"I get letters on every *subject under the sun* — animal welfare, unemployment . . . the rates," he said. He has no secretary *and answers his business* and personal mail himself, *working in a small study* in the flat he calls "living *over the shop*" at the top of No. 10.

"I'm reluctant to say that I'm an effective backdoor to the Prime Minister because if I did my mail would go through the roof," he said.

As the husband of our first woman Prime Minister, he is seen by some — to his bemusement — as something of a minor celebrity and some of his letters are fan mail.

"I suppose I've sent out about 200 signed photographs to people who've written in and asked for them," he said. His public duties, first as the husband of the Leader of the Opposition and for the past six years of the Prime Minister, have delayed his own retirement for a decade.

He is constantly asked: Why do you do it? "For love and loyalty; God gives you a job . . . get *out and do it*," he replies.

But there was *no* precedent for what he was meant to do and how. "Nobody had ever done the job before, always being present but never there, a few steps behind, staying out of trouble. Years ago, if anyone had said to me you'll be doing *all this, I'd have told them* 'You've got to be out of *your mind!*' I had no idea . . . I've had to learn my way, which hasn't been easy because I'm shy by *nature*."

The revelation of what he was in for came during an official tour of Derbyshire shortly after Mrs Thatcher became Leader of the Opposition. "I *thought, what am I doing* here? At the end of the *day in the Conservative* Club in a billiard hall I *was offered a drink and* I said 'I'd like the largest *whisky ever produced*.' I think they poured me a *tumblerful*," he remembers.

With experience he has evolved his own formula for making polite conversation to everyone, from two-minute chats to factory workers to lunches sitting next to the wives of VIP's. "*Most* people like to talk about themselves — give them the opportunity and they *will*," he said.

He is conscientious and thoughtful. "If you're on the programme, you've got to show up and on time." Then he specialises in what he calls "working the other side of the street or the back of the crowd," where people probably won't get a glimpse of the Prime Minister.

He rarely accompanies the Prime Minister on short overseas trips. "I never go on one-night stands. I can't do any good and I just get in the way."

When he does go he likes to have his own itinerary while the Prime Minister is occupied with hours of official talks.

He shows great stamina. Recently, in Indonesia in punishing humidity, he laid a wreath, visited three factories and lunched with industrialists before joining the Prime Minister for the remainder of a packed day.

He stood up to the heat far better than she did because he had more experience of it and enjoys it.

He said of his role on such occasions: "I try to present Britain and promote British companies. I made notes during one visit to a wholly-owned British subsidiary and then wrote to the chairman with a few points. I'm just doing what I've ben doing for 30 years: I'm a bagman selling Britain.

"This business that I spend *all my time playing* golf is absolute nonsense. I might get on the course four times a week and then not for six weeks because I simply haven't the time."

He takes pride in his dapper appearance. "I think I'm traditionally well-dressed. My father used to say 'Always be turned out right for the right occasion.' I wear mostly club ties: rugby football, Lord's Taverners, regimental."

He is a gin drinker normally but, as a sportsman who was a rugby football referee for 13 years, enjoys a pint of beer. He makes old ladies giggle when he replies to their question: how do you keep so fit at 70?

"Gin and cigarettes." He gets through a 20-pack a day.

He enjoys holidays more than the Prime Minister, plays golf in the sun with friends and shares her taste for mountains and fresh air.

He is quick to expound the No. 1 gain of being the Prime Minister's husband. "Over the years I've made more friends and acquaintances than I possibly could have done if she hadn't been so famous. I've met some terribly nice people."

He doesn't read the "Dear Bill" letters in PRIVATE EYE. Neither they nor any other take-offs worry him. He says pragmatically: "I can't do anything about them and I've got a lot of things to worry about which I can do something about."

He is philosophical about turning 70. "I agree with Maurice Chevalier who said 'It feels fine when you consider the alternative.' I can still play 36 holes of golf in a day; it gets a bit like hard work sometimes but I can still walk round."

● Denis Thatcher chatting to one of the gardeners in the garden of Downing Street. "Most people like to talk about themselves, give them the opportunity and they will," is the formula he has evolved for making endless polite conversation. Picture: Srdja Djukanovic

EATING IN, with GAIL DUFF, The Wholefood Cook

Cheese, without chewing the fat

IN YEARS gone by much of our food was seasonal. Throughout the winter and spring, milk was scarce and the only cheese eaten was the hard variety made the previous summer and left to mature.

As soon as the cows went out to grass in May, the farmer's wife had plenty of milk with which to make cottage cheese. This was different from the cottage cheese we know today and was made by simply letting milk go sour and then hanging it up to drain in muslin.

The result was a thick, creamy-textured and slightly creamy-coloured cheese with a mild but slightly "sour" flavour.

The cottage cheese we now buy in the shops is made from skimmed milk by a method originally perfected in America. The milk is heat-treated to rid it of any naturally-occurring souring organisms and a special starter culture is introduced.

The soft lumpy curds this produces are mixed with a little of the whey to form the grainy - textured, low - fat cheese that, despite its rather bland flavour, is the most popular soft cheese in Britain.

Most cottage cheeses have a fat content of only 4 per cent, with that of the St Ivel Shape variety being even lower at 1·5 per cent.

Many other soft cheeses have lately joined cottage cheese on the supermarket's shelves.

The one I use most frequently is curd cheese. This is a medium-fat cheese with a fat content of between 10 and 20 per cent. It has a fairly stiff texture and a creamy yet slightly sharp flavour and makes a good substitute for cream cheese in many recipes. Cream cheese, incidentally, contains 45 per cent. fat.

Low-fat soft cheese and full-fat soft cheeses have fat contents of between 2 and 10 per cent and around 20 per cent respectively. They are similar in appearance — slightly creamy as opposed to the pure white of curd cheese — and softer than curd cheese.

Fromage blanc has a deliciously creamy flavour and is more liquid than the rest. Its best uses are for sauces, soups and salad dressings.

Quark came originally from Germany. It is either fat-free or, when a little cream is added to the curd, low-fat. It is white and very smooth-textured, with a mild, clean flavour.

CARROT, CAULIFLOWER AND CHEESE SOUP

INGREDIENTS: 1 small cauliflower; 6oz carrots; 1 medium onion, thinly sliced; 1½ pints stock; freshly-ground black pepper; 1 bayleaf; 2oz curd cheese, or low-fat soft cheese; 1 small clove garlic, crushed with a pinch sea salt; 2 tablespoons chopped parsley.

METHOD: chop the cauliflower into small pieces and thinly slice the carrots. Put them into a saucepan with onion and stock. Season with pepper and add bay leaf. Cover them, bring them to boil and simmer for 30min. Remove bay leaf and put the rest into a blender with the cheese and garlic. Work them until you have a smooth, pale salmon pink soup. Return it to saucepan. Stir in parsley and reheat.

MUSHROOM AND WATERCRESS DIP

INGREDIENTS: 6oz flat mushrooms; 1 large onion; 3oz watercress; 1oz butter; juice of half a lemon; 4oz fromage blanc; 2 large carrots; 1 red pepper; half cucumber; 4 celery sticks; wholewheat toast or biscuits.

METHOD: mushrooms and a low fat cheese make rich-tasting but low-caloried dip. Finely chop mushrooms, onion and watercress. Melt butter in frying pan on low heat. Stir in mushrooms and onion. Cover and cook them gently for 10 min. Add watercress and lemon juice. Cover again and cook for 2min.

Cool the mixture. Put it into blender or food processor with the cheese and work it to a smooth purée. Chill dip for 1hr. Divide dip between 4 small dishes. Cut vegetables into small sticks. Put each dish in centre of a large plate and surround it with the vegetable sticks. Serve toast or biscuits separately.

BAKED POTATOES TOPPED WITH AVOCADO

INGREDIENTS: 4 large potatoes; 8oz cottage cheese; 2 tablespoons soured cream; 2 ripe avocados; 1 garlic clove, crushed with a pinch sea salt; 4 spring onions, finely chopped; 1 tablespoon Dijon mustard; 8 small parsley sprigs.

METHOD: heat oven to 400F (Gas 6). Scrub potatoes and prick them twice on each side with a fork. Lay potatoes on oven rack and bake them for 1hr 15min or until they are soft in middle and crisp on outside. While potatoes are cooking, rub the cheese through a sieve and beat in the soured cream. Peel, stone and mash the avocados. Mix them into cheese. Beat in garlic, onions and mustard.

Cut each potato in half lengthways. Pile avocado mixture on top and garnish with parsley sprigs. Serve as a snack meal rather than as an accompaniment.

MIXED PEPPER TART

INGREDIENTS: cheese pastry —8oz wholewheat flour; pinch fine sea salt; 1 teaspoon mustard powder; 2oz butter, softened, or vegetable margarine; 4oz curd cheese or fromage blanc; 1 egg yolk; 1 tablespoon cold water. Filling: 2 large green peppers; 2 large red peppers; 1 large onion; 3 tablespoons oil; 1 garlic clove, finely chopped; 8oz curd cheese or fromage blanc; 4 eggs, beaten; 2 tablespoons chopped parsley; 1 tablespoon chopped thyme.

METHOD: for the pastry: put flour, salt and mustard into bowl. Rub in the butter and cheese. Make well in centre and put in egg yolk and water. Bring mixture together to form a dough. Leave dough in cool place for 30min before using.

Heat oven to 400F (Gas 6). Core and seed peppers and cut into strips. Thinly slice onion. Heat oil in a frying pan on low heat. Put in peppers, onion and garlic and cook them until the onion is beginning to turn golden. Take them from the heat and cool them slightly.

Put cheese into bowl. Add eggs a little at a time, beating well after each addition. Beat in parsley and thyme. Roll out pastry and line a 10in tart tin. Put in peppers and onion and spread them out evenly. Pour in cheese mixture. Bake the tart for 30min or until the filling is set and golden. Serve hot or cold.

BLACKCURRANT CHEESE MOUSSE

INGREDIENTS: (This can also be made with one 8oz tin of blackcurrants in natural juice. Sieve them, add honey to taste but omit the wine): 8oz blackcurrants; 2 tablespoons honey; 4 tablespoons red wine or red grape juice; ¼oz gelatin; 4 tablespoons warm water; 2 eggs, separated; 4oz low-fat soft cheese.

METHOD: string the blackcurrants. Put them into a saucepan with the honey and wine. Cover them and set them on a low heat for 10min or until they are soft and juicy. Rub them through a sieve. In a small pan, soak the gelatin in warm water.

Put one tablespoon blackcurrant purée into each of four glass dishes. Return rest to cleaned pan and set it on a very low heat. Beat in the egg yolks, one at a time and cook, stirring, without boiling, until the mixture coats the back of a wooden spoon. Melt gelatin and stir it into the thickened purée. Cool the mixture.

Put the cheese into a bowl and gradually beat in thickened blackcurrant purée. Stiffly whip the egg whites and fold them into the rest. Pile the mousse into the glasses. Leave them in a cool place to set.

SOFT CHEESE SALAD DRESSING

INGREDIENTS: 4oz quark or curd cheese; 1 tablespoon natural yogurt or soured cream; 1 tablespoon cider vinegar; 1 garlic clove, crushed, optional.

METHOD: put cheese into a bowl. Gradually beat in the yogurt or soured cream and vinegar. Beat in the garlic if using.

SALAD WAYS

CREATIVE salads depend as much upon the dish or bowl they are served in as the combination of fruit or vegetables therein.

Glass, wicker, terracotta or wooden containers can turn a salad into a master centrepiece for the table. Rattan or straw baskets give an exotic South Sea islands touch to a selection of raw vegetable nibbles.

Rustic, earthenware casserole dishes can be used throughout the summer to hold juicy combination salads. Glass is perfect for a see-through salad, if you want guests to note the crafty placement of tomato wedge and apple chunk. Choose your bowls and platters to contrast with the colour and texture of the vegetables and fruit you plan to use.

Selfridges currently has hand-carved teak salad bowls from Korea, priced from £12 for individual side-salads up to £35 for the larger sizes. And in its Food Hall, there is an English Salads promotion with a tempting array of English cucumbers, watercress, mustard cress and tomatoes.

Harrods' Cook Shop has a more expensive selection of wooden bowls, ranging from the Danish "Nissen" style, at £65, which is a hollowed square-foot of bleached beech, up to the luxury, deep circular bowl by the Austrian firm Ostovics, which is carved from cherry wood and costs £235.

On a more economical level are clear glass bowls. The largest Pyrex mixing bowl, about £4 from Tesco, Asda and Co-op stores, is a perfectly practical and acceptable salad bowl.

Neal Street East in London's Covent Garden has a treasure chest of wicker and rattan containers and baskets which are perfect as fruit bowls, or to showcase a summer salad. In Liberty's Oriental department there are unusual Japanese bowls and serving trays in distinctive red and black plaster lacquerware, as well as Indian cane baskets with a gold band rim.

Hilary Alexander

● PICTURED: back row: Italian abstract-shape glass platter in pearlised pink/gold, £45 from Liberty, Regent Street, London W1; white china "hands" and companion bowl for fruit and vegetables, £27·25 for the set, from Ultimo, Manchester, Dimension, Leicester, Studio 1, Edinburgh, Perrings stores (home accessories department), and Way In Living, Harrods, London SW1. Bottom row: round red/black Japanese plastic lacquerware tray, £11·75; heavy glass bowl (red inside, black outside), £43·50, both from Liberty. Picture by MICHAEL PATTISON.

HOW TO WEBER A PEKING DUCK WITHOUT BECOMING DISORIENTATED.

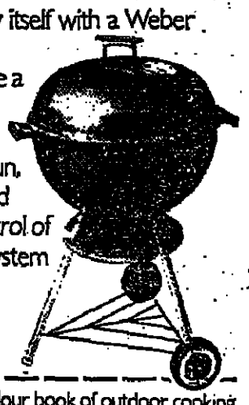
1. Remove fat from 4 to 5lb duck. Tie neck and bottom cavity to form airtight seal. Cut small slit in neck to insert straw. Blow air in until bird is inflated. Seal slit. Hang bird in cool airy place to dry.
2. Immerse duck in boiling water to scald skin. Drain and dry. Combine ½ cup honey and 1 cup water. Rub honey water over duck skin. Dry again in cool airy place.
3. Weber by Indirect Heat Method for ½ hour when skin will be crispy and a deep golden brown.
4. Serve cut into bite size pieces accompanied by Hoisin Sauce and steamed buns. For full recipes see "Elegant Fare from the Weber Kettle."

Cooking anything anywhere outdoors is simplicity itself with a Weber barbecue kettle.

It roasts perfectly. It casseroles. It bakes. You can use a wok on it. And of course it grills — with direct or indirect heat. And to everything it imparts that mouth-watering outdoor flavour that makes barbecuing more than just fun.

The design of the Weber eliminates flare-ups and excessive smoke. The vent system gives as sensitive control of heat as any indoor cooker and the unique ash disposal system means no mess or bother.

To find out more about why there's nothing like a Weber, send off the coupon today.



FREE COOK BOOK. Post this coupon today for your FREE full colour book of outdoor cooking and barbecue hints. Plus the Weber brochure and a list of Weber stockists. Post to: Weber Barbecues, P.O. Box 14, Horley, Surrey RH6 8DW.

THE DAILY TELEGRAPH

THURSDAY, MAY 9, 1985

135, FLEET STREET, LONDON, E.C.4.

TEL: 01-353 4242. TELEX: 22874/5/6.

CLASSIFIED ADVERTISEMENTS: 01-583 3939.

THE LORDS' GAUNTLET

"THE QUESTION IS," said Humpty Dumpty, "which is to be master?" It is a question to which those modern Humpty Dumpties, the Government's business managers, must now address themselves. In theory the holes punched by the House of Lords on Tuesday night in the Bill to scrap the metropolitan authorities were no more than noble pin-pricks. In practice the vote to install highway authorities to assume that segment of the role assigned to G L C and metropolitan counties is likely to be followed by others of a similar nature. So Mr LIVINGSTONE is right. The Government will either have to grit its teeth and defy the Lords' defiance, or it might as well give up its Bill.

This is no easy choice. That the Government can enforce its will in the elected Chamber is indisputable. There would be more revolts — and no doubt bigger ones — among its own backbenchers. It is even conceivable that the House of Lords could oblige Ministers to invoke the Parliament Act which would put a term to their Lordships' assertiveness. This seems unlikely, since it would involve the frustration by the non-elected Chamber of legislation for which the Government has an unequivocal electoral mandate. But without that it would not be unembarrassing for a Tory Government, the natural champion of a bi-cameral Parliament, to overturn the verdict of the "revising chamber" in a less than universally-acclaimed cause.

Yet the alternative would be a great deal worse. Regardless of the merits of this legislation, it does fulfil a manifesto pledge, and it has consumed much Parliamentary time and Ministerial prestige and effort. Were it now to be tacitly abandoned (or, worse still, made a monkey of with a train of whimsical addenda) the personal position of Mr PATRICK JENKIN would become untenable, and the authority of the administration as a whole would be seriously diminished. The truth is that the present House of Lords is increasingly reaching out beyond the modest limits of revising responsibilities to rewrite the legislative programme. So long as these ambitions flourish Ministers are entitled to assert the primacy of the elected House.

A SEASON OF SPEECHES

A FEELING of ennui, not to say déjà vu, must be sweeping across Europe and elsewhere in these times which is not entirely unconnected with the celebrations to mark the 40th anniversary of the victory over Nazi Germany. This event, and perhaps the Bonn Summit, got the leader of the Western world out of the White House and into Europe where he has delivered a series of speeches (by a speech writer brought out of retirement), one or two of which have been considered in some quarters, although not in others, to have been both restrained and moving. His penultimate finale was staged in the European Parliament in Strasbourg, France, yesterday where he offered a new framework for relations with the Soviet Union, a series of modest steps aimed at reducing East-West tensions. Its was very much a question of old wine in a new bottle but who would deny it was not worth quaffing?

Meanwhile, in fact at that precise moment, Mr REAGAN's young old ideological adversary, Mr MIKHAIL GORBACHEV, was banging on in the Kremlin about questions of war and peace, or more particularly about how the Red Army and the Soviet people won the war. Delivering a speech which excited the Kremlin-watchers only because a single reference to J. V. STALIN produced stormy and continuous applause, Mr GORBACHEV—guess what?—lashed out at United States policies as a growing threat to world peace. And so on and so forth. This was vintage Soviet speechifying, old wine in older bottles.

Not to put too fine a point on it, the leaders of the two super Powers are adding nothing these days to the sum total of human knowledge, and are not taking very much away either. CHURCHILL is often quoted for his "jaw-jaw is better than war-war" line but he would have despaired of the clichés and threats hurled back and forth with what has become monotonous regularity between Moscow and Washington in the great game of megaphone diplomacy. It is high time RONALD and MIKHAIL stopped rattling their rockets in public, put them back in their boxes and left things for a while to the hot-line and the spies in the skies. Public semantics are getting nowhere. Too much of it could spoil the talk they have both, almost certainly, set their hearts on having in the autumn.

AND THEN THERE WERE SEVEN

NOW THAT SHEFFIELD has halted on the brink of illegality and agreed to fix a rate, there are only seven councils continuing to defy the Government. The Environment Secretary, Mr PATRICK JENKIN, has wisely not yielded an inch in his battle with the rate-capped authorities but watched as the nerve of council after council failed. Some opponents, such as Mr TED KNIGHT, leader of Lambeth, still say that the fight will go on, that the Government will make concessions and that "Mr JENKIN is a worried man." Sheffield's decision to make a rate must surely leave Mr KNIGHT a rather more worried man.

The decision of the rate-capped authorities to take on the Government was misplaced from the word go. The threat of disqualification from office and the range of powers that the Department of Environment has at its disposal meant that, provided Mr JENKIN kept his nerve, it would be very hard for the rebel councils to win. When the Parliamentary Labour party refused to back the councils in their illegal actions and the courts decided that Hackney had to set a legal rate by the end of May, gradual collapse was inevitable. Now Mr BLUNKETT explains to us that the refusal to make a rate was only a tactic to place rate-capping on the national political agenda. One should be wary of this rewriting of recent events. The intention was to humiliate Mr JENKIN and make him provide more money. This it has so far failed to do.

Mr BLUNKETT will not be too unhappy about the vote in Sheffield. It does after all ensure that he does not run any risk of disqualification; yet because he maintained his opposition to making a rate to the end and left it to his colleagues to vote against the Labour whip, he maintains his Left-wing credentials. The crucial decision now for Mr JENKIN is whether this course of events will take place in the remaining rebel councils. There are arguments for maintaining the present policy. However the scenes in town halls like Southwark's last week are so appalling that intervention may become essential before the administration of the rebel boroughs totally collapses. It is not an easy choice to make.

Labour town halls pin their hopes on the ad-men

THE biggest growth in public relations over the past five years has been Labour council spending on political campaigns. The Left's traditional distaste for advertising, with its capitalist overtones, has been overcome to such an extent that many of the authorities concerned are unlikely to plan their policy strategy without their P R consultants being present.

The right of a local council to challenge government policies is not in question. What is remarkable about the current campaigns is their scale and cost—all paid for from public funds.

Each council has taken its own P R approach but the central theme is unmistakeable: whether the issue is rate-capping or the abolition of large city authorities, the message is that the Government is to be confronted and ousted as soon as possible.

The language is aggressive, the design of the literature strident and its honesty is questionable. Leaflets from the Greater Manchester Council, for instance, state quite explicitly that a change of authority will mean loss of jobs, cuts in education, and the end of concessionary travel fares, though no real evidence is provided. They further state that there will be fewer policemen and firemen, restrictions on home care services and a halt in the development of advanced processes for the treatment of refuse. Even sports fans are warned that "opportunities for thousands will vanish." It is all calculated to cause maximum public alarm.

*

MERSEYSIDE County Council, in a leaflet on services threatened by rate-capping, emphasised the risks to airport safety. "With lower standards of supervision and service . . . planes could be grounded."

The Greater Manchester Council also ran a poster enquiring in two-feet tall letters "What do you say to a state controlled police force?" The implications are clear — Big Brother is on the way. I am not concerned here about whether or not government policies are justified. What should trouble us all is whether the propaganda techniques used by Labour-controlled councils are a legitimate part of the democratic process. The campaign is large-scale and carefully orchestrated to reach every corner of the public consciousness.

First, a council issues huge posters backed up by leaflets distributed door-to-door and articles in its own publications. Then the activists do the rounds of hundreds of small "voluntary" groups, set up by the very same local authorities to look after minority causes. Their "membership" is then enlisted to protest, to write and to demonstrate. The campaign is thereafter extended to the local Labour parties and trades' councils before the local authority returns to the centre stage to make further protests, this time responding to "the will of the people."

One such example is to be found in Camden where the ethnic communities are caught up in the confrontation. A recent conference, jointly organised by the Camden Ethnic Minorities Consortium and the Camden Committee for Community Relations focused on rate-capping and the black community. "Rate-capping," the leaflet warned, "will be, in the long run, disastrous for black people."

Some local authorities have moved up-market, placing advertisements in the quality Press listing well-known people connected with, for instance, the arts, who are opposed to government cuts. The message is transmitted to the young, through cinema commercials. One film shown on the Odeon circuit in London included scenes with a group of actors led by Barbara Windsor, hammering on doors, alerting neighbours to an "impending danger" (the end of the G L C) and, exhorting the audience to "act" and "fight the cuts."

ERIC MOONMAN

on media campaigns

ratepayers may not believe but have to pay for

The battle is not confined to words alone. Public relations specialists know, even if the local councils do not, that the overwhelming majority of the public finds the whole question of rate-capping "boring," so they have to be encouraged with "freebies." Islington Council advertised in the Press and through mail shots about free food and entertainment prior to the council meeting convened to set the rates. Hackney tackled the under-sixes! Local children were asked to paint a view of what Hackney would be like if "rate-capping is enforced."

Even the libraries are used for the dissemination of political messages. In Sheffield and South Yorkshire they are a contact point for propaganda and have been renamed "community centres." In Islington libraries posters proclaim "Rate-capping—if you are sufficiently angry with the Government's attack on your services, please write to the Secretary of State. A suggested draft letter to Patrick Jenkin is available on application to the counter."

How have local councils got away with it? The Local Government Act 1972 permits local authorities in England and Wales to spend money on providing information about "matters relating to local government" in their areas. It specifies certain aural and visual methods of communicating such information but both the Act and the much abused Section 137 (the 2p rate for purposes not covered by the statute) emphasise that the powers are to *inform and not to persuade.*

It is difficult to work out precisely how much the councils' spending is direct and how much comes from money earmarked for "P R emergencies." The G L C 1984/5 budget made provision for £1,755,000 for its public relations and £1,764,000 for its "awareness" campaign on the abolition of the council. Altogether this brought to £10,267,000 the amounts earmarked for Press, poster and media advertising and meetings in support of the campaigns over the last three years.

The six metropolitan councils outside London announced last August that they planned to spend "more than £2½ million on campaigns fighting the Government's legislation to abolish them."

Greater Manchester also administers the six counties joint advertising account and the scale of that budget can be measured by the fact that £250,000 was spent on full page advertisements in national newspapers alone. Merseyside has spent £800,000 in its campaign against abolition; South Yorkshire, Greater Manchester and Tyne and Wear have each spent a million pounds. The anti-rate capping campaigns run to similar levels of expenditure—South Yorkshire, for instance, has spent £750,000 according to Irving Patnick, the Conservative leader for South Yorkshire.

*

AN independent Committee of Enquiry recently set up by Patrick Jenkin on the subject of local P R spending, may ensure that the free-for-all will be brought to an end, or, at the very least, that ground rules will be introduced.

The committee, to be chaired by Mr David Widdicombe, is expected to report within the year. It has been asked to produce an early interim report on the use made by some local authorities of their discretionary powers to engage in publicity exercises.

What matters in the end is that the people who foot the bill (that is, you and me, the rate-payers) are entitled to hear both sides of a story with equal clarity. It may be that media bombardment, subliminal messages, politicisation of every area of our lives, is finally to replace doorstep canvassing in our democracy. If that is what we want; let us say so. But as far as I know nobody has asked us.

The author, director of the Centre for Contemporary Studies, was Labour M P for Basildon until 1979.

LONDON DAY BY DAY

Cold comfort while veterans remember

THE CHELSEA Pensioners, most with many memories of the 1939-45 war, celebrated the 40th anniversary of VE Day with a special issue of tea bags, a packed supper and a letter explaining why they were not receiving a hot meal.

The 400 old soldiers were told that they must forego their usual high tea in the Great Hall of the Royal Hospital because 100 outside guests were each paying a substantial sum to join Prince Philip at a special VE Day celebration banquet. The money from the evening will go to the Army Benevolent Fund.

Reflecting that nothing changes in military life, the be-ribboned old soldiers queued stoically for cardboard cartons, each containing a ham roll, a sausage roll, a chocolate bar, a pat of butter and the tea bags. Then, as the first guests began arriving for the banquet, they trooped off with dignity to their ward-rooms to raise their mugs to old comrades.

The eyes have it

THE INSIDIOUS influence of television cameras in the chamber of the House of Lords seems, at last, to have been conclusively demonstrated.

Peers of all parties suspect that next Wednesday's parliamentary timetable has been tinkered with because of the presence of the cameras. The Alliance has postponed other less contentious topics and chosen instead to grab the T V news headlines with a debate on postal ballots in the unions.

Lord Chapple, the former leader of the Electricians' union and now a crossbencher, is expected, with a number of Alliance speakers, to use the occasion to put the spotlight on the Transport union's vote rigging difficulties. Anything said will, of course, be protected from the laws of libel by Parliamentary privilege.

Such an accomodation to the needs of television producers has always been feared. And now both B B C and I T V want to continue broadcasting after the end of the six month experiment later this year, it may not be the last.

According to the wine newsletter GRAPEVINE, *passengers on a recent Alitalia flight were offered lunch accompanied with wine and a miniature of the renowned digestive Strega. One of their number then proceeded to open his Strega and pour it as a dressing over his salad. With great aplomb the stewardess whipped away the meal and replaced it with another and, for safety's sake, a miniature of Sambucca.*

Sweet smell

MATTHEW FERRIS, one of the Tory M Ps on the Transport Bill committee stage, observed that the Conservative whip on the committee, Mark Lennox-Boyd, had a problem meeting quorum calls from the Opposition.

While passing through Madrid airport the other day he spotted the answer. On his return he raised a point of order and presented Lennox-Boyd with a bottle of Spanish after-shave appropriately named "Quorum." The smell, I am told, is strong enough to drive the most recalcitrant Tory back into the committee room.

The natural way

FOLLOWING my note about the Fleet Order on Wrens' clothing put out in 1940, a lady who served in the Home Guard at Bexley during the war has written to tell me of a similar incident.

Apparently when the Home Guard sector commander, the perhaps aptly named Maj.-Gen. Wellesley Brownrigg, asked the War Office for permission to issue uniforms to his women members, he received a crisp reply that the women were to be "firmly discouraged from wearing anything."

Brownrigg then christened the unit Lady Godiva's Own.

Buy the flag

A FRIEND'S daughter who has just come back from a week's holiday in Moscow and Leningrad is telling the story of a deal she struck in the entrance to a subway station there.

The enterprising girl bought a Sony Walkman from the Gatwick duty-free area before she left. She then used it for a week in Russia until, on her last day, she was approached by two students in Red Square who wanted to buy the machine.

But since the young Russians could only raise £20 in sterling — the tape machine cost almost £50 — they offered three huge Soviet flags to make up the balance which later fetched £15 each back in London. It seems they were souvenirs of the funeral of Chernenko.

Diseased work

I HAVE DISCOVERED a new danger that eminent writers face after their deaths — doctors diagnosing their illnesses by interpreting their work.

André Malraux, the French writer who died in 1976, is the subject of a "medical interpretation" in the May Journal of the Royal Society of Medicine.

A Canadian doctor, Tee Guidotti, uses an analysis of Malraux's novels — and the references to disease in them — to conclude that he had a neurological disorder.

All writers should be warned.

Karan Haadat, an ex-bodyguard to President Sadat, recently stumbled upon 260,000 French francs (about £25,000) lying in a telephone box in Geneva. A restaurateur from Annemasse, just across the border, claimed it. Now French police are asking him what he was doing with that much money in Switzerland — it being illegal to export large sums from France.

Old revival

THE GRAND theatrical tradition built up over more than a hundred years at the Georgian Theatre Royal, Margate which has languished since the building was converted into a bingo hall seven years ago—could be due for a revival. It is up for sale again.

The former theatre, thought to be second only to its Bristol namesake as the oldest in southern England, boasts a particularly fine stucco ceiling and is likely to go onto the market at £130,000.

The theatrical spirit has always been strong there, even through the dark days of bingo. Not only was the late Dame Flora Robson at the forefront of efforts to save it 1978, but former owner Sarah Thorne, who ran the theatre at the end of the last century, is said to haunt the building still.

Requited love

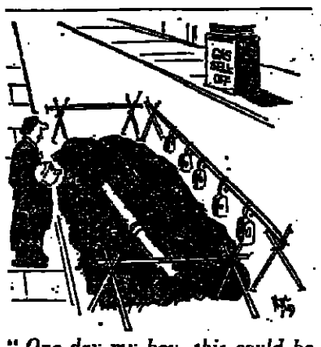
BEETHOVEN was not above a little personal vanity when in 1816 he sent a letter to Frau Antonie von Brentano along with an engraved portrait of himself on which he wrote: "Several people maintain that in this picture they can discern my soul quite clearly."

Both the picture and the letters are likely to fetch up to £30,000 at Sotheby's there they go under the hammer today. The letter dates from a period when Beethoven's passion for the lady was cooling although he dedicated his "Diabelli Variations" to her in 1823 after which she told a biographer of her "tender friendship" with the composer.

Roamin' holiday

FROM LAST FRIDAY'S edition of the GUERNSEY EVENING PRESS: "The Guernsey Growers' Association reminds growers that Monday, 6 May, is not a holiday and normal rates of pay will apply. As agreed, the May Day holiday will be taken on Thursday, 22 August."

PETERBOROUGH



"One day my boy, this could be yours"

LETTERS TO THE EDITOR

A vacancy to fill in South-East

SIR—As an employer in the South-East, may I add my thoughts to the growing public comment on unemployment and the call for more funds to be spent as a panacea to the problem?

For the last three weeks I have advertised a cashier's job, £6,000-plus a year without significant response.

The vacancy arose because the young man who had filled it, having come from Wales (no work but plenty of accommodation) had to return there because, though he had work, accommodation was too expensive to afford.

Another member of staff, with a wife and two children, has tax deducted on the one hand and rent rebate given on the other. For many in his position must be the thought (or conclusion) that for a modest £5 to £10 differential between unemployment benefits and working "anti-social hours," it is not worth the effort.

This is a strong reason for differences between Britain and America where the service industries have absorbed significant numbers of the unemployed.

As a small employer I find my company being "taxed" by a Road Transport Industry Training Board levy while being in no need of the "training" that they can provide. On the other hand I have provided a place for a Youth Training Scheme youngster, this has enabled him to study hard for a City and Guilds certificate and to get the firm promise of a job with a larger company upon my recommendation. I can understand youngsters feeling exploited on the inadequate Y T S grant though they wrongfully ignore the training and job experience benefits.

My conclusion: money does need to be spent, but aimed to encourage effort then to give greater assistance to those in the greatest deprivation.

DEREK BIGG
Sutton, Surrey.

Peel's way with unwanted laws

SIR—Mr Richard Ryder, M P, in his article of May 2, shows very clearly how much there is for the Government to do in fostering enterprise and ending collectivism and paternalism in the economy. There is also a lot to do in the social sphere.

There are far too many paternalistic controls enforced by a multitude of costly inspectorates and by the police.

The attention of the police is diverted from real crimes against people and property to victimless crimes which are offences only because at some time Parliament has been persuaded to make unlawful some activity which should never have been brought within the purview of the law.

Unfortunately, despite its rhetoric about liberty, the Government and the majority sustaining it have either sponsored or supported many more paternalistic provisions. The Parliament of 1979-83 created 291 new offences for which people can be fined or jailed.

Surely it is time for the Government to prove its devotion to freedom and personal responsibility by requiring every Ministry to prepare a Bill repealing as much as possible of the paternalistic legislation within its sphere and restoring to people's private decisions what should never have become the concern of national and local government, the courts and the police.

Conservatives have recently celebrated Sir Robert Peel's Tamworth Manifesto of 1834. They might remember that Peel drastically pruned the criminal law when he was Home Secretary in the 1820s. He set a splendid example to today's Ministers in all departments, especially the Home Office, whose Secretary of State has rightly paid eloquent tribute to him.

PETER CAMPBELL,
Reading, Berks.

Closed attitude

SIR—Like Peterborough (May 8) I greatly regret that the Imperial War Museum, in common with all other national museums, was closed on the May Bank Holiday.

This closure is the result of a national agreement with the unions concerned but, in view of the museum's special rôle in the V E Day anniversary, I made a direct approach to the Civil Service Union to allow us to open exceptionally on this day.

My appeal was based upon the fact that the public would want to come in and the great majority of the staff were willing to work. The union was not prepared to discuss this proposal, and consequently many thousands of people were disappointed.

Had such attitudes prevailed 40 years ago we might not have had a V E Day to celebrate.

(Dr) ALAN BORG
Director
Imperial War Museum.

CND discrepancies

SIR—Mr Peter Abrahams (May 2) seems sure he has his finger on the Campaign for Nuclear Disarmament's pulse, if only because he was once a member of a sub-committee of a region of C N D and "marshal" of Hampstead's C N D's Aldermaston marchers. However, he appears to be unaware of some salient points.

1—When C N D was launched in 1958 it was not supported by the Communist party: it was over two years before they began to back the campaign.

2—Once C N D began to establish itself as Britain's largest, most broadly based peace movement, many people tried to climb on to the bandwagon: fortunately, the efforts of Mr Abrahams and his fellow-travelling friends were more than offset by, for instance, C N D supporters who got themselves arrested handing out leaflets in Moscow; and, incidentally, by C N D group activists who were Conservatives. Twenty-five years later C N D is, if anything, even more broadly based.

3—To scatter undefined terms like "Left-wing," "anti-American" and "liberal" like confetti is meaningless.

4—There is no such book as "The Disarmers" by Christopher Price: if Mr Abrahams could get the author's name right perhaps Christopher *Driver* could tell us whether this quotation from his book represents it fairly.

5—Whoever "informally solicited" Mr Abrahams to stand for the general secretaryship of C N D must have been pulling his leg. Peggy Duff remained general secretary from the Campaign's foundation until 1967. When she left, the post was not a matter for "informal soliciting": it was widely advertised in the "Left and liberal Press" — including, incidentally, THE DAILY TELEGRAPH. I know, because I was acting general secretary at the time.

JOHN MINNION
Co-Editor, "The C N D Story".
Birmingham.

Declining numeracy

SIR—As a teacher of physics whose task is continually made more difficult by the declining standards of numeracy, I heartily endorse many of Mr H. A. Hopkins's views (May 2).

The value of training in basic mathematical skills is evident in its applications to everyday life and in the study of other subjects which depend upon it, notably the science subjects. This contrasts with the trendy uselessness of some topics in modern mathematics courses.

But why does Mr Hopkins blame the teachers for the syllabus content which is largely controlled by those remote from the classroom?

It is noteworthy that the latest approach of the Department of Education and Science is to appoint 350 more *advisers*, when what is really required is that more money be spent on the provision of well-qualified mathematicians to actually *teach* the subject.

J. L. BLAKEY
Stockport, Greater Manchester.

Responsibility and pay

SIR—An experienced scale 3 teacher has just been appointed as deputy head of a group 4 middle school.

His reward for accepting additional responsibility will be a reduction in salary of £549 per annum. This is happening daily across the country.

If Sir Keith Joseph and the Government genuinely wish to increase the quality of educational provision and reward the excellent teacher, perhaps they should attend to the anomalies of the present salary structure for teachers.

M. D. KEMP
Headteacher, Hillsborough Middle School.
Sheffield.

Cube-roots of unity

From Canon R. B. PARKER

SIR—I enjoyed Mr Adrian Berry's article on the strange number 153.

At a meeting, long ago, of the Modern Churchmen's Union, I heard the late Dean Inge "opine" (doubtless with tongue in cheek) that 153 was the square of the Twelve Apostles plus the square of the Holy Trinity.

As a schoolmaster, I once disturbed some fundamentalist sixth-formers by suggesting that the Holy Trinity was rather like the three cube-roots of unity—one real, and two imaginary. Curiously enough, these same quantities are usually known as 1, w, and w squared. Furthermore, each of the last two is the square-root of the other. No wonder they have retired me!

REGINALD B. PARKER
Sheepscombe, Glos.

That's life

SIR—As my Sunday evening's television relaxation was snookered, I came to wonder whether B B C now stood for "Broadcasting Billiards Continuously."

J. NOBLE
Manchester.

Observations on the growth of oysters

SIR—Following the report by your Agriculture Correspondent on April 2, outlining the proposed measures to restrict inputs to sensitive inshore areas of tributyl tin (T B T) from anti-fouling paints, there have been a number of letters claiming the action proposed is not supported by adequate research.

Since much, but by no means all, of the evidence was generated by our Burnham-on-Crouch laboratory, it is perhaps appropriate to set the record straight.

Mr Andrew Bray (April 4) asks whether the problem with Pacific oysters might be due to their not liking muddy or silty waters. This was the original contention of Ministry of Agriculture, Fisheries and Food scientists, but our recent research almost completely eliminates that possibility.

Indeed, we have shown that exposure of Pacific oysters to clean (T B T-free) silt actually promotes good growth. It is worth pointing out also that not all of the estuaries where Pacific oysters fail to grow normally are silty: they do, however, contain readily detectable concentrations of T B T.

Mr Eric A. Blackman (April 16) claims that no river water has been shown to contain tin. Presumably, from the context of his letter, he means estuarine waters, and tributyl tin. If so, analysts from the Institute of Marine Environmental Research, Anglian Water and M A F F, who have investigated waters and sediments independently, can show him many results which prove him wrong.

Dr R. Dalley (April 22) rightly points out that we have not claimed oysters are being killed by T B T from yacht anti-foulings. We have, however, demonstrated that it is reasonable to believe that the growth of both species of oyster (Pacific and native) is reduced in the very young stages, that older Pacific oysters become so severely malformed that they have no commercial value, and that reproduction of the native or European flat oyster is severely inhibited. All these effects occur at low concentrations of T B T typical of those detected in estuarine waters where there are many pleasure craft.

The statements we have made are based upon our own findings using established techniques of Pacific oyster culture, which have been tried and proven by our Shellfish Cultivation Group. Where we have found effects, they have not been caused by bad husbandry.

We have not forgotten that other contaminants may be the cause of some problems with oysters; however, the particular symptoms in Pacific oysters which we have reported are only identifiable where T B T can be detected. Where T B T is not detectable, we have not encountered the shellfish deformation symptoms in Pacific oysters.

Our inquiries have produced no evidence that oysters do not grow well in the Teign, but we would of course be pleased to consider any further information which Dr Dalley could provide.

Finally, it cannot be emphasised too strongly that, while the work of our laboratory has been mainly directed towards establishing the impact of T B T on commercially important species, there is a steadily increasing body of evidence in the scientific literature which not only supports our findings, but indicates that the problem is far wider, and that many other marine species are likely to be affected.

This is hardly surprising, given that T B T is intended to be highly toxic to marine life, and it has in fact proved to be one of the most poisonous substances we have ever tested.

Lowestoft, Suffolk.

£400m new town planned in Essex Green Belt

By JOHN GRIGSBY Local Government Correspondent

A CONSORTIUM of nine of Britain's biggest builders yesterday lodged a planning application to build a £400-£500 million new country town for 14,000 people in the Green Belt in Essex.

The consortium plans to build the new town on a 750-acre site in the metropolitan Green Belt between West Horndon and Bulphan and near Thurrock and Basildon, about four miles from the M25.

The controversial project is the first of at least half a dozen planned by Consortium Developments.

The consortium will provide the capital for the services and facilities in the town. It will pay for roads, sewers, landscaping, open space and community facilities and at least one primary school. It also intends to make substantial contributions to health centres.

It intends to submit proposals for two similar schemes in the South-East, near the M 25 within the next 12 months. But the consortium is not going ahead with a previous plan to build a village near Harlow by the M 25 and it has previously dropped plans to build at Hook, Hampshire.

Health facilities

The Tillingham Hall scheme will provide 5,100 homes as well as parks and lakes, commercial areas providing 2,000 to 3,000 jobs and a high street with shops, small offices and workshops, schools and community and health facilities.

Mr Andrew Bennett, executive director for Consortium Developments, said that the shortage of homes in the South-East was so great that it could not be solved by simply relying on the redevelopment of inner areas of London and estates tacked on to existing towns.

"We have got to have projects of this sort as well. By the end of this decade, many hopeful home-owners, especially first-time buyers, are going to be priced out of the market."

But the proposal is bound to cause controversy and the consortium is resigned to the matter finally being decided at a public inquiry. Thurrock Borough Council, the district in which the land lies, has already said it is opposed to the scheme.

Essex County Council has also been critical.

'Remarkable nerve'

Mr Robin Grove-White, director of the Council for the Protection of Rural England, said: "Consortium Developments are set on driving a coach and horses through this country's Green Belt policies. They have a remarkable nerve. And they will have a hard fight."

Even if all goes smoothly, the first houses will not be built until 1988, the scheme will pose a major dilemma for Mr Jenkin, Environment Secretary.

On the one hand, he has promised to maintain the Green Belt and ran ito criticism last year after a circular suggested that pockets of the belt might be released for development. He has made it clear that it will only be breached in exceptional circumstances.

On the other, the Government is relying increasingly on the private sector to provide homes. The consortium argues that on the Government's own figures, planning authorities are providing for only 600,000 of the 884,000 homes which will be needed by 1991 in the South-east.

Many Tory MPs are also worried about an explosion in house prices shortly before a General Election.

Members of the consortium are: Barratt Developments, Beaser (Homes), Bovis Homes, Broseley Estate, Christian Salvesen (Properties), Ideal Homes Holdings, Tarmac, Wilthorne and Wimpey.

EXTRA HOUR WARNING TO M1 USERS

By JOHN LANGLEY, Motoring Correspondent

DRIVERS using the M 1 were advised yesterday to allow at least an hour extra for their journeys while a 200-yard stretch of motorway is being rebuilt in the first two weeks of July.

Any one who can avoid the area during the reconstruction work should do so, said the Transport Minister, Mrs Chalker. Police, the Ministry and motoring organisations are mounting a huge operation to advise travellers of alternative routes.

More than a million leaflets are being distributed, supported by newspaper advertising and a special phone-in service on 01-571-8010 to give up-to-date information.

The Road Haulage Association has already warned its members that seven-mile jams will be the minimum, with hold-ups stretching to 30 or 40 miles if there is major trouble.

Short diversion

The northbound carriageway is being reconstructed at junction 8, near Hemel Hempstead, Herts, from July 2 to 16. At this point the M1 carries more than 120,000 vehicles a day, making it the second busiest stretch of motorway after the M4 near Heathrow which takes 38,500,000 vehicles a year.

Mrs Chalker said urgent renewal was needed just north of where the M10 joins the M1 so that traffic to and from the M25 could benefit. "The contractors will be working day and night with financial incentives to complete the job as quickly as possible."

M1 traffic in both directions will be reduced to two lanes, and there will be a short diversion for the M10 northbound traffic joining the M1.

Travellers making airline connections at Luton Heathrow or Gatwick will be recommended to build in an extra two hours for their journey times.

HOPE FOR MORE JOBS ON ROADS

By Our Business Correspondent

Progress is being made in talks with Mrs Chalker, Transport Minister, on ways to increase spending on road programme to provide more work and jobs, Sir James Cleminson, president of the CBI, disclosed yesterday.

The talks, involving the CBI, the TUC and the Transport Department, began following pressure from both sides of industry.

Mrs Nancy Reagan and Mrs Marquerite Rudolff, wife of the Mayor of Strasbourg taking a ride yesterday along the canals of the old French town where President Reagan addressed the European Parliament.

18-STONE WOMAN'S VICTORY

By IAN BALL in New York

IN a significant victory for a woman who weighs nearly 18 stone New Yorks' highest court has ruled that a person cannot be denied a job simply because he or she is fat.

By a five-to-one vote the Court of Appeals held that because obesity is an "impairment" under New York state's human-rights law, employers unwilling to engage seriously overweight people must be able to show they cannot perform assigned tasks.

The case was brought by Mrs Catherine McDermott, now 67, of Staten Island, against the Xerox Corporation. She has acted as her own lawyer.

"She was 56 and over seven stone overweight according to an insurance company table when Xerox offered her a position as a systems analyst. The company withdrew the offer when it learned of her weight problem.

Rejected £82,000

The Appeals Court reinstated a 1982 ruling by the state's Commissioner of Human Rights, who ordered Xerox to employ Mrs McDermott, compensate her for lost income, and pay her $1,000 for anguish caused.

Shortly before the appeals court hearing Mrs McDermott rejected a Xerox offer of $100,000 (more than £82,000) to settle the case. Yesterday she said that because of a spinal injury she no longer expected to work for Xerox.

GLC WILDLIFE HAVEN OPENS

By Our Estates Correspondent

The GLC has spent £785,000 in creating a wildlife haven in the heart of a run-down area of inner London.

A derelict area has been transformed into the Camley Street Nature Park, near King's Cross Station. The park, opened on Tuesday, is the forerunner of several GLC sponsored wildlife parks.

ECHO OF WAR

A mortar shell was found in the mud yesterday on the beach near Shaldon Bridge, South Devon. Navy experts planned to make it safe at the next low tide.

GLC group guilty of bias against whites

A GLC-FUNDED women's group was ordered to pay £125 compensation yesterday for hiring a black woman to the exclusion of a white one—the second time in four weeks that such a group has admitted breaking the Race Relations Act by positively discriminating in favour of blacks.

Mr IAN LAMB, chairman of the Chelsea industrial tribunal, criticised the GLC Women's Committee for giving the group "substantial funding and then leaving it to sink or swim."

The hearing heard that the Safe Womans Transport Group, which provides cheap safe transport for women and children at night in the London borough of Lewisham, advertised for a driver, either black or white. But when Mrs KATHLEEN WILLIAMS, 28, applied she was told that only black women would be considered.

Mr CLIVE ROMAIN, for Safe Womens Transport Collective, said the group admitted discrimination, and it would not happen again.

Miss LORRAINE LAING, an administrator and driver for the six-woman collective, said they wanted to advertise for a black woman but were told by the newspaper that the advertisement must be worded to include black or white.

"We thought we were acting in line with positive discrimination against racism in society," she told the tribunal.

Hurtful for whites

The Commission for Racial Equality took up the case after Mrs Williams, of Tuskar Street, Greenwich, complained to her MP. Mr TOM KHARRAN, representng her, said: "This lady is a white person, she has a right to apply for a job which is funded by public money.

"It hurts to know that one who is born in this country and is of white origin is told she is not to be employed because she is white.

"The behaviours of the respondents in this case is abominable. They have sought a way round the Race Relations Act."

Mr Lamb said the Safe Womens Transport Collective "can be forgiven for getting into deep and muddy waters over legislation about discrimination, because even an experts sitting on these tribunals get into difficulties.

"We think the GLM Women's Committee which give funding in these projects ought to have offered or insisted upon assistance of a practical kind rather than leaving it to get on its own."

No treading on toes

Later Jennifer Simons, spokeswoman for the GLC Women's Committee, said: "The GLC funds over 400 groups. All our brochures state that they have to comply with the Sex Discrimination and Race Relations Acts.

"We try to steer a middle ground without treading on their toes, but we don't want to police them.'

Mrs Williams said: "I am disappointed. I expected more." Mr Kaharran said he would appeal against the decision

£8,000 FOR NELSON FLAG

By ALISON BECKETT Art Sales Correspondent

THE flag that draped Nelson's body at Trafalgar and Lady Hamilton's last letter to him were among an extraordinary collection o fremnants of the Napoleonic era which were sold at Christie's in London yesterday for £1,649,825.

The letter, which is one of only two from Emma which Nelson did not destroy, went to the London dealer J. & J. May for £28,000 against an estimate of about £3,000. The flag, valued at £150-£250, was bought for an unnamed European museum for £8,000.

Top price in the collection was Vernet's 1826 picture of the Battle of the Bridge of Arcole with Bonaparte urging his men on to victory over the Austrians, which sold for £300,000.

STORES FINANCE INQUIRY INTO SHOPLIFTING

The Police Foundation, an independent body, is to carry out a study into shoplifting following reports by Marks and Spencer and British Home Stores of an upsurge in thefts. M & S, Debenhams and Selfridges will contribute to the cost.

The study, to be conducted by Mr Barry Poynter of the Tavistock Institute, will try to identify blackspots in shops and methods used by thieves, and will assess security arrangements and procedures after arrests.

LEGION DISEASE LINK

By DAVID FLETCHER Health Services Correspondent

THE deaths of three more people from Legionnaire's disease in different parts of Britain brings to eight the number of hospitals known to have been infected by the bacterium.

A total of 51 people have now died in hte world's worst outbreak at Stafford District General Hospital.

It was disclosed yesterday that patients at St Mary's Hospital, Portsmouth, and Chesterfield Hospital, Bristol, have also died from the disease.

Th other hospitals to have been hit are Kingston Hospital, Surrey, Radcliffe Infirmary, Oxford, East Birmingham Hospital, Royal Liverpool Hospital and the University Hospital of Wales, Cardiff.

Stafford hospital, completed only two years ago at a cost of £26 million, is regarded as a showpiece, but one or more of its five rooftop cooling towers are thought to have become infected with the Legionaire bacterium.

Shower heads

Patients and visitors to the hospital are believed to have been infected by moisture picked up from the cooling towers by the wind and inhaled.

All the hospitals where the disease has struck have water cooling towers, but this has not always been blamed for the contamination. Inquiries at at least two of them found the bacterium in shower heads or mixer taps.

Dr John Kurtz, head of virology at John Radcliffe Hospital, Oxford, and an expert on Legionnaires Disease, said a survey he had carried out found the bacterium in 17 out of 26 cooling towers examined—a total of 65 per cent.

He said that manyout breaks had occurred in buildings without air conditioning and samples taken from hotels and hospitals had shown the bacterium in the water supplies of nearly one-third of them.

Greater risk

Despite the prevalence of the organism it was not fully understood why infection was so rare. It was mostly old people who were affected.

Dr Kurtz said that dosage was important because water with a high bacterium content posed a greater risk. The latest evidence suggested that some strains of Legionella were more dangerous than others.

The Health Department has issued guidelines to health authorities on how to avoid contamination, but a DHSS spokesman said these might be revised in the light of inquiry findings into the Stafford outbreak.

The current guidance is that hospitals should drain and clean cooling towers twice a year and chlorinate the water.

Canal user in 5m gallon pour-away cleared of waste

A CANAL boat owner was prosecuted yesterday for wasting water, five million gallons which he let out of a lock on the Grand Union Canal at Cow Roast, Herts.

But magistrates acquitted Mr TOM LANGLEY, who was only trying to refloat his boat home on Christmas Eve.

After the case he accused the British Waterways Board of "bureaucracy gone mad."

He told Hemel Hempstead magistrates that he opened the gates to lower the water level just enough to stop it pouring into his boat while firemen pumped it out to refloat it after it sank.

"I only wanted to drop the level by about an inch. I have lived on canals for nearly five years and was fully aware of what might have happened."

Inundating Berkhamsted

A waterways patrol man, Mr DENIS REGLAR, said that if the gates had not been shut quickly, 40 million gallos could have broken the banks of the canal and inundated Berkhamsted.

But Mr Langley, of Iver, Bucks, insisted: "I had no intention of letting the full 4½ mile stretch of canal to empty. The other boat owners would have lynched me."

Firemen monitored water levels while the boat was succesfully refloated, and there was no flooding.

Outside the court Mr Langley, a roofer, said he was sorry public money was wasted prosecuting him.

"I didn't waste water. In fact I did them a favour because the boat was blocking the canal and would have cost them money to raise it. The fact they tried to prosecute me is simply bureaucracy gone mad."

STUDENT TAX REFUNDS TO 'BE EASIER'

A simpler system for students to claim tax refunds under covenants made by their parents is to be introduced by the Inland Revenue next autumn.

In a Commons written reply yesterday, Mr John Moore, Treasury Financial Secretary, said simplified procedures would continue to include checks on entitlement and that tax had been deducted.

They would include forms to make it easier for parents to make out deeds and a new repayment claim form tailored to the needs of students.

TROMBONIST SLIDES OUT TO FREEDOM

By CHARLES LAURENCE

AN East German musician from the Berlin Symphony Orchestra is understood to have defected after slipping away half way through a concert in Cardiff.

Mr Wilfried Helm, 22, abandoned his colleagues and disappeared from St David's Hall, Cardiff, shortly before the interval on Tuesday night.

Chief trombonist with the Berlin Symphony, which is on a tour of Wales, 6ft 5in tall Mr Helm took his £1,000 instrument with hi mbut left most of his clothes at the Inn on the Park Hotel, where the 100 members of the orchestra are staying.

Two guards, East German security men, began a frantic search of the theatre and the hotel when Mr Helm's absence was noticed. The show went on, with the audience noticing that the clean shaven trombonist had been replaced by a man with a moustache.

'She's devastated'

Special Branch officers joined the two East Germans in interviewing his fellow musicians, but no one, including his dark-haired girl friend, Ines Galle, a flute-player in the orchestra, knew of any plans to escape.

A colleague said: "She has been devastated by the news. They were very much in love."

Mr Norman McCann, the tour manager who specialises in arranging visits by Eastern bloc musicians, said: "Wilfried will probably be in West Germany tonight. He told no one of his plans. But in East Germany you face a seven-year jail sentence for attempting to defect and so you don't even tell your family."

SAKHAROV 'STILL IN GORKY'

By Our Geneva Correspondent

Mr Sergei Burenkov, Soviet Minister of Health, said in Geneva yesterday that Andrei Sakharov, the dissident physicist, remains in theexile city of Gorky despite rumours of his impending release.

Mr Burenkov, who is attending the annual World Health Organisation assembly in Geneva, said: "He is in Gorky, and the situation has not changed." Dr Sakharov was sent to Gorky in 1980.

FRESH HEART FOR BIGGER INVESTORS WITH THE HEART OF ENGLAND

NEW ONE YEAR BOND 10.75% net Equivalent to 15.36% gross

New Heart of England Limited Issue Bond. This new One Year Bond account represents an exceptional opportunity for investors with £10,000 or more.

It's a high interest account that guarantees you a full 2½% premium over our variable Share Account for 12 whole months.

Interest is added once a year. And no withdrawals can be made.

But in the meantime, your investment will be benefitting to the full.

That means a capital growth of 10.75% at today's rate—which is worth 15.36% to basic rate income tax payers.

Invest From £10,000. Heart of England One Year Bonds are for £10,000 and over. You can invest up to £100,000 as an individual—or up to £200,000 jointly—at any Heart of England branch or agent. But this exceptionally attractive investment is a strictly limited issue.

So take our advice. Complete the coupon and open an account now.

Think of the new Casio PF7000 Data Bank as a kind of electronic personal assistant, providing you with important information wherever you are, at any time of day.

It recalls names, telephone numbers and addresses instantly. Keeps a note of times for meetings, trains and planes. And even has a secret section, accessed only by your own private code.

Take a closer look at the PF7000 and see how it will help to organise your business and personal life more efficiently. Every day.

Long Memory The PF7000 has a memory 1,985 characters long. Enough to store most of your essential information. Names, telephone numbers, messages, code and credit card numbers – you name it.

It's powered by lithium batteries providing around 250 hours of continuous use. And in case they run down, there's an extra one to protect the information you have stored. This back-up battery only needs replacing every two years or so.

Note Pad With its alphanumeric 12-digit display, the PF7000 can give you helpful reminders and details. Meetings, plane and train times can all be listed for easy retrieval. There's even a fast name search and an alphabetical list facility to speed things up.

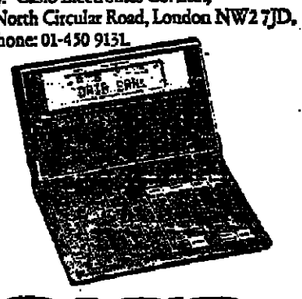
Telephone Book Important telephone numbers can be stored just as easily in alphabetical order, automatically, for fast and easy reference.

Your secrets are safe The PF7000 also has a 'secret' file where confidential information can be stored without fear of discovery. Only the password you personally designate can gain access, so it's ideal for recording your bank account and credit card numbers.

It all adds up Last but not least, the PF7000 gives you a full function 10-digit pocket calculator, percentage and square-root facilities to carry out most arithmetical tasks.

All this in a pocket-size wallet no businessman should be without.

The new Casio PF7000 Data Bank, £44.95 (RRP). Casio Electronics Co. Ltd., 1000 North Circular Road, London NW2 7JD. Telephone: 01-450 9131.



CASIO.

FT-SE 100:	1307·9	+ 2·4	1310·9	1206·1

STOCK markets remained nervous and sensitive at the opening yesterday in the aftermath of the shock increase in the money supply figures and, with gilt-edged dealers cutting values in precautionary fashion, the equity sections also started on a dull note.

Apart from the closure of some short-term speculative positions, jobbers reported no selling and the subsequent appearance of selective buyers brought rapid improvement in the overall tone, a development which owed much to the market's basic stock shortage situation.

Although lack of follow-through demand saw final prices below the best in places, the general undertone in the industrial sectors remained fairly satisfactory and the main indices were better.

The "100" index looked set to establish a high with a lunchtime rise of 6·5 to 1,312, but only the final calculation counts for record purposes and this was 2·4 better at 1,307·9, compared with the previous official peak of 1,310·9. The "30" index, which was 3·4 down at 10 a.m., and 3·7 up at noon, was finally 2·7 firmer at 988·5.

Hopes of takeover developments affecting some of Britain's best-known companies fuelled some new speculative activity, internationals were brighter on the feeling that the dollar is now more stabilised. **Imperial Chemical Industries** ended 7 higher at 751p, **B A T Industries** 5 up at 321p, after 323p, **Hawker Siddeley** 4 better at 439p, after 441p, and **B T R** 12 firmer at 724p.

Vickers still reflecting interest created by the Reliance Financial Services stake, advanced 12 more to a peak of 306p with speculators suggesting that if a firm bid materialises for the company, the price is likely to be in the 400p area. Vague takeover suggestions accompanied fresh activity in **Bowater** and the shares finished 12 to the good at 284p.

Government securities ended on a thoroughly depressed note, although this was due more to lack of investment attention rather than to actual heavy selling pressure. Values were still deteriorating in late business and, while the printed lists showed falls extending to £7/8, quotations after the official close were often an £1/8 or so below the lists.

British Telecom, the most widely-held issue in the Stock Exchange's history, remained on an upward course and ended 2½ better at a peak of 153p. **British Aerospace**, which will soon have an even bigger following after the new government issue, rallied from early dullness at 400p to close unchanged at 405p.

Two newcomers to the unlisted securities market got off to a bright start. **Clayform Properties**, offered at 165p, were traded up to 176p before closing at 175p. **American Electronics Components**, which were offered at 20, touched 25½p and ended at 25p.

Leading banks shares moved narrowly, although **Bank of Scotland** were dull ex the rights issue, the old closing at 357p and the new at 153p premium. Discount house issues went lower in sympathy with the gilt-edged market and losses of 15 to 18p were sustained by **Union Discount**, at 698p, **Gerrard & National**, at 335p, and **Cater Allen**, at 505p.

Firm spots in the drinks sector were **Allied-Lyons**, at 185p, **Guinness**, at 257p, and **Bass**, at 542p, the latter ahead of the interim report, due May 22. **Mansfield Brewery**, recently lively on takeover speculation, were again lacking in support and jobbers lowered the price by 15 to 399p in an attempt to test possible buyers.

Building shares were dominated by activity in **Costain Group** where the early announcement of better-than-expected figures saw the shares jump to 394p before settling down at 390p, a gain of 14p. **McCarthy & Stone** were favoured at 203p, a rise of 8p, but **Tarmac** eased 4 to 548p.

News of merger discussions lifted **John Carr Doncaster** 18 points to 86p, while a sudden flurry of takeover speculation left **Hillards** 28 to the good at 398p, after 408p. Pending the outcome of the consortium offer, **Westland** were 3 firmer at 147p. **Linread** were supported after the annual meeting and closed 7 higher at 43p.

Further consideration of the company's plan to float Reebock U.S. on the over-the-counter market in America left **Pentland Industries** 35 higher at a peak of 755p. There was solid support for **L W T "A"**, 10 up at 240p, but **Tyne Tees Television "A"** dropped 15 to 110p on the disapointing figures.

Johnson Matthey continued their recovery movement with a gain of 3p to 91p, while thin market conditions contributed to a jump of 50 to 590p in **Valin Pollen** after the interim report.

Satisfactory results left gains in **Miles 33**, 10 up at 360p, and **Barr & Wallace Arnold Trust "A"**, 9 higher at 101p, but **Philips Lamp** slipped £3/16 to £12 11/16 following the quarterly report.

Thorn E M I, down to 433p at outset, attracted bargain hunting and closed a shade firmer at 442p. **Muirhead** were harder at 194p awaiting the outcome of the bid from R H P, while takeover speculators again came for **Brammer**, 8 better at 320p, after 325p.

In the store sector, **Debenhams** ended 5 up at 291p ahead of today's results, while further consideration of the figures announced on Tuesday left **Marks & Spencer** 4 firmer at 137p, after 140p, and **British Home Stores**, 2 harder at 296p. **Our Price** were again in demand and closed 10 to the good at 455p.

Takeover speculators were back in the market for **Burmah Oil** and the shares moved steadily ahead to close 18 higher at 258p. Speculative interest was also reported in **Highland Participents**, 25 up at 288p, **Berkeley Exploration**, 14 better at 142p, and **Anvil Petroleum**, 3 firmer at 58p, after 65p. Following Tuesday's setback, **Falcon Resources** were steadier at 370p.

South African golds were better in places despite a minor decline in bullion, $1 easier at $313·50. **F S Geduld** ended £1 higher at £22⅛ and **President Brand** £⅜ up at £21⅜. In contrast, **Wit Nigel** dropped 19 to 60p on adverse reports about problems with the company's pension fund.

Currency movement helped London values of Australian issues. Gains of about 10p were recorded by **Emperor**, at 228p. **Sons of Gwalia**, at 112p, and **Gold Mines of Kalgoorlie**, at 530p. Other firm spots included **Poseidon**, at 255p, **Australian Consolidated Minerals**, at 87p, **Whim Creek**, at 172p, and **Oil Search**, at 22p.

Tailpiece

IN FEBRUARY, our up-date on **British Car Auctions** explained that the relatively drab market standing of the shares was due to the adverse weather conditions in Britain and the United States; clearly, car auctions cannot operate at top efficiency when snow and ice affects the movement of vehicles.

The subsequent announcement of the company's interim results showed a 20 p.c. improvement in pre-tax profits, to £5·63 million, somewhat disappointing for a market which had come to expect a continuing dynamic performance. As a result, the shares have stagnated around 85p, but it would be wrong to write-off the growth business as an "over the top" investment.

On the short-term, the market is likely to be pleased by a new deal in the United States involving an auction purchase in California. Originally recommended here at the equivalent of around 10p in December 1974, B C A shares should continue to pay for their keep.

BAe heads for success

BRITISH Aerospace shares dropped to 400p yesterday before recovering to close unchanged at 405p in the run-up to tomorrow's deadline for the 375p share and rights issue offer.

Advisers to the issue believe the rally reflected the market view that the £550m offer will be oversubscribed and buying by institutions expecting to be short of stock. The price has risen steadily from 390p when details of the issue were announced a week ago.

Costain tops £54m

CURRENCY changes of an extra £4m helped Costain Group increase its pre-tax profits from £46·4m to £54·3m in 1984 and increased turnover and profits are forecast for the current year. The dividend is lifted from 13·5p to 15p with a 9p final payable July 1.

Questor—P 22

Belgium cuts rate

BELGIUM has cut its bank rate to 9·75 p.c. from 11 p.c. and the rate on ordinary advances to 10·25 p.c. from 12 p.c.

The Belgian National Bank said that the change in bank rate coincides with the start of a new system aimed at making the rate more flexible and tying it more to market conditions.

Australian peak

AUSTRALIAN share markets showed renewed strength yesterday with the All Ordinaries index hitting a high for the second consecutive day to close 11·4 points up at 889·6. The All Industrials index set its third successive record, 7·1 points higher at 1,233. Sentiment was helped by a firmer Australian dollar and good overseas investment support.

Hanson deal

HANSON Trust is taking a 15 p.c. stake in Pennine Resources, the Luxembourg-quoted oil and gas exploration company turned investor in the United States.

Pennine is acquiring Talbott Group, a retail stores chain mainly in Pennsylvania, in a £1·5 m cash and equity deal with Hanson's USI Management Services subsidiary. Hanson will retain shares equal to 15 p.c. of its enlarged equity.

Cluff cuts loss

EXPLORATION minnow Cluff Oil, which now sports substantial cash balances following the March 1984 acquisition of Oil & Associated Investment Trust, cut pre-tax losses from £1·40m to £635,000 in 1984, on doubled turnover of £2·67 (£1·32m.

Philips slips

The sudden marked change in the situation with regard to integrated circuits in the United States and the fall in share of income from unconsolidated companies meant Philips' Lamps, the Dutch electrical group, failed to maintain a high level of income in the opening quarter.

Net profit slipped from G282m to G260m or G1·34 to G1·22 per share during the period. Sales rose from G12bn to G13·7bn.

LMI draws a blank

LONDON & Midland Industrials' £43m share swap offer for Allied Textile Companies met with virtually no acceptances by its first closing date and the 13-for-5 terms were yesterday extended unchanged to May 24.

U.S. Fed chief urges stronger banking Bill

By JAMES SRODES in Washington

MOVING quickly to shore up weakness in the American banking system, the Federal Reserve Board yesterday set new limits on overdrafts by financial institutions and urged Congress to enact comprehensive banking legislation.

Fed chairman Paul Volcker warned Congress that America's banking system needed to be strengthened and called for an omnibus banking Bill that would set guidelines for America's financial institutions.

In testimony before the Senate Banking Committee Mr Volcker voiced concern that continuing congressional inaction on the banking issue threatened to undermine the safety and soundness of America's financial system.

For the past two years, Congress has grappled with the contentious banking issue but has failed to make headway on passage of a comprehensive Bill that would set limits and guidelines for America's rapidly changing financial institutions.

Meanwhile, the Federal Reserve Board issued a new ruling that will limit the amount of day time overdrafts between banks and building society institutions.

The Fed's new guidelines, which are designed to reduce the volume of large dollar payments in the banking system, affects an estimated $120 billion of overdrafts that are run up between financial institutions on the average day. The Fed said its new law could increase interest costs for banks and thrifts.

The Fed's new cap on overdrafts was approved by the Central Bank Board out of "concern for the potential impact on liquidity and solvency" of many banks should a single institution fail to settle its net debt position with other banks in its network.

During his testimony to Congress, Mr Volcker also indicated that, contrary to popular belief, the central bank has not lessened its monetary policy in recent weeks.

Mr Volcker's statement about monetary policy were apparently intended to clarify a misunderstanding that had arisen earlier in the week when Federal Reserve vice-chairman Preston Martin was quoted by Japanese newsagency reports as predicting sluggish growth in the second quarter.

Wall Street's reaction to the fracas over Mr Martin's statements and Mr Volcker's dire warnings about the banking Average fell 6 points in early dealings and an afternoon system was swift.

The Dow Jones Industrial Average closed 2·98 lower at 1249·78.

New York's bond markets also responded negatively to the Fed news with most government long bond prices off by nearly a point in early afternoon dealings.

Stock investors were also unsettled by news that America's trade deficit on a balance of payments basis, which is an updated version of the monthly merchandise trade reports, grew to $28·33 billion in the first quarter. That trade shortfall compared with a $24·59 billance of payments merchandise defivit in the final quarter of 1983.

N Sea oil dips below $26 in spot market

By ROLAND GRIBBEN

NORTH SEA oil prices slumped below the $26 a barrel mark in European spot market trading yesterday in the wake of a big rise in United States oil stocks.

Brent oil for loading next month and July was being quoted at $25·95 a barrel and $26·35 for immediate delivery.

Prices have been falling steadily in recent weeks, reflecting the seasonal drop in demand and rising stocks. The drop suggests the British National Oil Corporation in its dying days will have to make a sizeable cut next month on the 27·90 a barrel it plans to pay suppliers this month.

The slide in demand is putting additional side-way pressure on member states of the Organisation of Petroleum Exporting Countries to stick to their price and production restraint pact to stabilise the market.

Reports from the Gulf suggest that Saudi Arabian production has dropped well below three million barrels a day and may be around North Sea levels when output from the British and Norwegian sectors is combined.

The Paris-based International Energy Agency in its latest oil market report today estimates consumption in the industrialised world dropped by one p.c. in the first quarter compared with the same period last year.

There was a heavy stock draw reduction during the worst of the winter and at April 1 company stocks were estimated to be down to 75 days' demand, only five days higher than the record low of 1979.

But the agency suggests that oil demand could leave some modest room for Opec to raise its 16 million-barrels-a-day output ceiling. Demand this year is projected to be up by 100,000 barrels a day, to 46·4 million, while the non-Opec contribution is forecast to fall slightly, to 28·1 million.

Statoil, the Norwegian state oil compan, yesterday announced any encouraging oil and gas find in block 30/3 in Norwegian waters, while delegates at a London conference were told oil companies used the miners' strike and the increased demand from fuel oil from power stations to improve their financial positions and reduce losses.

An analysis by John Hall Associates, the fuel price consultants, showed that industry is paying an extra £300 million for its oil supplies because customers in Britain are being asked to pay a premium above spot market levels. On the Continent oil company prices closely reflect spot market movements.

Midland lifts bond issue

By ANNE SEGALL

MIDLAND BANK yesterday increased the size of its perpetual bond issue from $500 million to $750 million in response to investor demand.

The move will further enhance the bank's capital ratios and strengthen its hand in ngotiations for full control of Samuel Montagu, its 60 p.c. owned merchant banking subsidiary.

Midland is already in discussions with Aetna Life and Casualty, the American Insurance group which bought 40 p.c. of Samuel Montagu from Midland less than three years ago.

Aetna is understood to be fairly keen to unwind its connection with Montagu because of its reluctance to finance Montagu's expansion plans in the international securities markets.

Montagu is expected to spend around £50 million altogether, taking full control of London stockbrokers W. Greenwell & Co and developing a gilt-edged dealing operation under new Bank of England rules. The merchant bank has already announced that it has applied to become a primary dealer in the gilts market.

An additional problem is Midland's declared objective of making Montagu and Greenwell an integral part of its own securities operations.

Aetna's change of heart over Montagu follows huge insurance problems in America and a decision by chairman Jim Lynn to concentrate on the group's core operations, thereby reversing the move diversify which led to the investment in Montagu.

Montagu is now the last remaining investment by Aetna outside its mainstream insurance operations.

Midland's increased perpetual bond issue will boost its free capital ratio from 4·4 p.c. to 5·5 p.c. The bank could also realise £25 million through the planned reduction from 92 p.c. to 70 p.c. in its investment in Trinkhaus & Burkhardt, the profitable German private bank which is to go public.

Sugar falls a further $3 a tonne

By DAVID GREEN

THE steady decline in world sugar prices continued yesterday with the London daily price for raw sugar sinking $3 to $85 a tonne.

At barely above 3 cents a pound in New York the price of sugar is at its lowest for about 15 years and is only a quarter of what is generally accepted as a profitable level.

With production increasing and consumption static analysts see little hope of the market staging a recovery unless there are crop disasters on a major scale or there is a concerted effort by the major producers to limit their planting.

Delegates of member governments of the International Sugar Organisation are meeting in London next week but there is little likelihood of any positive decisions emerging at this stage.

The organisation's last price-stabilisation agreement, never effective because export quotas were set too high, came to an end last year.

Efforts to agree on a new, meaningful pact failed but the organisation's executives are promoting unilateral action by the major exporting members as the first step to a resumption of negotiations.

Most estimates for 1984-85 point to production once again outpacing consumption. London broker E D & F Man has increased its latest production forecast by two million tonnes to just above 99 million tonnes to show a surplus of about 3·5 million tonnes.

It has been the accumulation of such surpluses over the past four seasons, says Man, that have continued to depress market prices. And there are no signs of a break in sight, the report adds, as preliminary forecasts for 1985-86 indicate, at best, a balance.

The problem has arisen because the majority of producers are protected in one way or another by their governments at least for that part of their output which supplies the domestic market.

In addition traditional net importers are increasing their efforts to become self-sufficient. Russia is a good example of a country which has drastically cut its reliance on the world market in recent years.

Another problem is the steady growth of alternative sweeteners. But on the other hand support is growing in sugar circles for using surplus sugar for the production of alcohol and animal feed.

BRITISH AIRWAYS was yesterday making more optimistic noises about reviving its stalled privatisation programme after announcing a 9 p.c. rise in pre-tax profits to £202 million in the year to March 31.

There has been progress on one of the two main sticking points, the Laker impasse. The protracted legal wrangle over the claims from the Laker Airways liquidator is entering its final phase with all the parties and defendants, including Sir Freddie Laker, according to BA, prepared to settle out of court.

Progress on the second, the capital reconstruction talks with the Treasury, has been minimal, largely because Whitehall sees little point in detailed discussions until the Laker issue is out of the way. There is irritation in the BA camp about the Treasury tactics that have meant that capital spending has had to be contained to allow a rapid repayment of debt so that the Exchequer can retain the bulk of the forecast £1 billion flotation proceeds at the expense of the airline.

Last year BA repaid £330 million of its largely dollar-denominated borrowings, reducing total debt to £647 million and a further tranche of £150 million is due for repayment this year. But Lord King and his colleagues are making it clear to ministers that the "freeze" on capital spending is proving uncomfortable.

BA has been relying heavily on leasing to finance aircraft purchases, but estimates it will need to spend £2 billion plus over a seven- to eight-year period to modernise the fleet and replace ageing 747s. Capital investment last year was held to £103 million and is due to rise to £200 million in the current financial year.

The Treasury has pencilled in a flotation before next March and Lord King hopes it can be sooner. Once a Laker settlement is finally sealed and delivered it could take two months, or more, to get formal court clearance and BA reckons it will need a three-month marketing drive to "sell" the company. But after two or three delayed take-offs already, nothing can be taken for granted.

Financially, BA's improvement continues with traffic up by 12 p.c. last year and operating profits rising by 10.5 p.c. to £303 million. Only American and United Airlines of the United States approach BA's level of profits, but both are domestic rather than international carriers.

Currency swings and roundabouts almost cancelled each other out with the strong dollar providing revenue gains of £150 million, while sterling's weakness added £90 million to the fuel bill. There was a £24 million currency loss on loans and another £45 million-£50 million down to currency changes on non-domestic costs.

BA, effectively a sterling company operating a dollar business, has also made substantial improvements in cash management after rationalisation costs of early years. For the staff, up by 700 or 2 p.c. last year, to cope with the additional workload, there is the encouragement of a three-week salary bonus from a profit-sharing scheme.

CITY COMMENT

BA keeping engines warm for privatisation

Tightening up at Lloyd's

WHEN a syndicate at Lloyd's collapses under the weight of accumulated losses, the members cannot just be left to fend for themselves, said Peter Miller, chairman of Lloyd's. The observation was triggered by the growing problems of the former PCW syndicates managed by Minet Holdings, which are to be closed down at the end of this year.

Mr Miller, who was for two years himself a member of one of the disaster-struck syndicates, made it clear the Lloyd's authorities do not intend to provide financial help. But at the same time he is clearly insisting that members who have already lost their money do not also lose their means for recovering it.

It was recently disclosed that following a £40 million loss in the last reported year there was an underwriting loss of £60 million for 1982, the year on which Lloyd's books have just been closed. The previous losses were paid with cash recovered from illicit bank accounts and recompense from the two big brokers involved, but the latest losses, plus those for the 1983 and 1984 underwriting years, have to be borne by members.

Mr Miller said he had looked into the case and was confident there was no fraud involved in the latest losses. They were "grave and regrettable," but the Lloyd's central fund is not "to mitigate any hardship suffered by names in meeting their obligations." It is there to ensure all claims are paid to prevent policyholders suffering.

"It is the duty of the council of Lloyd's to ensure that all names have a competent agent to act for them," said Mr Miller, who aims to monitor the situation to ensure Minet meets its obligations. Members of the syndicate might wonder why Lloyd's did not think earlier about the competence of their agent.

First they were robbed of large sums of money. Then, although they received compensation, they have yet to obtain all the interest they are asking for; and finally they discover that what has not been lost through fraud has flooded out through a wide range of poor business decisions. And they may not even have been provided with adequate reinsurance cover.

With the sort of demands for cash being made on them (Mr Miller will have to find only £8,000, which should be available from profits on other syndicates), many syndicate members will be unable to fight. But a few robust individuals have hired Lord Goodman to head their committee, and asked Price Waterhouse to investigate the books. There is a meeting at the Royal Festival Hall next Monday with Minet.

It could be fiery.

The lure of London

ACCORDING to merchant bankers Samuel Montagu, 68 foreign companies obtained listings on the London Stock Exchange during 1984, bringing the total up to 477. This is some support for London's claim to be an international securities market.

Of these 477 foreign companies quoted here, nearly half (207) are American; the next largest group is South African (99), mainly representing mining interests. The most numerous European contingent comes from the Netherlands, with 16 stocks quoted in London.

While a number of substantial benefits can be obtained from a listing in London, ease of dealing in the shares themselves is not among them. The advantages are less direct than that.

Samuel Montagu mentions as favourable factors the achievement of increased familiarty among United Kingdom stockbrokers and other investment advisers, who are increasingly turning to overseas securities. The bank also adds the important point that a London listing would make it easier for a foreign company to make acquisitions in Britain and tthe rest of Europe, where the consideration was shares rather than cash. Some companies, too, would simply benefit from the publicity associated with a lisiting.

The method of obtaining a London quotation is usually by means of what is called an introduction. But occasional entry comes by means of a placing, which involves marketing existing or new shares to institutional investors. The straight introduction, apparently, costs the foreign company upwards of $200,000.

Newspapers, however, are inhibited from criticising the size of this bill, seeing that a not insignificant part is spent on newspaper advertising. The rule is that a formal notice is required to be published in two newspapers.

The Bank to explain JMB rescue

THE Bank of England's controversial decision to rescue Johnson Matthey Bankers last autumn will be explained in detail in the Bank's forthcoming annual report, Mr Stewart, Treasury Economic Secretary, told the House of Commons yesterday.

The report, due next month, will give "an account of events" surrounding the collapse of JMB, Mr Stewart said.

But it is not yet clear whether the Bank will be prepared to disclose the cost of the operation. As part of the rescue, the Bank of England has provided £75 million towards a £150 million indemnity package to cover potential losses at JMB.

City sources believe roughly half the indemnities will be called once banks contributing to the indemnity scheme have had a chance to scrutinise the list of bad debts at JMB recently produced by JMB's new management.

Accountants Ernst & Whinney are understood to be taking a close look at the loans on behalf of the indemnifying banks to make sure they qualify under the scheme.

John Carr in takeover talks

SHARES in joinery manufacturer John Carr (Doncaster) yesterday jumped 18p to 86p after the group announced it is in takeover talks. The shares had been strong before the announcement.

Managing director Peter Carr declined to comment on the identity of the potential suitor, but market observers suggested Reed and Bowater as possible candidates, with Rugby Portland Cement, London & Northern and Hepworth Ceramic as outside contenders.

At yesterday's price the business is valued at £59 million. It makes doors, windows and timber frames for housing. Timber framework is quite busy, acording to Mr Carr, despite adverse publicity surrounding the building method

The group's last annual profits were £7·82 million after a difficult second half made worse by industrial troubles. First-half results are due shortly. The wider Carr family is estimated to own around 30 p.c. of the shares, so an agreed deal may well be necessary.

A further announcement is not expected for some days yet.

Brazilian poor to get $2.5bn

By RICHARD HOUSE in Sao Paulo

ON the eve of difficult negotiations with the International Monetary Fund and creditor banks Brazil's new civilian government has authorised a major public programme that signals its reluctance to accept continued recession.

In his first full Cabinet meeting President Sarney announced an "option for the poor," despite the chaotic financial situation, and warned that "our creditors must understand that we cannot stop growing."

The left-wing of his ruling coalition has been pressing for government aid to the poor and President Sarney on Tuesday announced an immediate spending programme valued at $2·5 billion which he claimed would not worsen the 225p.c. annual inflation.

The money was already available in the budget, and will be spent on food subsidies to fight widespread malnutrition, education, public health and basic infrastructure for backward regions.

These measures contrast with the more monetarist approach of Francisco Dornelles the Finance Minister, and the coalition's Right wing.

President Sarney also disclosed the nation's domestic debt had grown to $17 billion, almost double that admitted by the outgoing military regime. To finance this, there would be public spending cuts, tax increases, and the printing of more money.

Mr Sarney said Brazil would not dishonour its $104 billion foreign debt commitments, "but will seek terms and conditions compatible with our development." Creditors should recognise the fundamental change in Brazil's attitude.

Such decisions are unlikely to be welcomed by the IMF and creditor banks with whom Sr Dornelles is this weekend to resume talks on the multi-year re-scheduling package abandoned by the outgoing regime in March. The chances of Brazil soon duplicating Mexico's recent agreement are fast receding.

Before flying to Washington Sr Dornelles set out the various economic options to Brazilia's congress, which will henceforth approve IMF agreements.

Brazil pays its $12 billion yearly interest bill out of its trade surplus, but economists now say the slowdown in U.S. growth will mean a shortfall. Without "new money" in 1985 Brazil will have to dig into its $8 billion currency reserves to meet the difference.

Though the IMF is likely to be impressed by the recent sharp drop in monthly inflation, this has been achieved by pegging prices at nationalised industries, whose losses simply pad the public deficit.

When controls come off, prices could fuel much higher inflation, putting at risk IMF targets.

Existing financial arrangements have been extended until May 31, but New York banks have already begun calling in commercial credit lines and tough negotiations are expected.

Mixed day for sterling

THE POUND was hit by a surge in the dollar yesterday, falling from $1·2180 to $·2047. But it performed well against other major currencies, helped by the prospect of continued high interest rates in Britain following Wednesday's disappointing money supply figures.

The sterling index rose from 77·2 to 77·5 as the pound made progress against the mark in particular.

A report by the United States commerce department o nthe American trade deficit failed to upset the dollar and markets also shrugged off the comments of Federal Reserve chairman Paul Volcker pointing to a "neutral policy on money supply.

The cost of funds in London's wholesale money markets crept up by roughly 1/16 p.c., taking the key three month interbank fractionally over 12¾ p.c.

The Bank of England was caught by an unexpected cash shortage in the banking system and failed to provide markets with full relief. This put up the cost of overnight funds.

● Sterling closed at $1·2090, against $1·2200.

Deputy chairman leaves P&O

FURTHER restructuring of the Peninsular and Orientall Steam Navigation board under Sir Jeffrey Starling saw the resignatio nyesterday of Ian Denholmle, 58, the deputy chairman, and Blaise Hardman, 46. Both were non-executives.

The resignations are understood to have been perfectly amicable. Following the absorption of Starling Guarantee Trust the board had expanded with a surfeit of shipping and finance experts.

Lloyd's predicts China bonanza

MORE THAN £25 million of extra annual insurance premium could start coming into Lloyd's from next year as a result of the visit to China by a delegation from the insurance organisation, Lloyd's chairman eter Miller said yesterday.

Two clauses in marine insurance policies prevented the Chinse placing business with Lloyd's for the cover of ships or their cargo, and both are being modified to produce a compromise.

In addition, the London market is likely to get a portion of the reinsurance of China's domestic insurance which could reach more than £2,000 million by the end of this decade.

By th end of this century China may be one of the biggest clients of Lloyd's reinsurance, Mr Miller said.

Plea to renew multi-fibre pact

PRESSURE from the textile and clothing industries for a continuation of protection against low-cost imports reaches a new peak today as the House of Commons starts a debate on the future of the Multi-Fibre Arrangement.

Three trade bodies — the British Textile Confederation British Clothing Industry Association and Knitting Industries Federation—said in a joint statement that without a renewal of the arrangement the industries would face "sharp contraction."

The current deal which regulates textile exports from the developing world to the industrialised nations is due to run out next year.

A Government-commissioned report has come out in favour of scrapping the protection

NORTH WEST SECURITIES LIMITED

RESULTS 1984

Record profit of £17.2 million in 1984

Extracts from the Statement by the Chairman, Lord Balfour of Burleigh.

I am happy to report pre-tax profits of £17.2 million for the year, which represents an increase of 14% over the previous year.

Our Central Credit Service Division has grown significantly during the year, and we are pleased to be associated with some of Britain's major retailers. We entered into a management contract with Marks & Spencer in connection with the national launch of their Chargecard.

In the last quarter of 1984 a contract was secured to operate the Charge Card for Boots.

Owen Owen Finance Limited, which is a company owned jointly by Owen Owen plc and ourselves, opened its first in-store financial services bureau in October. The year also saw the launch of the Bank of Scotland AA Visa Card, which NWS are marketing on behalf of the Bank of Scotland Group. The card has been favourably received and is now being used regularly by many thousands of motorists.

Our long-established connections with the motor trade have produced satisfactory results notwithstanding the heavy competition.

Our Corporate Finance and Leasing Division which handles our "big ticket" business, has had a very active and successful year and are presently dealing with no less than 203 local authorities throughout the United Kingdom.

Our Executives have been active in marketing the Company's services in many new directions. We have established a relationship with ICI to provide facilities for the farming community to acquire ICI products and pay for them over a period. We have also formed a vehicle leasing subsidiary — Capital Vehicle Contracts — to provide vehicles on contract hire to the business and professional community, and many other interesting and exciting developments are under consideration.

Copies of the Annual Report with the full Statement can be obtained from the Company Secretary.

North West Securities Ltd, North West House, City Road, Chester, CH1 3AN.

COMPANIES

Silentnight profits halved

A PROFITS slump from £5·2 million pre-tax to £2·8 million, before a massive extraordinary debit, and pre-tax margins cut from 6¼p.c. to 2·4 p.c. at furniture group Silentnight Holdings have, in the words of Silentnight chairman Tom Carkel "confirmed my worst fears" for the outcome of the year to last February.

But despite the grim figures, the fact that the total dividend remains unchanged at 2·75p a share and hopes that the worst may now be over left the share price up 1 to 38p.

Barr & Wallace

BARR & Wallace Arnold Trust did rather better last year than it anticipated in September. Then it was anticipating pre-tax profits similar to 1983's £1·13m but the actual out-turn is £1·3m for earnings of 18·5p (16p) while extraordinary credits of £663,000 (debit £137,000) mean that at the attributable level profits have more than doubled from £835,000 to £1·79m.

The motor distribution side's contribution was £377,000 up at nearly £1·6m; fuel distribution was £31,000 down only despite the year's mild weather while the foreshadowed loss by leisure and holidays because of continued fierce competition was £180,000 (profit £274,000).

A 5p final on July 5 makes 7p (6p).

London Park

LONDON Park Hotels' pre-tax profits for 1984 are up from £487,000 to £584,000. But these figures are largely academic for since the year end, the company has sold the Mount Pleasant for £3·68m — £1·41m in excess of book value — and acquired the Plaza and the Royal Angus for £7m and £3·05m respectively. Both acquisitions were funded from existing resources and a bank borrowing of £6·5m.

Trading in the first quarter of the current year has been buoyant, and chairman David Hardy is confident that 1985 will see a significant increase in profitability.

Earnings are 8·64p (8·07p) and the dividend is held at 7·38p with a 4·23p final on July 25.

Valin Pollen

VALIN POLLEN, the financial and corporate advertising agency, has had an excellent first half with pre-tax profits up 81 p.c. from £230,000 to £507,000 and chairman Reg Valin is confident of outstanding full year results.

In 1983-84, its first year as a public company, it made £605,000. In the six months ended March the group's turnover more than doubled from £7·2m to £15·6m; its operating income was 109 p.c. ahead at £2·59m (£1·24m) and earnings rose from 3·5p to 6·7p from which there is a 1p (0·6p) interim on July 8.

Mr Valin adds that the four operating companies in the group all are performing well with a steady influx of new business.

IN BRIEF

Five Oaks Investments: First half pre-tax profit £109,000 (£72,000). Turnover £2·89m (£1·82m). Eps 1·65p (1·46p); no dividend (same).

Miles 33: Full year pre-tax profit £513,000 (£342,000). Turnover £5·94m (£2·096m). Eps 19·2p (12·8p). Dividend 2·75p (2·5p). Have started the new year with a good order backlog.

External Investment Trust: Full year pre-tax revenue £1·42m (£1·24m). Gross income £2·16m (£1·48m). Expenses and interest £730,800 (£242,300). Eps 15·76p (11·53p). Nav. 490·5p (458·9p). Final dividend 6·5p, payable July 15, making 12p (10·75p).

City of Oxford Investment Trust: Full year pre-tax revenue £445,000 (£365,000). Total revenue £524,000 (£427,000). Eps 7·48p (6·15p). Nav. 255·4p (216·7p). Final dividend 4·75p, payable June 26, making 7·25p (6·1p).

ERF (Holdings): Dividend on 10 p.c. cumulative preference shares due April 30 passed.

South African Breweries: Full-year pre-tax profit R222m (R285m). Turnover R5·58bn (R4·82bn). Final dividend 26 cents, pay July 5, making 36 cents (same).

Ireland Alloys (Holdings): First half pre-tax profit £909,000 (£224,000). Turnover £23·2m (£19·3m). Eps 354p (273p).

Stormguard: Full-year pre-tax profit £45,000 (£103,000). Turnover £41,800 (£53,000). Eps 0·72p (1·45p); no dividend (same).

BIDS AND DEALS

Priest, Marians Holdings has purchased a 125-year lease of the former Royal National Orthopaedic Hospital, Great Portland Street, London, W.1, from the **Water Authorities Superannuation Fund** for £1·3m cash.

Helene of London is to acquire **Palmode Properties**, an investment subsidiary owning a long leasehold property at 14-18 Noel Street, London, W.1, for £638,000 cash.

CHAIRMEN

Hugh Mackay — John Mackay: A slow start may against affect first half figures, but progressive improvement month by month should mean whole of year will prove to have been encouraging.

Linread — Donald Lynall: First quarter results in United Kingdom give us some encouragement.

THE QUESTOR COLUMN

Euroferries' golf handicap

A KING of the high seas, a prince of the property sector but a flop on the fairway. European Ferries Group has hit stock market estimates squarely with its 1984 pre-tax profits a shade lower at £44·7 million against £45·4 million, but it has continued to disappoint at the La Manga golf club in Spain.

There the company has suffered a £4·3 million loss, against a deficit of £3·4 million and despite the group's intimation of a massive reduction in losses at La Manga in 1985 the overwhelming impression is that it would be better off without this particular diversification.

Group figures for the last two years have been adjusted on to a comparable basis, taking account of last year's restructuring but the latest profits still include a partial contribution from the banking division—£2·5 million against a £6·6 million for the previous full year—which was sold in April 1984.

Shipping enjoyed stable conditions in the tourist market and a strong pick-up in freight volumes, but rates were depressed by increasing competition and profits have finished just £900,000 higher at £17·5 million.

The harbour division which was already close to full capacity in the previous year at both the Port of Felixstowe and Larne Harbour pushed profits up slightly from £9·5 million to £9·9 million.

The United States property division expanded from £12·7 million to £14·6 million following a major reorganisation which incorporated all the various investments there under one management team at E F International.

The United Kingdom property side increased its profits from £2·3 million to £3 million and will surely attract more attention in the current year following the recent purchase of an effective 44 p.c. stake in Stockley and the merger of the two companies' property interests.

The current year will also see the first contribution from P & O Normandy Ferries, acquired in January, plus some benefit from a sharp increase in capital investment, particularly in the shipping and harbour divisions.

Assuming the golf course losses can be sliced a pre-tax total of £52 million should be within reach for a prospective earnings multiple at 145p of about nine. On a two-year view the shares are good value.

Take your time with Costain

DOWN, down, down goes the proportion of profits which Costain Group generates from contracting, as the lucrative dredging contracts dry up and the Middle East loses interest in financing jumbo construction schemes.

Contracting provided 68 p.c. of profit in 1982, 55 p.c. in 1983 but last year fell to 48 p.c. In the current year, profits from its worldwide contracting activities could decline to nearer one third the total.

Falling demand and shrinking margins in contracting left Costain on a profits plateau for five years, but in 1984 the pre-tax balance broke free, rising from £46·4 million to £54·3 million.

Changes in currency values provided £4 million of the uplift, and allowed the mining and contracting activities to inch forward in absolute profits terms of £12·1 million (£11·9 million) and £26·1 million (£25·8 million) respectively.

But the real profits growth came from the housing and property interests. In housing, completions went up from 777 units to 1,389 units, carrying profits from that source to £4·73 million (£1·4 million).

In property, a gloss was added to the results by the completion of the sale of a major Sydney office project and profits rose from £7·3 million to £11·4 million. That level of property profit should, however, be held this year.

Mining should be moving ahead again in 1985, and the forecast of "increased turnover and profits" from the normally ultra-cautious Costain board lends credibility to outside forecasts of up to £60 million pre-tax for the group.

On that basis the shares at 390p, up 14p, yesterday, may have further to go for the 6·5 times prospective price / earnings ratio lags behind both Wimpey and Taylor Woodrow. But there could be short term profit-taking, so purchases should not be rushed.

ESE holders should wait

DITHERING shareholders in Energy Services & Electronics still wondering about Peek Holdings' seven-for-two bid should sit tight for a few days yet. The wait should be worth it.

With Peek at 28p and E S E at 98p there is nothing in the share price, but a formal word that the profits and dividend outlook for 1985 is bright should be worth a few more pennies on E S E's price, as would news that the troubled Neve Audio is about to be sold. However, time ticks by. Peek threatens to lapse its bid on May 14 and at present claims a 24·53 p.c. acceptance rate.

The "come on" from Peek is that two businessmen with South African connections will, on the assumption that E S E falls under Peek's wing, inject £6 million into E S E, that loss-making activities will be sold, thus enhancing E S E's dividend potential, and that a threat of a rights issue will be removed.

Peek has a dismal record, but then it is now a shell. The proposed structure of the reverse takeover would leave E S E with 77·1 p.c. of the whole. Peek with 5·3 p.c. and the Julian Askin/Hugo Biermann team with 17·6 p.c.

If Peek fails, E S E's share price will have to rely on the promised new thrust of management and direction of profits. As for Peek it will have to look for another oyster, and the Bank of England (holder of 29·9 p.c. of Peek) will have to be as patient as the rest in waiting for a return.

Peek's "unsolicited and unwelcome" bid may have put fire into E S E which now has to live up to expectations.

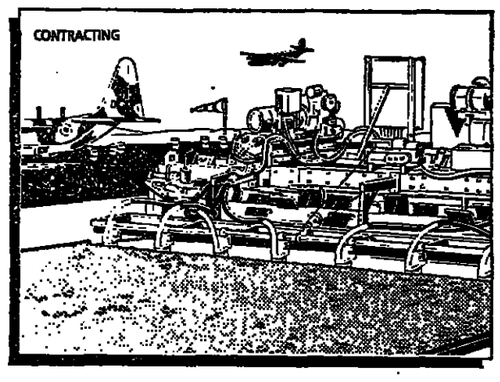
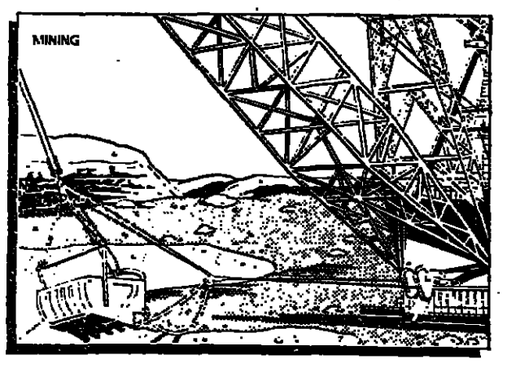
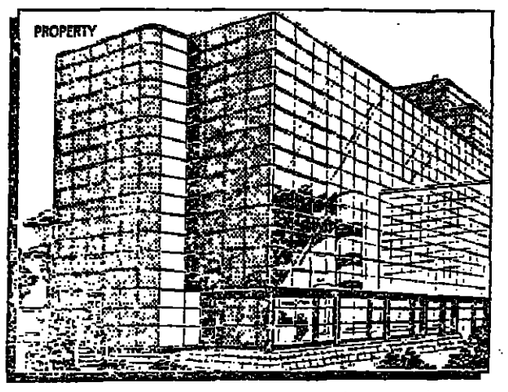
COSTAIN

CONTRACTING, MINING, HOUSING, PROPERTY







"1984 saw increased earnings from all four main sectors of our business. We have made sound progress in developing these and see strong potential for further growth."

TERREL WYATT, *Chairman*

COSTAIN operates internationally in four main areas of activity – contracting, mining, housing and property. To each of these we bring a high degree of professional skill and experience, plus a readiness throughout the Group to adapt to the demands of a rapidly changing world.

Group pre-tax profit was up 17 per cent.

ACHIEVEMENTS OF THE YEAR

- We increased our interest in coal production to more than 15 million tonnes a year.
- We increased the number of new homes sold in the United Kingdom from 777 in 1983 to 1,389 in 1984.
- We sold our 49% interest in Costain Limited based in Toronto for £24.6 million.
- We established a joint company, Hopewell Costain, based in Hong Kong, to trade into the People's Republic of China.
- We completed the purchase of Land & Marine Engineering, Streeters of Godalming, Petrocarbon Developments and Haigh & Ringrose, broadening our capability in marine civil engineering, tunnelling, the engineering and construction of process plants and electrical contracting.

Summary of Results	1984	1983
Turnover	£846m	£723m
Pre-tax profit	£54.34m	£46.44m
Earnings per share	46.7p	42.6p
Dividend per share	15.0p	13.5p
Shareholders' funds	£243m	£229m

Copies of the Annual Report 1984, containing the Chairman's Statement and Review of Activities, may be obtained after 24th May, 1985 from The Secretary, Costain Group PLC, 111 Westminster Bridge Road, London SE1 7UE. (Telephone: 01-928 4977).

SPECIAL FROM LOMBARD

9% PA

FIXED NET RATE

For a 1 year deposit. Interest paid at maturity.

Equivalent to 12.857% for a basic rate tax payer

Now is the time to take advantage of this new facility from Lombard. A deposit of £1,000 to £50,000 placed for one year will earn a fixed net rate of 9% per annum, guaranteed not to change even if there is an alteration in the composite rate of tax in April next year.

For full details of this new facility and our range of deposit accounts, please fill in and post the coupon or 'phone 01-409 3434 extension 484.

LOMBARD DEPOSIT ACCOUNTS

Rates correct at time of going to press.

To: Alfred Eagleton, Dept. 625, Lombard North Central PLC, 17 Bruton Street, London W1A 3DH

Please send me without obligation full details of Lombard Deposit Accounts.

Highlights of the 1984 Annual Report and Statement of the Chairman, Mr. E. H. Boot

Final dividend of 11.5p per Ordinary Share recommended making a total of 14.5p for 1984.

TRADING – UNITED KINGDOM Building and Civil Engineering – maintained position and well positioned for modest growth: Homes – exceeded targets for sales and profitability: Railway Engineering – achieved planned targets in spite of miners' strike: Joinery – slightly down on previous year: Plant – profitable but guarded optimism failed to materialise: Training – progress continues including responsibility for over 4,000 YTS trainees at established U.K. training centres.

TRADING – INTERNATIONAL Hong Kong – planned development maintained: Malaysia – very difficult trading conditions continue: Singapore – award of £120m. rail *contract in Joint Venture with Gammon-Singa: Saudia Arabia* – severe and substantial setback.

TRADING – PROPERTY Investment and Management – very satisfactory and showing significant increase in profit: Development – progressed well.

GENERAL Trading conditions probably maintained a better than fair share of depressed home market with overseas trading conditions not very buoyant but better than U.K. Received Queen's Award for Export Achievement.

NOTICE TO BENEFICIAL OWNERS OF 12% NOTES DUE APRIL 15, 1989, ISSUED BY GENERAL FOODS CREDIT CORPORATION

U.S. $80,000,000

General Foods Credit Corporation

(Incorporated in Delaware)

12% Notes Due April 15, 1989

NOTICE IS HEREBY GIVEN that the Fiscal Agency Agreement dated as of October 15, 1984, as amended, between General Foods Credit Corporation, as Issuer (the "Company") and Morgan Guaranty Trust Company of New York, Fiscal Agent, relating to U.S. $80,000,000 aggregate principal amount of 12% Notes Due April 15, 1989 (the "Notes") has been amended to effect the assumption by General Foods Capital Corporation of the due and punctual payment of the principal of and interest on the Notes and the performance or observance of every covenant of the *Notes* and of the Fiscal Agency Agreement on the part of the Company to be performed or observed. The Company has unconditionally guaranteed the due and punctual payment of the principal of and interest on the Notes and coupons, when and as the same shall become due and payable, whether at maturity, upon redemption or otherwise, according to the terms thereof and of the Fiscal Agency Agreement, and the performance by General Foods Capital Corporation of all other obligations of the Company under the Notes and the Fiscal Agency Agreement.

Full particulars of the Notes, the Company and General Foods Capital Corporation are available in the Extel Statistical Service, and may be obtained during usual business hours up to and including May 23, 1985 from Cazenove & Co., 12 Tokenhouse Yard, London EC2R 7AN.

For further information regarding this amendment, contact Morgan Guaranty Trust Company of New York, principal paying agent for the Notes, at 30 West Broadway, New York, N.Y. 10015, U.S.A., or at Morgan House, 1 Angel Court, London EC2R 7AE, England.

Dated: May 7, 1985

Extract from the Statement by the Chairman, Mr. D. K. Hewitt:

Sales since the end of the year have continued at improved levels and orders on hand for all our products are encouraging. Although operating at reduced margins on some products given continuity of demand, I consider it reasonable to expect that the results for 1985 will be an improvement on those for 1984.

Announcing a £5,000 investment which may only cost you £2,202

Business expansion funds are now well established, providing individuals with an unusual opportunity to invest in private companies.

Their most obvious attraction is the full income tax relief which you can claim on investments up to £40,000 a year.

For the highest rate tax payer that means every £5,000 invested only costs £2,202 (including the once-only initial management charge). Even for the standard rate tax payer, the 30% rebate is extremely attractive.

But securing tax relief is not enough.

Prudent investors need to know that their money will be well managed and that the management costs will be reasonable.

They also need to feel confident that their money will be invested within the tax year, otherwise they cannot claim all the tax relief.

It's in these areas that Charterhouse scores.

Charterhouse has over 50 years of experience in providing capital to growing private companies. We have the people and the expertise to identify and attract a wide range of good quality investment propositions.

As a result, we have already successfully invested two Business Expansion Funds.

Now we are launching our 1985/86 Fund.

Like the preceding two Funds, it will be limited in size, *this time to £5 million.*

With a minimum investment before tax relief of £2,000 that means at most 2,500 investors can join in. The maximum investment is £40,000.

But, at most, only 2,500 people can benefit.

Our charge to investors of 3½% for our two previous Funds was one of the lowest and remains unchanged.

Applications will be accepted in full, in order of receipt, with the final closing date being 14th June 1985 or earlier when fully subscribed.

To take advantage of this opportunity and to obtain a copy of the Memorandum describing the Fund, telephone 01-248 4000 or send in the coupon.

The Charterhouse Business Expansion Fund 1985/86 is a Fund approved by the Inland Revenue under the terms of the Finance Act 1983.

The Secretary of State for Trade and Industry, in giving his permission for the distribution of the Fund Memorandum, has required that the following matters be brought prominently to the attention of potential investors:-

1. The Fund is a unit trust scheme which has not been authorised under the Prevention of Fraud (Investments) Act, 1958 and which does *not* incorporate the safeguards for investors which apply in the case of an authorised unit trust.
2. The proper management of the Fund is the responsibility of the manager of the Fund and not of the Secretary of State.
3. Investment in unquoted companies carries higher risks as well as the chance of higher rewards. The existence of these risks is one reason why tax reliefs are granted in connection with investment through the Fund.

This advertisement does not constitute an invitation to subscribe to the Fund; subscriptions may be made only on the basis of the terms and conditions set out in the Memorandum describing the Fund.

Sales/Marketing Manager (Director Designate)

Home Counties, c. £17,000 + car + bonus

This is a new position with a profitable, private company engaged in the manufacture and distribution of a range of products which have application to both defence and commercial industries. Already a market leader, the company wishes to expand its existing customer base and explore new opportunities and develop new products. The person appointed to spearhead this drive must be aged 30–40, have a technical sales background and management experience. Knowledge of industrial textiles would be advantageous. Essential personal qualities are enthusiasm, self-motivation and business acumen. Career prospects are excellent.

E. Sutton, Ref: 17283/DT. **01-734 6852,** *6th Floor, Sutherland House, 5/6 Argyll Street,* LONDON, W1V 1AD.

Chief Chemist

Berkshire, c £15,000 + Car

This well-established successful medium sized public company has a record of steady profitable growth and a first class reputation in its field. A major company division processing and packaging food products on a multi-purpose site now requires a Chief Chemist, managing a department with a number of laboratories across the site. The Chief Chemist will be responsible for ensuring that incoming materials and all products sold by the company are of high quality at all times and conform to existing legislation. Where necessary the Chief Chemist will be expected to take an interest in industry affairs and represent the company on scientific matters. It will also be necessary to work closely with production staff on processing conditions and problem solving. Candidates with a preferred age 35/45, possessing an Hons Degree in Chemistry and a sound knowledge of the principles of food microbiology must have food processing and packaging experience gained within a medium sized organisation. Career prospects are excellent, and relocation assistance will be provided. Please send full c.v. to:–

D.J. Kingston. Ref: 16066/DT. **07535 50851,** *36 High Street, Eton,* WINDSOR, *SL4 6BD.*

Technical Development Services

Automatic Manufacturing & Assembly Machinery

North West, c £15,000

Succession planning by this autonomous subsidiary of a major British company has created a management vacancy. Reporting to the Manufacturing Director, the Technical Development Services Manager is responsible for planning automated manufacturing and assembly systems from conception to commissioning. This will include innovative design; and development of complex programmable and dedicated automatic assembly machines for high volume production. Candidates must be qualified Production Engineers and have proven experience in design and development of manufacturing systems combining the latest technologies. Excellent long term career prospects and large company benefits, including relocation assistance where necessary, are offered to the right candidate.

S.A. Lievens, Ref: 25425/DT. **061-832 3500,** *St. John's Court, 78 Gartside Street,* MANCHESTER, *M3 3EL.*

These positions are open to male or female candidates. Please telephone for a Personal History Form to the relevant office, quoting the appropriate reference.

Engineers & Mathematicians

Advanced defence systems...in the USA

THORN EMI Electronics is one of the most successful and innovative companies operating in the field of advanced defence systems.

Together with partner companies in the USA, Germany and France, we have recently been awarded a major contract to develop a terminally guided warhead for the next generation of multiple launch rocket systems. As a result, we have opportunities for talented, innovative people to join a multinational team of scientists and engineers working on key aspects of this exciting project at our US partner's facility in Orlando, Florida.

Systems Engineer

Guidance & Control

You will play an important part in the design and analysis of warhead guidance and control systems. This will involve you in all stages of the project, from analysis and modelling of system requirements to hardware and software implementation, including the design and development of highly sophisticated inertial navigation and guidance systems.

Educated to degree standard in electronic engineering, you must have a minimum of five years' experience in the detailed design of precision control systems. Ideally, you should also hold a higher qualification in control engineering. Experience in the design of navigation, guidance and control systems used in guided weapon autopilots would be highly advantageous. A working knowledge of French and/or German is desirable.

Systems Engineer

Project Requirements & Integration

You will be part of a team engaged in the definition of weapon systems requirements in order to ensure the overall integrity of the project. The team's principal tasks will include: preparation of system flow diagrams and time lines; production of interface specifications and schematics; system tolerance analysis and error budgeting; review of drawings and specifications from partner companies for compliance with project requirements.

Qualified to degree level or equivalent in an appropriate engineering discipline, you must have at least three years' experience in guided weapons system engineering. A knowledge of French and/or German would be an advantage.

Engineer/Mathematician

Seeker Algorithm Development

You will be involved in the development of the warhead's seeker target acquisition algorithm. The work is centred on an iterative process in which target features in radar data are matched with video data and used to refine the algorithm.

A graduate in engineering, science or mathematics, you must have at least three years' experience in radar signal processing or associated mathematical modelling.

These are exceptional opportunities to use your talents to the full in a fast-paced and technically challenging environment. In return we offer a salary and benefits package based on US employment practices, together with assistance in setting up residence in the Orlando area.

To find out more, please write to or telephone the Personnel Department, THORN EMI Electronics Ltd., Victoria Road, Feltham, Middx. Tel: 01-751 0702.

THORN EMI Electronics
Defence Systems Division

MANAGEMENT ACCOUNTANT

A HIGH LEVEL ROLE IN THE INMARSAT PROGRAMME

On April 15th, the award of the INMARSAT communications satellite programme to British Aerospace was announced. Longer lasting in orbit and providing more services to shipping than ever before, these second generation satellites add to an outstanding record of achievement by our Space and Communications Division at Stevenage.

The project's Management Accountant will work within a business team providing financial management support to project management and preparing financial reports and budgets for project and divisional management. This is a high profile role reporting directly to the Divisional Management Accountant—Projects.

Applicants should possess ACA, ACCA or ACMA qualifications and extensive management accounting experience, preferably within a high technology environment. An outward going personality and astute commercial orientation will be essential.

We offer a salary which genuinely reflects the demands of this position plus comprehensive benefits including generous assistance with relocation to the Hertfordshire area.

If you have the professional stature to make a personal contribution within a dynamic and exhilarating growth environment, please write or telephone for an application form to Eric Eason, British Aerospace, Dynamics Group, Space & Communications Division, Argyle Way, Stevenage, Herts SG1 2AS. Telephone Stevenage (0438) 736323 or 736241.

BRITISH AEROSPACE DYNAMICS GROUP

Electronics Engineer

Computer Development

Sunbury-on-Thames up to £20,000

The BP Research Centre, one of the largest in Europe, provides the BP Group of companies with comprehensive research and development facilities for the support of existing businesses and for the identification and exploitation of new business activities.

A vacancy exists within the Computing Development project for an electronics Engineer wishing to pursue a research career. We are looking for someone with an interest in novel computer architectures. The successful applicant will join a talented, multidisciplinary team which has significant research objectives aimed at BP's future computing requirements.

Applicants are likely to have a post graduate qualification involving digital system design. Industrial experience in the design of gate arrays and the use of the latest CAE systems would be an advantage.

Excellent benefits include a non-contributory pension scheme, subsidised restaurant, extensive on-site sports and social facilities and relocation assistance, where appropriate.

Interested applicants should write or telephone for an application form, quoting reference SR 7622, to: Anne Sheppard, British Petroleum Company p.l.c., BP Research Centre, Chertsey Road, Sunbury-on-Thames, Middx. TW16 7LN. Tel: Sunbury-on-Thames (09327) 62028.

BP is an equal opportunity employer.

BP Research
SUNBURY-ON-THAMES

AN EXCEPTIONAL SALES/MARKETING ROLE

If you are looking for the chance to combine both marketing and sales skills in one job, this unique appointment could well be the challenge you are looking for.

Part of a major food manufacturing group, the Company is highly profitable, with a remarkable reputation for product quality, innovation and service in the catering sector.

Your job would be to represent the Company to major customers at the highest level, identifying trends and customer needs and ensuring that the top management recognise the contribution the Company can make in satisfying those needs.

You will need to have a background which combines classical f.m.c.g. marketing with major account negotiating experience. You should also have extensive knowledge of the catering industry and its personalities. Likely age is 28–35, male or female.

Salary is negotiable around £18,000 plus car and the usual benefits expected of a major group. Future opportunities, already clearly identified, are exceptionally attractive.

Location is not critical, though a base in the South East would be ideal.

Please write with full career details to:

Vincent Lyddieth
PERSONNEL SELECTION

Personnel Selection Limited, 46 Drury Lane, Solihull, West Midlands B91 3BJ
Telephone: 021-705 7399 or 021-704 2851

MANUFACTURING MANAGER

DIRECTOR DESIGNATE

Rapidly Expanding High Technology Business £25-30,000 pa

This well-established company, part of a British engineering group, is at the leading edge of technology in its market, with about two hundred employees. It has a high degree of expertise in robotics, electronics, fibre optics and computer software. Turnover more than doubled last year. It is an exciting environment with a young, dedicated team and a product range which demands some of the most technically advanced manufacturing techniques.

Your task in this new appointment would be to manage the transition of manufacturing from a model shop operation to a sophisticated batch production facility. You will install up-to-date production methods, the priorities being to convert to a full computerised MRP system and to establish production engineering and value engineering disciplines. This is virtually a "green field" opportunity which will provide both stimulating challenge and long-term job satisfaction.

You will be aged 30 to early 40s and will have run successfully a batch manufacturing unit producing high cost capital goods. You must be able to assess priorities from units with conflicting demands and thrive on total commitment to the job which will require you to work long erratic hours. The benefits package will include a car and relocation costs to a delightful rural area.

Please write giving full career details to me, Geoffrey Hunt, FIIM, Consultant to the Company. Your name will not be released until we have briefed you and you have given your consent.

Business Development Consultants (International) Ltd
63 Mansell Street, London E1 8AN

BDC

SALES ENGINEERS

DO YOU WANT TO SELL HIGH QUALITY COMPONENTS?

The IEC Group, 100 employees, turnover £4m+, has built its reputation identifying and selling high performance mechanical components. For example:

- **bearings supporting shafts running up to 100 feet/sec with 10 microns clearance in high speed locomotive power-units.**
- **disc springs in rocket launching gear.**
- **rolling element bearings in aircraft control systems.**

Following specialised training in the products you will have responsibility for sales to new and existing accounts in an area bordering the M5 and M6 from Bristol to Carlisle.

The key requirement is your desire and ability to sell. You will be expected to develop existing business by seeking further applications for both established and new products.

Mechanical Engineering Qualifications and design office experience are other relevant factors. You should be situated centrally in the area to be covered or be prepared to relocate.

Salary according to experience, supplemented by performance bonuses, and additional benefits include profit sharing, BUPA, cost of living reviews and pension. A Volvo 240 automatic is provided.

Production Director

SCOTLAND: UP TO £25,000 + CAR

HAY-MSL CONFIDENTIAL ADVERTISING

This growing specialist company which manufactures and sells medium/heavy fabricated and welded products mainly to the UK oil and petrochemical markets wishes to recruit an outstanding manufacturing executive to assume the position of Production Director.

Reporting to the Managing Director, the Production Director will be responsible for planning and control of existing manufacturing activity and will also be involved in identifying and promoting new markets and product opportunities.

Candidates, aged 35 to 45, should be graduate engineers who are able to offer a proven record of introducing innovative manufacturing methods and practices particularly in a fabricating works environment. Sound financial and man management skills are essential requirements and commitment to developing an established business imaginatively and creatively.

Salary is negotiable up to £25,000 and assistance with relocation costs to a Scottish location is available. Other benefits include pension, medical insurance, etc.

Please write enclosing detailed CV and salary history to W. J. O. Michie ref. D.62780. HAY-MSL Confidential Advertising, 14 St. Vincent Place, Glasgow, G1 2EU. State clearly those companies to whom your application should NOT be forwarded.

Senior Buyer

GREENFORD, MIDDLESEX: UP TO £15,000

Glaxo Pharmaceuticals LIMITED — Glaxo

The Glaxo Group is one of the world's leading health care companies, employing over 13,000 staff in the UK.

A challenging opportunity exists for an experienced purchasing professional to join our Purchasing Department at Greenford. Working in a department which currently employs 14 people and reporting directly to the Purchasing Manager, you will be responsible for the purchase of laboratory equipment, chemicals and other related items.

Managing a team of support staff you will be expected to provide a high level of service and must have the ability to establish good relationships with user departments and suppliers in order to maximise potential contribution.

This is an opportunity for the right candidate to make a visible impact in an area of critical importance to our business. Good communication skills, initiative, drive and persistence are essential and you should have the potential to take full advantage of career opportunities within the Group.

You should be educated to degree level or equivalent with a strong scientific background and have at least 5 years' relevant purchasing experience. Preferably, a member of the Institute of Purchasing and Supply, you will ideally also have had previous management experience.

Attractive conditions of employment include a company bonus scheme, 5 weeks' holiday, subsidised cafeteria, non-contributory pension scheme and excellent sports and social facilities.

Please write or telephone for an application form to: Mr. I. Campbell, Senior Personnel Officer, Glaxo Pharmaceuticals Ltd., Greenford Road, Greenford, Middlesex UB6 0HE. Tel: 01-422 3434, ext. 2324, quoting ref. D.802.

Merchandising Manager (U.S.)

UP TO £14,000 + CAR & OVERSEAS TRAVEL

HAY-MSL RETAIL

This is a new appointment to the International Merchandising Department of a young and rapidly expanding company with a clearly defined marketing strategy in ladies fashion retailing.

The Merchandising Manager based in the UK Head Office, West of London, and working closely with the North American senior management, will assist in the selection, planning and ordering of merchandise for the North American market.

Candidates, probably in their late twenties, early thirties, must have previous experience of fashion merchandising, or a strong desire to learn. Numeracy, organisational ability and creative flair are desirable qualities.

This is an excellent opportunity to join a successful company providing opportunities for personal development.

Please write – in confidence – stating how the requirements are met to Lionel Koppen ref. D.42213. HAY-MSL Retail, 52 Grosvenor Gardens, London SW1W 0AW.

Senior Contracts Officers

High Technology

FELTHAM, MIDDLESEX: £ATTRACTIVE

THORN EMI Electronics

A leader in the development of advanced electronic systems for defence, our continuing success in this highly competitive field has created attractive opportunities at our Feltham location for contracts professionals.

You will lead a small team engaged in the compilation of quotations, negotiation and settlement of customer contracts and the administration of a broad range of contractual and commercial matters.

Ideally aged between 30 and 40, you should have a good standard of education to 'A' level or higher, and be able to demonstrate at least 5 years' experience in the administration of HMG export or commercial contracts. Good communication skills are essential and a practical knowledge of major sub-contract administration would be a decided advantage.

The attractive starting salary will reflect experience and the benefits are those associated with a major, successful company.

Please write with full career details or telephone for an application form to: Sue Godfrey, THORN EMI Electronics Ltd., Defence Systems Division, Victoria Road, Feltham Middlesex. Tel: 01-890 3600, ext. 2325.

Engineering Opportunities

CENTRAL LONDON

The Engineering Sciences Data Unit (ESDU) is recognised as a leader in the provision of validated information that is used in engineering throughout the world. The work involves close contact with the foremost specialists and provides a real opportunity to develop technical and managerial skills working to commercial schedules. ESDU does not undertake testing; it uses existing theoretical and experimental information to develop sound, authoritative guidance for design and analysis.

We now have two interesting opportunities in the following areas for graduate level engineers with recent experience in industry or research.

Transonic Aerodynamics

This is a senior position and you must be able to demonstrate an established interest in computational fluid mechanics, together with experience of programming.

Fatigue (Including Fracture Mechanics)

Aged between 25 and 35, preferably with an aeronautical degree, you should have an understanding of design against fatigue (primarily in aerospace structures) using both endurance test data and fracture mechanics techniques.

Both posts call for a high level of self motivation, plus the ability to present work clearly and concisely. The salary and benefits are commensurate with the considerable demands these jobs make.

In the first instance, please write, giving full details of your career and qualifications to: Margaret Kerrigan, ESDU Ltd., 251-259 Regent Street, London W1R 7AD.

Senior Architectural Draughtsman

Store design and development

BERKS

savacentre

SavaCentre – jointly owned by J. Sainsbury and British Home Stores – was formed in 1977 and now operates 6 substantial hypermarkets with an annual turnover in excess of £250m.

Reporting to the Building and Development Planning Manager, and as part of a young team, you will be expected to play a key role in the design, planning and development of our existing and proposed new hypermarkets. This will primarily involve design activities, but will also include the preparation of budgets, negotiations with suppliers and contractors, and regular liaison with other members of the team in the preparation, programming, costing and implementation of schemes.

Probably aged 25 to 35 and educated to HNC, MSAAT or equivalent, you should have a minimum of 3 to 4 years' experience in store layout and design, ideally in an environment or organisation similar to ours. You should be technically innovative, an effective communicator and have a good appreciation of the commercial implications of your work.

Although based at our modern headquarters in Berkshire, you must be free to travel to our stores, located throughout England and Scotland.

We offer an attractive salary, dependent on your ability and experience, and the benefits expected of a major and progressive organisation.

Please write with full details to Dory Sadler, Personnel Manager, SavaCentre Ltd., 45-47 Peach Street, Wokingham, Berks RG11 1XL. Tel: (0734) 791500.

Mortgage Advances Control

LONDON: FROM £10,000 PA

Confederation Life

Confederation Mortgage Services Ltd., part of the Confederation Life Insurance Group, is rapidly establishing a reputation as flexible and competitive lenders in the prime domestic mortgage market.

Our growing business requires us to recruit an experienced person to lead a team handling mortgage applications to completion. Reporting to the Mortgage Services Manager, the person appointed will be responsible for implementation of mortgage policy, quality, control and the efficient, speedy processing of large volumes of business.

Applicants should possess sound experience gained in a Building Society, or other similar environment, and must be familiar with the law and practice of mortgage lending. Communications skills are an essential personal attribute.

Initial salary will reflect experience and qualifications but will be in excess of £10,000 pa. Other company benefits include non-contributory pension and a staff mortgage scheme. Prospects for personal advancement are excellent.

Please write in confidence to: R. Burne-Green, Personnel Manager, Confederation Life Insurance Company, 50 Chancery Lane, London WC2A 1HE. Tel: 01-242 0282.

Cadre D'Export Base au Royaume Uni

Afrique Francophone de l'Ouest
Produits Pharmaceutiques et de Grande Consommation

MOYENNE DE SALAIRE: £11,000-£16,000

Wellcome

Nous recherchons un cadre pour l'export afin de développer la vente de nos produits pharmaceutiques et de grande consommation sur le marché de l'Afrique francophone de l'Ouest et d'atteindre en commun les objectifs fixés.

Ce poste, basé à notre siège social d'export de Berkhamsted, nécessitera des déplacements à l'étranger d'une moyenne de 3 mois par an, à raison de 2 à 3 semaines par visite.

Si: – vous avez l'expérience requise dans le domaine de la vente;
– vos connaissances de la langue française sont bonnes;
– vous avez un sens de communication développé; et
– vous avez entre 25 et 35 ans,

nous aimerions vous rencontrer et négocier avec vous une offre de salaire basée sur le montant mentionné ci-dessus; comprenant une prime de voyages en outre-mer et des avantages personnels (tels que de généreuses indemnités de déménagement, etc . . .), à laquelle vous pouvez prétendre, est celle que peut offrir une compagnie ayant un chiffre d'affaires annuel d'un milliard de dollars.

Veuillez envoyer, dès que possible, vos détails concernant votre éducation, votre expérience professionnelle et votre salaire actuel à Wellcome International Trading (une division de la Fondation Wellcome Ltd.), Berkhamsted, Herts HP4 2DY, à l'attention de notre Chef de Personnel, Mr. E. K. G. Lewis.

Building Services Engineer – Mechanical

DARTFORD, KENT: TO £17,850

Wellcome

The Wellcome Foundation Limited, an international group of pharmaceutical and chemical companies with Headquarters in the UK and a group turnover in excess of £800m., requires a Building Services Engineer with a strong mechanical background.

You must have had several years' experience in the design, procurement, construction and commissioning of environmental services for production units and research facilities within the pharmaceutical and fine chemicals manufacturing industry. The ability to provide technical expertise in air-conditioning and services associated with the industry, particularly sterile areas, is essential.

You will currently be engaged in the design and implementation of this type of system, using the most modern techniques and international standards, whilst working within the framework of a multi-discipline team. A degree or recognised diploma and corporate membership of an appropriate institution is required.

We offer an attractive salary, dependent on ability and experience. An excellent benefits package includes five weeks' holiday and generous assistance with relocation expenses where appropriate.

For an application form please contact Gary Parker, Personnel Officer, The Wellcome Foundation Ltd., Temple Hill, Dartford, Kent. Tel: Dartford (0322) 23488, ext. 2062.

Industrial Relations and Personnel Manager

. . . a creative and innovative role

NORTH EAST: TO £16,000 + BENEFITS

HAY-MSL MANAGEMENT SELECTION

The market is expanding . . . our share continues to rise . . . our plant is modern and purpose-built . . . our investment record is second to none. As a volume manufacturer of consumer durables – we have an enviable reputation for quality and product innovation.

The key task will be to help create and maintain the appropriate conditions in which to implement change on a systematic basis.

Aged 30 to 55, you will be educated to degree level or equivalent with a minimum of five years' relevant experience in a demanding, high volume environment.

Salary for discussion as indicated; the comprehensive benefits package will include assistance with relocation expenses, where appropriate. Career prospects are excellent.

Please write – in confidence – with full details to our adviser, A. L. Brown ref. D.62047. HAY-MSL Management Selection, Oak House, Park Lane, Leeds LS3 1EL.

Product Managers

SOMERSET: c.£14,000 + CAR

CUPRINOL — A BERGER BRITAIN COMPANY

With current major brand leaders in the £200m. DIY woodcare and chemical speciality markets, Cuprinol Limited, part of Berger Britain, has exciting new product plans.

As a Product Manager, you will join a high calibre marketing team responsible for all the marketing mix elements.

If you are aged 25 to 35, with a relevant brand management and academic background, our size and resources could provide dynamic career opportunities. We also offer a progressive salary structure, choice of car within a good range, BUPA and relocation help to this attractive area.

Please write with CV to John Maybery, Cuprinol Ltd., Adderwell, Frome, Somerset BA11 1NL.

Finance Manager

ANDOVER, HANTS: UP TO £15,000 + CAR

HAY-MSL CONFIDENTIAL ADVERTISING

Our client, part of an international group, has a turnover of £7m.+ from the manufacture and sale of capital equipment.

Reporting directly to the Divisional Managing Director, with a functional link to the UK Financial Director, you will be responsible for the effective financial control of the business and, through a team of seven staff, the supply of management and financial information and the normal day-to-day accounting routine. The company operates fully computerised systems including IBM MAAPICS.

You should either be a newly qualified accountant or partly qualified with a proven record in manufacturing industry. Relevant experience will weigh equally with formal qualifications.

Excellent conditions of service include a Company car and relocation assistance where appropriate.

In the first instance please write with full career details. These will be forwarded direct to our client. List separately any companies to whom your application should not be sent. Peter Evans ref. D.2002. HAY-MSL Confidential Advertising, 52 Grosvenor Gardens, London SW1W 0AW.

Sales Professionals

ALL AREAS OF THE UK

Evans Medical Limited — Glaxo

Evans Medical Limited, a member of the Glaxo Group of companies, is responsible for the sales and marketing of a wide range of generic products, both in the UK and export markets. In addition, the company co-ordinates the Group's overseas business in this particular field.

Successful growth – achieved by linking quality products with a highly professional sales team – has created these opportunities for outstanding sales people with broad based experience, who will be responsible both for developing the business potential and profitability of their territory.

Territory Sales Controller
c.£15,000

Probably in your late 20's to early 30's you must have a proven record as an effective manager. Pharmaceutical sales experience would be useful but more important is the drive and motivation to achieve results in a highly competitive market place.

Sales Executive
c.£10,000

Sharing a similar career profile to the Territory Sales Controller, you are probably younger and looking for a position leading to an opportunity in management within a year or so.

Both positions offer attractive conditions of employment, including non-contributory pension scheme, profit sharing bonus scheme and up to five weeks' annual holiday.

Please write or telephone for an application form to: Mr. M. E. Bates, Senior Personnel Officer, Evans Medical Ltd., 891-899 Greenford Road, Greenford, Middlesex. Tel: 01-422 3434, ext. 2837, quoting reference number 794.

Communications Networking Specialists

SOUTHERN HOME COUNTIES

SALARIES UP TO £15K + SUBSTANTIAL BENEFITS COMMENSURATE WITH EXPERIENCE

HAY-MSL CONFIDENTIAL ADVERTISING

Our client, a leading UK financial institution with a total commitment to the DP function, now seeks Analysts in the areas of NETWORK CAPACITY PLANNING and NETWORK DESIGN to join a small team of communications professionals within its computer department.

You will be involved in a number of major projects including the establishment of a new computer centre and the implementation of a large, sophisticated voice and data network covering the whole of the UK. The work is varied, technically challenging, highly rewarding and can offer significant job satisfaction and excellent career prospects.

To succeed, you will need to be familiar with digital networking techniques and, ideally, will have several years' IBM SNA experience.

The excellent large company benefits include: non-contributory pension, season ticket loans, flexible working hours, generous relocation assistance and mortgage allowance, where appropriate.

Please write with full details. These will be forwarded direct to our client. List separately any companies to whom your application should not be sent. R. L. H. Whitney ref. D.2001. HAY-MSL Confidential Advertising, 52 Grosvenor Gardens, London SW1W 0AW.

Commercial Manager – Photovoltaics

International role for a manager with a record of success in selling innovative technology based products

CITY BASED

BP Photovoltaics

We are establishing an international network of marketing and manufacturing companies to develop our interests in the energy related field of photovoltaic power.

This appointment, reporting to the Business Development Manager, carries responsibility for setting and implementing the commercial objectives of the photovoltaics project. It will involve formulating a strategic marketing plan, assessing business opportunities, providing commercial support for BP associated companies and acting as the commercial representative in external negotiations.

A graduate, preferably aged 30 to 40, with knowledge of electrical/electronic based technology, you must have been successful in managing and selling innovative technology based products. Leadership and communications skills are essential.

This is an opportunity to play a key part in developing this exciting new venture for which the market opportunity is significant and rapidly expanding.

Salary is negotiable and excellent benefits include non-contributory pension and assistance with relocation expenses, where appropriate.

Please write or telephone for an application form, quoting ref. D.224, to: Louise Auty, Personnel Officer, The British Petroleum Company p.l.c., Britannic House, Moor Lane, London EC2Y 9BU. Tel: 01-920 7165.

BP is an equal opportunity employer.

Tempted by Selling? . . . but still looking for thorough training, a secure start, and a top-class team?

Rowntree Mackintosh

We'll be glad to tell you about ourselves, the training and career we can offer – and the snags too.

In the fiercely competitive confectionery market, we enjoy a strong position – there are eleven Rowntree Mackintosh products in the "Top Thirty" consumed in the UK (KitKat, Quality Street, Smarties, Polo Mints, Rolo, Aero, Black Magic, Fruit Pastilles, After Eight Mints, Yorkie and Dairy Box).

It is to maintain and improve this position that we need more trainees – men and women. Our standards are high and you will have to satisfy us that you are really keen to sell and able to train. You must be willing to move home if necessary to get promotion and be fully mobile throughout the UK during a training which usually lasts about 12 months. You will be paid a competitive salary from the start and have the backing of a highly trained sales management team.

If this matches what you seek, and if you are in your 20's and have a full clean driving licence, give in to the temptation and send full details of yourself and your career to-date and your present salary, together with a telephone number where we can get in touch with you during office hours (if possible), quoting ref. D.931 to J. N. Holt, Rowntree Mackintosh plc, York YO1 1XY.

MEDICAL REPRESENTATIVES

GALEN LIMITED

alen is an independent British pharmaceutical company with products lling to hospitals, general practitioners and retail pharmacists.

ur success has been based on the important role of medical representa- es in communicating to doctors the benefits of our medicines. The mpany is now seeking more high calibre people to promote our medi- es in the following areas:

SOUTH GLASGOW/LANARKSHIRE
NEWCASTLE-UPON-TYNE

SOUTH WALES/CARDIFF

andidates should be aged 24-35, have a driving licence, live "on ter- tory" and have the energy and drive to succeed in very competitive arket areas. In addition, it would be of advantage to have had either me sales/commercial experience, or a teaching or nursing back- ound.

e provide an excellent package, including salary, field allowances, life surance, pension scheme and company car.

you would like to explore this opportunity further, write or telephone r an application form to:

Galen Limited,
19 Seagoe Industrial Estate,
Portadown, Craigavon, Northern Ireland.
Telephone: (0762) 334974.

PARTS MANAGER

GCM is the national UK distributor for HIAB lorry loaders, Sakai and Sovemat compaction and road-making equipment and Rosenbauer fire fighting vehicles and pumps.

We are embarking upon a very interesting development of our existing computerised Parts Control procedures and require a marketing-orientated and enthusiastic Parts Manager to take control of our expanding activities and play a major role in the future growth of parts distribution and marketing through six Branch locations and a number of retail dealers.

The ideal candidate, in the age range of 30-35 years, will already be experienced in all aspects of computerised parts inventory and invoicing control with either a commercial vehicle or contractors plant manufacturer/distributor.

An attractive salary will be paid together with a Company car and other fringe benefits. Please reply in confidence with detailed CV to the Technical Services Manager:

George Cohen Machinery Limited
23/25 Sunbeam Road London NW10 6JP.

GCM THE 600 GROUP

Mechanical Engineers

for careers in oilwell drilling

Qualified mechanical engineers with HND, HNC or TEC Higher Certificate are offered the opportunity to follow a career in oil well drilling in a variety of places, including overseas. Shell are looking for clear-thinking, highly tenacious young engineers with a strong practical inclination, and in return will pay attractive salaries. Promotion to supervisory positions at an early stage, after some years of practical work on the rig floor, is quite possible for those with drive and determination.

Initial training will take place in Europe. Married accommodation overseas is normally available if required, and regular home leave is granted. It must be recognised at once that the work is always demanding and the circumstances often uncomfortable involving periods of family separation due to work cycles. Consequently, while the job is highly rewarding, certain attributes are essential. You must have considerable stamina, both mental and physical. You must have good eyesight and a head for heights. You must have the stipulated academic qualifications, and be aged between 21 and 25. If you answer these requirements, please write or telephone for an application form to:

Shell International Petroleum Company Limited, Recruitment Division (DTG) PNEL/22, Shell Centre, London SE1 7NA. Telephone: 01-934 2285 or 01-934 2950.

Shell

CIBA–GEIGY Applications Manager

EPOXY RESINS

Jeddah — Circa SAR 80,000 UK Tax Free + benefits

This challenging new position arises through the sustained growth of Ciba-Geigy's specialist contracting activities in Saudi Arabia. The main applications of their epoxy resin products are in flooring, industrial coatings, concrete repair and waterproofing. The need is for a seasoned professional to join their Western Region management team with total operational responsibility for these contracting services.

The successful applicant, ideally qualified to HNC level, will have at least seven years experience of supervising and directing applications of this type including laminations, coatings, epoxy mortars and concrete repair. A proven understanding of cost control and scheduling techniques is a key requirement to ensure a positive contribution to the quoting and estimating function. The role will involve control of multi-national teams and supervisors thus previous Middle East experience would be highly advantageous.

A one year single status renewable contract is offered initially but the company are keen to attract candidates with longer term ambitions. A UK driving licence is required.

THE HIGHLY ATTRACTIVE BENEFITS INCLUDE:-
- Advantageous tax status
- Free transport
- Free accommodation and food or alternative allowances
- Free medical/accident insurance
- Free return UK flights
- Generous annual leave
- Renewable contract

(Current exchange rate approx. £1=SAR 4.5)

Male and female candidates should send a detailed cv or request an application form on 0625 533364 (24 hours) quoting reference 764/DT.

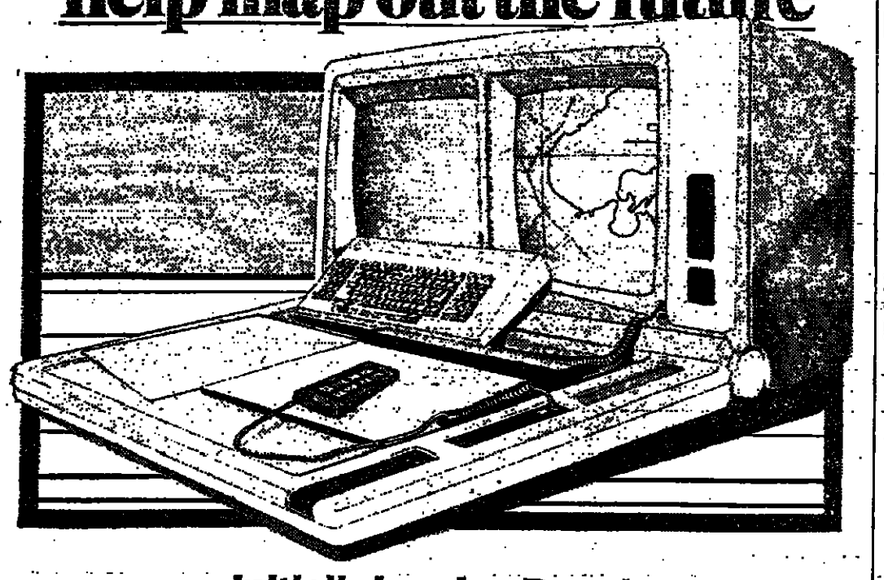
CARTOGRAPHERS

Map out your career and help map out the future



Initially London Based

BP Exploration Company Limited's Exploration and Development programme is one of the largest, most successful and ambitious in the oil industry. We are now operating in over 20 countries including China, Abu Dhabi, Oman, Egypt and Spain.

We now require experienced Cartographers to join an established team initially in our London offices where the latest digital cartographic techniques are being utilised to maintain our continued development in this vital area. Overseas opportunities are afforded to our cartographic staff as part of a planned career development programme.

Probably aged 23-30 it is essential that you hold at least an ONC, but preferably an HNC or equivalent, in Cartography, together with at least four years general Cartographic drafting experience. This should have been gained in a cartographic drawing office with an oil exploration company engaged in the production of Geological and Geophysical maps and diagrams. Ideally you will possess some knowledge of digital cartographic procedures.

An attractive salary is offered together with a range of excellent benefits which include non-contributory pension scheme, season ticket loan and stock option schemes, subsidised lunches and sports facilities.

Please write or telephone for an application form quoting ref. D 01 to Susan Skolar, Recruitment Branch, The British Petroleum Company plc, Britannic House, Moor Lane, London EC2Y 9BU. Telephone: 01-920 3484.

Power Generation

design engineering roles

West Scotland. £11,000-£15,000

This well known company is a world leader in the design, manufacture and installation of generating and process plants, incorporating the latest technology, for use throughout the world.

In line with increasing demand for their products our client is now seeking engineers for major power generation projects involving design input, specification, equipment selection and liaison with customers and contractors – working to tight time and cost schedules.

Specifically the requirement is for:

Control and Instrumentation Engineer

Qualified to HNC or degree level in electrical or electronic engineering your control and instrumentation design experience should have included technical liaison with clients/vendors on £ multi-million contracts for power and petrochemical industries. You should be familiar with relevant new control technology involving microprocessors, programmable controllers and monitoring systems.

Electrical Power Engineer

Your design experience should have covered medium/large power generation turnkey projects involving generating, transforming and high voltage switching and transmission, incorporating extensive protection schemes. A degree or HNC qualification in electrical engineering is essential.

Salaries are negotiable from £11,000 to £15,000 and generous benefits include relocation assistance, where appropriate, to an area of the West of Scotland offering a variety of good quality housing together with social and sporting facilities such as theatres, sailing, golf, football, etc. There will be some short term UK and overseas travel and future career development opportunities at project leading level.

Write with full personal and career details to the address below quoting ref: G/1927/DT on the envelope. Your application will be forwarded to the client unopened unless marked for the attention of our Security Manager with a note of companies to which it should not be sent. Initial interviews will be conducted by the client.

- A very successful growth industry
- Medium sized 'Hi-tech' operation
- Dynamic working environment
- Wide variety of projects
- 'State-of-the-Art' technologies
- Meaningful & worthwhile 'end products'
- Highly professional engineering teams
- Attractive salaries, benefits & location
- Excellent scope for career progression

...PRE-REQUISITES FOR THE 'IDEAL JOB'?

Indeed, few other companies can provide the Engineer on the move with such an appealing set of job criteria. However, as an international organisation renowned for the quality of its specialised products, the company now seeks to strengthen its Engineering team involved with the design and development of wide ranging and sophisticated research and manufacturing facilities – many of which are computer based. Several appointments now exist, namely:

ELECTRONIC ENGINEER
To £14,000

To be the Electronic team member of a small multi-disciplined group responsible for the design of special purpose machines & instrumentation used in a Manufacturing environment. As the projects often incorporate a range of technologies from High Voltage Power Supplies, Control Systems to Computer based instrumentation, breadth of technical experience is what we're looking for above all. The successful candidate will therefore probably be a Graduate with an early career in Analogue & Digital circuit design, but who is now engaged in a Systems Design role within the Instrumentation field.

INSTRUMENTATION ENGINEERS To £14,000

To join a team of Electronic Engineers and Physicists involved in the development of advanced instrumentation and laboratory scale control systems for Research Scientists. The 'measurement' needs of these Scientists are particularly extensive and demanding with applications ranging from the effective use of Infra-red detectors to computer based chemical analysers. A broad based technical background will therefore be required, complemented by a Degree in either Electronics or Physics.

If 'job satisfaction' and 'challenge' are also among your essential job criteria, then as a suitably qualified and experienced Engineer, you owe it to yourself to telephone Jacques Samuel on Hitchin (0462) 54761 for further details. You can also write to us in confidence, sending a c.v. or requesting an Application Form, mentioning Ref. JES/146 to:

CHIEF INSTRUCTOR AERONAUTICS

OPPORTUNITY TO EARN A HIGH TAX-FREE SALARY

British Aerospace has a vacancy at the Technical Studies Institute at Dhahran, Saudi Arabia, for a Chief Instructor to head a team of professional teaching staff in the Aeronautics Wing. This is an excellent opportunity to earn a high *tax-free* salary, working in Saudi Arabia with British Aerospace.

Applicants should be under the age of 50, hold a degree or equivalent professional qualification such as C.Eng. and have wide experience of aeronautical engineering including instructional experience. They must also have acquired several years' management experience in a military environment and possess the personal qualities and administrative skills necessary to develop the work of their department.

In addition to the high *tax-free* salary, reviewed annually, company benefits include free food and accommodation, free medical care and life assurance, and generous travel-paid UK leave.

Please apply in writing, giving brief details of appropriate experience, quoting reference 022/DT3 to: The Personnel Officer, Saudi Arabia Support Dept., FREEPOST, British Aerospace Aircraft Group, Warton Division, Warton Aerodrome, Preston PR4 1LA or telephone Preston 634317.

BRITISH AEROSPACE

BRITISH AEROSPACE IN SAUDI ARABIA

NATIONAL SALES MANAGER

BLUE CHIP FOOD GROUP

Based London/Home Counties c.£25,000+car

Market leaders in their own right and part of a major international blue chip food group, our client seeks an outstanding sales management professional for this key role.

Reporting to the Sales Director, the successful candidate will control, direct and motivate the 100 strong Field Sales Team through Divisional and Area Sales Managers. Close liaison with National Accounts and Marketing is vital to the continued achievement of Company objectives.

Probably aged 28-40, you will need to demonstrate an exceptional FMCG sales career including first and second line man-management and ideally national/regional accounts. Above all you will need the ability to not just manage, but develop an already successful team.

The excellent benefits package includes a negotiable base salary, 4 figure bonus, choice of executive car, pension and medical schemes and relocation expenses where appropriate. Success in this role will lead to early promotion prospects.

Please contact David English quoting ref. 84/48.

CONSULTANTS
Specialists in Executive Search & Selection
49 Wellington Street, London WC2 Telephone 01-836 9961

Product Design Manager

Greater London To £18K+car

The Client: A household name operating within the automotive components sector, and part of a substantial U.K.-based group, the company has a strong commitment to 'commercially-viable technical excellence' and has pioneered many successful new products.

The Position: Reporting to the Technical Director, the Product Design Manager will be responsible for product design and applications engineering (primarily electrical), working closely with production and marketing functions to develop products to meet the existing and future requirements of the OE and 'after-market'.

The Candidates: must have had several years' experience in a product design or applications engineering role within manufacturing industry, and should have a degree or similar qualification in electrical engineering. Good communication skills and a commercial rather than a narrowly technical orientation are essential attributes. The preferred age range is 28-45.

In addition to the salary range quoted, an attractive benefits package is offered, including a company car and life and health insurance. Prospects for promotion are excellent.

Applications please, quoting Ref. 162/1/DT, to S C Mackay, Charles Barker Management Selection International Limited, 30 Farringdon Street, London EC4A 4EA. Telephone: 01-634 1142.

A challenging opportunity for an engineer/programmer as a

TECHNICAL WRITER

(Computer System Software) Böblingen, Germany

Opportunity

Hewlett-Packard is a leading manufacturer of computational and electronic measurement products. If you have ambition, drive and initiative, an excellent opportunity awaits you. As a Technical Writer, you will be responsible for researching, defining and writing manuals for programmers. The position opens a growth path in marketing or research and development.

Profile

The successful candidate should be educated to degree level in computer science or engineering. English as a mother tongue and the ability to write clearly and precisely are essential. Experience with the UNIX Operating System, C and other programming languages would be an advantage. Some knowledge of German would also be helpful.

Lifestyle

Böblingen, in South Germany, is situated a short distance from Stuttgart and near the famous Black Forest. This is one of the most beautiful areas of Germany and offers you ample opportunity for outdoor activities and sightseeing. Well known cities like Heidelberg, Munich, Zurich and Strasbourg are close-by.

Benefits

Besides an exceptionally good salary, removal expenses and assistance in finding accommodation, HP offers a wide range of benefits including:

- twice-yearly profit-sharing
- non-contributory pension plan
- share-purchase plan
- 6 weeks' holiday paid at time-and-a-half
- holiday chalets in Bavaria.

If you are interested in joining a successful team, send your cv to:

Hewlett-Packard GmbH, Ref: F0262, Personnel Department, Herrenberger Strasse 110, D-7030 Böblingen, Germany, or call Thomas McFarland on Germany (010 49) 7031-14-2009.

Hewlett-Packard is an equal opportunity employer.

We can work it out — HEWLETT PACKARD

PROCESS/CHEMICAL ENGINEERS

Luton **c. £14,000**

Whitbread & Co PLC is one of the country's leading names in the brewing and rapidly expanding retail leisure industry and our Technical Development Department in Luton provides a service to all sections of our business.

You will need to have the ability to make an immediate contribution in either improvements to the production and processing of beer and spirits including energy management in our fifteen production units, or initiation of work on process control/automation including the use of microprocessors.

You should be aged under 35 and be capable of attaining Chartered Engineer status. Apart from formal qualifications you must be able to demonstrate *maturity, self motivation and the ability to* communicate effectively at all levels. You must also have experience in cost control and project management. A full driving licence is required.

Salaries will be up to £14,000 and in exceptional circumstances could be into a higher grade with a Team Leadership role with man management responsibilities and a significantly higher level of remuneration plus car.

Career development opportunities for both men and women are excellent and in addition to the salaries quoted above a full range of benefits includes pension scheme, five weeks' holiday, share ownership scheme, free BUPA and discounted company products.

Please write for an application form to Andrew Reeve, Personnel and Administration Manager, Whitbread & Co, Whitbread House, Park Street West, Luton, Beds LU1 3BG.

WHITBREAD

ARTHUR BELL & SONS plc
SCOTCH WHISKY DISTILLERS, PERTH

SALES MANAGEMENT

circa £20,000

This is a significant sales management appointment in one of the U.K.'s most successful whisky companies. A high level of home sales turnover is supported by extensive promotional and advertising activity.

Responsibility is to the Managing Director for planning, motivating and co-ordinating the work of an established and effective sales team. There will also be substantial contact with major customers.

A record of success in consumer sales and management of a sales team is the key requirement. This will stem from sound training in a disciplined, fast-moving consumer goods environment. Ideally, this should be backed by a knowledge of the drinks trade, although a background of food, beverages or related products could be relevant.

The company operates a generous non-contributory pension scheme and an employee share scheme.

Age: 35-40. Location: Midlands.

Applicants should forward full details in writing to:

Mr D. A. H. Harley,
Administration Director,
Arthur Bell & Sons plc,
Cherrybank, Perth, PH2 0NG.

The Company, a member of the Water Engineering Division of Babcock Contractors Limited, is a major contractor for the design, supply and installation of multi-million pound world-wide turnkey contracts in the water and sewage treatment industry.

INSTRUMENT ENGINEER

An instrument Engineer is required to join a small section in the Design Engineering Department. Duties will include preparation of Tender or Contract Specifications and Schedules; review and comment on safety, operability and economic aspects; review and development of P & ID, instrumentation, control and shutdown systems; preparation of enquiry/purchase technical documentation; monitoring and control of vendors/sub-contractors from initial enquiry through to completion and liaison with clients and other engineering disciplines within the Company. Some overseas travel will be necessary.

Applicants, qualified to at least HNC level, must have a minimum of 5 years' experience gained within a contracting environment and covering design, specification, installation and operation of electrical and pneumatic control systems. A knowledge of computer controlled systems is desirable.

PLANNING ENGINEER

A Planning Engineer is required to join a small planning team engaged in the preparation and monitoring of programmes for multi-disciplined projects from the tender preparation stage through to construction and commissioning.

Applicants, who should have a broad-based background in engineering design and construction with 3-5 years planning experience, must have a knowledge of computer-aided planning systems and the ability to prepare and interpret CPA network programmes.

Please telephone for an application form or send full c.v. to: **Personnel Department, Ames Crosta Babcock Limited, Greave Street, HEYWOOD, Lancs. OL10 2DX.** Tel: Heywood 67555 Ext. 499.

Ames Crosta Babcock Ltd

Electrical Engineers

Share in our growth. . .

We are expanding rapidly in the competitive field of energy control, specialising in electronic controls and computerised systems for heating, ventilation and air conditioning (HVAC). Our sustained growth has led to the creation of several new positions at our regional sales offices for suitably qualified electrical/mechanical engineers, ideally experienced in building services or controls as applied to HVAC.

Contracts Engineers

(STAINES, CHEPSTOW, BECKENHAM, GLASGOW)

Working as part of a team you will be responsible for the design and application of a wide range of control systems to customers specifications, seeing projects through from engineering drawings to completion of contracts.

Inside Sales Engineers

(STAINES, GLASGOW)

You will provide essential support dealing with a range of customer enquiries, preparing quotations and overseeing the technical engineering aspects of installations.

We offer highly competitive salaries to the right self motivated individuals and an excellent benefits package including training in Switzerland, free life insurance, pension scheme, BUPA (after qualifying period) and 23 days holiday per year. Interested? Then phone or write for an application form to Susan Turner, Personnel Officer, Staefa Control System, Staefa House, Moor Lane, Staines, Middlesex, TW18 4XW. Telephone: Staines (0784) 61616.

Group Marketing Director

Building supplies
Surface coatings
to £35,000 + car

A medium-sized group of chemical companies supplying products to the construction, building and petrochemical industries, plus the DIY market, requires a Marketing Director. The group has expanded by concentrating on specialised, high added-value, complex products. The Group Marketing Director will be responsible for sales and marketing policy throughout the group, and will vet and approve marketing plans for all the operating companies. In addition, he or she will take charge of certain sales companies and assume responsibility for their sales and profit performance. Candidates, probably aged 35-45, should be marketing professionals with relevant industrial experience. It is essential their business development responsibilities should have included sales-force management. Certainly they must be able to play a full part in the Board's deliberations on policy, strategy and performance review. Salary is negotiable in the range £30,000-£35,000 plus car. Location: North London. Please reply, in confidence, sending a full cv to J J Jennings, Ref: SM34/9313/DT, PA Personnel Services, Hyde Park House, 60a Knightsbridge, London SW1X 7LE.

Managing Director

Custom-designed
capital equipment
Hertfordshire
c.£27,500 + car

The Chief Executive of a £20m international division of a UK technology-based company seeks an enthusiastic and entrepreneurial Managing Director to ensure the ongoing profitable development of two well-established, market-driven companies applying high technology to custom-designed equipment for the converting and graphic arts markets.
Both companies have an enviable worldwide reputation for product innovation, design and quality. The MD will be expected to build on this foundation by developing existing and new international markets, and producing cost-effective design excellence and manufacture to meet demanding customer requirements.
A professional engineer is needed, probably in the late 30s, who has a proven general management track record and 'hands on' project management experience in the design, construction and supply of custom-designed equipment for the converting, graphic arts or packaging industries. Career development opportunities are excellent. Appropriate executive benefits and relocation assistance will be provided.
Please send full cv, in confidence, to R H Capes, Ref: GM75/9086/DT, PA Personnel Services, Hyde Park House, 60a Knightsbridge, London SW1X 7LE.

Credit Management

West London

WANG

Wang (UK), part of a $2 billion US corporation, has enjoyed dramatic growth with sales rapidly approaching £100 million this financial year.
We are seeking to recruit two senior Credit Managers to make a positive contribution to our commercial success and to strengthen further our management team.

UK Credit Manager c.£20,000 + car
As UK Credit Manager, you will manage a substantial team that sets credit limits, collects debts and administers the credit function across the whole of the country. This key role will involve a high level of contact with internal sales management and customers and carry responsibility for over 2,000 live accounts.

Dealer Credit Manager
c.£17,000 + car
This position will carry specific responsibility for credit management of Wang's rapidly expanding dealer organisation. You will make a positive contribution, working closely with Sales Managers, vetting dealers, setting credit limits, collecting debts, and administering dealer-stocking programmes.
Candidates should have a proven record of credit management experience in a high-technology environment and, ideally, a MICM qualification, and be able to communicate effectively at all levels.
The competitive salaries, which include a performance-related bonus, will be backed by a wide-ranging Wang benefits package, and career prospects are excellent.

Please write with full career details to Clare Taylor, Wang (UK) Limited, Wang House, 661 London Road, Isleworth, Middlesex TW7 4EH. *Or telephone* 01-847 1954 (24-hour answering service) for an application form.

National Sales Manager

Electrical appliances
Southampton
package c.£17,000 + car

This highly successful £37m member of a flourishing £60m private group is very well known for its range of strongly-branded electrical heating appliances with which it has overall brand leadership. Its products are distributed through a wholesaler network to contractors/retailers and through electricity boards. Now, with the sales graph curving sharply upwards — a 30% increase in sales in the last year alone — this new position has been created to lead and direct the sales force in sustaining and continuing this pattern of growth.
Major tasks will be to conduct a total appraisal of the structure and organisation of the sales force; to apply sharp, galvanising leadership; and to forge a strong link with the 'inside' sales function.
For this extremely important, highly visible appointment, we would like to talk to those, aged 35-45, who have successfully managed a sales force, ideally, but not essentially, within the durables market sector; a strong fmcg sales management background will be considered. Relocation costs will be covered by the company.

To apply, please send cv or telephone or write for an application form, to James Gunn, Ref: SS63/0382/DT, PA Sales Selection, Hyde Park House, 60a Knightsbridge, London SW1X 7LE. Tel: 01-235 6080 ext 289.

Special Core Analysts

Aberdeen and London
£6,200-£13,000 + benefits

Since its acquisition by Litton Industries in 1983, Core Laboratories has continued to move ahead in the field of Special Core Analysis. The introduction of new technologies and the company's acknowledged training programme have not kept pace with our expanding market share. Consequently, we would like to hear from experienced Special Core Analysts, at any level, who feel capable of making a positive *contribution to one of the world's leaders in the field.* The Aberdeen laboratories are in the process of being expanded and a brand new laboratory complex is scheduled for development in the London area.
The company is fully committed to retaining its place as the market leader, hence salary is unlikely to be a problem in attracting the right people.
Please write or telephone for an application form, quoting Ref: GS2, to Core Laboratories UK Limited, Howe Moss Road, Kirkhill Industrial Estate, Dyce, Aberdeen. Tel: (0224) 723303.

Career opportunity in
Food Manufacture

c.£10,000

Campbell's Soups

Do you possess a food science or related qualification, plus experience of working in quality assurance and/or production management, and now seek to broaden your career?
If so, we can offer you a first-class opportunity as we are seeking to recruit an individual who will normally undertake supervisory quality assurance responsibilities but who will assume production *management responsibilities during our peak* production season.

Campbell's Soups, a progressive major food manufacturer based in King's Lynn, Norfolk, offer an attractive salary plus the usual big-company benefits. In addition, relocation assistance will be given where appropriate.

Please call David Bennell as soon as possible on King's Lynn (0553) 775051, or write to him at *Campbell's Soups Limited, Hardwick Road,* King's Lynn, Norfolk PE30 4HS.

PA consulting group: Management Consulting · Technology · Computers and Telecommunications · Personnel Services

MECHANICAL ENGINEERS

Development of our Consultancy Services has created excellent opportunities for Chartered Engineers to exercise their range of technical and management skills in a professional environment.
Suitably qualified candidates will be expected to *demonstrate substantial knowledge associated with the* design, construction, examination and testing of pressure systems (pressure vessels, pipework and similar plant). ASME Authorised Inspector qualifications and/or computer programme experience would be advantageous.
Some travel will be involved but the majority of work will be carried out from our Birmingham Head Office.
Rewards will include an extremely attractive remuneration package including generous salary, subsidised house purchase, non-contributory pension, private medical scheme and discounts on personal insurances.
Please write in confidence with full career details, to:
The Chief Engineer,
Eagle Star Group Engineering Insurance Limited,
54 Hagley Road, Edgbaston,
Birmingham B16 8QP.

Eagle Star

SEISCOM DELTA UNITED
LONDON S W 1

SEISCOM DELTA UNITED (INT'L.) INC.—one of the leaders in the international geophysical industry—require immediately for their London based processing facility the following experienced personnel.

Senior Computer Engineer

to maintain the in-house computer equipment consisting of a SEL 32/77 Supermini with a selection of peripheral devices, a Seischrome II Laser beam film plotter and several NorthStar Horizon micros. In addition the successful applicant will have the responsibility of running a small spares exchange scheme plus stock control of a large inventory of computer parts. Previous experience on the SEL 32/77 coupled with the ability to diagnose and repair to chip level are desirable but not essential requirements. Salary to £15,000 p.a.

Processing Geophysicist

with a minimum of two years experience to work within a small and highly motivated team of Geophysicists on a wide variety of processing *projects. Salary to £10,000 p.a.*
SEISCOM DELTA UNITED (INT'L.) INC. offer realistic salaries commensurate with experience, plus a package of fringe benefits which include BUPA, Life and Disability Insurance and a generous travelling allowance.
Applications with Resume should be forwarded direct to The Personnel Officer, Seiscom Delta United (Int'L) Inc., One Vincent Square, London SW1P 2PN or Telephone 01-828 8323 for details.

We are one of the most respected and innovative organisations in the world of telecommunications. To take further advantage of the liberalised market, we are planning a series of new product launches. As a result, we now have a number of openings, in both London and Birmingham, for

System Sales

If you have proven experience of selling capital equipment, we can provide you with all the technical training you will need to sell our complete range of communication products.
The rewards for your achievements will include an attractive salary, generous incentive payments and a company car. So, phone through to your future today, until 8.00 p.m. and ask for the local Sales Manager.
London 01-390 1177 Birmingham (021) 550 8251 or leave a message on our jobline (0403) 66511 anytime, or write, enclosing a full CV or telephone to: **V.H. Harris, Thorn Ericsson Telecommunications Ltd., Viking House, Foundry Lane, Horsham, West Sussex. Tel: Horsham (0403) 64186.**

AC SPARK PLUG OVERSEAS CORPORATION
WEST BAY ROAD, WESTERN DOCKS
SOUTHAMPTON, HANTS. SO9 7DT

AC Spark Plug Overseas Corporation is part of the General Motors Corporation, the largest manufacturing organisation in the World, specialising in Automotive Products.
The Southampton Operation is currently engaged in the manufacture of filtration products for the Automotive Industry and the Replacement Sales Market with over 60% of their business in Export Sales to Europe, North America, Japan, etc.
They are now entering an exciting phase with the introduction of new products to the Operation which necessitates the recruitment of high calibre Engineers to help develop and shape their continuing growth in current and future products.

ELECTRICAL/ELECTRONICS ENGINEERS

We require Engineers who have a Degree/NHC in Electrical Engineering with at least five years' experience in Manufacturing Industry. It is essential for the Engineers to have Electrical Engineering experience with **Robotic Welding Operations—MIG and TIG Welding.**

PRODUCTION ENGINEERS

We require Engineers who have a Degree/NHC in Production Engineering with at least five years' experience of MIG and TIG Welding processes in the Manufacturing Industry on high volume production and assembly. It is also essential for the Engineers to have experience in the installation and commissioning of assembly robots and robots used for MIG and TIG Welding.
AC Spark Plug Overseas Corporation offers an excellent and competitive Salary and Employee Benefit package and, where appropriate, relocation assistance.
To apply for any of the vacancies outlined above please write to Miss P. Burrows, Personnel Services Officer.

Austin Knight Advertising

London: 01-437 9261
Birmingham: 021-454 7351

Production Manager

Sheet Metal Shop

The successful applicant (male or female) must be fully conversant with all types of Aerospace and Automotive work including pipes manufactured for the Aerospace Industry.

Age is immaterial but applicants must have a proven background of previous experience.

An attractive package is offered including a salary commensurate with the position plus a company car.

Please write in the first instance to Confidential Reply Service, Ref: ACP 8106, Austin Knight Advertising UK Limited, Nelson House, 23-27 Moulsham Street, Chelmsford, Essex CM2 0XG.

Applications are forwarded to the client concerned, therefore companies in which you are not interested should be listed in a covering letter to the Confidential Reply Supervisor.

Austin Knight Advertising — CHELMSFORD

Depot Manager

c.£11,500 + car — *aged 28-45* — *Woolwich*

Bookwise Service, the largest supplier of paperbacks to multiple retail stores and to booksellers, has a network of 9 depots providing warehousing and distribution services to support sales activities.

As Depot Manager you will control day to day operations through a Warehouse Manager and some 15 staff. Duties include stock selection for some 1500 titles to a value of more than £3M. Reporting to the Distribution Director you will have sound experience of man-management, good administration skills and practical buying and stock control expertise.

The ability to make a significant contribution to the development of the business is essential; a working knowledge of computer applications would be desirable.

Salary is supported by a wide range of benefits.

Applicants, male or female, should write with full c.v. to: Mr. Stephen Lear, Personnel & Training Director, Bookwise Service Limited, Langham Park, Catteshall Lane, Godalming, Surrey GU7 1NG.

BOOKWISE

Sales Managers

Paxman Diesels Limited is a world leader in the design and manufacture of diesel engines for marine, industrial and traction applications in the power range 1,100-5,000 bhp. A major development programme is planned to broaden the Company's product and market base. As a result the Sales and Marketing function is being reorganised to operate territorially in:

1. U.K. and Europe.
2. Middle and Far East and Australasia.
3. The Americas, Canada and Africa.

We wish to appoint Sales Managers (male or female) for each of these territories. Successful applicants will be self-motivated, energetic engineers aged 35-45 with a successful track record in selling capital products, preferably diesel engines or similar equipment in world markets.

Overseas travel is an essential requirement and knowledge of at least one relevant foreign language is desirable. Academic qualifications are less important than ability, but a formal qualification in one of the engineering disciplines will be necessary.

The jobs will be based in Colchester, an attractive historic town in Constable country only 45 minutes from Central London and a few miles from the coast. An attractive salary and Company car are included in the benefits package and we will help wherever appropriate with relocation expenses.

Please send a detailed C.V. indicating current salary or telephone for an application form to: D. R. Holborow, Paxman Diesels Limited, Hythe Hill, Colchester, Essex CO1 2HW, Tel: 0206 575151 ext. 308.

Paxman Diesels

Export Sales Executive

£10,500 to £12,500 + bonus

A unique opportunity has arisen for a young man or woman seeking to further their career in export sales, to join our European sales team based in Bradford.

We are part of the AE Group and are leaders in the international marketing and distribution of replacement automotive engine components.

Preferred applicants will be aged 22 to 30 years, technically minded, and with sales/commercial experience in a similar environment.

In addition to a good standard of education, applicants should have a working knowledge of a second European language (preferably German), together with a knowledge of automotive engines.

Extensive travel in specified European markets will be required and applicants will need strong personal qualities to meet our recruitment specification.

Assistance with relocation costs will be given where appropriate and the starting salary is negotiable within the above range. Applications should be made in writing with full details so as to obviate the need for an application form, and should be addressed to the Personnel Manager, AE Auto Parts Limited, PO Box 10, Legrams Lane, Bradford BD7 1NQ.

AE

Our client is an international, marketing led, consumer product business currently investing heavily at a key manufacturing plant in the North East.

Rapid growth and promotions due to a policy of positive career development have created several challenging opportunities.

Shift Manufacturing Management

£11-£13K + shift allowance

Candidates must be graduate engineers aged 25-32 with an excellent track record gained in a fast moving manufacturing organisation.

Chief Manufacturing Engineer

To £14K

Well qualified candidates aged 28-35 will have a proven record of success gained in a fast moving manufacturing environment. The prime task is to decisively lead and control a production engineering team closely advising the Technical Manager on all key decisions. Candidates must offer clearly identified potential for development well beyond this role.

Machine Design Engineer

To £12K

The jobholder will lead a small team on total machine design and development from concept through to commissioning in a high speed manufacturing environment where machine performance and product quality are critical design considerations. Candidates will be professional engineers aged 30-45 with a proven record of success in designing high speed assembly and packaging machinery.

Project Engineers

c.£11K

Candidates aged 27-35 should be professional engineers with a solid background in production engineering.

An excellent relocation package is available.

For further details and an application form please contact David Green, Bensons Recruitment, 89 Osborne Road, Jesmond, Newcastle upon Tyne. Tel: 091 2812245.

Interviews will be held at various UK locations. Posts open to male and female applicants.

Advertising and PR Manager

c.£10,000 + car

An opportunity (male or female) has arisen for an energetic, enthusiastic and creative advertising and PR Professional to join a most prestigious gas boiler manufacturer.

Reporting directly to the Marketing Manager you will have overall responsibility for all UK advertising and associated activities with a specific brief to develop our Public Relations function.

We seek a good all-rounder, aged 28-35, well educated and with at least five years' experience in a consumer durable marketing and advertising environment. Most important is the flair you bring to the job, your skill with words, your management of agency and media buyers.

The employment package includes free medical and life assurance and relocation assistance to this attractive part of the Midlands.

Please write with full career and personal details to Personnel Manager, Potterton International Limited, Emscote Road, Warwick CV34 5QV.

Potterton

Sales Engineers

Process Control/Instrumentation

Up to 5-figure salary + car — *North/Midlands/South*

Our client, a progressive subsidiary of a major British Group designs and manufactures precision instrumentation principally for the process control and petrochemical industries.

The product range, which makes extensive use of advanced technology, has considerable potential and is ripe for exploitation. As a result, the need has been created for additional home-based Engineers (male or female) to service the above areas.

Aged around 25-40, you should have around 3 years' technical sales experience, ideally gained with a supplier to the petrochemical or process industries, together with engineering qualifications at ONC level or above. Knowledge of pneumatic and/or electromechanical instrumentation would be an advantage.

An attractive salary is offered together with a wide range of large group benefits. This is an excellent career opportunity for experienced engineers to play a key role in the continued growth of a small company whilst enjoying large-group support.

Please telephone Barrie Witt on 021-455 6255 (office hours) or (06845) 66477 (evenings) or write to him at Austin Knight Selection, Tricorn House, 51-53 Hagley Road, Birmingham B16 8TP, quoting ref: 942.

Austin Knight Selection — BIRMINGHAM

London, Birmingham, Bristol, Chelmsford, Egham, Glasgow, Manchester, Newcastle, Sheffield, Southampton, Welwyn, North America, S. Africa, Australia. Affiliates throughout Europe.

Marine Supervisor

Nigg Oil Terminal

Britoil's involvement in producing oil from the U.K. Continental Shelf includes being Operator of a crude oil shipment terminal at Nigg Bay in the Cromarty Firth from which crude oil produced from the Beatrice Field is exported.

We require an experienced professional to provide a supervisory capability for tanker and other marine operations at our terminal.

As Marine Supervisor, you will liaise between the terminal and the vessels on all marine and cargo handling matters with particular emphasis on safety and pollution prevention. You will establish that the terminal is ready to receive and load vessels, agree berthing arrangements, carry out ongoing onboard inspections and ensure that terminal requirements a[illegible]met and maintained at all times. Dealing with multi national vessels you will be expected to communicate clearly terminal requirements. You will maintain day to day liaison with the Port Authority and vessel agents. You will also monitor the day to day pollution control activities ensuring terminal pollution control equipment is maintained and ready for immediate use and provide marine advice as required by other departments.

To have the level of technical expertise required, you will be a qualified Master Mariner (Grade 1) with a minimum of four years recent experience as Mate on board a crude oil tanker. Shore-based experience of terminal operations would be an advantage. Among your personal attributes you will have a sense of authority, based on both technical knowledge and proven experience.

The job is Nigg based and an attractive salary and benefits package includes where appropriate, a generous relocation allowance.

To apply, write giving details of your background and experience and quoting reference MS/GW/DT to: Mrs. G. Wilkinson, Senior Personnel Officer, Britoil plc, Britoil House, P.O. Box 120, Hill of Rubislaw, Anderson Drive, Aberdeen. AB9 8XB.

Energy at work for Britain

SUBSEA ENGINEERING

United Kingdom and Overseas

With 52 offices in 24 countries, Oceaneering International is the world's largest and most successful corporation providing underwater, survey and engineering and inspection services to the energy industry.

Our success has been built around outstanding people and their combined determination to lead the field in this dynamic industry.

We now seek a number of subsea engineers who are looking for the freedom to apply an innovative approach towards the achievement of results in a highly profit-motivated environment.

Specifically you must be a creative, self-motivated engineer with around 2 years' experience in subsea engineering – covering a wide range of activities possibly including one or more of the following: subsea inspection engineering; design and use of subsea completion equipment; risers; floating production and storage systems; manifold systems. A relevant degree or equivalent is desirable.

If you meet our requirements, we will offer a competitive remuneration package and significant scope for personal development within this market driven organisation.

Please write with a full cv to Chris Head, Oceaneering International Services Limited, Queen's House, 2 Holly Road, Twickenham, Middlesex TW1 4EG.

OCEANEERING

Lyons Tetley is one of the most successful food manufacturing companies in the U.K. At our 45 acre head office and multi factory site at Greenford, Middlesex the scale of maintenance engineering operations is substantial.

Electrical/Mechanical Maintenance Management

c.£13,000

We now seek a Maintenance Services Manager who, assisted by a mechanical engineer will manage a team of 21 electrical and mechanical craftsmen in providing non-production maintenance and project installation services to the site. The environment is stimulating, the unexpected is routine and priorities vie for attention. A computerised maintenance management system is being introduced.

As principal electrical engineer you will play a key role in electrical policy making and setting standards. Previous industrial relations experience is desirable.

Ideally you will be an electrical engineering graduate, or equivalent, aged 30 plus with a minimum of 5 years' experience in site electrical maintenance. A knowledge of HV power distribution at 6.6 Kv is required.

Electrical Services Management

c. £10,000

An Electrical Manager is required to run a maintenance department providing electrical maintenance and installation of site services at the above location.

You should be qualified to HNC, HND or HTC electrical engineering and have experience in a similar post in an industrial environment.

For both appointments, career prospects are good, and major company benefits include relocation if appropriate.

Please write with full C.V. including salary, and indicating which post is of interest, to Mrs. E. Elder, Head Office Personnel Manager, Lyons Tetley Ltd., 327/347 Oldfield Lane North, Greenford, Middlesex UB6 0AY. Tel: 01-578 2345, Ext. 290.

Lyons Tetley

Airport Policy Planner

c.£10,000

Airport development is critical to the future success of British Airways, which spends over £200 million per year on Landing and Navigational charges in its worldwide operations.

The Heathrow based Airport Policy Unit currently requires an analyst to ensure that airport development plans are consistent with our long term business requirements, and that the required facilities are provided cost effectively. Preparation of material for Planning Inquiries and development of briefs for negotiation purposes will also be involved.

Suitable applicants will be qualified to degree level in an analytical discipline, with experience in developing, financing or pricing long term projects.

A starting salary of around £10,000, including holiday bonus, is offered, together with advantages such as a contributory pension scheme, favourable holiday travel opportunities and profit sharing.

Interested? Then contact Kris Streatfield, Recruitment and Selection (S7), British Airways Plc., P.O. Box 10, London Heathrow Airport, Hounslow, Middlesex, TW6 2JA, or ring 01-750 5126, quoting job reference KS/APPS.

BRITISH AIRWAYS

The world's favourite airline

Mechanical Design Engineer

up to 14k

Marine Industry — South Coast

Innovative design and commitment to excellence has made Nautech the world leader in marine autopilots for the leisure industry.

To match continued growth we are now looking for a talented Mechanical Design Engineer to join a small highly motivated and broad based design team. Candidates should ideally be qualified to degree level but above all must possess creative mechanical design talent. Projects will be both interesting and varied ranging from electrically driven mechanical drive systems to instrument mechanisms. Candidates should also have a broad knowledge of production techniques and value engineering.

An excellent salary is offered together with full relocation expenses if applicable.

If you are looking for a position with responsibility in an expanding environment and feel you have something to offer, please contact:-

Mr. A. W. Clark, Technical Manager, Nautech Limited, Anchorage Park, Portsmouth PO3 5TD

PHARMACEUTICALS

REGIONAL MANAGER

c. £13,000 + Bonus + Car

Are you finding your current position is limiting your ability and initiative?. If so, and you are also seeking an opportunity to more fully utilise your man management ability, this could be the career move for you.

Our Client, an established Pharmaceutical Company, is one of the leaders in Cardio Vascular medicine, in addition to which it has several other major products within its range for differing therapeutic areas, involving some o.t.c. promotion.

Due to re-organisation, there are now two vacancies for Regional Managers, one to be based on LONDON and the other on MANCHESTER.

If you are aged 25—35 years, educated to "A" Level standard, with proven experience and ability as a Medical Representative or as an Area or Regional Manager, preferably in the cardio vascular field, this is an ideal opportunity for you.

Please contact Colin King, Executive Services Ltd., Management, Training and Recruitment Consultants, Walton House, 2, West Grove, Walton-on-Thames, Surrey KT12 5NX. Tel: 0932-246351.

This opportunity is open to both men and women.

We are an international organisation, being world leaders in the field of precision drafting machines, photoplotters and CAD-CAM equipment for the electronic and graphic arts markets.

Due to our planned expansion we require a dynamic, ambitious, self motivated Sales Executive to join our sales team selling capital equipment.

SALES EXECUTIVE

The successful candidate will:

- Have a proven sales track record with a minimum of three years' related experience.
- Have the ability to negotiate at all levels.
- Ideally have an electronics background with good formal qualifications.
- Have above all else the personality, self-starting qualities and commitment to fully contribute to and benefit from success.

In return we offer:

- Product training at our U S A factory.
- Excellent salary, commensurate with age and experience.
- High potential earnings for on target performance.
- Company car and social benefits.
- Large sales area based out of our Bradford office.

Applications should be in writing enclosing C.V. to:

Ian McMinn, U.K. Marketing Manager,
Gerber Scientific U.K. Ltd.
Cumberland House, Greenside Lane,
Bradford, West Yorkshire, BD8 9TQ.

THE ROYAL PHOTOGRAPHIC SOCIETY

invites applications for the post of

CENTRE MANAGER

THE NATIONAL CENTRE OF PHOTOGRAPHY BATH

This job calls for considerable commercial flair and successful management ability. The Centre Manager will develop all the activities of the Centre which include exhibitions and displays, the famous Collections of prints, books and equipment; lecture theatre and a retail shop.

The successful applicant will be expected to make innovations aimed at developing the facilities and activities promoted at the National Centre by the Royal Photographic Society. Ideally, candidates should have proven ability to work to budgets, and will be expected to make the Centre commercially viable. An interest in photography is desirable. Salary will be £12,000-£14,000 p.a. depending on experience.

Application form available from:—

The President (C.M.),
The Royal Photographic Society,
The Octagon,
Milsom Street,
Bath BA1 1DN.

Closing date for applications: 14 June, 1985.

DELTA

Production Management

Delta Enfield Cables are a high volume producer of low, medium and high tension electric cables. An opportunity has arisen for a senior person in Production Management based at one of our manufacturing divisions in the London area. The person appointed will be part of a management team reporting to the Product General Manager. Responsibilities will entail all aspects of factory control on a day to day basis.

An educational standard to H N C in electrical or mechanical engineering is desirable and a proven record in the manufacture of all types of electric cable is essential.

Confidential applications with full c.v. to:

The Personnel Manager,
Delta Enfield Cables Ltd,
Victoria Way,
Charlton, London SE7 7NY.

THAMES DECIDE ON TAKING THE PLUNGE

By TONY FAIRCHILD

FLAG OFFICERS of the Royal Thames Yacht Club met in London last night to give what was expected to be formal approval for the challenge they entered last year for the 1987 America's Cup to go ahead as planned.

When first announced in January, it was stated that the challenge, now headed by the Jersey-based businessman Graham Walker, would cost £5 million.

But although negotiations are said to be near completion with several commercial backers, only support worth £250,000 from British Airways, has so far been officially announced.

The group headed by Mr Walker has, however, appointed Nigel Hawkes, a publisher, as full-time director of the British America's Cup Challenge with headquarters in Sackville Street, in London.

The Royal Thames, last-minute challengers on behalf of the British group, first headed by Admiral Sir Ian Easton had made clear from the start their reservations about the attempt.

Understandable caution

Having entered a challenge in 1974 which ultimately failed to produce a contender—leaving the club as Challenger of Record and with an elimination series to run in Newport, Rhode Island—the reservations by the Thames were understandable.

In issuing the challenge for 1987, the club, which has Prince Philip as Patron and Prince Charles as Commodore, gave six months for evidence to produce that it would a realistic attempt to regain the Cup first won by the schooner America in 1851.

The deadline was subsequently extended by a further six months and with the flag officers meeting with Mr Walker last night to review the current position of the challenge.

Backing sought

Since Mr Walker has, in essence, agreed to underwrite the challenge while further commercial backing is secured, it seemed probable that the club would give formal approval.

But the club, like Mr Walker and his group, will be well aware of the magnitude of the task facing them: beginning with an elimination series likely to involve more than 12 challenge contenders.

The British group are confident however, because of extensive and promising tank-testing with radical models, that they will be able to build one or more competitive 12-metre yachts.

Some experts believe also, because of the dissipation of efforts in Australia and the United States, that the America's Cup is "more winnable" perhaps than in the historic series which went to Australia II in 1983.

Conversely, there are those that hold that the New York yacht club, who held the trophy for 132 years up to 1983—and the Australians—are already a year ahead of other contenders because of having already had new yachts in training in Australian waters.

While the Royal Thames were meeting last night, White Horse Distillers Limited announced in London that they would be one of the official sponsors of the America's Cup event being run by the Royal Perth Yacht Club.

The support, which earns for White Horse Whisky the distinction of being the officially endorsed America's Cup brand for a two year period, is worth $A350,000 (£196,000) to the Royal Perth.

Graham Walker heads the challenge group.

All hands on the Royal Perth deck

TONY FAIRCHILD looks ahead to the first Australian defence of the America's Cup to be raced off Freemantle in early 1987. He also examines the massive responsibilities facing the Royal Perth who took over where the New York Yacht Club's 132-year reign ended at Newport, Rhode Island, in Sept. 1983.

THE historic America's Cup victory by Australia II in 1983 was finally accomplished in days.

But arranging for its first defence in Perth, Western Australia, is "like re-inventing the wheel".

This is the view of Graeme Owens, the rules expert on the special committee with the responsibility of staging the first defence off Fremantle in 1987.

Said Mr Owens: "For more than a century the America's Cup was just a two-boat event; now it has become a massive international regatta and the logistics involved in staging such a contest are enormous."

Problem overcome

But in describing the problems that have had to be overcome since the Royal Perth Yacht Club became "the trustees" of the trophy, Mr Owens emphasised that plans are not merely well advanced, but right on target.

"We also have to run the 12-metre world championship early next year," continued Mr Owens.

"We are very near to being ready to do that now. And, indeed, we are ready almost to run the Cup defence itself. There are very few remaining problems.

"But in preparing for the first defence of the America's Cup outside of the United States, the logistics are such that it is like re-inventing the wheel."

Normal activities

From very shortly after the America's Cup triumph by the yacht belonging to Alan Bond—on whose behalf they had challenged—the Royal Perth determined that the defence of the trophy would not interrupt normal club activities and business.

With a membership of around 1,200, the club arranges racing five days a week, on the Swan River and out at sea.

So a special, seven-member America's Cup committee was formed to work with three newly-appointed, full-time officials, who have their own separate address and telephone numbers.

"This sort of event cannot be run out of a back room of a club office," commented Mr Owens who is a partner in a firm of quantity surveyors in Western Australia.

Estimated costs

Heading the America's Cup office is Noel Robins, famous as an Australian offshore yachtsman as well as having been skipper of the Australian challenge for the America's Cup in 1977.

Mr Owens, a past racing captain of the Royal Perth and an international judge—dealing with protests and questions relating to rules—said it was first estimated that staging the defence would cost A$2·5 million (£1·4m).

With the cost of erecting a special "shed" for measuring the yachts expected to run to $A1·5m (£839,000), Mr Owens says that total costs are certain to be higher than estimated.

"Getting necessary alterations made to the New York Yacht Club's Deed of Gift of the America's Cup cost more than £100,000, requiring American lawyers to be briefed to see the suit through the New York Supreme Court.

Australia II . . . triumphant at Newport, Rhode Island.

First priority was to have the Deed of Gift changed to permit racing to take place in the Southern Hemisphere, and in Australian summer-time rather than American.

Mr Owens pointed out that the court actions, taking more than a year, had clarified matters relating to "ownership" of the America's Cup.

Said Mr Owens: "The club which loses the Cup is obliged to sign it across to the winners. This will be required of the Royal Perth if the Cup is lost, as it was with the New York Club.

Protests deadline

"And no-one is the 'owner' of the Cup. They are merely the 'Trustees,'" added Mr Owens, who has helped mastermind a number of innovative "deadlines" relating to protests for the first Australian defence of the trophy.

"In order to prevent any last-minute problems, we shall set a deadline on the time by which protests can be entered in relation to the Deed of Gift, for example," said Mr Owens.

"We envisage also a requirement that any protests concerning Rule 26—advertising or sponsorship—are entered by the race committees.

"We are particularly anxious to avoid long wrangles between syndicate lawyers. And, indeed, we do not want any repetition of the problems which emerged in Newport, Rhode Island, in 1983."

Mr Owens also made clear that similar "deadline" provision and special other protest requirements were being considered by the Royal Perth in order to avoid problems, which are most feared in relation to measuring.

"Measuring is our biggest worry," said Mr Owens. "All of the boats—and you will remember there were an original 24 challenges entered and there are five defence syndicates—have to be measured before Oct. 1986.

"This is five months before the final of the Cup series and it is inevitable that the various syndicates—perhaps numbering between 12-15 challenge and five defence—will want to make changes to their boats.

"We are working to provide the machinery for such requirements and are having very helpful discussion in this respect with the International Yacht Racing Union.

"We are considering a three-man measuring committee, with or without Tony Watts, the IYRU's chief measurer, and hope to make a decision quite shortly," added Mr Owens.

Committee composition

He said the proposal was that the committee be made up of a nominee of the defence syndicates, a second member nominated by the challenge groups and the third member to be the choice of the IYRU.

Whether is was better to have Mr Watts on the committee—or to stand apart from it—was still to be decided, according to Mr Owens.

And he was at some pains to stress that the Royal Perth were standing as far apart from the defence groups as they were the challengers. "We are neutral and we want to be seen to be neutral," emphasised Mr Owens.

The defender of the America's Cup, he explained, would be "the winner of an elimination series." There would be "no selection on merit," with no reasons given for selection, as was the practice of the New York Yacht Club.

Shares sold

How are the Royal Perth paying for all of the requirements? By raising sponsorship at the rate of A$350,000 (£195,500) a share.

And shares have so far been "bought" by, among others, B P, Coca Cola and General Motors. "All are official sponsors of the America's Cup event", commented Mr Owens.

"But, let me stress", he went on. "None of this money goes to the defence syndicates. It will be used solely for staging the defence.

"And, what is more, any excess funds will be used to set up a Trust for the benefit of Yachting and to be administered—probably—by the IYRU".

Oxford scholar in All Black trial

By JOHN MASON

DAVID KIRK, a Rhodes Scholar who will play for Oxford University next winter, is to captain the Probables against the Possibles in New Zealand's All Black trial at Invercargill next Tuesday, the day England's Rugby Union tour party arrive in Auckland.

Dave Loveridge, fit again after a troublesome leg injury, will captain the Possibles in addition to playing for the North Island against the South at New Plymouth this Saturday, an annual match which also serves as a nationl trial.

Kirk, New Zealand's scrum-half in the absence last season of Loveridge, is a medical student and led the New Zealand Universities on their recent European tour.

Loveridge is the only player required for the trials on Saturday and Tuesday, two matches which include 15 of Auckland's squad plus two reserves. England meet Auckland at Eden Park on May 25.

Ken Going is the new coach-selector of North Auckland, England's first opponents at Whangarei on Saturday week. Going's match squad of 22 is without Alistair Robinson (knee injury), an All Black lock, but includes nine of the side beaten by the British Lions in June, 1983.

Middlesex, led by Andy Ripley, fly to Spain today for matches in San Sebastian tomorrow and in France at Bayonne on Saturday.

Several French internationals have been chosen for a Basque selection, including Dospital, Rodriguez, Lescarboura and Belascain.

Equestrianism

Whitakers join in Windsor challenge

By ALAN SMITH

MICHAEL WILLIAMS, who won the Grand Prix in Jerez early last week and returned to score at Newark on Friday, is due at the Royal Windsor Horse Show today before returning to Spain.

Whitaker, who will be among the squad for the Nations Cup show in Madrid which starts on Saturday, may be able to jump the first two of Windsor's four days.

His wife Veronique is due to join him at the Berkshire show for an attempt at tomorrow's National Ladies' Championship, sponsored by Toshiba, on her 1984 Queen Elizabeth II Cup winner Jingo.

Jean Germany, back from Rome, Liz Edgar, whose Everest Forever now seems at his best, and the holder Emma Jane Brown are others in a strong field for the title.

Modern Alarms, whose Classic on Saturday carries a first prize of £1,250, are the other main sponsors of the show. For the first time for some years the show will not be international for the show jumpers, though there will be one Japanese rider—Tsunetoshi Hamada.

The Harrods Driving Grand Prix, which starts tomorrow and has its marathon on Saturday, does, as usual, have an international field, including drivers from the United States, Holland, Austria and Sweden.

Sandringham date

Prince Philip, who won this Grand Prix in 1982 after being second four times, and George Bowman are among the top British competitors for the teams. Prince Michael of Kent has entered the pairs for the first time.

Britain is hosting the World Pairs Driving Championship this year, at Sandringham in August, and Windsor will provide a useful guide for the British selectors.

Riden Hunter classes, always an important guide for the rest of the season, will dominate the main arena today. There is also a special display to mark the 300th Anniversary of ex-British Cavalry regiments.

The musical drive of the King's Troop Royal Artillery, one of the most dramatic equestrian displays of all, especially in this setting, will take place on Saturday evening and at the end of the show on Sunday afternoon.

Swimming

COSTS FORCE GB TO CUT SOFIA TEAM

By PAT BESFORD

ESCALATING hotel rates have forced Britain's swimming team for the European championships at Sofia in August to be cut from 24 to 16 and qualifying targets raised to the faster of the original two times.

So far only Sarah Hardcastle, the Olympic silver and bronze medallist freestyler, and Adrian Moorhouse, Murray Buswell and Suki Brownsdon, the breast-stroke swimmers, have achieved the tough standards.

Accommodation costs in the Bulgarian capital have risen 60 per cent. since the country bid for the championships. But only the squad's swimmers are suffering a savage reduction in numbers.

At the Los Angeles Olympics, they had 14 in finals, won a bronze in the men's 4 x 200 metres, and took fourth, fifth and two sixth places in the other relays.

The synchro girls, who have won 14 of the 15 titles since 1974, deserve their nine places. But the four divers and 13-strong water polo team seem lucky compared with the racers.

PALMER SEEKS OLYMPICS JOB

Charles Palmer, the chairman of the British Olympic Association, is one of three candidates for the presidency of the prestige Association of European National Olympic Committees to be elected in Rome at the weekend.

Franco Carraro, the present incumbent and the president of the Italian Olympic Committee, and Curt Heller, the Austrian Olympic president, are the other contestants. PAT BESFORD

Boxing

McGUIGAN SELLOUT

Barry McGuigan's challenge for the world featherweight title in London on June 8 is set to be a 22,000 sell-out.

Demand for tickets is already heavy for the contest with W B A champion, Eusebio Pedroza, at Queens Park Rangers' ground.

VERTIGE HAS SOUND CLAIMS IN DEE STAKES

By HOTSPUR (Peter Scott)

HENRY CECIL and Barry Hills, who have trained a combined total of eight Dee Stakes winners, provide four of its seven runners at Chester today. Both are doubly represented with Cecil seeming to hold the stronger hand.

Parthia won the Dee Stakes as a prelude to his 1959 Derby triumph, but it has recently lost status as a Derby trial. Soldat Bleu, from Michael Stoute's stable, is today's only Dee Stakes runner even entered for Epsom on June 5.

Soldat Bleu finished third in the White Rose Stakes at Ascot last week, beaten four lengths by Vertige, who is Steve Cauthen's mount.

That's Your Lot, the other Cecil runner, is unbeaten, but Vertige has raced in better company.

Vertige led throughout his Ascot race and such tactics clearly suit him. The drying ground is also in favour of today's nap.

Hills, seeking his sixth Dee Stakes victory, is represented by Middlesex and Infantry. Middlesex, a Chester winner last August, has more impressive form.

He was awarded third place in Epsom's Blue Riband Trial Stakes 15 days ago being a minor sufferer in the scrimmage which caused Lord Grundy's rider Walter Swinburn to be suspended for 21 days.

Slane Castle, the Irish-trained Dee Stakes hope, was given 12 lb and a two-length beating at Phoenix Park last month by Leading Counsel, who is one of Vincent O'Brien's possible Derby candidates.

The Ormonde Stakes, won by Teenoso last year, has no runner of star quality in today's field. Civano the 1984 Dutch Triple Crown winner, makes his first English appearance in the Ormonde Stakes, but seems unlikely to be good enough.

Rough Pearl, successful in last year's Italian St Leger, and several of the other leading fancies, have often run in handicaps.

Rostova and Corinth wer first and third in the City and Suburban Handicap at Epsom. Corinth concedes Rostova 9lb less today and may be good enough.

Corinth is by Troy, whose daughter Helenetta showed courage and stamina to win yesterday's Cheshire Oaks. It was only her second race.

Steve Cauthen, riding Helenetta after two other top jockeys had turned down the mount, sent her past Consolation to lead early in the straight. River Spey then challenged, appearing the likely winner, but Helenetta beat her off by one and a half lengths.

Geoff Wragg, her trainer, does not regard Helenetta as a suitable type for the Oaks and he will also withdraw Tuesday's Chester Vase third Assemblyman from the Derby.

Morgan's Choice, beaten a short head by Contester in the Ladbroke Chester Cup 12 months ago, got up in the last few strides of yesterday's big handicap to win by a neck from Trade Line.

Willie Carson, riding his second Chester Cup winner, met with some interference on Morgan's Choice but the unluckiest horse was Accuracy.

TODAY'S CHESTER SELECTIONS

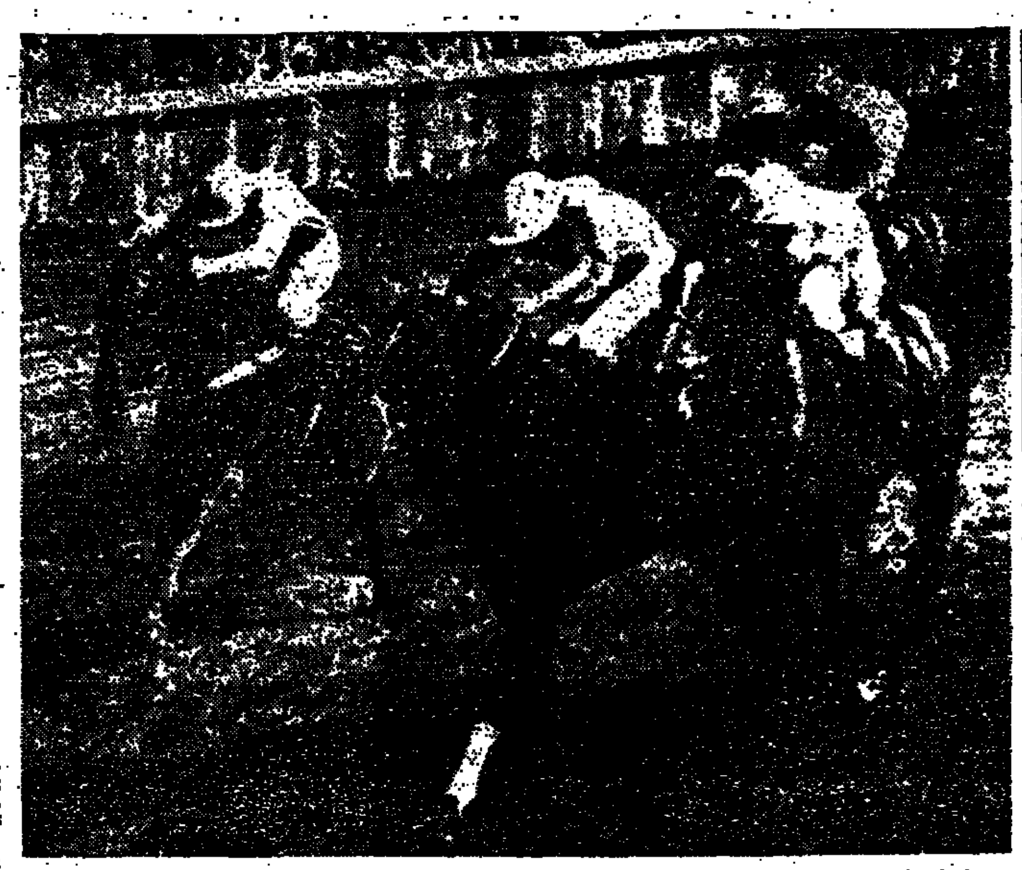
HOTSPUR'S DOUBLE.—Corinth and Vertige
NEWMARKET NAP.—Lap Of Honour (3.15)
TONY STAFFORD.—Star Formation (2.0, Salisbury)



Morgans Choice (Willie Carson), centre, gets up close to home to beat (right) Trade Line and (left) Accuracy in a finish of necks to yesterday's Ladbrokes Chester Cup.

Salisbury Racing

Gordon's sentimental return

By MARLBOROUGH (John Oaksey)

QUALITY was in short supply at Salisbury yesterday when by far the most distinguished visitor, human or equine, was Sir Gordon Richards.

Three days after his 81st birthday he was paying a sentimental return visit to what used to be one of his favourite stamping grounds.

Sir Gordon remembers winning the apprentice race on this very day more than 60 years ago and the course has many even more glorious memories from later in his career, when Fred Darling's Beckhampton stable used so often to introduce and polish up its stars at Salisbury.

Tennis fan

There were also a few less happy days, for instance during Sir Gordon's 10 years' training for Miss Dorothy Paget — who always forbade her trainer to run horses during Wimbledon.

Two years running, Sir Gordon boldly dragged her away from her beloved tennis to watch a "certainty" at Salisbury—and, needless to say both certainties went down.

Still 8 stone, scarcely a pound heavier than when he hung up his boots 31 years ago, Sir Gordon does not come racing nowadays nearly as often as his legion of friends and admirers would like.

For all who saw him yesterday it was a delight as well as an honour to be on the same racecourse again as the rider of 4,870 winners and the holder of 26 champion jockeys' titles.

I doubt whether Guy Landau, who won yesterday's apprentice race on Royaan, realised what famous footsteps he was following. He certainly would not know the peculiar irony that Sir Gordon's last ride before the injury forced him to retire was on a horse of the Queen's called Landau.

Anyway Guy made a neat and stylish job of it and has one distinction he can call his own. Sir Gordon did many great things but he did not, like Landau, ride the winner of a point-to-point before he was apprenticed.

Winners who repay their purchase price with their first victory are rare commodities these days. But Lion of Lahore did just that in the Warminster Maiden Stakes because the first prize of £882 is comfortably more than the 700 gns for which Mr Chris Cory bought him.

Maybe Lion of Lahore is not yet showing a clear profit but from the decisive manner of his victory that will not be long.

Romantic Feeling cannot claim the same distinction because the Druids Stakes was worth only £975 and she cost Prince Yazid Saud 140,000 gns.

Weight in gold

But the victory may well make Romantic Feeling worth her weight in gold because she is by Mill Reef's son Shirley Heights out of a mare who comes from the same family as El Gran Senor and several other extremely fashionable United States-bred winners.

Another bargain, Websters Feast, who cost only 9,600 gns, won the Salisbury Stakes with more in hand than the half-length he had to spare over West Carrack. Ray Cochrane was noticeably reserved with his encouragement to Matty McCormack's grey colt.

21-DAY BAN ON ROGERS

Trevor Rogers yesterday became the second jockey to be suspended for 21 days for reckless riding in the last week.

Seven days after the Jockey Club disciplinary committee banned Walter Swinburn, they confirmed the decision of the Nottingham stewards that Rogers, 39, had been reckless in his riding of the two-year-old Tycador on April 30, and caused the fall of two horses.

Late replacement

Tycador, who was disqualified from second place, hampered Bonny Reef, ridden by Gay Kelleway, who fell and brought down Stuart Webster's mount Royalty Fair. Rogers rode Tycador only because his intended jockey, apprentice Stephen Meacock, felt unwell after riding for the first time in public in the previous race.

Rogers, who has been riding this season for Alan Jarvis. His previous suspension was for six years in 1980, when he was banned for careless and improper riding at Doncaster.

Following yesterday's hearing in London, Rogers, whose ban begins today, said: "After what happened to Walter Swinburn, I wasn't surprised. It was just one of those incidents, but when two horses come down, it always looks worse than it is."

From Newmarket

LAP OF HONOUR IN TOP FORM

By Our Resident Correspondent

Although Lap Of Honour has to concede weight to all her rivals in today's Ladbrokes Hotels Handicap at Chester, Bruce Hobbs's three-year-old is in good form and is given the nap vote.

Clive Brittain's Rostova should go close in the Ormonde Stakes and Vertige could follow up his recent Ascot success with victory in the Dee Stakes.

CHESTER: 2.45 Rostova; 3.15 Lap Of Honour (nap); 3.45 Vertige; 4.45 Old Hubert.

SALISBURY: 2.0 Empty Chest; 2.30 Virgin Isle; 3.30 Hard As Iron; 4.0 Assaglawi; 4.30 Kurosawa.

Course Notes & Hints

Trapeze Artist Best of Day

By Our Course Correspondent

TRAPEZE ARTIST*, whose only victory last season was gained at this Chester meeting, may stage a repeat in today's Eaton Handicap (4.45).

Nick Vigors' colt looked to be running into form when he stayed on in good style to finish fourth behind Rostova at Epsom last month.

Rostova may frank the form by taking the Ormonde Stakes (2.45). Clive Brittain's filly steps up in class, but her front-running tactics are expected to pay dividends round these tight bends.

Course and distance winner Clantime may overcome an unfavourable high draw in the Oulton Handicap (4.15) and Vertige, who won easily at Ascot last week, is expected to prove the better of Henry Cecil's two runners in the Dee Stakes (3.45).

Vertige was ridden with restraint when fourth to Les Arcs on his reappearance at Newmarket, but he was allowed to bowl along in front at Ascot and was always in command of Trojan Prince and Soldat Bleu, who reopposes on the same terms today.

Worcester make inroads

By MICHAEL AUSTIN at Worcester

PHIL Bainbridge's mastery over Worcestershire's seam in a 166-minute innings of 83 helped to protect Gloucestershire's new-look team into a promising position at Worcester yesterday.

Gloucestershire, put in, scored a brisk 270, Phil Newport taking four for 48 before Worcestershire continued the day's hectic exchange of wickets for runs with 105 for four off 32 overs.

Worcester v Gloucester

Bainbridge blended discretion with valour on a damp, green pitch. The ball moved off the seam and occasionally bounced generously, but Gloucestershire's reinforced array of batsmen showed the uninhibited stroke

Phil Bainbridge . . . hit 12 fours in his third half-century in four first-class matches.

play already helping to increase the county membership by 20 per cent. this summer.

Stovold's five fours set the tone, Davison drove two arrogant sixes over extra cover, and Athey batted purposefully in circumstances made more demanding by Worcestershire's athletic fielding.

Rhodes, making his home championship debut, was off to an impressive start to becoming the third Yorkshireman to keep wicket with distinction for Worcestershire in post-war years, following Syd Buller and Roy Booth.

Newport's movement and the pace of Radford tested the reflexes of Rhodes, and indeed, those of Gloucestershire. But Bainbridge, with 12 fours, completed his third half-century in four first-class innings.

The day's urgency — even reflected by the fact that the scoreboard was being painted during the intervals — was symbolised by Lawrence's eccentric analysis of two for 55 in eight overs.

HILL PROVES DEFIANT

By DAVID GREEN at Leicester

When bad light ended play at Grace Road with 12 overs remaining, Leicestershire had made four without loss in reply to Derbyshire's first innings total of 226.

Derbyshire, put in to bat by David Gower on a pitch green enough to capture the attention of clusters of players as they returned from their morning net, owed much to Alan Hill's carefully compiled 89.

Light rain had delayed the start for 45 minutes and the atmosphere remained heavy and cloudy so that the ball swung and seamed a little all day, though never at any great pace.

Leicestershire's bowling in the morning was generally too short and not always well directed.

Barnett, in fine fettle, eagerly accepted opportunities to cut and

Leicester v Derby

force through the off side until Clift, in a notably steady spell, had him caught behind.

Clift also removed the talented Morris but it was Briers, wobbling the ball about at a gentle medium pace and bowling commendably straight, who did the most damage. He returned career-best figures of four for 29.

BORDER'S 106 STARTS TOUR IN STYLE

By MICHAEL CAREY at Taunton

THE Australian tourists, led by a stirring century from their captain, Allan Border, launched themselves on a highly successful note at Taunton yesterday, declaring at 356 for four and then taking four Somerset wickets for 151.

It all added up to a day of rich entertainment—and no fewer than 507 runs—under a cloudless sky, not least when Border, needing only 103 balls for his century, was leading the assault on an undemanding attack with an innings of considerable class.

The tourists' day seemed complete when Thomson, Lawson and McDermott all

Somerset v Australians

met with success, but then Botham and Rose counter-attacked boldly and brilliantly in an unbeaten partnership of 86 made from a mere 10 overs.

Not every touring side has been blessed with such bountiful conditions at this stage of an English summer. Indeed, many have needed weeks to adjust to pitches where the ball has moved off the seam or stopped.

Moderate attack

But this one was firm, the bal came readily on to the bat and the tourists soon found that strokes—even occasional Australian strokes—could be played with increased abandon and little risk against below-strength attack that was often highly accommodating.

The exception was Botham who ran in purposefully and induced more than one tenative stroke *from Hilditch, though this was* after he had preferred to give the new ball to the less experienced Davis and Turner.

Bot paid the penalty for feeding Wessels' strength outside the offstump, an one way and another it seemed an apt comment that the first wicket should fall to a long hop when Hilditch hooked Botham into long-leg's hands.

Wessels was then well picked up at slip off Marks, whereupon Border, in a high class display of clean and crisp stroke-making, made 50 off 39 balls with only the odd, forgivable blemish.

Ferocious batting

He drove Marks for four sixes, three of them out of the ground, and with Somerset's out-cricket severely tested by the ferocity of the batting and a fast outfield, the Australians had a little matter of 197 on the board before lunch.

Border could scarcely have played much better, even allowing for the deficiencies of the bowling, and as he and Welham rattled along at five and over it must have reminded elder spectators of the time Bradman's 1948 side made 721 in aday at Leyton.

Certainly *it* was difficult to detect where Somerset's next wicket was coming from as Welham, finding plenty of scope to drive and cut, helped his captain *add 136 in 24 overs.*

Welham then fell to Davis's diving catch at midwicket, but Border went on firing off one high calibre stroke after another until, satisfied that everything was in good order, he miscued when going down the pitch to Marks.

Pace men strike

With Phillips and Boon making undefeated half-centuries, Border declared at tea, after which, though Thomson had some *problems with his delivery stride,* all the fast bowlers in turn found this pitch rewarding.

Popplewell dollved a catch to gully, Roebuck fell to a very quick delivery from Lawson, and Harden, on his first appearance, unsurprisingly found McDermott an awkward proposition.

Botham, however, batted with power and virtuosity from the start, in making 50 from 30 balls, while Rose, not to be outshone, found plenty of bowling that could be thrashed through the covers *off front and back foot.*

Butcher & Clinton put Surrey on right road

By DOUG IBBOTSON at the Oval

ALAN Butcher (81) and Grahame Clinton (87) shared an opening partnership of 167 to give Surrey an initiative not fully maintained in their championship match against Lancashire at the Oval.

Despite an easy paced wicket Surrey subsequently moved fitfully towards a total of 341 as Paul Allott, relying largely on persistence and accuracy, claimed an admirable six for 71. At the close, Lancashire were six for no wicket.

The wicket was of such blithe disposition that of the six Lancashire bowlers deployed be-

Surrey v Lancashire

fore lunch even the briskest, Allott, Jefferies, and Henriksen, were afforded only one slip and a squarish gully.

In the circumstances all bowled stoically enough — especially Henriksen, the young Dane, for whom this introduction to first class cricket provided other salutory portents; a bleak day, barren terraces and a predictably professional approach by the Surrey openers.

Of these, Clinton loked more assured than his partner whose problems in timing the ball were manifest in a frustration that was almost visibly relieved when he finally steered a comfortable catch to Simmons at point.

Similar hints of the unforced error were evident in the other three wickets to fall between lunch and tea.

First Clinton unluckily chopped Allott onto hisc stumps. Stewart savouring a short delivery from O'Shaughnessy, the seventh bowler, pulled it effortlessly into Abrahams' midriff and Lynch, replacing Butcher, was run out first ball when Jesty joined him at the striker's end.

Though not entirely culpable, Jesty atoned with an innings of 75 in which several handsome drives contributed to a total of nine fours and a six to long off against Allott.

Allott, nevertheless, installed himself as the most incisive bowler of the day by removing Needham, Richards and Thomas in five overs.

WARWICKS COUNTER MIANDAD

By MIKE BEDDOW at Edgbaston

JAVED MIANDAD'S habit of making runs at Edgbaston — he has scored 659 here in his last six championship innings — served Glamorgan well in a stern examination of their position at the top of the table.

But Warwickshire, self-critical of their bowling in losing three previous matches, eventually overcame his impressive 98, dismissing Glamorgan for 255, before Lloyd and Dyer batted purposefully in an unbroken opening stand of 112.

Those who suspect the substance of Glamorgan's best star for 25 years—after all, Newcastle United headed soccer's First Division table last September—seized on some evidence when Hopkins and Holmes departed within 16 deliveries.

The Welsh revival, as yet unseen in the Principality after opening wins at Taunton and the Oval, looked to be based on slender footings while Small and Old moved the ball around with disconcerting ease on a greenish pitch.

Henderson, deputising for Alan Lewis-Jones who has a shoulder

Warwick v Glamorgan

injury, had a number of alarms but was perhaps comforted that even a player of Javed's quality —and track record at Edgbaston —did not entirely avoid the troubles.

Henderson eventually paid for his adventures outside the off stump and a bright start by Younis was halted by Paul Smith, but Ontong doggedly supported Javed in a stand of 90 which threatened to escalate beyond Warwickshire's control.

The bowlers' control was re-established when Wall, a newcomer from Cumberland last year, used the pitch profitably, dislodging Javed and Derrick with deliveries cutting back and Steele with another which lifted sharply.

The three wickets cost Wall only one run and, despite further stubboness by Thomas, Warwickshire were the happier side on an interesting day

Glamorgan won toss.

SMITHS CANE POOR OXFORD

By A. S. R. WINLAW at The Parks

THE Smith brothers punished a weak Oxford attack with centuries at The Parks yesterday as Hampshire cruised to 373 for four declared.

Robin (120) and Chris (110) gave the students a singularly unfraternal lesson in the realities of the first-class game — a situation barely redeemed as the university stumbled to 34 for 1 in reply to the close.

Oxford's only encouraging bowling came when Thorne, who later retired with flu, narrowly beat the defensive bat of Chris Smith

Oxford U. v Hampshire

with a superb out-swinger and lifter, follow by the dismissal of Nicholas—caught and bowled for nought.

Those deliveries apart, Hampshire held the reins throughout, as Chris Smith and his deputy opening partner Hardie knocked off 71 in the first 44 minutes.

The second-wicket partnership of Chris Smith and Turner realised 80 by lunch. After the interval, Turner, confined to the pavilion the worse for a heavy cold, the Smiths were brought together to give a handsome exhibition of timing and driving.

Hampshire won toss.

Bancrofts are put to flight

By JOHN FOGG

St Dunstan's had their first victory of the season yesterday when they travelled to Woodford Green and beat Bancroft's by 65 runs with overs to spare.

Pointer won the toss and Tyler and Woodcock put on 51 for the first wicket. Gold flighted his off-spin well on a dull and breezy day to take four good wickets, one of which came from an acrobatic catch by Geoff, and St Dunstan's were all out shortly before tea for 105.

Bancroft's, though, were always in trouble against the fast left arm bowling of Pointer, who has had some games for Somerset, Dowler's slow left arm and Slade's fast medium.

St Dunstan's won toss.

Slack's 105 keeps Kent on the hop

By D. J. RUTNAGUR at Lord's

WILF Slack, who missed a century by one run on the previous day, achieved one yesterday against Kent at Lord's, and laid the foundation for a Middlesex total of 303 for six declared. Kent faced nine overs *in the gloaming of* a dull day for 10 without loss.

Although never in trouble, Middlesex progressed warily. Slack, whose only score below 50 this season is 40, took 285 minutes making 105. While a

Middlesex v Kent

sizeable score seemed Middlesex's main objective, they did not miss out on full batting points.

With the morning grey and misty, Cowdrey predictably elected to field. Kent were without Dilley, who had a pain in the back, happily unconnected with the serious injury that kept him out of the game last season.

More than Dilley, Kent must have missed Ellison in heavy conditions. Jarvis and Baptiste could not get Kent early success, with the latter bowling a poor line.

Barlow caught

One lost count of the balls that the batsmen did not have to play. Cowdrey, having paid two close calls on Barlow, had him caught at gully, at 69, when lunch was only 35 minutes away.

Batting was more difficult, than suggested by Kent's long wait for their first wicket. Slack was hard-put to achieve fluency and Gatting, too, was at great pains to time the ball.

Although 37 overs old at lunch, the ball swung more through the air in the afternoon. Jarvis moved one away to induce a snick from Gatting, but the next break came from Underwood, kept waiting for his first bowl until the 57th over.

Immediately he claimed Butcher, caught at short-leg. This slowed down Middlesex to an extent where their prospects of getting full batting points looked dim.

Then Radley (50) perked up and Emburey launched an assault as late as the 99th over against Underwood, who had offered notable resistance by accounting for Downton and Radley.

Kent won toss.

CAMBRIDGE BOWLING IMPRESSES

By DEREK HODGSON

WHAT is clear to a totally impartial observer is that Cambridge will enter the University Match in July as the stronger side. Their bowling appears to be, in soccer terms, a division ahead of Oxford's.

A hasty judgment, admittedly, based on Oxford's demolition by Leicestershire's Parsons on a

Cambridge U. v Sussex

suspect surface in the Parks and a Cambridge containment *of Sussex yesterday on a placid* pitch.

Yet Cambridge never looked less than porposeful, sometimes almost sophisticated. In Ellison, htey have a seamer of unflagging enthusiasm: he began at 11.30 and came off at 3.20, the only interruptions being lunch and a change of ends; he bowled 27 overs for 45 runs.

Scott provided a lively left-arm contrast and both the spinners, Cotterell and Gorman, gave the batsmen cause for thought. Sussex found it all thoroughly frustrating in that needing practice, their batsmen were foiled just as they tried to open up.

Mendis spent an hour over 23 before swinging across a full toss; Green chugged along at a run an over and was bowled driving, while Parker had just unleashed his drives at the spinners when a tenacious drizzle arrived.

Sussex won toss.

DIXON WAS FIRST TO 100 ON DEBUT

Alastair Storie, who scored 106 against Hampshire on Tuesday, was not the first Northamptonshire batsman to score a championship century on his debut as stated yesterday.

The county's records show no previous instance but the 1940 Wisden reveals that E. J. H. Dixon, the Oxford captain, made 123 in his first game for Northamptonshire against Somerset at Northampton in 1939.

Fourth Test—Fourth Day

Jeff Crowe 112 but New Zealand struggle

By TONY COZIER in Kingston, Jamaica

NEW Zealand's steadily improving condition in the Fourth and final Test, sustained by a record second-wicket partnership between Jeff Crowe and captain Geoff Howarth, took a sudden turn for the worse in the last hour's play before lunch on the fourth day in Kingston yesterday.

Crowe, 108 not out a the start, and Howarth, 78, had taken New Zealand to within 14 runs of their first innings arrears at 211 for one when play started.

They batted slowly but surely through the first 56 minutes but, once Crowe was out for 112, Howarth followed next over for 84.

The relapse set in and the score deteriorated to 245 for six at lunch, effecively for seven since vice-captain Jeremy Coney is out of the match with a broken left forearm.

Jeff Crowe's dismissal came as a surprise. He appeared well settled when he lifted an on-drive off Vivian Richards, bowling slow-medium, and was comfortably caught at mid-wicket.

Garner catch

Crowe was followed back to the dressing room in the following over by his captain, whose firmly struck cut off fast bowler Courtney Walsh ended in the vast clutches of Joel Garner, tumbling low to his left at gully.

Howarth added only six to his 78 in an hour, his stand of 210 with Crowe being th ebest for New Zealand's second wicket in all Tests.

In his next over, Walsh surprised Martin Crowe with a bouncer to gain his second wicket with a lobbed catch to the wicketkeeper o ffthe handle of the bat.

Golf

Moortown treble is Faldo's aim

By MICHAEL WILLIAMS

AFTER three weeks rumbling through Tunisia, Spain and Italy, the caravan of the European tour has rolled into Moortown, on the northern outskirts of Leeds, for today's £110,000 Car Care Plan international.

On board are Nick Faldo, who had almost forgotten that golf is played anywhere in the world less than 80 degrees. Sandy Lyle, who has also spent most of his year in America, and all, or nearly all, the leading lights.

The exceptions are Severiano Ballesteros and Bernhard Langer, whose grand entries will come later safe in the knowledge that their Ryder Cup places are secure.

It is too early to say that the team is taking shape though Manuel Pinero, who has in succession won the Madrid and Italian Championships, would appear to be as "safe as houses" since his winnings already total nearly £55,000.

Good starts

Ranged behind him are Sam Torrance, Jose-Maria Canizares, Stephen Bennett (who won in Tunisia), Paul Way, Jose Rivero, Eamonn Darcy, Roger Chapman, Lyle, Mike McLean, Des Smyth, David Feherty and the Swede, Ove Selberg, good starts each will be keen to maintain.

So much expectation is heaped on the European team this year, following their near-miss in the States two years ago when the Americans scraped home by a point, there might almost be a danger of some taking so much out of themselves getting into the side that they have nothing left for the match itself.

Faldo, who is seeking a hat-trick of Car Care victories, arrived as troubled about his short game as he was when last I saw him chipping away for hour upon hour during the Heritage at Hilton Head, Ireland.

Normally these little stroke-savers are second nature to him. It is not, he believes his technique that has deserted him as much as the vision of the shot he needs to play.

Grey weather

He is disconcerted about the weather, grey and almost still wintry though not dissimilar to that of last year *when he won* by a stroke from Howard Clark, the "local man."

Certinly some rain on Tuesday night has helped the greens and there is no need either for preferred lies on the fairways, which is sometimes the case at this time of year.

There will be interest in the play of Nathaniel Crosby, who

CARD OF THE COURSE

earned his player's card via the qualifying school at La Manga last autumn and intends to follow the European circuit diligently all year.

Already his telephone calls back to the States are close to the £700 prize money he won in Madrid a fortnight ago as he tries to find ways and means of preserving the Bing Crosby Tournament his mother would rather abandon.

However, Crosby does not have the worry where the next pound is coming from but is no less anxious to prove himself. "This is all I have ever wanted to do," he said, "be a professional golfer. It was a dream that started when I was about eight years old."

Sandy Lyle . . . back home after spending most of the year in the United States.

Davies & Grice hold one-stroke lead

By LEWINE MAIR in Paris

LAURA Davies and Penny Grice, who more than justified the places they were given amid controversy in last year's Curtis Cup, yesterday returned five-under-par 69s to share the lead at the end of the first day of the £40,000 Hennessy Cognac WPGA Championship at St Cloud, Paris.

Marie-Laure de Taya, a leading French amateur, was in second place on 70, with Jan Stephenson third on 71. She insisted this would have been several shots better had she not lost her yardage chart on the practice ground.

Miss Davies, who used to be self-conscious about her powerful build, now sees the advantages of being longer and stronger than her colleagues.

Yesterday she reduced the four par fives on the homeward half to three birdies and an eagle to be back in 33 *against the par* of 38. Her eagle came at the 448-yard 17th, where a booming tee shot paved the way for an easy six iron to the green.

Miss Grice, whose bank manager, a golfer, allowed her a £2,000 overdraft when a sponsorship offer made at the end of last year fell through, had five successive birdies from the 13th.

Before setting off to work out her yardages anew, Miss Stephenson said she was cross that neither of her playing partners—Dale Reid nor Mrs de Taya—had offered to share their charts.

The former United States Open champion relied heavily on knowing precisely how far she had to hit and yesterday "felt lost" at every hole except for the par threes.

Unsettled players

Though much of the organisation here is first class, it was a slip up by officialdom which led to Bev Boozer of the United *States, being disqualified and six* others arriving on the first tee thoroughly unsettled.

The official bus, from the players' hotel to the course, failed to reach its 10.30 starting time and when, after an hour, it had still not arrived, the girls had to wait another 30 minutes for taxis.

Miss Boozer was offered a free flight to London as compensation, but, since the trip had already cost in excess of £250, that hardly made her feel any better.

Judo

BRITAIN HOPE FOR 3 MEDALS

By A Special Correspondent in Hamar, Norway.

Britain hopes to equal its previous record of three medals at the European judo championships which begin in Hamar, Norway, today.

Colin McIver, the team manager, is particularly impressed by the much-improved confidence of two fighters who won bronzes at the Los Angeles Olympics—Neil Eckersley, 20, the bantamweight, and Kerrith Brown, 22, the lightweight.

Neil Adams, at light-middleweight, remains the best gold medal prospect. But his training partner, Ray Stevens, makes a fascinating European debut at middleweight, replacing Olympic team-member Dersign White. The six-foot-plus newcomer has the aggression and skill to offset his lack of top-level experience.

EVERTON SET SEAL ON THE CHAMPIONSHIP

By DENIS LOWE

Everton ...... 3 West Ham 0

EVERTON, the newly-crowned League champions, last night extended their unbeaten run to 28 matches and added to West Ham's relegation worries when goals by Derek Mountfield (2) and Andy Gray gave them their 15th home victory.

After Ratcliffe, their captain, had received the Canon League First Division Trophy in a pre-match presentation, and the team had obliged their supporters with a lap of honour, Everton opened the scoring in the 12th minute.

Parkes failed to come off his line for a left wing corner from Steven, and Gray, rose above the defence to head through at the near post.

The game's first scoring chance, though, had fallen to West Ham when Goddard, given a clear run by Orr, pulled his shot a yard wide as Southall narrowed the angle.

Barnes' miss

West Ham, who need points to escape the relegation zone, continued to worry Everton as they broke quickly and decisively from the back with Allen and Orr figuring prominently.

Mountfield and Atkins, who deputised for Ratcliffe, ruled out with groin trouble, were stretched by the pace of Goddard and Cottee and Southall twice rescued Everton in quick succession.

Cottee, fed by Goddard, failed to beat the Welsh goalkeeper from close in and Barnes fired wide after Southall had done well to parry Goddard's fierce shot.

West Ham were made to regret their finishing failures when Everton added a second goal in the 43rd minute. Atkins returned the ball to the goalmouth after Van den Hauwe had centred from the left and Mountfield, a defender with a scoring flair, headed firmly past Parkes.

Southall again denied West Ham when he smothered Cottee's 55th-minute effort but Steven, outstanding in the Everton midfield, twice went close after penetrating runs.

Steven, cheered on repeatedly by a 32,657 crowd, achieved another near miss from Sharp's cross and Everton substituted Richardson for Gray after 69 minutes.

Everton, who would like to set up the record points total by winning all their remaining games, made certain of their 15th home win when Mountfield obtained his second goal of the night and his 14th in all in the 78th minute.

Steven beat Stewart on the left to put over a well-placed centre and Mountfield beat Martin to the ball.

Everton.—Southall, Stevens, Van den Hauwe, Atkins, Mountfield, Reid, Steven, Sharp, Gray, Bracewell, Sheedy.
West Ham.—Parkes; Stewart, Brush, Orr, Martin, Gale, Allen, Bonds, Goddard, Cottee, Barnes.

Andy Gray . . . on target for the champions.

UNDER-19s ARE EXPERIENCED

Several players with first-team experience at club level are in the 17-strong England Under-19 squad for the mini World Cup tournament in Toulon on May 31-June 7.

Keith Dublin, Martin Allen and Nigel Gibbs have recently broken into the First Division. David Corner played in the Milk Cup final in one of his first games for Sunderland, while Gary Parker impressed for Luton in their F A Cup semi-final defeat by Everton.

ENGLAND UNDER-19 SQUAD.—M. Allen (QPR), P. Atkinson (Sunderland), R. Cooke (Tottenham) G. Cooper (QPR), D. Corner (Sunderland), F. Digby (Manchester Utd), K. Dublin (Chelsea), N. Gibbs (Watford), R. Isaac (Chelsea), D. Kerslake (QPR), A. Llewellyn (Bristol City), D. Lowe (Wigan), L. Pallo (Aston Villa) G. Parker (Luton), G. Stebbing (C Palace), R. Wakenshaw (Everton), D. Williams (Watford).

MILLWALL CLOSE TO GOING UP

By ROGER MALONE

Bournemouth 1, Millwall 2

MILLWALL'S deserved win at Bournemouth yesterday takes them to the threshold of promotion. Now they require only one point from their remaining two matches to ensure a return to the Second Division after six years.

Well-worked goals by Kevin Bremner—answered by John Beck for Bournemouth—have put the London side almost beyond reach of Bristol City in the tussle for the remaining promotion spot behind Bradford and Hull, who are already up.

There was hardly any trouble after fears that Millwall's notorious followers might repeat the mayhem of their visit to Luton. This caused last night's fixture to be moved from Bank Holiday Monday and with an early 6 p.m. kick-off.

Dozing influence

About 1,000 Londoners were shepherded by a heavy police presence into one end of the ground—an eighth of the size of the Luton invasion—and together with the police, who lined up in front of the terraces, everyone basked happily in the warm spring sunshine.

For much of the time, some of the mid-table Bournemouth side appeared to find the warmth a dozing influence. Bournemouth were disappointing when one recalls they registered home wins over Bradford and both of the Bristol clubs, and held Hull to a draw.

Consequently, Millwall had no difficulty in settling into their well-knit patterns, and coped with three injury problems.

Fashanu soldiered on with the damaged ankle he has carried for several matches, and after substitute McLeary replaced leading scorer Lovell, who pulled a hamstring after 13 minutes, his replacement was soon injured, but stoically continued.

Good habits brought Millwall's 10th-minute goal, Lowndes curving a corner to the near post, Cusack nodding the ball across goal to where Bremner turned it home. Skilful play brought the second goal 55 minutes later, Otulakowski drubbling through and Bremner glancing a perfect header past the goalkeeper.

Beck's long-range goal three minutes later maintained interest to the end, when news arrived of only two arrests in the small crowd of 2,954.

Bournemouth.—Smeulders; Nightingale, La Ronde, Beck, Savage, Schiavi, O'Driscoll, Russell, Rafferty, Thompson, Morrell.
Millwall.—Sansome; Stevens, Hinshelwood, Lovell (McLeary 13), Smith, Cusack, Lowndes, Fashanu, Bremner, Otulakowski, Chatterton.

ARMSTRONG LEAVES

George Armstrong, the former Arsenal and England B winger, yesterday left his job as manager of Worcester City, the Gola League club by mutual consent. Armstrong took over at Worcester in February from Bobby Shinton, but was unable to save them from relegation to the Southern League.

WALSALL WARNING

Walsall's management team were warned to improve or else at the club's annual meeting yesterday. The Third Division side reached the Milk Cup semi-finals last season, but for the second year in succession have missed promotion.

Luton in danger as Chelsea conquer

By MICHAEL CALVIN

Chelsea .... 2 Luton 0

KERRY DIXON restated his remarkable goalscoring ability at Stamford Bridge last night when he set up a largely forgettable victory over Luton which lifted Chelsea to seventh place in the First Division.

The air of anti-climax which enveloped an unappetising match was inconsistent with Chelsea's sudden visions of qualifying for Europe next season.

A subdued crowd and a glutinous pitch hardly made for a memorable occasion, but the home side's willingness to ignore the dispiriting circumstances proved an important factor in their initial dominance.

Their breakthrough, after 26 minutes of utter tedium, could not have been predicted—but the identity of the scorer was less than a surprise.

Still vulnerable

Kerry Dixon, rejected as a schoolboy by Luton and now ignored by Bobby Robson, converted his 36th goal of the season in formidable fashion, rising above Foster at the near post to head Nevin's flighted cross past Sealey.

That goal served to remind the visitors, beaten only once in their seven previous matches, that they were still vulnerable to a late surge from the clubs who have replaced them in the relegation area.

But the significance of Hill's absence, a key creative figure, became increasingly obvious and even Harford, with 10 goals in his last 10 appearances, struggled to make an impact.

Chelsea maintained their urgent approach after the interval, but there was little to reward the loyalty of the 13,789 crowd.

Uninspired mood

Nevin promised more than he actually produced but prompted a flicker of interest with a well-struck free kick which Sealey did well to block at the near post.

Dixon's threat was blunted by the heel injury he sustained in a challenge with Foster. But Luton, in uninspired mood, rarely threatened to take advantage.

Fittingly, Chelsea's decisive second goal 10 minutes from time was a bizarre affair. Sealey did well to save Spackman's drive and, instead of clearing Donaghy opted to shepherd the ball towards his own goal-line before allowing Nevin to apply the finishing touch.

The manner of victory may not have sent one's pulse racing. But of Chelsea can gain maximum points from their remaining fixutres, against Stoke and Norwich, they may yet have cause to celebrate a significant achievement on their return to the First Division.

Chelsea.—Niedzwiecki; Lee, Rougvie, J. Jones, McLaughlin, Bumstead, Nevin, Spackman, Dixon, Speedie, Thomas.
Luton.—Sealey; Breacker, Thomas, Stein, Harford, Benn, Turner, Nicholas, Foster, Donaghy, Parker, B.

European Soccer

Real Madrid take three-goal lead

Videoton ....0, Real Madrid 3

REAL Madrid, the masters of European soccer a couple of decades ago, put a tight one-handed grip on the U E F A Trophy when they opened a three-goal lead over Videoton in a keenly-contested game in Northern Hungary last night.

Scorning the usual ploy in European two-leg matches of playing it safe away from home and then consolidating in the home leg, Real went out to score goals.

They ignored the internal problems which have plagued the club during the season and pulled together, going into the lead after 32 minutes with a goal by Michel.

This allowed the Spaniards to attack with confidence, but the Hungarians defended and fought back strongly.

Fierce attacks

Indeed, Real had to weather some fierce attacks by the attractive Hungarian side, who put Manchester United out of the competition in the quarter-finals.

It was not until midway through the second period that Real began to call the tune again.

The turning point for the Spanish side was in the 76th 76th minute when Santilana, the World Cup player, put them further ahead.

Though the Hungarians managed to launch some assaults, Miguel Angel, in the Real goal, was not troubled and managed to keep a clean sheet.

The icing was put on Real's cake for the return leg in Madrid on May 22 when the flying winger, Juanito, cracked in a third goal with a bare two minutes left.

Videoton.—P. Disztl; Borsany, L. Disztl, Csuhay, Horvath, Wittman, Burcsak, Vadasz, Palkovics, Novath, Vaszil.
Real Madrid.—Miguel Angel; Chendo, Stielike, Sanchis, Camacho, Gallego, San Jose, Butragueno, Valdano, Santillano.

LOSS FOR LEEDS

Leeds United showed a loss of £125,040 last season when gate receipts were down by £166,000.

TODAY'S FOOTBALL

Kick-off 7 p.m. unless stated

FOOTBALL COMB.—Arsenal v Watford, Charlton v Q P R, Ipswich v Oxford (2-15), Luton v Chelsea (2-15), Southampton v Norwich (2-30), Swindon v Brighton.

SCHOOLS.—U-15 Int'nal: Holland v England (Rotterdam). Arsenal Cup, final: Sth London v Blackheath (Highbury, 2.30).

ARMS PARK FOR WALES

THE Welsh F A succumbed to financial necessity last night, when they decided to stage the crucial World Cup qualifying match against Scotland at Cardiff Arms Park, writes Michael Calvin.

Mike England and the players who have revived Wales' Group Seven challenge had hoped to be allowed the opportunity of exploiting the partisan atmosphere at Wrexham, where they are unbeaten in eight games.

But the prospects of realising £500,000 from a 68,000 capacity crowd at the home of Welsh rugby, which has never featured professional soccer, proved decisive.

"It is literally a life-or-death situation," explained Alun Evans, secretary of the Welsh FA. "We can make an extra £250,000 by playing at the Arms Park and that secures our future."

Stein pleased

Mr Evans will be urged to send the minimum allocation of tickets to Scotland for the September 11 tie. But, whatever the administrative manoeuvring, Jock Stein, Scotland's manager, will be delighted with the switch.

Money is also at the root of George Kerr's departure as Rotherham manager, which will take effect in three weeks.

Though the decision to leave is "by mutual consent" the board were understood to be unhappy at Mr Kerr's reluctance to spend the cash they had allocated for a new striker.

LEADING PLAYERS WARM UP

By JOHN PARSONS

BRITISH lawn tennis enthusiasts have the opportunity to assess the pre-Wimbledon form of even more leading players than usual this year.

Apart from world champion Martina Navratilova, seven other players among the world's top 10 have entered the Pilkington Glass women's event at Devonshire Park, Eastbourne from June 17-22.

Two weeks earlier, June 3-9, Scott Davis, who has climbed from 48th to 16th in the world rankings, will be competing in the KENTISH TIMES tournament at Beckenham, where 15th-ranked Tim Mayotte is another possible contender.

Davis and Mayotte reached the last 16 at Wimbledon a year ago and then, in the first showpiece final this year, clashed at Delray, Florida, where Mayotte recovered from two sets down to beat his former Stanford University colleague.

More recently Mayotte was runner-up to Ivan Lendl in the Buick WCT finals in Dallas, while Barbara Potter, who heads the women's singles entries at Beckenham, is also in the impressive Eastbourne line up.

Tough competition

Apart from Chris Lloyd, ranked No. 2, and Pam Shriver, ninth (who will play in the doubles), the competition to try and prevent Miss Navratilova from gaining her fifth victory in the tournament could hardly be tougher. It includes Hana Mandlikova and Helena Sukova, two of the last three players to beat the world's No. 1.

Other leading Eastbourne entries include Zina Garrison, who recently upset Mrs Lloyd, Manuela Maleeva, Sweden's exciting Catarina Lindqvist and those brilliant tennagers, both 15, Steffi Graf, from West Germany, and Gabriela Sabatini, the world junior champion from Argentina.

British interest is likely to be concentrated around Jo Durie and the ever improving Annabel Croft, while British players are also likely to receive up to three of the four wild card entries straight into the draw.

In domestic events, more than 1,000 players now have rankings on the LTA Pernod ratings scheme this year and the response to the two-week tournaments round the country in this competition continues to be enthusiastic.

T'MENT OF CHAMPIONS (New York).—1st rd (U.S. unless stated): J. McEnroe bt V. Van Patten 6-4, 6-0; G. Urpi (Spain) bt T. Nelson 1-6, 6-3, 6-2; H. de la Pena (Argentina) bt F. Maciel (Mexico) 6-3, 6-1; C. Panatta (Italy) bt H. Gildemeister (Chile) 6-1, 6-1; T. Moor (U.S.) bt W. Popp (W. Germany) 7-6, 6-1; J. Gurfein bt L. Bottazzi (Italy) 7-6, 6-1; B. Gilbert bt P. Carlsson (Sweden) 6-2, 6-4; M. Flur bt G. Layendecker 7-6, 6-1; J. Hlasek (Switzerland) bt D. Karetic (W. Germany) 6-1, 6-2; M. Davis bt I. Kley (Brazil) 6-2, 6-4; A. Krickstein bt H. P. Kandler (Austria) 6-1, 6-1; G. Rivas (Argentina) bt M. Mitchell 7-5, 6-3; V. Pecci (Paraguay) bt J. Avendano (Spain) 6-3, 2-6, 6-2; J. Navratil (Czechoslovakia) bt C. Van Rensburg (S. Africa) 6-4, 7-6; P. Doohan (Australia) bt S. Shaw (G.B.) 7-6, 6-4; H. Sundstrom (Sweden) bt J. Svensson (Sweden) 6-4, 6-2; M. Vajda (Czechoslovakia) bt V. Gerulaitis 4-6, 6-4, 6-4; Y. Noah (France) bt T. Cihak (Czechoslovakia) 6-2, 6-4; D. Pate bt F. Segarceanu (Rumania) 7-5, 2-6, 7-6.

Motor Cycling

MICHAUD ON RIGHT ROAD

By A Special Correspondent

As the international Scottish six-day motorcycle trial reached the half-way stage last night, Thierry Michaud was on the road to his second successive victory.

The Frenchman's loss of only six penalty marks was yesterday's best score; it hoisted him into an almost unassailable lead over his nearest rivals.

Michaud has been beaten in only one of this year's World Championship trials, and that triple World Champion Eddy Lejeune (Belgium) was a non-starter improved Michaud's chances of success.

Inspired riding

Sheer inspiration characterised the Frenchman's performance for almost every one of yesterday's 30 observed sections; in perfect weather he conquered hazard after hazard.

Next best was double British champion Steve Saunders from Cheltenham, but he dropped twice as many marwks as the French rider.

Runner-up on Tuesday evening, Tony Scarlett, 18, really blew his chances of victory in this trial when he lost a disastrous 30 marks yesterday.

The Inverness rider Gavin Johnson well on the way to defending his title as best Scot, also lost 20 marks.

LEADER BOARD.—T. Michaud (300 Fantic) France, 16 marks lost 1; S. Saunders (250 Honda) GB, & R. Chiaberto (300 Fantic) Italy 31, 2; G. Burgat (250 Yamaha), France, 35 4; D. Bosis (350 Montesa), Italy & F. Michaud (250 Fantic) France, 37 6.

Ice Dancing

BRITAIN HOLD FOURTH PLACE

By HOWARD BASS

Paul Askham and Sharon Jones held fourth place for Britain after the opening gambits of the St Ivel Wilkie Ice dance international yesterday at Nottingham Ice Stadium.

The graceful Altrincham duo, coached by Joan Slater, skated with a new-found confidence and finesse, perhaps a legacy from their World Championship experience in Tokyo two months ago.

Setting the pace in the Argentine tango compulsory dance were the Austrian brother and sister, Christoff and Kathrin Beck, who are ranked ninth in the world. In second position were the Americans, Joseph Druar and Susan Wynne, from Philadelphia, with Charles-Henri Paliard and Dorianne Bontemps, third for France.

At stake is the coveted Reg Wilkie Trophy, named after Britain's former leading authority, who, during the Thirties, invented three of today's major championship dances, including the Argentine tango.

LEADERS (after compulsory section).—C. & K. Beck (Austria), 0·6pts, 1: J. Druar & S. Wynne (US), 0·4, 2: C.-H. Paliard & D. Bontemps (France), 0·6, 3: P. Askham & S. Jones (GB), 0·8, 4.

'Tired' Bates goes out to Alfred

By BILL EDWARDS

LIKE a cantankerous old lady, the tennis courts at the West Hants Club were as unpredictable as ever for the Bournemouth Tournament of the L T A spring circuit yesterday.

A lively wind blew down court, and it was difficult for players to judge the strength of their shots. In one direction they would fly out of court, yet against the wind they would fall short.

Jeremy Bates, the circuit leader, found this most frustrating as he crashed 6-3 6-3, to Leighton Alfred, of Wales, so failing to reach the final for the first time in the four weeks of the series.

"I have been playing 17 weeks in a row and I'm feeling somewhat tired and in need of a rest," said Bates.

Place in doubt

Alfred, who now plays David Felgate today, still does not know whether he has a place in the Masters, which winds up the circuit at Lee-on-Solent next week. But he knows he must beat Felgate.

Sixteen players go forward and the last places may be decided by computer. Alfred would have been through had his Welsh colleague, Michael Walker, already assured of his place, not been beaten by Marco Bellini, of Italy, 7-6, 7-5.

Felgate gained his place in the last eight by beating Robin Drysdale 7-5, 7-6. But it was touch and go, with Drysdale just failing to force a deciding set after holding set points at 6-5 in the 18 points tie-break of the second set.

Sarah Sullivan won her first match of the circuit by defeating the second seed, Karolina Karlsson, of Sweden, 7-6, 6-2. She now meets Elna Reinach, of South Africa, who has appeared in two of the three finals so far.

In her first year as a senior, Miss Sullivan, 18, appears at last to be confirming the promise she showed as a 12-year-old when a contemporary of Annabel Croft.

AUSTRALIAN WOMEN'S INDOOR CH'SHIPS (Sydney).—2nd Rd: B. Potter (US) bt S. Comer (GB) 6-2, 6-0; G. Fernandez (US) bt A. Tobin-Dingwall 3-6, 6-1, 6-2; P. Shriver (US) bt B. Gerken (US) 7-5, 6-3; D. Balestrat bt J. Thompson 6-3, 3-6, 6-3.

The details

MEN

2nd rd: L. Alfred (Wales) bt J. Bates (Surrey) 6-3, 6-3; D. Felgate (Essex) bt R. Drysdale (Essex) 7-5, 7-6; M. Bellini (Italy) bt M. Walker (Wales) 7-6, 7-5; M. Kratzmann (Australia) bt P. Moraing (W. Germany) 6-0, 6-1; P. Johnston (Australia) bt I. Currie (Essex) 6-2, 6-1; P. Lundgren (Sweden) bt D. Stone (US) 6-1, 6-2; C. Allgardh (Sweden) bt M. Robinson (Lancs) 6-0, 6-0; S. Youl (Australia) bt J. Turner (Avon) 6-4, 6-3.

WOMEN

2ND RD: S. Mair (Scotland) bt M. Lundquist (Sweden) 6-3, 6-1; A. Dumitru (Rumania) bt C. Wood (Sussex) 7-5, 6-3; E. R. Fisack (S. Africa) bt J. Gracie (Lancs) 6-0, 6-4; S. Sullivan (Essex) bt K. Karlsson (Sweden) 7-6, 6-2; A. K. Olsson (Sweden) bt M. Mendez (Argentina) 2-6, 6-3, 7-5; D. Van Rensburg (S. Africa) bt L. Pennington (Leics) 6-7, 6-2, 6-0; J. Louis (Devon) bt H. Hockey

OLD BOYS GO FOR PLASTIC

By CHRIS MOORE

Old Loughtonians, of the Norwich Union East League, intend to lay an artificial grass pitch at their Chigwell ground — making them the first club in Britain with their own plastic surface.

Derek Higgins, the captain, said yesterday: "We are embarking on a massive fund-raising programme and we plan to start laying the new pitch next year. Including floodlights, the project will cost around £250,000."

Loughtonians, the London area's most progressive club, have taken tremendous strides in the past few seasons. Four years ago, they opened their new ground with four grass pitches and a splendid club house.

Having won promotion to the Premier Division, they finished runners-up this season. Two of their young players, Chris Gladman and Mark Donnelly, are in the England under-21 side for this summer's Junior World Cup.

Mr Higgins added: "We hope to have the pitch laid before the World Cup which will be held in London in October 1986. We believe it will be an attractive venue for visiting international teams to play warm-up matches."

SPEEDWAY

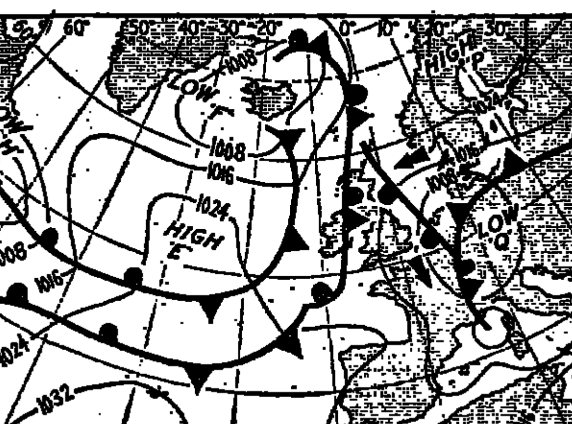
NAT LGE.—Long Eaton v Canterbury postponed—track waterlogged.

Women's Golf

STEWART LEADS

Gillian Stewart leads the Ring & Brymer Order of Merit table with her winnings of £2,500 from the Ford Classic at Woburn in her first W P G A event since turning professional in March.

ATLANTIC WEATHER—Noon May 8



Low "H" will move north-east and quickly deepen as High "E" tracks east and builds a little. Low "F" is expected to fill and move away north as High "P" drifts slowly south with little pressure change. Low "Q" will move slowly north with no significant pressure change.

TELEVISION

THURSDAY GUIDE BY RONALD HASTINGS

BBC-1

50 a.m.-9.20 BREAKFAST TIME, with Frank Bough and Sue Cook. 10.30-10.50 Play School.

1 00 NEWS, WEATHER: 1.27 Regional News. (London and South East: Financial Report and News). 1.30-1.45 Trumpton, rpt.

2 00-3.25 RACING—From Chester for the 2.15, 2.45 and 3.15 races. 3.53 (not London) Regional News. 3.55 Mop and Smiff; The Camp. 4.10 Ivor the Engine, repeat.

4 15 JIGSAW—Repeat. 4.30 Bananaman, repeat. 4.35 Dogtanian and the Three Muskehounds. 4.55 John Craven's Newsround.

5 05 BLUE PETER—Mary Rose Latest. Simon Groom reporting from the deck of Henry VIII's ship with archaeological director Margaret Rule. (Ceefax.) 5.35 Dr Kildare, repeat. (Wales: Wales Today.)

6 00 NEWS, WEATHER.

35 REGIONAL MAGAZINES. (Wales: Welsh Professional Snooker Championships.)

00 EASTENDERS—Kathy Beale's birthday. Michelle's new boyfriend and who is "grassing" on Mary to the Social Security? (Ceefax.)

7 30 TOMORROW'S WORLD — Including a report on Legionnaires' Disease.

7 55 TOP OF THE POPS—Introduced by John Peel and Janice Long.

8 30 THE LENNY HENRY SHOW—Comedy series repeat. (Wales: Week In Week Out.)

9 00 NEWS, WEATHER.

9 25 MATT HOUSTON—Love You to Death. Returning with a new series on the Texan millionaire private detective who uses all the latest computery. Here he ends up in hospital after an encounter with a drugs dealer, but his greatest danger is from his nurse.

10 15 QUESTION TIME—Donald MacCormick with Lynda Chalker, Roy Jenkins, Jack Straw and Gordon Wilson.

11 15 THE LEARNING MACHINE—The Gender Gap. Celia Hoyles with a personal view of computers in education, particularly whether girls are getting the same opportunities. 11.40 Weather. (Wales: Welsh Snooker Championships. 12.10 News of Wales & Weather.)

BBC-2

30 a.m.-7.20 OPEN UNIVERSITY. 9.38-3 p.m. Daytime on Two, a run of seven short educational programmes. 3 (Wales only), Welsh Professional Snooker.

35-4 RACING—From Chester for the 3.45 race. 4 (Wales only), Welsh Professional Snooker. 5.25 News, Weather. 5.30 Lifegames: Unaccustomed As We Are . . . Steve Blacknall on public speaking.

00 THE INVADERS—Task Force. The aliens are plotting to take over the nation's news media, starting with a huge publishing empire. The top man is reluctant to listen to Vincent, though it is obvious that some outside force is disrupting his empire.

50 PHIL SILVERS—As Sergeant Bilko in "Army Memoirs". B/w repeat.

15 RECOVERY—The New Tradition, Wedgwood plc. The pottery firm is now 225 years old. In the mid-1970s it was employing over 10,000 in 20 factories, then over 4,000 went in the early 1980s. But as the pound dropped sales to America shot up. "Quality Circles" were set up among the workers and production levels are now higher than ever. A Brian Redhead report.

7 40 *"THE MOONRAKER" (1958)—George Baker as the Royalist adventurer during the English Civil War who helps the King's son in a traditional swashbuckler. With Sylvia Syms and Marius Goring, and not to be confused with the later James Bond film.

9 00 LEAVING—Episode two in the latest Carla Lane serial. (Ceefax).

9 30 FORTY MINUTES—Dear Mr President. The father of seven year old Hannah Hall writes to the American President while in Washington trying to get help through the U.S. courts for 700 British families with children deformed, it is alleged, by the drug Debendox. American families have been offered a total of 120 million dollars but many have refused their amounts. In Britain the legal system shifts the burden of proof. Some heart-rending scenes of a pretty American girl.

10 10 MORRISSEY MULLEN AT THE WATERMANS—The jazz-funk band at the Brentford art centre.

10 40 NEWSNIGHT—At 11.25 Weather. 11.30 Weekend Outlook, Open University preview.

11 35-12.30 OPEN UNIVERSITY.

ITV Thames

15 a.m. GOOD MORNING BRITAIN. 9.25 Thames News Headlines. 9.30 For Schools. 11.55 Rub a Dub Tub.

00 FOXTALES—A first look. 12.10 Mooncat and Co., repeat. 12.30 The Sullivans. 1 News. 1.20 Thames News.

30 FALCON CREST—Winner Takes All. 2.25 Home Cookery Club; Baked Fruit Cheesecake. 2.30 Play It Again; Faith Brown. 3 Gems, episode 54, and, at last, nearly the end. But there will be another series next year. 3.25 Thames News Headlines.

30 SONS AND DAUGHTERS. 4 Foxtales, repeat. 4.15 Crystal Tipps and Alistair, cartoon. 4.20 Wonders in Letterland. 4.40 First Post. 5 Dangermouse. 5.15 Thames Sport.

45 NEWS.

00 THAMES NEWS—With Andrew Gardner and Tina Jenkins.

25 HELP! VSO—Voluntary Service Overseas.

35 CROSSROADS.

7 00 EMMERDALE FARM—Disaster for Jackie Merrick after a party.

7 30 KNIGHT RIDER—Ten-Wheeled Trouble. Is it a juggernaut, or a trailer or a caterpillar? No one says.

8 30 MINDER—All About Scoring, Innit. Terry has to mind a drinking, gambling, womanising footballer, "a two-bob cretin" says Arfur, but he may sell his story for big money to Fleet Street. Repeat.

9 30 TV EYE—The Secret Crime: the problem of sexual abuse of children, a report by Denis Tuohy from Leeds.

10 00 NEWS AT TEN; followed by Thames News Headlines.

10 30 SHELLEY—Noises Off. A lonely Sunday, eight floors up. Repeat.

11 00 PARENTS AND TEENAGERS—Because We Care. Discussion and dramatised example.

11 30 *"THE DOUBLE" (1963 b/w)—Another in the Edgar Wallace Presents series of second feature films. Alan MacNaughton as a man with amnesia and hallucinations who believes he has killed his partner in South Africa, but when he returns to England to claim the inheritance his partner follows him. With Jeanette Sterke.

12 35 NIGHT THOUGHTS—With Katharine Whitehorn.

Channel 4

15 p.m. THEIR LORDSHIPS' HOUSE—Repeat from last night.

30 "SO EVIL, MY LOVE" (1948, b/w)—Victorian melodrama set in the London of 1866 when Ann Todd as a missionary's widow is lured into a life of crime and immorality by artist Ray Milland. Quite good study in corruption, "a sordid tale of a masterful man and a weak woman". 4.30 Isaura, the Slave Girl, followed by Fantastico.

30 "ICELAND" (1942, b/w)—Almost totally forgotten musical comedy with the ice-skater Sonja Henie, John Payne and Jack Oakie, US marines arriving in Iceland. Laboured love story, apart from the skating.

00 CHANNEL FOUR NEWS—At 7.50 Comment and Weather.

30 MIRROR IMAGE: ORANGE JUICE—Da Da with Juice. The Scottish band at the Hammersmith Palais.

30 THE BRIGHT SIDE—Visiting Orders. The start of a new, six-part comedy series with Paula Wilcox as a woman whose husband is in prison, a relatively comfortable, open one, compared with her troubles. Written by Willis Hall, with Paul Copley as the husband.

9 30 *"LOOSE CONNECTIONS" (1984)—A contemporary film comedy about a car journey shared by an abrasive feminist (Lindsay Duncan) and a working-class Liverpool football supporter (Stephen Rea), an amiable oaf, a gentle blunderer, who is determined to see his team play in Munich. One critic likened it to a modern "Genevieve". Our man welcomed it, in spite of finding it aimless and sometimes lacking charm.

11 20 DESIGN MATTERS—Travelling Hopefully? Tenth and last in the series and considering public transport, especially safety.

11 45 ARE YOU TAKING THE TABLETS?—Remember the Sabbath Day to Keep it Holy. With John Roberts, general secretary of the Lord's Day Observance Society.

12 15-12.30 THEIR LORDSHIPS' HOUSE—More of the House of Lords discussion of the Government's Bill to abolish the GLC and other authorities.

** Outstanding. * Recommended.

RALLYING CALL TO TORIES ON JOBS

By VALERIE ELLIOTT Political Staff

THE Government will succeed in getting the country back to work, Mr King, Employment Secretary, stressed in a keynote speech to Scottish Conservatives in Perth yesterday.

His message came in the wake of last week's rise in jobless figures and increasing anxiety within the Conservative party that the Government is failing to get across to the public its policy to reduce unemployment.

"We have stopped the economic slide, we have stopped and reversed the haemorrhage of lost jobs," he declared. "Soon, I am confident, we will stem and then reverse the tide of unemployment."

He made clear that the Government had no intention of ducking their policies for "any easy vote catching formula."

He said: "We will not succumb to that pressure. Our aim and our strategy is to tackle unemployment by getting to the root of our economic problems and solving them."

"That is not an easy task and we would be wrong to pretend that it is. But it is not an impossible task either.

"We can point to lower inflation and record investment, to booming exports to the increase in employment and to the increase in employment and to the record standard of living for those in work to prove it.

"Our task now is to work ceaselessly to turn these improvements into a reduction in unemployment. We are on the way back, and we must not falter now."

'Impatient friends'

Pointing out that more than 600,000 jobs had been created in the past two years, Mr Wing said: "British business is recovering and is creating more jobs, as we said it would. But with this improvement has also come an understandable mood of impatience, that this improvement should now move much faster."

In a side-swipe undoubtedly directed at Mr Peter Walker, Energy Secretary, and other critics within the party's ranks, he added: "That impatience is what we now have to contend with, and it is, of course being fanned as hard as possible by our political opponents, and perhaps even by our friends as well, when they give credence to the claim that there is some quick and easy remedy for "unemployment."

Mr King dismissed the oft-mooted solutions of reflation or massive spending on public works.

"No single one of them is a magic wand and it is no good pretending that it is. We have to attack the problem on every front, persistently and in every possible way, and that is what we as a party and a government are pledged to do."

Conference Report—P5

11 dead in tribal clashes

By Christopher Munnion in Johannesburg

A BLACK township in the Transvaal was in a state of siege last night after clashes between hostel dwellers and residents — tribally divided between Zulus and Xhosas — left at least 11 people dead.

Thousands of residents fled into the surrounding veldt.

They fled from the Tsakane township, near Brakpan, 25 miles east of Johannesburg, as rival gangs of several hundred men clashed in the streets, set fire to buildings, and sealed entrance roads with makeshift barricades.

Heavily-armed police moved in and twice tried to mediate, but residents stood firm in their demands that the hostel dwellers, mostly migrant workers, should leave the area completely.

Trouble began in Tsakane on Saturday after a mass funeral for a victim of earlier unrest in the township. A mob of youths raided the migrant workers' hostel and set fire to it.

The Zulu hostel dwellers then formed an "impi" or war party, and armed with hatchets, sticks, sharpened iron bars, dustbin lid shields, and pangas, they moved on to the streets to exact revenge.

The scene was reminiscent of one of the bloodiest nights during the 1976 Soweto riots when Zulu hostel dwellers went on the rampage killing more than 30 residents while the police turned a blind eye.

Police fired tear gas and rubber bullets to disperse the crowds yesterday, but as soon as they left the scene violence resumed.

A car belonging to a black television crew representing *Visnews*, the *international* television news agency, was set alight by a mob apparently mistaking it for a police vehicle. Residents said later they mistook the crews battery packs for tear gas canisters.

Hostel dwellers said they were seeking revenge for three colleagues killed during the past three days. They said one was hacked to death on Sunday and his body burned, the two others killed on Monday.

Commons Sketch

Minor coup on Liberals, few hurt

By EDWARD PEARCE

NEVER underestimate the power of a private member to seize the white gloves of a procedural traffic policeman and redirect convoys of container lorries into the outer suburbs of Erskine May.

Traffic policeman for the afternoon was Dale Campbell-Savours.

"One could slot Mr Campbell-Savours without difficulty into a chaplaincy in the New Model Army. He would have led the psalm singing at Naseby with authority.

Now, being a Puritan, Mr Campbell-Savours has a down upon corruption: being a Labour regular, he has a down upon the Alliance, and given the donation of £186,000 by the British School of Motoring to the Liberals, has an open goal.

The technique for such a coup, involving as it does, the stretching of a point of order beyond the dreams of "Playtex" requires a misleading and disingenuous fairmindedness in the early stages.

So he murmured sweetly and consesually about a Private Member's Bill of agonising propriety and right-mindedness sponsored by a Conservative, Elizabeth Peacock, on the standards of driving instruction.

He ground on in the approved manner about opposition which had been raised by members of the Alliance. It was customary for those who opposed legislation to declare an interest.

Now since the practice with private Bills is to shout "object" one has this vision of somebody saying: "making no secret, Mr Speaker of my interest as a director of X Y Z Flange - Bevelling Corporation. . . ." "Object!"

Mild manner

Only those with a boring interest in politics to equal Mr Campbell-Savour's own could see where this was leading.

But this category includes the Liberals who, in the mild manner of their sort, muttered quietly under their breath.

"Mr Speaker, I am being barracked by Liberals. I seek your protection," said the member for Workington.

Alas, in this place you are barracked by Liberals much as one is torn apart by wild curates.

He referred to Lord Tordoff, Liberal leader in the Lords and a man to bring out the apathy in all of us. He had moved an amendment in the Lords — shocked Labour cries of "ooh" and "aah" — not even Hitler did that.

However by a process, less evolutionary than geological, we came to the point. The objections in the Commons and the amendment in the Lords had been designed to protect Mr Anthony Jacobs's British School of Motoring, benefactors to the tune of more money than is altogether tactful to the Liberal party.

Personal integrity

At this Mr Weatherill finally intervened. "I get the hon. gentleman's drift," he remarked.

But Campbell-Savours is not content with drifts. He wants collision at high speed. "Mr Jacobs," he said "has effectively bought the Alliance."

Wearily, and with perhaps too much sophistication, Mr Beith, for the Liberals, pointed out that there had been an attack on the personal integrity of Liberal members.

But it was in vain, for Mr Beith to protest that the Tordoff amendment made the Bill more effective or that it had been praised by the Labour Front Bench in that House, or that Labour had voted for it. We are into Smegarsville and the evidence is strictly decorative.

Mr Campbell-Savours had had a coup, but whether it concerned anything relevant, truthful or accurate was another matter.

Parliament—P8

1945-1985

40 years ago you owed him so much.

In the years between you have continued to call on him.

Please show your gratitude with a donation to help soldiers, ex-soldiers and their families in distress

MEMORIES

By GUY RAIS

Continued from Page One

poral, and an air chief marshal, a police constable, a veteran of the Free French Forces, a member of the former British Women's Land Army and members of the War Widows' Association, the Merchant Marine, the Burma Star Association, the Dunkirk Veterans' Association and show business representatives of those who provided entertainment for the Forces.

The group also included Mr Norman Jackson, 66, who won the VC when he crawled along the wing of his plane during a raid over Germany in April 1944, and extinguished a fire.

He spent 10 months in a German hospital after jumping from the plane with his parachute on fire.

Old comrades and envoys

The congregation included 800 ex-Servicemen and women and the representatives of old comrades' associations provided a roll call of heroism in triumph and setback.

There were the Rats of Tobruk Association, the Chindits Old Comrades Association—hoping for another service for VJ Day—617 Squadron Association of the Dambusters fame and the HMS Kelly Reunion Association, comprising former crew members of the Lord Mountbatten's ill-fated ship.

From today's arrived services were senior officers. Diplomats included the Ambassadors from the United States, Soviet Union, West and East Germany and Japan.

There were, too, leading figures of the main religious denominations, including the Rev. Dr Tudor Jones, Moderator of the Free Church Federal Council, and the Roman Catholic Archbishop of Westminster, Cardinal Basil Hume. Church representatives included people from Japan, West Germany, Poland, France, the United States and the Russian Orthodox Church.

There were also Service chaplains, including the senior Jewish chaplain, Rev. Malcolm Weisman, representing the Chief Rabbi.

Appropriately, in remembering the thousands of disabled cared for by the Royal British Legion and other charitable organisations, the first lesson was read by Gen. Sir Patrick Howard-Dobson, the Legion's president.

Miss Susan Mallett, a 24-year-old staff nurse in a surgical ward in Westminster Hospital, who qualified as a nurse only two months ago, was selected to read the second lesson.

All eyes were turned on her as she walked past the Royal Family, to read from the Sermon on the Mount.

"I admit I was a bit scared, but it all went off very well," she said after the service.

Prince Philip read the third lesson.

In his sermon, Dr Runcie, the holder of the Military Cross, said he "profoundly disagreed" with those who questioned whether the war had been necessary, or had achieved anything.

"The victory which closed down Belsen, Buchenwald, and Auschwitz is in itself sufficient cause for thanksgiving."

It had also given a 40-year breathing space in Europe which had not been wasted. There had been genuine reconciliation. Old enemies had become friends.

After the sermon the congregation joined in the singing of the hymn "For the healing of the nations."

The theme was continued as 40 children from the Royal Ballet School carried small bunches of chrysanthemums and daisies through the Abbey and placed them on a cross at the foot of the High Altar.

Holocaust victims remembered

In Hyde Park Jewish survivors of the Holocaust were among those who gathered to remember the victims of Nazi atrocities. A crowd of several hundred heard the Chief Rabbi, Sir Immanual Jakobovits, say: "There isn't a single Jew here who hasn't got next-of-kin who died in the concentration camps."

Anger surfaced during a wreath-laying ceremony at the Cenotaph by war widows pressing for an increased pension.

Mrs Iris Strange, president of the British War Widows and Associates, said: "Our men bequeathed us the country and we have been betrayed.

She said Mrs Thatcher had "completely ignored" a recent request to grant war widows a second pension paid to widows of Servicemen killed after March 31, 1975.

But the rival War Widows Association was upset by the "militant" demands for more pension money. It conducted a separate ceremony at the Cenotaph.

THATCHER 'HAS MISSED GOLDEN OPPORTUNITY'

By Our Political Staff

The Government came under heavy fire yesterday from Labour and the Alliance parties for refusing to send a senior representative to Moscow to commemorate the 40th anniversary of VE-Day, or to make a statement at Westminster to mark the occasion.

Dr David Owen, SDP leader, said that Mrs Thatcher had missed a "golden opportunity to get through to the Russian people" by not sending to Moscow a senior minister such as Viscount Whitelaw.

The Government also refused to budge to Labour pressure for Mrs Thatcher to make a Commons statement to mark the occasion.

COMMEMORATE HAPPY MEMORIES

and help desperately lonely old people by inscribing the name of someone very dear to you on the Dedication Plaque of another Day Centre where old folk find friendly help. Cost £150. Or provide a permanent hospital bed in Africa or Asia. Cost £100.

Please send your donations to: The Hon. Treasurer, The Rt. Hon. Lord Maybray-King, Help the Aged, Project 50123C FREEPOST, London EC1B 1BD (no stamp needed)

Help the Aged
